So affordable, in fact, you might be tempted to lower your repayment or shorten your agreement period or even go for a higher specification model. For more details, see your nearest retailer or visit www.volkswagen.co.uk. And set your sights on a Volkswagen you thought was beyond your range.

( ) Automatic figures.

A guide on fuel economy and  $CO_2$  emissions which contains data for all new passenger car models is available at any point of sale free of charge. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and  $CO_2$  emissions.  $CO_2$  is the main greenhouse gas responsible for global warming.

\* Fuel consumption figures shown are mpg/ltr per 100 km for the Urban, Extra-urban and Combined fuel cycles in accordance with EU Directive 99/94.

## Vehicle Excise Duty (VED).

All vehicles first registered on, or after, 23rd March 2006 are subject to a new form of Vehicle Excise Duty (Road Fund Licence). This new duty is based upon the type of fuel the vehicle uses and its carbon dioxide  $(CO_2)$  emissions level, measured in grams per kilometre (g/km). To help you identify the duty you will pay, the DVLA has created seven categories for petrol engines and seven categories for diesel engines.

The weight of a vehicle will influence the level of  $CO_2$  emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of  $CO_2$ .

The  $CO_2$  figure quoted for each vehicle is the maximum possible. The unladen weight of the vehicle is calculated by range at the time of manufacture and the maximum possible  $CO_2$  emission for that weight range is applied according to the Council Directive 80/1268EEC as amended by Commission Directive 1999/100/EC on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

The chart below shows the VED bands and the charges which will be levied:

## The Volkswagen service, for your peace of mind.

#### The Volkswagen warranty

#### Three-year warranty

All Volkswagen passenger cars come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000\*. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

\*All warranty work must be completed by an authorised Volkswagen retailer or repairer.

#### **Body protection warranty**

The internal body sections and panels of the Golf are covered against rusting through from the inside for 12 years. Naturally, the vehicle must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

#### Three-year paintwork warranty

This latest warranty, pioneered by Volkswagen, really provides you with the widest possible cover on a new car.

There are no special conditions attached and paintwork manufacturing defects will be rectified without charge. Naturally, during the warranty period the car must be cared for in compliance with the operating instructions.

#### Service Intervals

Volkswagen are pleased to offer you a choice on how your Golf is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- · Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service Every 10,000 miles/1 year (whichever is soonest).
- Interval service
- Every 20,000 miles/2 years (whichever is soonest).
- Interval service inspection Every 40,000 miles/4 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the LongLife Service the vehicle can cover anywhere between 10,000<sup>†</sup> and a maximum of 20,000<sup>†</sup> miles or 24 months (whichever is soonest). † Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement.

Please consult your authorised Volkswagen retailer or repairer for advice and full details.
