The new Passat Estate

Design.

01. Flexible: the rear seat and backrest of the new Passat Estate can be folded asymmetrically, extending the loading space to a length of up to 1,960 mm.

02. Versatile: the optional cargo management system features an adjustable securing rail and retractable load securing strap to divide the luggage compartment laterally or diagonally, fastening items securely on both sides.

03. Stylish: the elegant design of the new Passat Estate SEL with optional Bi-Xenon headlights, front fog lights and parking sensors.

As soon as you set eyes on the new Passat Estate, size and space will take on a new meaning. Combining the practicalities of an estate with the elegance of a saloon, this exceptional car delivers power and charisma more successfully than ever before. From the very first glance, the new Passat Estate makes a definitive statement, its wide track width and low-set front end producing a striking appearance, giving a hint of the driving pleasure to come. The gleaming chrome-plated radiator grille surround, a real design highlight, reinforces the story. The rounded in-set headlights add an extra touch of style, echoed through its flowing aerodynamic curves and rear light cluster incorporating LED technology. This is a car designed to command attention and get results.

Inside, the promise of the exterior is realised, with innovative design delivering new levels of functionality. Nowhere is this more apparent than in the boot space, where stowage capacity is increased to an impressive 1,641* litres, with the rear seats folded down.

As with any estate, flexibility and versatility are paramount, and here the new Passat Estate excels, with a number of different options providing a wealth of practical solutions. For example, the optional cargo management system allows you to organise the load area with maximum efficiency, using an adjustable securing rail and retractable load securing strap to create areas of varying sizes and stow items safely and securely. So, whether you're looking to transport luggage, snowboards or simply some shopping, you'll find enough space and sufficient fixing solutions to meet all your stowage requirements.

* Measurement according to ISO 3832 using 200 x 100 x 50 mm blocks, with rear bench folded down and loading to roof (including 90 litres in the stowage space of the spare wheel recess with the Tyre Mobility Set).

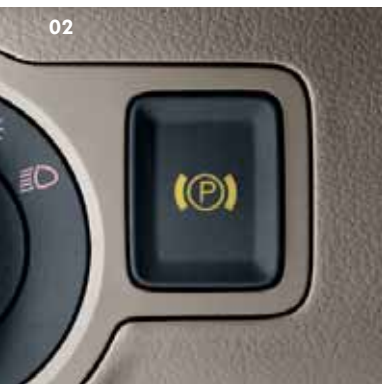

Interior.

The new Passat Estate not only tells a story of exceptional space and load carrying capacity, but also superb ergonomics and interior ambience. Sit in the driving seat and you'll immediately appreciate its intelligent and convenient design, with the clearly arranged instrument panel and easily accessible controls, enhanced by the beautifully co-ordinated, luxurious décor. In such an environment, it's easy to feel good.

Carefully positioned for effortless driving, the electronic parking brake and press and drive key are where you would intuitively expect them, close at hand, with parking and starting operating literally at the touch of a button. For the ultimate in relaxed driving, the cruise control system, standard on SE and SEL models, maintains a preselected speed automatically, without having to use the accelerator – ideal for motorway driving. And with an abundance of storage space within the doors, roof console and optional centre armrest, there is ample room to store maps, sunglasses, CDs and more.

The story of practicality continues. Thanks to the transversely mounted engine and the fact that the interior is now extended, the new Passat Estate also offers plenty of space for rear seat passengers. Which means, wherever you are sitting, front or rear, you'll benefit from significantly more legroom. Never has size been more attractively presented, or aesthetics more practically arranged.

01. High-quality: the luxurious décor and precision workmanship ensure an interior ambience that is both enjoyable and relaxing.

02. Helpful: the electronic parking brake secures the vehicle easily and reliably at the touch of a button, releasing automatically as soon as you pull away.

03. Easy: thanks to the press and drive key, starting has never been simpler.

04. Convenient: the optional multifunction steering wheel enables you to select numerous functions without taking your hands from the wheel while driving. The clearly arranged instrument panel and controls are also located directly within your field of vision.

05. Relaxing: the cruise control system, which is standard on SE and SEL models, makes driving even more enjoyable. Speed is automatically controlled, over 19 mph, enabling you to take your foot off the accelerator and relax.

