Introduction

BMW X5

In the new BMW X5 supremacy comes as standard. Towering levels of supreme power and performance promise a compelling drive, for sure. But what is power without control? Not a challenge you'll have to wrestle with the new X5, where sophisticated transmission and dynamic stability systems remove the drama from any potential crisis. Add to this a commanding vantage point, serene luxury and generous practicality and you could only be in one car. There can only be one BMW X5.

Pricing

Price shown as 'on the road'

X5 xDrive35d SE	£43,175
X5 xDrive35d M Sport	£48,295

Company car tax

Car benefit charges for cars with an approved CO2 emissions figure

Model Description	CO2 Taxband	CO2 Emission
X5 xDrive35d SE	34%	NA (216.0)
X5 xDrive35d M Sport	34%	NA (216.0)

Company car tax information for automatic cars is shown in brackets.

BMW EfficientDynamics delivers impressive emissions reductions and better fuel consumption without sacrificing driving pleasure. This is achieved through a combination of intelligent engine management systems, innovative new technologies and the use of lightweight materials.

Active Aerodynamics.

Actively controlled air flaps regulate air flow to the engine and braking systems. By opening and closing these flaps, the engine is able to reach its operating temperature quicker, whilst vehicle drag is also reduced – helping the car move through the air more easily and reducing fuel consumption and emissions.

Brake Energy Regeneration.

Intelligent Alternator Control monitors battery condition, engaging the alternator only when the battery requires recharging. This reduces the demands on the engine, reducing fuel consumption and emissions. In addition, when the car's brakes are applied or when coasting downhill, this system automatically engages the alternator to charge the battery, recycling energy that would otherwise be wasted.

Lightweight Engineering.

The overall weight of the vehicle is reduced through the use of lightweight materials such as thermoplastic, aluminium and magnesium alloy. The results are enhanced driving dynamics and improvements in both fuel economy and weight distribution.

- Quick reference guide
- Size: 12.4W x 7.4H x 2.3D cm
- Weight: 190 g

Additional Features†††

- Travel guide – included on supplied SD card with helpful and thorough reviews and recommendations for restaurants, hotels, shopping, nightlife, sporting events and tourist attractions for major European countries*

Accessories - Versatility

Coolbag

CFC-free, electric cooler which cools its contents. Capacity: 12 litres.

Roof box 320

Capacity: 320 litres
Dimensions: (L x W x H): 2250 x 550 x 370 mm

Accessories - Versatility

Roof box 460

Capacity: 460 litres
Dimensions: (L x W x H): 2300 x 820 x 370 mm

Racing cycle holder, lockable

Touring cycle holder, lockable

Sturdy attachment for transporting a wheel with frame tube diameter between 25 and 57mm. Single locking set for fitting up to four touring cycle holders on the base support system.

Luggage racks

High load capacity. Corrosion-resistant tubular steel construction. A small luggage rack allows you to combine other attachments from the multifunctional roof rack system.

Luggage compartment floor net

Back rest pocket

(Image not shown)

Clear protective bumper covering

(Image not shown)

Luggage compartment tray

The tray completely fills the luggage compartment floor. Shatter-proof, acid-proof and impact resistant.

Protective bootspace cover

Cool-box

CFC-free, electric cooler which cools its contents.

Bicycle lift

For all BMW roof rack systems. A bicycle can be lifted on the roof rack and taken down again effortlessly. Suitable for different-sized bikes.

Front wheel holder

(Image not shown)

Base support system, lockable

The support bars are made of high strength aluminium tubing and are therefore particularly strong and resistant to corrosion. The supports are designed for your BMW making them easy to fit. The anti-theft base support system using coded bolts offers a high degree of security.

Surfboard carrier

With board supports made of impact-resistant plastic and integrated mast carrier, belt eyelets and tensioning straps.

Fitted luggage compartment mat

(Image not shown)

Rear wheel arch clear protective covering

(Image not shown)

Clear protective covering assembling kit

(Image not shown)

Luggage compartment net

Luggage compartment reversible mat

Protective rear cover

The BMW X5 3.0sd SAV

BMW UK

Accessories - Versatility

Dog guard

Black anodised grille partition, easily removed if required. Ensures dog is unable to access the occupant compartment. For 5 seater only.

Umbrella bag

With matching BMW umbrella. Installed in the front passenger footwell for ease of use.

Interface for Apple iPod

The iPod interface allows the Apple iPod, iPod mini and iPod Photo to be connected to your vehicles audio system. By selecting genres, artists, albums and playlists it is now possible to access your entire music collection at any time in your car.

The music stored on the iPod is played by the audio system and the iPod is also charged at the same time. To ensure that you do not lose control of this volume of music, the audio display integrated in the dashboard shows the current track or your position in the selection menu. The maximum number of folders that can be displayed is 255 and 1 folder equates to 1 artist or 1 album (non SA6FL). When iPod connector is fitted, CD changer function is disabled and can no longer be used.

