Performance

The power to thrill

ENGINE

Most Powerful Engine*

The 2.5 common rail diesel engine delivers an impressive 171 HP, making the Navara the most powerful vehicle in its class*. With muscle other vehicles can only dream about, the Navara's awesome engine delivers a whopping 403Nm of torque.

*Based on a combination of horse power and torque.

2700Kg Towing Capacity

403 Nm of torque. That means the Navara can haul up to 2700kgs of boat, trailer or cargo without breaking a sweat. Double Cab versions can tow 2600kg.

1,050Kg Payload

Bricks, motorbikes, outboard engines -- load 'em up. Because the mighty Navara can handle payloads way more than 1 ton.

6-speed manual gearbox

The 6-speed manual gearbox with delivers an excellent crawl ratio, making more torque available at the wheels to give you more control on difficult terrain. That means you can experience the full power of the Navara's engine -- whether you're cruising down the highway or exploring a steep backwoods trail.

5-speed automatic gear box

Effortless driving. Not many pick-ups can make that claim. The Navara Outlaw and Aventura Double Cabs have an optional 5-speed automatic gearbox that does the shifting for you -- making your drive even more relaxing. And cleaner, with a diesel particulate filter as standard on automatic transmission models.

Environmental diesel DPF filters

Navara's 2.0dCi (auto) diesel engines include a self-regenerating diesel particulate filter, making them environmentally responsible as well as powerful. The filter incinerates its own accumulated soot and reduces pollutants before they even leave the engine's combustion chamber. Learn more about DPF Technology.

HANDLING

Limited Slip Differential

All Navara's come fitted with a limited slip differential designed to provide confident traction off-road and minimise wheel spin on-road.

Performance

The power to thrill

Selectable 4WD System

Engaging four-wheel drive on Navara could not be easier - a simple twist of a dashboard dial and the driver can change from 2WD to 4WD or 4Low. The 4Low mode gives access to low-ratio gears to tackle the toughest terrain.

Front & Rear Suspension

The Navara's suspension system keeps your ride smooth both on and off the road - without sacrificing agility. At the front, compact independent suspension with coils over shocks and double wishbones are light yet rigid, for an optimum ride with stable handling. The rear suspension provides high lateral rigidity for better cornering, plus a long suspension stroke that evens out the bumps off-road.

NISSAN NAVARA PICKUP Performance

	FUEL CONSUMPTION	CO2 Emissions g/km	RELATIVE ENERGY CONSUMPTION
2.5 dCi Automatic (Double Cab)	9.2	245	F
2.5 dCi Manual (Double Cab)	8.5	226	F
2.5 dCi Manual (King cab)	8.5	226	F

Safety and Security

PASSIVE SAFETY

Body-Zone Construction

The Navara's front and rear crumple zones are designed to absorb energy in a crash, helping to protect the reinforced central zone – and its occupants.

Driver & Passenger Airbags

Every Navara grade comes with driver and front passenger airbags as standard. There's nothing like the peace of mind that comes from knowing that you and your passenger are protected in the event of a front impact.

Side & Curtain Airbags

Everyone is well-protected with side and curtain airbags, which provide an extra safety barrier for driver and passengers - especially in the event of a side impact. The airbags are standard on Aventura and optional on Outlaw King and Double Cabs.

Active Head Restraints

Sport models and above feature active head restraints - designed to minimise whiplash in the event of a collision.

Navara Service Campaign

As a result of the recent EuroNCAP crash test announcement on pickups, Nissan Motor GB has introduced a service campaign updating the airbag control unit software for all Nissan Navara models from 2005 onwards. Owners of affected vehicles are being notified by post inviting them to contact a Nissan dealer to have this service campaign carried out. Following a modification to the airbag control unit software Navara has now been awarded an improved score of three stars for adult occupant protection. Navara also achieved a maximum score in the side impact test and also for its protection of a three-year-old. Should you have any questions or concerns please contact your nearest dealer who is fully equipped to assist you. To find your nearest dealer please use the dealer locator below.

ACTIVE SAFETY

ABS & EBD

Braking hard normally increases the load on the front brakes. Electronic Brakeforce Distribution (EBD) balances the braking effort between the front and the back of the Navara for maximum braking efficiency. At the same time, ABS prevents the wheels locking, keeping you in control of the vehicle.

Security System

All UK Navaras come well protected by an engine-immobiliser and NATS alarm system. This is reinforced by anti-hijack Superlocking with keyless entry and a separate lock for the

Safety and Security

tailgate.