06. Generous: the practical centre console offers ample storage space, for CDs, sunglasses or drinks, and from SE upwards, a front centre armrest with chilled storage compartment and two rear air vents provides additional comfort.

**1,641 litres
storage capacity.**

Model shown is SEL with optional 17" 'Monte Carlo' alloy wheels and navigation/radio system.

Interior shown is S with optional radio system RCD 500.

The new Passat Estate S.

The new Passat Estate S leaves nothing to the imagination, with a wealth of safety features ensuring maximum protection and driving enjoyment. The comprehensive safety package includes such features as an Anti-lock Braking System (ABS), an Electronic Stabilisation Programme (ESP), Traction Control (ASR), speed-sensitive power-assisted steering, driver's and front passenger's active head restraints, and front, side and curtain airbags. Aesthetically too, the new Passat Estate S delivers, with an elegance and style that is both understated and assured. Distinctive 'Blackpoint' decorative inserts in the dash and centre console, chrome-plated instrument surrounds and stylish 'Calino' cloth upholstery combine to produce an eye-catching image, while 16 inch 'Milwaukee' alloy wheels with 215/55 R16 tyres guarantee dynamic handling and appearance. And demonstrating its immense versatility, black roof rails, storage compartments in the roof console, doors and centre console offer a final touch of practicality. There's even space in the driver's door for the optionally available Volkswagen umbrella.

The new Passat Estate S also offers a whole host of standard fittings providing everything you would expect – and more – from an extraordinary car. The front electric windows and electrically heated and adjustable door mirrors provide added convenience, the tailgate opens automatically with remote operation and the press and drive key allows you to start the engine simply by pushing the key. In addition, the rear seat backrest with integral centre armrest splits 60:40 allowing it to be folded down in separate sections, ideal if you're loading bulky items, and the stylish four-spoke steering wheel individually adjusts to your optimum driving position. And that's just for starters. Also fitted as standard is a multifunction computer, electronic parking brake, RCD 300 radio/single CD player, 'Climatic' semi-automatic air conditioning, alarm with interior protection and remote central locking. As you can see, Volkswagen have thought of everything – all you have to do is concentrate on enjoying the drive.

The new Passat Estate SE.

The new Passat Estate SE offers the ultimate in comfort. Well appointed and beautifully crafted, it boasts a number of interior features designed to ensure total driving pleasure whatever the length of your journey. The 6-way electrically adjustable driver's seat with lumbar support and adjustable backrest guarantees the best possible seating posture. High quality 'Verona' velour upholstery and a leather trimmed three-spoke steering wheel provide both comfort and style, and a front centre armrest incorporating a cooled storage compartment and rear air vents offer an extra touch of luxury. To help you reduce stress on longer journeys, cruise control will automatically maintain your desired speed above 19 mph without you having to touch the accelerator pedal.

From the outside, the SE can be distinguished by its body-coloured front bumper strips, chrome side window surrounds, chrome-plated side strips and rear strip, while 16 inch 'Catalunya' alloy wheels with 215/55 R16 tyres add a distinctive finishing touch.

Interior shown is SE with optional radio system RCD 500.

Please note that SE models feature a leather trimmed three-spoke steering wheel as standard (not shown).

Interior shown is Sport with optional Nappa leather* upholstery and radio system RCD 500.

Interior shown is Sport with optional cargo management system.

The new Passat Estate Sport.

The very first glimpse of the new Passat Estate Sport conveys its phenomenal power and dynamic performance. And regardless of which engine specification you choose, 17 inch 'Monte Carlo' alloy wheels with 235/45 R17 tyres ensure that the sports suspension, lowered by approximately 15 mm, performs spectacularly on tarmac. Of course, it's not until you actually drive the new Passat Estate Sport that the full dynamic extent of this exceptional car is really revealed.

Once you're in the driving seat, the streamlined interior and predominance of sporting features only reinforce the impression. With a leather trimmed three-spoke steering wheel and matching gear knob providing that all-important extra grip, tinted windows from the B pillar back and a 6-way electrically-operated, fully adjustable driver's sport seat with 'Karah' cloth upholstery ensuring optimal lateral support at all times. 2Zone electronic climate control completes the carefully planned interior ergonomics, while the exterior black roof rails ensure even bulky items can be reliably secured and transported.

