

HONDA
The Power of Dreams

These specification details do not apply to any particular product which is supplied or offered for sale. The manufacturers reserve the right to vary their specifications, including colours, with or without notice and at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sale and Warranty given by the Distributor or Dealer, copies of which may be obtained from them on request. This publicity material applies to the UK only Trade Descriptions Act (1968). Whilst efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specification details with the supplying Dealer especially if your model selection is dependent upon one of the features advertised.

HONDA

RACING DNA

The Civic Type R is a car only Honda could make. It reflects our unique thinking, our drive for constant reinvention, re-evaluation and relentless pursuit of better. Our desire to create the perfect sports machine for the road and the track is imprinted into its DNA and drawn into every curve of its body.

With a line-up that now includes the striking Type R Sport Line, this is a car that has been built for the sheer thrill of driving. It's a car built with soul; a car that speaks to you in a way few others can.

FOLLOW YOUR DREAMS **29-30**

ALWAYS PUSH FOR BETTER

Our reputation has been built on our engineering excellence and technical innovation. We love to challenge, to question, always pushing for better, never standing still. The Civic Type R is the embodiment of everything we have learnt and our ambitions for the future. It has been designed from the ground up, each component created and tested with the purpose of giving you the most exhilarating drive. The result is a car that truly excites, a car that can justifiably be called Type R.

THE PURSUIT OF PERFORMANCE

The muscular shape of the Type R is as dramatic as it is functional. Every sculpted line and aerodynamic detail work together optimising airflow, boosting down-force and providing improved handling and high-speed stability.

Model shown is Civic Type R GT in Racing Blue Pearl. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle.

BORN TO PERFORM

Underneath the sculpted bonnet lies a two litre, four cylinder VTEC TURBO engine which develops a maximum power output of 320PS and 400Nm of torque. It's no surprise to discover this gives the Type R the ability to sprint from 0-62mph in 5.8 seconds and achieve 168mph top speed (where conditions allow).

All this power is fed through a smooth and precise six-speed manual gearbox which is optimised by a rev match control system to ensure slick, intuitive gear changes. The final drive is transmitted through an exceptionally responsive helical limited-slip differential to further enhance the performance character.

The ultimate performance test is of course on the track. Not any track, but the iconic Nürburgring, where we pushed the Type R to the limit. It responded with distinction, slicing almost 7 seconds from its predecessor's time.

INTRODUCING THE SPORT LINE

For 2020 the Civic Type R line up is expanded with the addition of the new Sport Line grade.

With new 19" Shark Grey alloy wheels and a low deck spoiler, the Sport Line is the Type R heart and soul in a more refined form.

Inside, the cabin is upholstered in a unique black upholstery while noise and vibration has been tuned for a more sublime ambiance.

DRIVING DYNAMICS

The steering response and cornering ability of the Type R has been greatly enhanced by a high rigidity body and suspension system. These work together to deliver razor sharp handling and maximise power transfer to the road.

The front MacPherson strut suspension is set up to reduce torque steer and optimise handling, whilst the rear independent multi-link suspension system enhances stability under braking and minimises the total roll movement of the car. The suspension system is augmented by an Adaptive Damper System and limited-slip differential which maximise control and stability for a more engaging drive.

UNIQUELY TYPE R

The purposeful exterior of the Type R is matched only by its dramatic cockpit, a place designed to make your heart beat faster, even before you press the engine start button.

Its motorsport inspired interior has everything you need just where you need it, with clear and easy to read gauges, alloy gear shift knob and a Type R plaque showing your car's individual serial number.

UNCOMPROMISED INSIDE AND OUT

It may have a motorsport feel but it's not lacking in equipment or comfort. From your race-inspired seat, you are surrounded by premium soft touch materials, climate control, cruise control, electronic parking brake and a 7" touchscreen Honda CONNECT in-car audio and information system. This is linked to Apple CarPlay and Android Auto,[™] which seamlessly integrates your iPhone or Android phone to the display, allowing you to make calls, listen to music and send and receive messages.

Exclusive to the new Type R is the LogR performance datalogger*.

A new system combining the onboard computer and built-in sensors with a companion smartphone app to help drivers monitor and record a variety of performance parameters. While driving, all interaction with the Honda LogR is through the 7" Honda CONNECT screen, while more in-depth analysis can be accessed through your smartphone including previous drives, performance traces and replays using Google Maps. The LogR app is available as a free download from the App Store and Google Play.

Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.
*Not available on the Limited Edition.

Model shown is Civic Type R Sport Line in Polished Metal Metallic.

Model shown is Civic Type R GT in Racing Blue Pearl. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle.

We have put the driver at the very heart of our thinking with a selection of driving modes: Comfort, Sport and track focused +R. Each mode sets the throttle response, the adaptive dampers, the steering force and feeling of the gear shift, to give the Type R three different personalities.

The +R mode unleashes the Type R's track orientated potential. It changes the instrument panel display, traction control settings, throttle response and firms up the steering and adaptive dampers, giving you a more direct driving experience.

In motorsport, success is often measured in fractions of a second. This is why tiny details can make big differences to performance and handling.

The Civic Type R is no exception; it's packed with details such as the front air curtain and rear diffuser which enhance the car's performance, whilst the clever roof mounted vortex generators guide air over the back of the car for a more efficient airflow.

