### THE VOLVO S40

The Volvo saloon resemblance is all there – from the distinctive black egg-crate grille and V-shaped bonnet to the full-length pronounced shoulders and tightly sculpted rear with distinctive tail lights. The Volvo S40 saloon is clearly part of the family.

The youthful nature and dynamic performance of this Volvo has encouraged a revolutionary approach to interior layout with a central control unit influenced heavily by contemporary high-end technology design. A world first, the floating centre stack co-locates the audio and climate controls in the style of a remote control unit for a high-tech audio system and creates a spacious feeling of reassuring simplicity.

(i) The Urban fuel consumption figure is based on typical city driving, including starting the car from cold. The Extra Urban figure is based on typical motorway driving and cruising. The Combined figure averages the consumption across both cycles.

 (ii) These results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model. Additionally driving style, traffic conditions, as well as the age and mileage and standard of maintenance will affect a car's fuel consumption.
 (iii) Figure quoted without sunroof.

(iv) Unbraked towing weight must not exceed 50% of kerb weight up to a maximum of 700 kg.