Compatibility is dependent on vehicle specification. Please contact your local dealer for further information.

iPod is a trademark of Apple Computer, Inc

BMW Approved Stolen Vehicle Recovery products

Car thieves are becoming more sophisticated. Fortunately for you, so is BMW's additional security. BMW is a company of constant innovation. This on-going programme includes the advancement of anti-theft devices for your vehicle. If your vehicle already has security equipment, it is likely that BMW's additional security can enhance the factory-fitted system you presently rely on. This includes the availability of the ultimate BMW Approved, stolen vehicle recovery systems, which are now able to locate vehicles in Europe* as well as mainland Great Britain. Once installed by BMW factory trained technicians, the products may entitle you to a reduction in your vehicle insurance premiums.

*Please contact your BMW Dealer for further details.

Outdoor car cover for whole car

Thermo-reflective, fully waterproof. Silver-coloured, dirt repellent surface. With BMW logo.

Tow-bar

Powder-type fire extinguisher

Located under the driver's seat for easy access.

Rear view camera

Reversing camera, for reversing safely. On selecting reverse, the area behind the vehicle is filmed via a 131° wide-angle lens of a camera in the boot lid. Images are then displayed on the on-board monitor, if the vehicle does not have an on-board monitor a display monitor can be fitted in place of an air vent.

Warning triangle with holder

Tow-cable

First aid pouch

Accessories - Safety and security

Warning jackets

Neon-colour safety jackets.

TRACKER Horizon

This system includes TRACKER Monitor with GPS/GSM technology. Combined with TRACKER Monitor technology this system allows the TRACKER Network Control Room to track your vehicle with GPS/GSM on a computer-based road map. This allows the Control Room to communicate this information to the police. In conjunction with the on-board homing device, the police are able to ensure a safer and faster recovery of your vehicle, thus reducing the damage risk to your vehicle. (Image not shown)

Baby Seat 0+

The ideal seat for the smallest of children weighing up to 13-kg (approx. 18 months). The system consists of a frame installed in the vehicle and a portable baby shell.

The BMW Baby Seat 0+ is fitted in the opposite direction of travel. This significantly reduces the pressure exerted on the child's cervical spine in the event of a frontal collision. With the optionally available seat size reducer, the BMW Baby Seat 0+ can be ergonomically adapted to fit newborns.

Junior Seat II

The BMW Junior Seat II is offered without restraint cushion for children over 15 kg and approx. 3.5 years.

The ISOFIX preparation may only legally be used for children up to 18 kg. Accordingly, the BMW Junior Seat II is not available with the ISOFIX option.

TRACKER Response

This system is the leading tracking product in the UK. Driver Validation tags are used to confirm authorised vehicle movement. This means that in the unlucky event of the thief stealing the vehicle keys, TRACKER Response will monitor the vehicle movements. Once moved without the use of Driver Validation tags, the system will contact the TRACKER control room. Vehicle key theft is a rapidly growing crime and this feature will enable faster access to your vehicle's position. System features an innovative customer website so that your vehicles location can be identified day or night. (Image not shown)

TRACKER Monitor

TRACKER Monitor is a small electronic homing device hidden in your vehicle. It has no tell-tale antennae or aerials to give its presence away and is also intelligent enough to detect the possible illegal movement of your vehicle. Therefore, either when you report a theft or the TRACKER Network Control Room contact you to advise you of a possible illegal movement, the unit is activated via a network of radio transmitters. Once activated, the unit emits a silent signal which allows computers fitted in Police cars and helicopters to track your vehicle - and anyone driving it - down to their exact location. (Image not shown)

Junior Seat I-II

The BMW Junior Seat I-II with height and tilt adjustable backrest and restraint cushion is an ideal solution for children between 9 months and 7 years (9 to 25 kg body weight). The restraint cushion offers ideal protection to children from 9 months up to approx. 4 years: It reduces the impact of the forces acting on the cervical spine in the event of an accident. For children with a body weight in excess of 18 kg or approx. 3.5 years, the restraint cushion is no longer used. Your child is then secured in using the vehicle seat belt.

Junior Seat II-III

The BMW Junior Seat II - III has a size scale for up to 150 cm which allows optimum setting of the headrest and upper belt guide. With side, height and seat back adjustments the Junior seat II-III has been designed with optimum safety and comfort in mind.

ISOFIX preparation may only legally be used for children up to 18 kg. Accordingly, the BMW Junior Seat II-III is not available with the ISOFIX option. The seat is secured by the vehicle's own three-point seat belt with belt guides for simple mounting.

BMW Seal & Protect

BMW Seal & Protect is the only fully approved BMW paint, interior carpet /cloth upholstery protection system. It provides an outstanding long-lasting shield against the environment and safeguards your investment by preserving the high quality finish of your car's surfaces. Utilising high-performance sealants, your purchase involves a Dealership-applied BMW Hard Wax to the exterior paintwork. As a result, exterior surface resilience and water repellence is increased by over 300%. And the long-standing protection that BMW Seal & Protect provides simultaneously has a regenerating effect on the paintwork, for a lasting shine. The same scientific detail is also applied inside your car, with an impregnating agent for carpets and cloth upholstery to ensure that treated materials do not soak through when exposed to moisture. Please speak to your BMW Dealer for further details.
