The BMW 3 Series 320d Touring

BMW
Great Britain

Introduction

BMW 3 Series Touring

The idea behind the 3 Series Touring is a simple one: to combine maximum levels of practicality with superb performance. Features of the range include:

- Striking design
- Responsive steering
- High levels of specification
- A wide range of engines

Design

Introduction

If you are sporting and active we recommend you take a close look at the 3 Series Touring. It's a unique combination of style, versatility and dynamic ability. Every design element leaves no doubt that this is a BMW. The fact that it is also a Touring, with significantly enhanced versatility, only becomes apparent at a second glance.

Interior

The 3 Series Touring's interior is both large and flexible. Close attention has been paid to functional efficiency, ensuring that the interior not only looks good but also works well. The seats, for instance, are of the very best quality, carefully shaped to fit your body ensuring a relaxed and comfortable position with excellent support. Similarly, the controls and instruments are placed exactly where you would expect to find them.

Exterior

Succinct shapes, striking lines and a dynamic overall impression are all essential elements of the 3 Series Touring. And although the Touring fulfils a practical role it is also an impressive aesthetic achievement.

Load area

With over 200% more space than the 3 Series Saloon, this is the largest ever 3 Series Touring. Features include:

- A wider, lower tailgate
- An independently-opening rear window
- Flat load area

You'll find it as accessible as it is sizeable.

Chassis

The 3 Series Touring's lightweight chassis provides both strength and driving agility, resulting in even greater dynamic performance and more direct handling without reducing driving comfort.

Safety

Introduction

To BMW, exceptional driving safety is a fundamental component of every car. That's why the 3 Series Touring incorporates safety systems that react quickly enough to prevent dangerous situations arising.

F.I.R.S.T

F.I.R.S.T (Fully Integrated Road Safety Technology) is BMW's philosophy that aims to bring together the latest in active and passive safety - from side-impact airbags to intelligent traction control systems - to ensure maximum possible vehicle and occupant protection

Airbags

Up to eight airbags in the 3 Series Touring ensure optimum safety by minimising the risk of injury:

- Driver and front passenger airbags
- Inflatable Tubular Structure (ITS) head airbags
- Side airbags at the front and optional side airbags at the rear

Restraint system

The seatbelt restraint system ensures optimum restraint through a combination of :

- The safety belt
- Belt lock tensioner
- Belt force limiter
- The submarining support in the seat

During a collision the shoulder and lap belts are tightened simultaneously within fractions of a second to reduce the risk of injury.

Technology

Introduction

We have taken suspension technology to new levels of sophistication in the 3 Series Touring with an array of unique, interlinked systems which are designed to provide optimum directional control and ride comfort - even under the most adverse driving conditions.

Cornering brake control (CBC)

CBC works in conjunction with ABS and ASC+T to carefully regulate braking pressure on the rear wheels, thereby maintaining maximum traction and stability through corners.

Dynamic stability control(DSC)

DSC utilises ASC+T, and CBC, whilst also monitoring steering wheel movements, road speed and even lateral acceleration. It then modifies braking pressure and engine power to optimise road holding, particularly when accelerating through bends.

VALVETRONIC

Valvetronic increases power and reduces fuel consumption by allowing the engine to 'breathe' more freely. The power of the valvetronic engines are increased by 21% over the previous unit.

The BMW 3 Series 320d Touring

BMW
Great Britain

Engines

Introduction

The 3 Series Touring delivers the perfect combination of practicality and driving exhilaration. The Touring is available with a choice of new generation four-cylinder Valvetronic and six-cylinder petrol engines as well as the first diesel engines to match petrol for performance.

Six-Cylinder in-line engines

BMW are renowned for their six-cylinder engines. Thanks to detailed design changes that have increased power output and improved fuel efficiency, the latest versions are now recognised as the best ever. These engines feature in the 320i SE, 325i SE and 330i SE models.