At the same time as being passionate about performance we are committed to keeping you safe, which is why a great deal of clever engineering is at work in the Type R. As you'd expect from a member of the Civic family, the Type R comes with a host of safety technologies including the latest Honda SENSING suite that includes a Collision Mitigation Braking System, Lane Keeping Assist System and Traffic Sign Recognition.

MAKE IT YOURS

We have created a range of colours that complement every striking curve and angle of the Type R's bodywork and match its race-bred heritage. Make a bold statement with colour, make it yours.

CHAMPIONSHIP WHITE

CRYSTAL BLACK PEARL

POLISHED METAL METALLIC

SONIC GREY PEARL

RALLYE RED

RACING BLUE PEARL

Models shown are the Civic Type R Sport Line and Civic Type R GT. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle. Type R is only available in Rallye Red. Type R Sport Line is only available in Rallye Red, Championship White, Crystal Black and Polished Metal. Type R GT is available in all colours shown.

CARBON EXTERIOR PACK

Enhance the already athletic styling of your Type R with our sporty Carbon Exterior Pack.

CARBON EXTERIOR PACK*

This pack is designed to seamlessly fit with the aerodynamic shape of the Type R and features a unique red detail embedded into the carbon. Everything a true petrol head needs on their car.

Pack Includes: Carbon Door Mirror Caps, Carbon B-pillar Decorations, a Carbon Wing Spoiler and a Carbon Rear Diffuser Decoration.

*The Carbon Exterior Pack 2 is also available. Pack Includes: A Carbon Hood Air Intake Decoration, Carbon Mirror Caps and a Carbon Rear Diffuser Decoration. Model shown is Civic Type R GT in Championship White. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle.

CARBON INTERIOR PACK

CARBON INTERIOR PACK

The Carbon Interior Pack highlights the extreme sporty DNA of your Type R by making use of carbon accents across the dashboard, centre console and Doorstep Garnishes.

Pack Includes: Carbon Interior Panels and Carbon Doorstep Garnishes.

RED ILLUMINATION PACK

Surround yourself with ambient red illumination.

CARBON REAR DIFFUSER DECORATION

This hand made Carbon Rear Diffuser Decoration offers powerful styling to the rear of your car, emphasising the natural sportiness of the Type R.

CARBON DOOR MIRROR CAPS

Take your Type R to the next level with these handmade Carbon Mirror Caps with a deep red tone. These sleek and sporty mirror caps will make sure your car does not pass by unnoticed.

CARBON WING SPOILER

With this top-of-the-line Carbon Wing Spoiler you can really maximise the extreme sporty look of your car. The centre blade of the spoiler is made from real carbon fibre with a deep red tone. This spoiler is a must-have feature on every Type R!

RED ILLUMINATION PACK

The Red Illumination Pack uses a combination of lights to give an ambient atmosphere to the inside of your car and greater visibility to the exterior.

Pack Includes: Red Front Ambient Footlight, Illuminated Doorstep Garnishes and Red Lining Illuminations.

CARBON HOOD AIR INTAKE DECORATION

The Carbon Hood Air Intake Decoration maximises the sporty look of your car. It replaces the standard hood air intake with an authentic carbon version.

SILVER DOOR MIRROR CAPS

These smooth, silver and sporty Door Mirror Caps give your Type R a unique look.

ELEGANCE FLOOR MATS

These Type R Elegance Floor Mats give the interior of your car a more premium feel. Featured in black with red perforated binding and a woven Type R logo. **Includes:** Front and Rear Mats.

♦ Standard - Not available

[†]Fuel consumption figures, sourced from EU regulated laboratory test results, are provided for comparison purposes and may not reflect real-life driving experience. The Honda Type R has been subjected to the WLTP CO₂ and fuel consumption testing cycle in accordance with Commission Regulation (EU) 2017/1151. WLTP figures better reflect the actual performance of the vehicle when driven on the road. During the transition phase between NEDC (the former testing regime) and WLTP, NEDC values for CO₂ and fuel consumption will remain available in accordance with Commission Regulation (EU) 2017/1153.

[‡]Maximum towing weights are based on a 12% gradient and are tested in accordance with EU Regulations.

*Connectivity for Aha™ app (including internet radio) and for internet browsing is through WiFi tethering or mobile WiFi Router. Data usage and roaming charges may result from using applications on Honda CONNECT. We recommend you check your mobile phone subscribed package. Internet browsing function can only be used when the car is stationary. Only iPhone 5 or later versions with iOS 8.4 or later are compatible with Apple CarPlay. Apple CarPlay features, applications and services may not be available in all areas and are subject to change. To use Android Auto™, you need to download the Android Auto™ app from Google Play™ to your smartphone. Only Android 5.0 (Lollipop) or later versions are compatible with Android Auto™. Android Auto™ availability is subject to change and may vary based on geographical location.

Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.

[‡]A USB flash drive of 256 MB or higher is recommended and some devices may not be compatible.

FOLLOW YOUR DREAMS

At Honda we are always looking to make technology more helpful and to find more efficient ways of working. We are an engineering company at heart and it is in our nature to try out new things and to strive to make the world a better place. For this reason we have committed to make our mainstream models electrified or fully electric by 2022 such as the advanced, new Honda e urban electric car.
