AEROSTAR

Aerostar is a versatile performer that puts the accent squarely on value

Aerostar Wagon is a most versatile minivan, a popular, proven vehicle that's priced right and designed to meet the multiple transportation needs of today's family.

A 3.0L V-6 engine is standard with 2WD Aerostars. The muscular 4.0L V-6 is available with extended-length models (standard with E4WD). This V-6 power provides capable performance and also helps Aerostar handle substantial cargo.

Technology provides additional performance. The extra traction of an electronic "full-time" 4-wheel-drive system (E4WD) is available with the extended-length model's Preferred Equipment Package.

► Aerostar XLT shown in Electric Red. A properly equipped extended-length 2-wheel-drive Aerostar (regular-length shown) is rated to tow up to 4,400 pounds (reduced by passenger and cargo weight in the towing vehicle).

▼ The optional floor console includes convenient cup holders for the 2nd-row passengers as well as handy storage bins.

▲ A storage bin is conveniently located under the front passenger seat. It's standard with both regular- and extended-length models.

▼ The "full-time" E4WD system, optional with extended-length Aerostar, is engineered to help you maintain control in all kinds of weather.

◀ Extended-length Aerostar XLT in Brilliant Blue Clearcoat Metallic.

An interior that's designed to help keep everyone comfortable, safe and secure

Aerostar was designed and engineered to be an ideal family vehicle, to make your everyday driving efficient and comfortable. But also built into Aerostar are safety features like a driver's side air bag designed to help protect you while you're on the road (remember, though, always wear your safety belts).

Convenient rear controls for sound systems and the optional high-capacity air conditioner are provided. ▶

▲ The optional rear seat/bed is the kind of feature you would expect to find in a luxury van conversion. A full seat/bed, formed from the 2- and 3-passenger rear bench seats, is also available. Extended-length models only.

▶ Optional integrated child safety seats are available with Aerostar's 2-passenger rear bench seat.

◀ Aerostar XLT standard 7-passenger seating in Medium Grey. Maximum cargo capacity for the extended-length model is a full 167.7 cubic feet.

▼ Standard equipment includes a driver's side air bag to supplement the safety belts. Outboard occupants have 3-point lap and shoulder restraints which can also accommodate aftermarket child seats without the need for locking clips.

◀ Aerostar's instrument panel features ergonomically designed instruments and controls. The shifter for the standard electronic automatic overdrive transmission (which includes an overdrive lockout feature) is conveniently positioned on the steering column.

The ownership experience

ROADSIDE ASSISTANCE PROGRAM

Every new Ford includes the assurance of a no-cost, 24-hour emergency Roadside Assistance Program provided during the 3-year/36,000-mile bumper-to-bumper warranty. Ask your dealer for complete details on this program which includes such services as fuel delivery, tire change, jump start, or even help when you're locked out of your vehicle.

Ford Credit offers a wide variety of financing and leasing programs to qualified buyers which can be arranged right at the dealership. Ask your dealer for the facts on these programs.

Optional Ford Extended Service Plans go beyond the basic 3-year/36,000-mile warranty. Ask your dealer for complete details on the optional plans and for a copy of the limited warranty.