Four-Cylinder VALVETRONIC engines

The new generation four-cylinder Valvetronic units powering the 316i SE and the 318i SE boast an impressive advancement on the previous engines:

- 21% increase in power
- 16% reduction in fuel consumption
- Increased torque and reduced emissions

Diesel engines

BMW's 3 Series diesels have stunned the motoring world:

- The 320d offers a new common rail 4-cylinder unit with a power output of 150bhp and 330Nm of torque. The 320d is available with the automatic/steptronic transmission and comes as standard with a 6-speed manual gearbox
- The high performance of the six-cylinder 330d unit is reflected in the acceleration from 0-62 mph in 7.6 seconds and a combined fuel consumption of 41.5 mpg. Power is increased to 204bhp and torque to 410Nm

Latest news:

Good news for company car drivers

Euro IV compliant 320d Touring

BMW is able to confirm welcome news for company car drivers. The 320 diesel Touring is now 'Euro IV compliant' for cars made after September 1st. This also applies to all 320d bodyshapes and will mean these powerful diesel models attract only a 15% tax levy. This makes the 3 Series even more attractive to company car drivers, as they will not be liable for the government's three per cent surcharge for non-Euro IV diesel company cars.

EU4 – The definition

Since the 1990s the EC emission standards have been becoming increasingly rigorous. These emissions standards are recognized as Euro I, Euro II, Euro III, and Euro IV. At present all cars produced after 2001 have to meet the Euro III standard. Detailed in the Directive 98/69/EC the Euro IV standard will be introduced in January 2005 and become fully enforced in January 2007, however BMW is meeting the Euro IV standard in advance.

Latest news:

New service package for 320d and 330d models

Free servicing and maintenance package for 3 Series Touring diesel models

BMW Touring customers who choose the dynamic 320d or 330d Touring models will now benefit from an attractive free servicing and maintenance package. This package offers five years or 60,000 miles servicing and maintenance - the equivalent of up to a £3,000 saving and includes:

- Oil services
- Inspection services
- Brake pad and discs
- Brake fluid
- Wiper blades
- All labour charges

Linked to the already comprehensive BMW Warranty (3 years unlimited mileage), this effectively eliminates all maintenance costs and is transferable if the vehicle is sold. BMW Great Britain has pioneered service and maintenance packages in recent years. 95 per cent of 7 Series customers have taken up Concours, the five year or 75,000 mile package offered since launch for £500. Having won numerous accolades, including Best Upper Medium Diesel and Executive Diesel in Fleet Weeks' 2002 awards, BMW's range of diesel models continues to lead the way in terms of performance, economy and refinement. For more information please contact your local dealer.

Build Your BMW

Build your BMW on-line

The BMW 3 Series Touring is available in a wide choice of exterior colours, interiors upholsterys and trims. In addition you can choose to personalise your car with a choice of optional equipment to suit your every need. To discover how to build your car to your own specification, spend a few minutes on-line and click on the 'Build your BMW' link to go through to the Car Configurator. You can then choose to either save this car for yourself or send it through to your preferred BMW Dealer to discuss further details.

Accessories - Exterior styling

M V spoke 72

Complete wheel set with Michelin tyres 8 x 18 225/40 ZR18 front, 8.5 x 18 255/35 ZR18 rear

M double spoke 68

Complete wheel set with Michelin tyres 7.5 x 17 225/45 ZR17 front, 8.5 x 17 245/40 ZR17 rear

Radial styling 32

Complete wheel set with Michelin tyres 8 x 16 225/50 ZR16 front and rear

Anti-theft wheel locking bolts

The studs have a special inner tooth system and can only be undone with the special tool supplied.

Parallel spoke 85

Complete wheel set with Michelin tyres 7.5 x 17 225/45 ZR17 front, 8.5 x 17 245/40 ZR17 rear

Mudflaps

Protect the car against dirt and road chippings around the wheel arches.

Accessories - Interior styling

Aluminium pillar interior trims

These consist of interior trims for the instrument panel, the centre console and the doors.

Bicolour leather interior

Available in the classic colour combinations tan/red/black and grey/black.

Central headrest

Enhances safety when combined with the three-point belt.

