

A sports limousine, perhaps? Because nothing in its class (and few cars out of its class) offer such a superb dovetailing of spirited sports car performance with sumptuous appointments which border on the indulgent.

To call the 2005X beautiful is to state the obvious. Every line of its eager, rakish styling is aerodynamically designed to slice the

The bloodlines of this fleet-footed thoroughbred are those of the famed Datsun 280ZX; and its performance is scarcely less spectacular. Last year the 2005X was voted "Best Import Car" by the readers of Car and Driver magazine. This year it's even better.

Under the hood waits the contained power of Datsun's revolutionary high-performance 2.0 litre sure-footed steel belted radials dressed in mag turbine wheel covers.

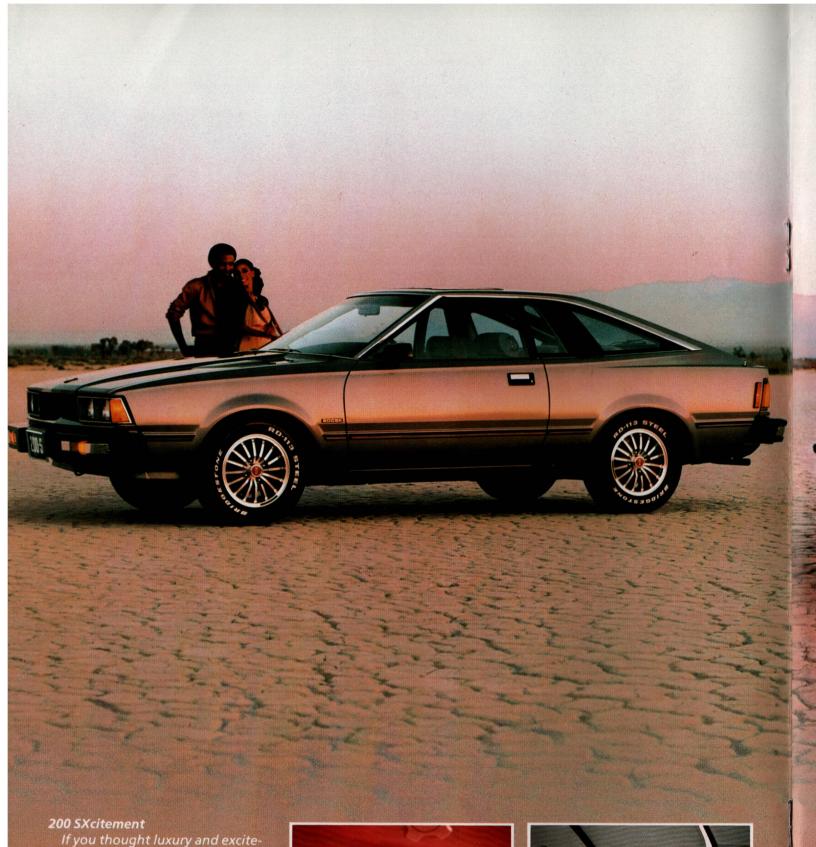

The overdrive 5-speed full synchromesh feels as if it's lined with silk as you move up through the gears. Handling is pure sports car, fast on the straight, cat-quick on the curves, with stabilizer bars front and rear. A 3-speed automatic is available for those who wish to combine simplicity with excellent performance.

and RPM's.

Your SX is equipped with vinyl bucket seats, tinted glass and is available in a wide range of beautiful exterior and interior colours.

Climb into your own 2005X and drive away today — if you dare.

ment were incompatible in a sports car, get behind the wheel of a 2005X 'SL'!

Turn the key and a computer sensor system automatically monitors battery, cooling system, washers.

Power-assisted disc brakes on all four wheels give you stopping power that you can rely on time after time.

take it in style, with halogen headlamps to stretch your seeing power, variable speed intermittent

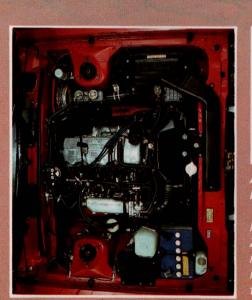

wipers, rear window wiper/washer, four wheels give you stopping side window defoggers, and a host power that you can rely on time of remote controls to keep you snug, dry and in command . . . like Bad weather? The 'SL' was built to dual electric remote control mirrors, power windows, remote control hatch/trunk release and remote gas lid release.

the optional 4-way glass sunroof and, if you wish, air conditioning

On the Hatchback we've installed a colour coordinated rear cargo cover to provide a concealed storage area for your valued possessions.