The new Passat Estate Sport also has an automatically dimming interior rear-view mirror, rain sensor, dusk sensor and front fog lights ensuring good visibility even during bad weather. In addition, the coming/leaving home lighting function enables door mirror indicators, headlights and rear lights to illuminate the immediate area, making it easier and safer for you to get in or out of the car. Sporty and practical, the new Passat Estate Sport offers an unbeatable combination.

* Generally all parts of leather upholstery in direct contact with the driver or passengers are leather, all other areas may contain leatherette.

The new Passat Estate SEL.

Exclusivity typifies the new Passat Estate SEL. With its chrome-plated radiator grille and roundel surround, chrome side window surrounds and side strips, high-gloss chrome-plated roof rails and 16 inch 'Adelaide' alloy wheels with 215/55 R16 tyres, the elegant exterior exudes quality and refinement. The aesthetics continue in the beautifully crafted interior, with brushed aluminium or walnut wood decorative inserts in the dash and centre console, depending upon upholstery colour. A host of features creates a more relaxed driving environment, including a multifunction display, 2Zone electronic climate control, cruise control, front sport seats in Alcantara leather*, which are heated for added comfort, an automatic dimming interior rear-view mirror and RCD 500 radio system equipped with dash-mounted six CD autochanger and eight speakers. With so many extra touches such as a double sun visor that can be folded to the side, heated windscreen washer jets, dusk sensor, automatic coming/leaving home lighting function and front footwell illumination the new Passat Estate SEL literally does all the work for you. All you have to do is enjoy the journey.

* Generally all parts of leather upholstery in direct contact with the driver or passengers are leather, all other areas may contain leatherette.

Interior shown is SEL with optional Dynaudio soundpack.

Engines.

Every journey is a special experience in the new Passat Estate, thanks to Volkswagen's superb range of economical, high-torque petrol and diesel engines, all designed to make driving pure pleasure. The three FSI petrol variants benefit from innovative direct injection technology, where the fuel is injected into the combustion chamber under high pressure, resulting in impressive power and economy even at low revs. The powerful four cylinder 1.6 litre engine develops a healthy 115 PS. Two exceptional 2.0 litre engines both with a six speed gearbox offer even greater drive dynamics, generating 150 PS or 200 PS and ensuring others only have the new Passat Estate's elegant rear end to admire.

The two diesel variants are particularly sophisticated, mainly in terms of flexibility and fuel economy. First is the four cylinder 1.9 litre TDI engine with a five speed gearbox, developing 105 PS and 250 Nm of torque at 1,900 rpm. Like every new Passat Estate, it has a 70 litre fuel tank, and thanks to 'Pumpe Düse' technology, achieves 47.9 mpg on the Combined cycle* – a benefit that will make your next journey even more pleasurable.

The second diesel option, the powerful 2.0 litre TDI engine is available with either a six speed manual or with Volkswagen's revolutionary six speed automatic DSG gearbox. With the manual gearbox, this engine can deliver 140 PS and 320 Nm at just 2,500 rpm while returning 46.3 mpg on the Combined cycle*.

In addition to these superb engines, two further engines will be available later in the year. A powerful 3.2 litre V6 petrol engine developing 250 PS and a 2.0 litre TDI diesel engine producing an impressive 170 PS.

* Please see the Engines section for fuel consumption and CO₂ emissions figures.

† Where the law permits.

Notes.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. Vehicle unladen weight ranges with 90% tank capacity without driver. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the FSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 06) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂. The CO₂ figure quoted for each vehicle is the maximum possible. The unladen weight of the vehicle is calculated by range at the time of manufacture and the maximum possible CO₂ emission for that weight range is applied according to the Council Directive 80/1268EEC as amended by Commission Directive 1999/100/EC on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.
- 07) The use of RME and FAME (bio diesel) is not possible.