Interior trims

Available in Burr Walnut wood, Light Maple wood, Myrtle wood, Eucalyptus Malt wood, Chrome, Aluminium, Brushed Aluminium, Titanium, Titanium II and M Aluminium Black cube - please speak to your dealer

Sport seats

The seat height, angle and thigh support can be adjusted to suit drivers and front passengers of any height while distinctive side sections keep you in your seat when cornering. The contents of the package depend on the choice of BMW special equipment.

Automatic air conditioning

Provides your desired in-car climate in no time at all and maintains a pre-selected temperature.

Central front armrest, folding

Added comfort for driver and passenger, especially on long journeys.

Steering wheels

Available in Burr Walnut wood, Light Maple wood, Myrtle wood, Eucalyptus Malt wood, Chrome, Aluminium, Brushed Aluminium, Titanium, Titanium II and M Aluminium Black cube - please speak to your dealer

Coat hanger

Universal coat hanger which attaches to the rear of the front head restraints

Accessories - Mobile communications

BMW 6 CD changer

For up to 6 CD's. Only suitable for radio appliances with an integrated CD control system. Your BMW Dealer will gladly advise you.

The BMW 3 Series 320d Touring

BMW
Great Britain

Accessories - Versatility

Bicycle lift

For all BMW roof rack systems. A bicycle can be lifted on the roof rack and taken down again effortlessly. Suitable for different sized bikes.

Ski holder

Easy-use ski holder and standard ski holder for up to four or six pairs of skis.

Profil 2000 base support system, lockable

The support bars are made of high-strength aluminium tubing and are therefore particularly strong and resistant to corrosion. The supports are designed to be a perfect fit for your BMW, making them easy to fit.

Touring cycle holder, lockable

Sturdy attachment for transporting a bicycle with frame tube diameter of up to 80mm. Also suitable for mountain bikes. Single locking set for fitting up to four touring cycle holders on the base support system.

Trailer towing hitch

Suitable for higher trailer loads of up to 2275kg (with a nose weight of up to 75kg). The trailer tow hitch is invisible when the towball is removed. Also available in a fixed version.

Snowboard holder

To be used in conjunction with Profil 2000 base support system. For up to two snowboards.

Luggage rack

High load capacity. Corrosion-resistant tubular steel construction. A small luggage rack allows you to combine other attachments from the multifunctional roof rack system.

Racing cycle holder

Suitable for racing cycles with quick-release skewers on the front wheel. A holder to secure the front wheel to the base support is also available.

Luggage compartment floor net

Secures to existing eyelets using S-hooks.

Ski and luggage boxes

For up to six pairs of skis including accessories or luggage. Has a capacity of approximately 450 litres and can be locked. Available in body colours or white.

Dog guard

Black anodised grille partition, permanently secured.

Skibag

Easy stowage through the opening in the rear bench seat (accessed via the boot). The ski bag folds up and is stored behind the centre armrest when not in use.

Accessories - Safety and security

BMW Baby Seat 0+

Available in a choice of colours. Available as ISOFIX or non-ISOFIX. For children aged 0 - 18 months (up to 13kg)

BMW Junior Seat I-II

Available in a choice of colours. ISOFIX from 9 months - 3.5 years (up to 18kg - after this weight the seat must be connected with the seat belt, not with ISOFIX). Non-ISOFIX from 9 months to 7 years

Park distance control, rear

Makes parking and manoeuvring the car easier. Obstacles at a distance of approximately 1.5m are detected and signalled by an acoustic warning.

BMW Junior Seat III

Available in a choice of colours. 6 - 12 years

Tracker

Tracker Retrieve, Monitor and Horizon all of which locate your BMW once theft is reported and are available for all models.

BMW Junior Seat II

Available in a choice of colours. 3.5 - 7 years

Accessories - Car care

Car wax

500ml gives new and clean multi-coloured or metallic paintwork a long-lasting high gloss finish without smearing.

Car shampoo

1000ml gloss shampoo which also protects paintwork.

Interior leather care agent

250ml protects leather after general cleaning.

Insect remover

500ml, effortlessly removes insects from glass, paintwork, chrome and plastics.

Car polish

500ml solvent-free cleansing and care liquid for matt, multi-coloured and metallic paint-work. Also contains hard waxes which protect the paintwork.

Cleaning brush