200.5X

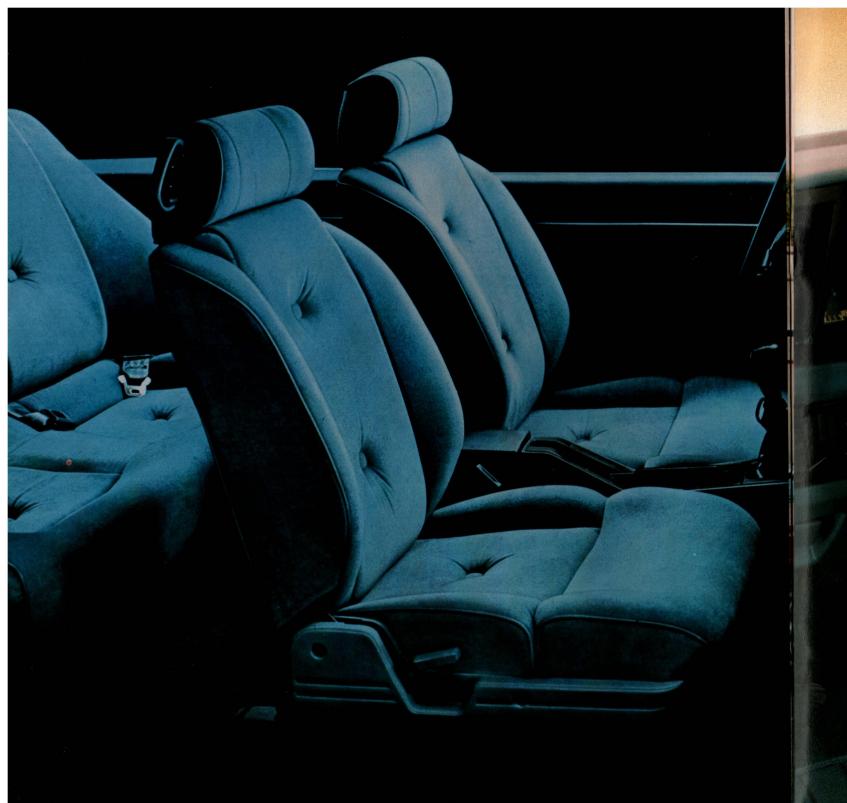

## A TECHNOLOGICAL BREAKTHROUGH

The 200SX is powered by the NAPS (Nissan Anti Pollution System) Z20E, 2 litre overhead cam engine, a masterpiece of advanced engineering. Its design achieves a level of efficiency that only Datsun can offer

you . . . increased fuel economy, acceleration, decreased pollution
... all the result of a single breakthrough in engine design. And all of these advantages have been achieved without diminishing engine life or complicating service-

Matched to electronic fuel injection and electronic ignition, the NAPS Z20E engine is a powerhouse performer. And it's under the hood of your Datsun 2005X.

Turn it on!

#### COMFORT, QUALITY, CONTROL

The colour co-ordinated interior of your 'SL' reflects all the skills of the interior designer, the upholsterer and the technician. It has drawing room elegance, sitting room luxury, and cockpit control.

The velour-faced reclining front bucket seats (with matching cloth door inserts) eliminate driving tension by allowing you to personalize your driving position with adjustable lumbar support and thigh support. Sound absorbing deep pile carpeting is underfoot and on the lower door panels; overhead is an elegant cloth-type headliner; all

around you is tinted glass to ease the eye strain of long distance

Open the door and lights flick on overhead and in the front and rear foot wells. There are also lights in the ashtray and locking glove box. Thoughtful touches.

After the lights . . . the music! Your 'SL' comes equipped with an AM/FM 4-speaker Surround Sound Component Stereo System of concert hall brilliance. A complete range of sound controls lets you balance the audio however you wish within your own private theatre.

## IT'S ALL HERE

From your driving seat, all controls are an easy arm's reach away: the power window and power mirror controls nestle in the armrest; the power antenna is controlled from the radio; the easy-to-read backlit dash displays a tachometer, trip odometer, voltmeter, temperature and oil pressure gauge, and a digital quartz clock with date and elapsed time features keep you informed. Within your passenger's

reach is a visor-mounted vanity mirror, and Datsun hasn't forgotten the occupants of the back seat; the front passenger seat is equipped with a walk-in device for easy access to the rear seats.

The power steering comes standard on the 'SL' and it responds with effortless precision.

Elegance plus function. Your 'SL' is designed for safety, convenience, control . . . and unashamed pleasure. After all, it's a Datsun.