Notes.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. Vehicle unladen weight ranges with 90% tank capacity without driver. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the FSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 06) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂. The CO₂ figure quoted for each vehicle is the maximum possible. The unladen weight of the vehicle is calculated by range at the time of manufacture and the maximum possible CO₂ emission for that weight range is applied according to the Council Directive 80/1268EEC as amended by Commission Directive 1999/100/EC on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.
- 07) The use of RME and FAME (bio diesel) is not possible.

S, SE, Sport – 2.0 litre TDI 140 PS.

Technical specification.

The technology.

Transmission

- Front wheel drive through asbestos-free single-plate dry clutch. Hydraulic clutch-mechanism. Five/six speed manual gearbox with double joint half axles
- Five speed manual: 1.9 litre TDI 105 PS
- Six speed manual: 1.6 litre FSI 115 PS, 2.0 litre FSI 150 PS, 2.0 litre FSI 200 PS, 2.0 litre TDI 140 PS
- Six speed automatic: 1.6 litre FSI 115 PS, 2.0 litre FSI 150 PS, 2.0 litre FSI 200 PS
- Six speed automatic DSG: 2.0 litre TDI 140 PS

Brakes

- Electronically controlled Anti-lock Braking System (ABS) with Electronic Brake-pressure Distribution (EBD)
- Diagonal twin-circuit brake system with inner-ventilated front disc brakes and rear disc brakes
- Asbestos-free brake pads
- Hydraulic Brake Assist (HBA)
- Electronic park brake

Running gear

- Electronic Stabilisation Programme (ESP) including Electronic Differential Lock (EDL) and Traction Control (ASR)
- Front suspension through coil springs with telescopic shock absorbers, all elements integrated in chassis legs
- Rear suspension with gas pressure shock absorbers and separate springs
- Wheel control: front through chassis legs and (lower) triangular wishbones (directionally stabilising steering roll radius)
- Wheel control: rear through four-link suspension with independent wheel suspension
- Front and rear anti-roll bar

Steering

- Electro-mechanical steering rack
- Collapsible, height and lengthways adjustable safety steering column

Engines

- Front transverse-installed engine
- 1.6 litre/115 PS ⁽⁰¹⁾ (85 kW) petrol engine: four cylinder in-line engine, aluminium cylinder head, four valves per cylinder with roller valve lever drive, electronic direct injection (FSI), programmed ignition with cylinder-selective anti-knock control, four single spark ignition coils, longlife spark plugs, exhaust gas recirculation, three-way front catalyst, NOx storage catalyst
- 2.0 litre/150 PS ⁽⁰¹⁾ (110 kW) petrol engine: four cylinder in-line engine, aluminium cylinder head, four valves per cylinder with roller valve lever drive, electronic direct injection (FSI), programmed ignition with cylinder-selective anti-knock control, four single spark ignition coils, longlife spark plugs, exhaust gas recirculation, three-way front catalyst, NOx storage catalyst
- 2.0 litre/200 PS ⁽⁰¹⁾ (147 kW) petrol engine: four cylinder in-line engine, aluminium cylinder head, four valves per cylinder with roller rocker finger valve drive, electronic direct injection (FSI), variable inlet valve timing, programmed ignition with cylinder-selective anti-knock control, four single spark ignition coils, longlife spark plugs, exhaust gas turbocharger, three-way close-coupled pre-catalyst and underbody catalyst, lambda control
- 3.2 litre/250 PS ⁽⁰¹⁾ (183 kW) petrol engine: TBA
- 1.9 litre/105 PS ⁽⁰¹⁾ (77 kW) diesel engine: four cylinder in-line engine, two valves per cylinder, electronically controlled 'Pumpe Düse' high pressure injection system, oxidation catalyst, turbocharger with variable turbine geometry
- 2.0 litre/140 PS ⁽⁰¹⁾ (103 kW) diesel engine: four cylinder in-line engine, four valves per cylinder, electronically controlled direct injection with pump injector unit, oil cooler, intercooler, exhaust gas recirculation, oxidation catalyst, turbocharger with variable turbine geometry
- 2.0 litre/170 PS ⁽⁰¹⁾ (125 kW) diesel engine: TBA

Technical specification dimensions.

