NISMO MAVERICK ENGINEERING FOR 30 YEARS

From the racetrack: There is no greater test than racing. To compete is a serious challenge, to win, even more so. Since 1984, NISMO has been propelled by maverick engineering with one goal in mind: ultimate Nissan performance. Along the way, NISMO has taken on and beaten many of the world's greatest marques, creating a legend that many may envy, but few will ever match. So when you see a NISMO badge on a vehicle, you'll know it's something extraordinary.

To your driveway: As passionate as we are about performance, we are also dedicated to the idea that the joy of owning and driving a NISMO vehicle should be available to everyone - from those who are constantly seeking out high quality to the most avid enthusiast. So we are pleased to offer a wide range of products, each offering a unique look, special features, and a singularly inspiring driving experience.

PRESENT

FROM THE RACE TRACK TO THE ROAD

The all-new **JUKE NISMO RS**, the ultimate performance crossover. Engineered to exacting standards, wind tunnel tested and competition inspired, JUKE NISMO RS brings together decades of knowledge learned on the race track. NISMO RS was built from the ground up with performance in mind and it shows. From a modified front fascia with a larger grille to resculpted side sills to the liftgate spoiler — nothing was overlooked in an effort to create a design that cuts through the air and applies an impressive 37% gain in aerodynamic downforce.

Lightweight 18" alloy wheels with front and rear red brake calipers for quick response, impressive strength and unique style.

Front spoiler directs air to the sides of the vehicle.

Rear fascia diffuser provides improved airflow underneath the vehicle.

Rear spoiler creates additional downforce at the rear.
