

FORD  
**EXPLORER**  
SPECIAL SERVICE OPTIONS

# NEW 1995 EXPLORER

The Ford Explorer has been the best-selling compact sport utility vehicle in America. For 1995, the best just got a whole lot better.

*In performance.* A new power-assisted rack-and-pinion steering system provides better maneuverability as well as a tighter turning circle. And an improved suspension system delivers a smooth, comfortable ride you might not expect in a compact sport utility.

The new *Control Trac* 4x4 transfer case system features "set and forget" convenience — the drive settings are controlled by a rotary dial on the instrument panel.

*In safety.* The new Explorer also features 4-wheel power-assisted disc brakes with a computer-governed 4-wheel Anti-lock Brake System (ABS). The rear brakes work in tandem, while the front brakes are individually controlled to help the

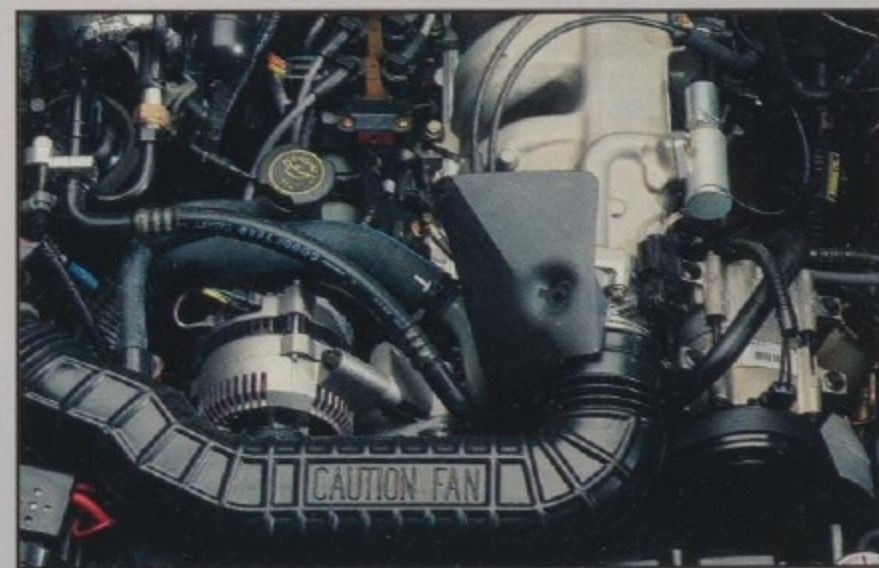

driver stop the vehicle with greater straight-line stability and help maintain steering control on most wet, dry or icy pavements.

*In comfort and convenience.* The proper use and placement of sound-deadening materials and insulation mean that the new Explorer not only rides very comfortably, but is also quieter than ever before.