Maximum luggage capacity, litres VDA measuring method using 200 x 100 x 50 mm blocks	With rear seat upright	513
	With rear seat folded	1641
Exterior dimensions	Length, mm	4774
	Width – excluding door mirrors, mm	1820
	Width – opened front/rear doors, mm	3723/3462
	Height, mm	1517
	Height – opened bonnet/floor, mm	1826
	Height – opened tailgate/floor, mm	2058
	Wheelbase, mm	2709

01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.

Safety.

01. The front suspension system utilises a spring strut front axle, chassis legs and (lower) triangular wishbones (directionally stabilising steering roll radius).

02. Rear wheel control is implemented through a four-link suspension system with independent wheel suspension.

03. The optional tyre pressure monitoring system conveniently indicates changes in tyre pressure on the instrument display.

04. Through a combination of Traction Control (ASR), Electronic Differential Lock (EDL) and Anti-lock Braking System (ABS), the new Passat Estate delivers exceptional handling and braking.

05. The Electronic Stabilisation Programme (ESP) detects critical situations at an early stage and takes action by, for example, specifically braking individual wheels.

06. The driver and front passenger benefit from active head restraints which help lower the risk of whiplash injuries in the event of an accident. In addition, side airbags provide greater protection for the driver and front passenger, whilst the curtain airbag system protects the front and rear passengers.

The most important consideration for any driver is safety. That's why it's so reassuring to drive the new Passat Estate. With a whole range of new generation safety features included as standard, the new Passat Estate provides the highest levels of safety possible, ensuring optimum protection in hazardous situations.

Of course, it's even better to avoid hazards in the first place, which is where the new Passat Estate's active safety concept comes in. An innovative suspension system, with a spring strut front axle and four-link rear axle, counteracts any unevenness in the road surface, keeping the new Passat Estate safely in place. At the same time, the driver benefits from electro-mechanical power-assisted steering, which reacts with extreme precision even at high speeds. The Electronic Stabilisation Programme (ESP) plays a further role, utilising Electronic Differential Lock (EDL) and Traction Control (ASR) to help correct oversteer, understeer and loss of stability of the vehicle. The result is optimum traction when rounding bends. And to ensure you retain control on a slippery surface, the Anti-lock Braking System (ABS) prevents the wheels from locking in the event of an abrupt braking manoeuvre. In addition, under severe braking the hazard lights are automatically activated. Finally, a tyre monitoring indicator, available as an optional extra, automatically lets you know via the instrument panel, as soon as there is any change in the vehicle's tyre pressure.

An important element of the new Passat Estate's safety philosophy concerns the protection of other road users, and involves a completely new passive safety concept. It starts with special protection zones located in the front body area and bumpers, reducing the risk of injury to cyclists and pedestrians. Occupants of the new Passat Estate are protected too, by a bodyshell equipped with crumple zones designed to absorb impact energy and protect the inner passenger compartment. Further protection is provided by a six airbag system, which includes driver's and front seat passenger's airbags, curtain airbags at the front and rear, and side impact airbags for the front, with rear available as an optional extra. In the event of an accident, active head restraints on the front seats react within milliseconds, to help protect the head from injury and reduce whiplash. All this is supplemented by three-point automatic safety belts on all seats, an acoustic and optical warning for the driver's and front seat passenger's unfastened seat belts, and Volkswagen's innovative Isofix fittings to accommodate two child seats in the rear, providing maximum protection for children. As you can see, everything has been thought of to ensure maximum safety for all concerned, whether for other road users or for you and your passengers. You couldn't ask for more than that.

Wheels.

Also available, but not shown:

The sports pack is designed to give your new Passat Estate a sporty new look and includes a choice of 17" alloy wheels, approximately 15 mm lowered sports suspension, darkened windows from B pillar back and front fog lights.

- 01** 'Milwaukee' 7J x 16 alloy wheels with 215/55 R16 tyres. Standard on S models and not available as an option.
- 02** 'Catalunya' 7J x 16 alloy wheels with 215/55 R16 tyres. Standard on SE models and not available as an option.
- 03** 'Adelaide' 7J x 16 alloy wheels with 215/55 R16 tyres. Standard on SEL models and not available as an option.

