

1 9 9 5 F O R D A S P I R E

ASPIRE IS ONE SMALL CAR THAT'S BIG ON SAFETY, STYLE AND SPACIOUSNESS.

The 1995 Ford Aspire is one small car that has several big achievements. Aspire was the first car in its class with standard dual air bags. It was also the first car in its class to offer an optional 4-wheel Anti-lock Braking System. And Aspire is one of the roomiest cars in its class.

The Ford Aspire is available in a 3-door model and a 5-door model. You can also choose the 3-door model in the sporty SE version. The SE features a tachometer, fog lamps, a rear liftgate spoiler and a split-fold rear seat as standard. But no matter which Aspire best suits your driving needs, you'll find each model is available with many standard features and options to complement your own personal style.

ERGONOMIC INTERIOR

Attractive styling goes hand in hand with Aspire's functional integrity. An ergonomic design makes excellent use of interior space and provides easy identification and operation of controls. Front seat occupants enjoy an elevated seating position for better control and visibility, while rear seat passengers can experience the kind of roominess usually associated with larger cars.

DUAL AIR BAGS

Aspire was the first car in its class to offer a driver- and front passenger-side air bag Supplemental Restraint System—with lap/shoulder belts—as standard equipment. Dual air bags offer added protection when used in combination with safety belts. Always wear your safety belt.

PERFORMANCE PLUS

Aspire's 1.3-liter I-4 engine offers a satisfying blend of performance and efficiency. It delivers economical operation and a good measure of power, too. You'll find it's well-suited for both stop-and-go city traffic and highway cruising. EPA estimated mileage for Aspire is 36 city/42 highway (manual) and 29 city/34 highway (automatic).

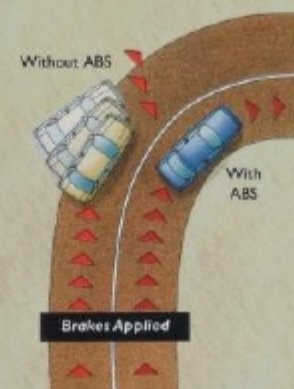

RACK-AND-PINION STEERING

Manual rack-and-pinion steering is standard on Aspire. This system delivers responsive feel and handling in all driving maneuvers.

ANTI-LOCK BRAKES

Aspire is available with an optional Anti-lock Braking System (ABS). It can help drivers maintain steering control during hard braking even in less-than-ideal situations, like slippery road surfaces.

STANDARD FEATURES

Here are some of Aspire's standard features:

- Front-wheel drive
- Five-speed manual overdrive transaxle
- Fog lamps (SE)
- Dual outside rearview mirrors
- Aerodynamic halogen headlamps
- Color-keyed bodyside protection moldings
- Body-color front and rear bumpers with integral rub strips and front spoiler