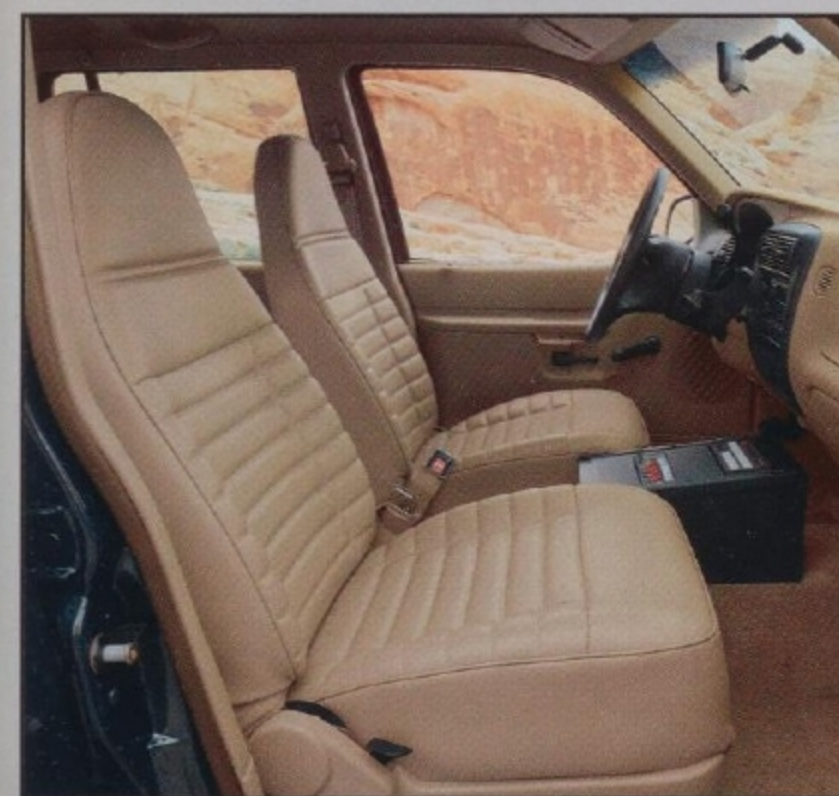

Explorer XL comes equipped with air conditioning, plus solar-tinted windshield and front door glass that helps facilitate faster interior cooling when the air conditioner is turned on.

Explorer has knitted vinyl bucket seats up front and the excellent versatility of 60/40 split/fold rear seat backs for carrying extra-long cargo along with one or two rear occupants.

There are great conveniences, too: a 12-volt power point (for a cellular phone, for example), an illuminated entry system and many others.

The standard 4.0-liter V-6 is governed by Ford's sophisticated EEC-IV electronic engine control system. EEC-IV controls numerous operations affecting vehicle performance — in effect, fine-tuning the engine continuously while it is running. What's more, Explorer's V-6 requires no scheduled maintenance beyond routine fluid and filter changes for the first 100,000 miles.

Explorer has more overall passenger and cargo space than any top-selling vehicle in its class: 42.6 cubic foot volume with the rear seat up, 81.6 cubic feet with the seat backs down.

The 1995 Explorer still has all of the things on the inside that has helped make it the compact sport utility leader.

It still has more total interior room for people and cargo than any top-selling vehicle in its class.

Driver- and passenger-side air bags are a standard part of a newly designed instrument panel (always wear your safety belts).

Other standard or optional features help make life and work a little easier. They include:

- A pneumatic hood assist to help you lift the hood with minimum effort, keeps it up and then helps it to close securely.
- A liftgate with flip-open glass so you can get to the cargo area without the need to open the entire liftgate.
- Five-way adjustable front seat shoulder harnesses.
- Intermittent rear wiper/washer/defroster and speed-sensitive front wipers (optional). And more.

# 1995 EXPLORER XL 4-DOOR, 4x4 PREFERRED EQUIPMENT PACKAGE 940A

The 1995 Ford Explorer XL offered here is a 4-door, 4x4 utility vehicle having wide commercial appeal, exceptional versatility and cargo space. The Explorer XL is equipped with Preferred Equipment Package 940A.

Transmission:	Std. 5-speed manual overdrive; Opt. 4-speed automatic overdrive
Wheels (type/size):	5-hole disc/15"x7.0J

## BUMPER-TO-BUMPER COVERAGE

The 36-month/36,000-mile bumper-to-bumper coverage of Ford's New Vehicle Limited Warranty covers the complete vehicle (except tires, battery, service adjustments and other items covered under separate provisions) against defects in factory-supplied materials or workmanship. For complete information, see your Ford Dealer.

Optional Ford Extended Service Plans can cover major components on new Ford cars and light trucks for longer than the vehicle's basic warranty. Your dealer has full details.

## MUNICIPAL LEASE/ PURCHASE FINANCING

Municipal Lease/Purchase Financing is available to state and local governments. For details, call Ford Municipal Leasing, toll-free, at 1-800-241-4199.

## SPECIFY GENUINE FORD COLLISION REPAIR PARTS

Genuine Ford sheet metal and plastic replacement collision parts, such as hood, doors, fenders and bumper components, are the right choice — and for all the right reasons. Genuine Ford parts are equal to original parts in fit, finish, structural integrity and corrosion protection. Ford parts are the same as those used on new vehicles which are certified to meet Federal Motor Vehicle Safety Standards. And all Ford sheet metal parts are covered by the exclusive Ford Lifelong Sheet Metal Guarantee.

Ask your dealer to see a copy of this limited warranty. Don't settle for imitations. Ask your insurer to authorize genuine Ford collision parts.

## OPTIONS AVAILABILITY

Options shown or described in this catalog are available at extra cost and may be offered only in combination with other options or subject to additional ordering requirements or limitations.

## PRODUCT CHANGES

Following publication of the catalog, certain changes in standard equipment, options, prices and the like, or product delays, may have occurred which would not be included in these pages. Your Ford Dealer is your best source for up-to-date information.

Ford Division reserves the right to change product specifications at any time without incurring obligations.