- 04** 'Westwood' 7½J x 17 alloy wheels with 235/45 R17 tyres. Optional on all models.
- 05** 'Macau' 7½J x 17 alloy wheels with 235/45 R17 tyres. Optional on all models.
- 06** 'Le Mans' 7½J x 17 alloy wheels with 235/45 R17 tyres. Optional on all models.
- 07** 'Monte Carlo' 7½J x 17 alloy wheels with 235/45 R17 tyres. Standard on Sport models and optional on all other models.

Paint.

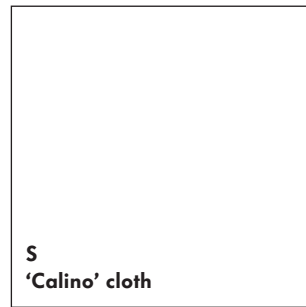

Please note: Screen technology does not allow for exact reproduction of the of the paint colours and decorative inserts. For further details, please contact your Volkswagen retailer.
 * Decorative inserts, Metallic and Pearl Effect paint are optional at extra cost.
 † Standard on SEL models in conjunction with pure beige upholstery.

Decorative inserts.

Standard upholstery.

Please note: Screen technology does not allow for exact reproduction of the upholstery colours. For further details, please contact your Volkswagen retailer.

* Generally all parts of leather upholstery in direct contact with the driver or passengers are leather, all other areas may contain leatherette.

Optional upholstery.

Please note: Screen technology does not allow for exact reproduction of the upholstery colours. For further details, please contact your Volkswagen retailer.

* Generally all parts of leather upholstery in direct contact with the driver or passengers are leather, all other areas may contain leatherette.

Standard equipment.

Standard items of equipment S

Volkswagen service

- 3-year/60,000 miles warranty
- 3-year paintwork warranty
- 12-year body protection warranty
- Volkswagen Assistance

Please see Service section for more details

Exterior

- Alloy wheels, four 7J x 16 'Milwaukee' with 215/55 R16 tyres and anti-theft wheel bolts
- Body-coloured bumpers with black bumper strips and black side bump strips
- Body-coloured door handles
- Body-coloured door mirrors with integrated indicators incorporating LED technology
- Chrome-plated radiator grille surround
- Galvanised body
- Heat insulating green tinted glass
- Rear lights incorporating LED technology
- Roof rails, black
- Yellow turn signal lights integrated into front bumper

Interior

- 'Blackpoint' decorative inserts in dash and centre console
- Chrome-plated instrument surrounds
- Upholstery – 'Calino' cloth

Safety

- ABS (Anti-lock Braking System) – includes BAS (Brake Assist System) and EBD (Electronic Brake-pressure Distribution)
- Automatic hazard lights activation under severe braking
- Curtain airbag system
- Disc brakes, front and rear (front ventilated)
- Door side impact protection
- Driver's and front passenger's active head restraints
- Driver's and front passenger's airbags with front passenger's airbag deactivation switch
- ESP (Electronic Stabilisation Programme) – includes EDL (Electronic Differential Lock) and ASR (Traction Control)
- Front seat side impact airbags
- Height-adjustable front three-point seat belts with tensioners
- High level 3rd brake light
- Isofix child seat preparation, outer rear
- Rear fog light
- Rigid safety cell with front and rear crumple zones
- Warning buzzer and light for front seat belts if unfastened
- Warning reflector in front and rear doors
- 3 rear head restraints
- 3 rear three-point seat belts

Function

- Aerial for radio integrated into rear windscreen
- Air conditioning, 'Climatic' semi-automatic control
- Alarm with interior protection
- Automatic tailgate opening
- Blue instrument lighting
- Cup holders, front x 2
- Driver's seat height adjustment
- Electrically heated and adjustable door mirrors
- Electric windows, front
- Electronic engine immobiliser
- Electronic parking brake (with hill hold on automatics)
- Exterior temperature gauge and frost warning function
- Four-spoke steering wheel
- Full size steel spare wheel
- Glovebox, cooled, lockable
- Headlight range adjustment
- Heated rear window
- Height and reach adjustable steering wheel
- Illuminated vanity mirrors
- Interior lighting: front and rear with interior delay and dimming function
- Load lashing points x 4, in luggage compartment
- Multifunction computer
- Power-assisted steering, speed-sensitive
- Press and drive key
- RCD 300 radio/single CD player with 4 speakers

Function (continued)

- Reading lights, front x 2
- Rear seat armrest
- Remote central locking with 2 remote keys
- Remote interior fuel flap
- Split folding rear seat base and backrests 60:40
- Storage compartment in driver's door for optional umbrella
- Storage compartment in driver's door for 1.0 litre bottle
- Storage compartments in passengers' doors for 1.5 litre bottle
- Storage compartment in roof console
- Storage tray and 12V socket in centre console
- Warning lights for open tailgate and doors
- Windscreen wiper with intermittent wipe and 4 position delay

The above specifications are for information purposes only as our products are continually updated and changes may be made to the specifications at any time. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Specifications are subject to change without notice.

Standard equipment (continued).

Additional items of equipment SE

Exterior

- Alloy wheels, four 7J x 16 'Catalunya' with 215/55 R16 tyres and anti-theft wheel bolts
- Body-coloured front bumper strips
- Chrome-plated side bump strips and rear strip
- Chrome side window surrounds
- White turn signal lights integrated into front bumper

Interior

- Ambient interior lighting
- 'Blackpoint' decorative inserts in dash and 'Soft Silver' decorative inserts in centre console
- Front comfort seats
- Leather trimmed three-spoke steering wheel and gear knob
- Upholstery – 'Verona' velour

Function

- Cruise control (SE and SEL only)
- Driver's seat with electric 6-way adjustment including lumbar support
- Electric windows, rear
- Front centre armrest with cooled storage compartment and two rear air vents
- Front passenger's seat height and lumbar adjustment
- Load-through provision
- RCD 300 radio/single CD player with 8 speakers, 4 front, 4 rear
- Reading lights, chrome-plated surrounds, front x 2, rear x 2
- Rear centre armrest with storage compartment and two cup holders
- Storage compartments in luggage area x 2, right and left
- Storage pockets on front seat backrests
- Storage trays in dashboard x 2
- 12V socket in rear and luggage compartment

Additional items of equipment Sport

Exterior

- Alloy wheels, four 7½J x 17 'Monte Carlo' with 235/45 R17 tyres and anti-theft wheel bolts
- Heat insulating tinted glass 65% light absorbing from B pillar backwards

Interior

- 'Blackpoint' decorative inserts in dash and 'Sportpoint' decorative inserts in centre console
- Front sports seats
- Upholstery – 'Karah' cloth

Function

- Air conditioning, 2Zone electronic climate control
- Automatic coming/leaving home lighting function
- Automatic dimming interior rear-view mirror
- Dusk sensor, automatic driving lights
- Front fog lights
- Full size alloy spare wheel
- Rain sensor
- Sports suspension, lowered by approx. 15 mm

Additional items of equipment SEL (over SE)

Exterior

- Alloy wheels, four 7J x 16 'Adelaide' with 215/55 R16 tyres and anti-theft wheel bolts
- Chrome-plated radiator grille and roundel surround
- Roof rails, chrome-plated

Interior

- Brushed aluminium decorative inserts in dash and centre console (with black, grey or latte upholstery)
- Front sports seats
- Stainless steel load sill protection
- Upholstery – Alcantara leather¹
- Walnut wood decorative inserts in dash and centre console (with pure beige upholstery)

Function

- Air conditioning, 2Zone electronic climate control
- Automatic coming/leaving home lighting function
- Automatic dimming interior rear-view mirror
- Carpet mats
- Double sun visors
- Dusk sensor, automatic driving lights
- Front footwell illumination
- Heated front seats
- Heated windscreen washer jets
- Rain sensor
- RCD 500 radio/dash-mounted 6 CD autochanger with 8 speakers, 4 front, 4 rear
- Warning lights in front and rear doors

The above specifications are for information purposes only as our products are continually updated and changes may be made to the specifications at any time. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Specifications are subject to change without notice.

¹ Generally all parts of leather upholstery in direct contact with the driver or passengers are leather, all other areas may contain leatherette.

Optional equipment.

01 The combined DVD navigation/radio system comprises a 6½" colour display, DVD-ROM, acoustic and visual route recommendations, six CD autochanger and a 4 x 20 watt radio system and eight speakers. The **2Zone electronic climate control air conditioning system**, with indirect ventilation, uses electronic 2Zone temperature control to create an air conditioned environment individually suited to the driver and front seat passenger.

02 The RCD 500 radio system with integral dash-mounted six CD autochanger and Dynaudio sound system ensures fantastic sound quality. It uses a state-of-the-art ten channel amplifier that produces a 600 watt output through a total of ten front and rear speakers.

03 This specially designed cargo management system comprises two rails positioned on the left and right of the cargo area and four lashing eyelets. The rails can be used to individually fix straps and a telescopic rail into place using variable rod positions enabling secure stowage of luggage, whatever the size or shape.

04 Bi-Xenon headlights with dynamic corner lighting produce a much clearer, brighter light for both dipped and main beam, giving you a clearer view of the road ahead and helping you drive more safely, particularly on winding roads. Also included in this option are headlight washers which help keep headlights free from dirt, ensuring maximum visibility.

05 The parking sensors, with sensors fitted in the front and rear bumpers, monitor the distance from an obstacle, helping you manoeuvre in and out of parking bays. An acoustic signal warns as an obstacle becomes closer.

06 Bluetooth telephone preparation* enables you to use your mobile phone without taking it out of your jacket pocket, thanks to Bluetooth connectivity. It is controlled via a separate keypad on the control panel, and can handle data for up to four mobile phones.

Also available, but not shown:

Integrated child seats are integrated into the rear seat bench including seat belt tensioners for outer rear seats. A new design offers booster pillows integrated into the headrest mountings, giving your child even more side support. The **innovative bicycle carrier system** allows for extremely easy mounting, with two quick-lock fixtures attached to the specially equipped bumper bar.

* Only in conjunction with a multifunction steering wheel, please contact your retailer for phone compatibility.

Volkswagen service for your peace of mind.

The Volkswagen Warranty.

Three-year Warranty.

All Volkswagen new Passat Estates come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

Three-year Paint Warranty.

The paintwork of the new Passat Estate is covered against manufacturing defects for a period of three years. Naturally, the new Passat Estate must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

12-year Body Protection Warranty.

The internal body sections and panels of the new Passat Estates are covered against rusting through from the inside for 12 years. Naturally, the new Passat Estate must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

Service Intervals.

Volkswagen are pleased to offer you a choice on how your new Passat Estate is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service
Every 10,000 miles/1 year (whichever is soonest).
- Interval service
Every 20,000 miles/2 years (whichever is soonest).
- Interval service inspection
Every 40,000 miles/4 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

- With the LongLife Service the vehicle can cover anywhere between 10,000* and a maximum of 20,000* miles or 24 months (whichever is soonest).

* Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement. Please consult your authorised Volkswagen retailer or repairer for advice and full details.

Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Volkswagen Insurance.

Competitive insurance premiums are available to Volkswagen owners through Volkswagen Insurance Service (Great Britain) Limited. Volkswagen Insurance guarantees that all repair work is undertaken by an authorised Volkswagen retailer or repairer. For a quotation, telephone Linkline on 0845 600 8006.

Extended Warranty.

You may purchase additional protection from your authorised Volkswagen retailer or repairer, or contact 0870 9000 115.

Volkswagen Finance†.

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

Here is our full range of finance products:

- New Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all of our finance products you can choose one of our fixed-cost maintenance plans designed to help you budget accurately.

No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

Volkswagen Assistance.

Every new car is registered for Volkswagen Assistance for one year. This provides vehicle recovery in the unlikely event of a breakdown (subject to conditions). Volkswagen Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer.

Tax Free Sales.

For full details, please contact your authorised Volkswagen retailer.

CO₂ Emission.

The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

The CO₂ figure quoted for each vehicle is the maximum possible. The unladen weight of the vehicle is calculated by range at the time of manufacture and the maximum possible CO₂ emission for that weight range is applied according to the Council Directive 80/1268EEC as amended by Commission Directive 1999/100/EC on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

Please Note:

Some illustrations in this document do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this document are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: We would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofcom regulations.
