

Why listen to your head, when you want to follow your heart?

With the new Urban Cruiser, head and heart have never been happier. The bold, sophisticated lines are an invitation to be adventurous, to leave the norm behind. The Urban Cruiser's sensible side is equally out of the ordinary. It's best in class when it comes to fuel economy and reduced CO₂ emissions – without compromising performance.

Why snooze when the city could be all yours?

Claim the streets with Urban Cruiser's characterful rugged features and commanding road presence.

The refined exterior is compact, robust and dynamic. Fit for adventure with sharp detailing, chunky wheel arches, 16" high gloss wheels and a broad stance.

Why leave town when you can choose to go your own way?

Strike out with dynamic handling, extra smooth gear shifts and powerful performance.

Ideal for urban driving with the latest stop and start technology on the petrol engine.

Alternatively All Wheel Drive (AWD) for the diesel engine adapts perfectly to changing road conditions.

Why change lane when you can make a splash?

Urban Cruiser's cutting edge safety technology includes vehicle stability control (VSC), traction control and all round disc brakes, for a strong stance on the road - whatever the weather.

7 airbags and excellent impact absorption make this Toyota best in class for passive safety

An intelligent All Wheel Drive system activates rear wheel drive, to improve grip in challenging conditions.

Toyota Optimal Drive

Toyota Optimal Drive means reduced CO₂ emissions, better fuel economy and enhanced performance. It marks the beginning of a new generation of power train technologies, engineered to save you money. It means you no longer have to give up performance to benefit from lower CO₂ and improved economy.

- CO₂ emissions from as little as 129g/km, with a world's lowest CO₂ for an All Wheel Drive passenger car at just 130g/km.
- Fuel consumption up to 57.6 mpg combined cycle.
- 6 speed manual transmission optimised for a refined drive.

SPEC COST

URBAN CRUISER

In the same

Personality

The look, the touch, the experience. Individuality is in the details that say 'this is me; this is how I like my car to be'. And that's exactly the freedom on offer with Toyota

accessories. You become the designer. You choose how you want to express your personality.

01 Leather/aluminium handbrake

A unique design from Toyota Motor Sport.

02 Shift knob

Toyota Motor Sport's racing influence is clear to see.

03 DAB

Enhances your Toyota radio to receive digital audio broadcasts. (Illustrated on navigation system.)

04 JBL premium sound system

Optimises your audio to give a breathtaking acoustic performance.

05 HomeLink

Enables you to operate up to three home automation systems such as garage doors, drive gates and security lighting from inside your car.

06 TNS510 navigation system

Clear voice directions synchronise with full map colour graphics on a 5.8" screen and integrated Bluetooth® (\$) connectivity.

07 iPod®, iPhone® and USB integration kit

Located in the instrument panel, the kit integrates your personal music player technologies with the Urban Cruiser's audio or navigation system, with control through the steering wheel.

Protection

Why accept the inevitable when you can guard against the obvious? Toyota accessories complement the Urban Cruiser's rugged appeal by protecting against those bumps and scrapes that can happen too easily in today's busy cities.

01 Parking sensors

Choose either front, rear or both sets of parking sensors. Front sensors could also be chosen to complement the Urban pack.

02 Rear bumper protection plates

Tough paintwork protection. Available in stainless steel or black plastic.

03 Mud flaps

Shaped to fit your car's wheel arches.

04 Bumper corner protectors

Protection against minor scrapes and scuffs.

05 Wind deflectors

Cuts wind noise and turbulence when driving with open windows.

Leisure

An ordinary life? Not likely with the Urban Cruiser. Weekends away, skiing holidays or simply exploring the great outdoors. Whatever your fancy, the Toyota roof rack and your choice of

special attachments add flexibility to help make every moment a memorable experience.

01 Luggage box 380 litre Standard

Double the load space of your vehicle with this compact roof box. It has 3-point central locking, side access & load security straps.

02 Luggage box 380 litre Luxury

As above, plus improved aerodynamics and a premium black metallic finish.

03 Luggage/Ski box 410 litre Standard

A slimline roof box with excellent aerodynamics and narrow enough to carry other roof mounted items, such as a bicycle. It features central locking and load securing straps.

04 Luggage/Ski box 390 or 490 litre Luxury

As above, plus improved aerodynamics and a premium black metallic

The above accessories must be fitted with the roof rack.

Versatility

In and out of your car all day every day? Toyota accessories make things a lot easier. Protection for your carpets? Help to keep the boot neat and tidy? The range gives you plenty of options for added practicality.

01 Boot liner

Durable black rubber with a non-slip surface and raised edges.

02 Cargo net

Clips onto pre-fitted hooks to keep your possessions firmly in place.

03 Cargo liner

Ultra thick black rubber with high edges to protect against mud and spilled liquids.

04-07 Reversible boot mat

Luxurious velour on one side and spill proof plastic on the other.

Child seats

Children are so precious; it's only natural to want to protect them. Be assured. With Toyota child restraint seats your younger passengers will travel in comfort and safety wherever you go.

01 Babysafe restraint seat

Comfort and protection from birth up to around 15 months (to 13 kg). An integral retractable canopy offers protection against the sun and wind.

02 Duo Plus ISOFIX restraint seat

For children between 9 to 18 kg (approx. 8 months to 4 years). The seat locks into the rear ISOFIX bars to anchor directly to the car body and has a top tether to prevent forward tipping. Deep padded wings increase side impact protection.

Also available is the Kid safety restraint seat, suitable for children from 15 to 36 kg (approx. 3 years upwards). Not illustrated.

The fuel consumption and CO₂ values are measured in a controlled environment, in accordance with the requirements of Directive 80/1268/EEC incl. its amendments, on a basic production vehicle. The fuel consumption and CO2 values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle conditions, installed equipment, load, number of passengers, etc.) play a role in determining a car's fuel consumption and CO₂ emissions.

Glossary

Discover more about Urban Cruiser technology.

Toyota Optimal Drive

Better fuel economy. Reduced emissions. No compromise in driving pleasure. Toyota Optimal Drive means reduced CO₂ emissions, better fuel economy and enhanced performance. It marks the beginning of a new generation of power train technologies.

engineered to save you money. It means you no longer have to give up performance to benefit from lower CO₂ and improved economy.

Clean power. Toyota's powerful yet environmentally friendly diesel engine technology. Common rail direct injection adjusts pressure, timing and volume as you drive, injecting finely atomised fuel at high pressure into the combustion chamber for the best performance.

Intelligent All Wheel Drive (AWD)

The 1.4 litre D-4D Urban Cruiser is equipped with Active Torque Control all-wheel drive. Integrated with the vehicle's other traction control systems, Active Torque Control is seamless and flexible, providing optimum

torque distribution ranging from 100:0 to 50:50 front to rear drive, according to driving dynamics and road conditions. An AWD lock mode can be activated via a switch control.

Stop & Start

The clever thinking continues with Toyota's new Stop & Start feature. Every time you come to a halt, select neutral and release the clutch, the engine switches off. When you go for the clutch again, the engine jumps to attention for a quick and quiet getaway.

Vehicle Stability Control (VSC)

VSC prevents loss of car control in certain situations. For example when entering a bend too fast and encountering slippery conditions that could cause a skid. Sensors around the car monitor wheel rotation, brake pressure and car movement. If the system calculates the

driver is about to lose control of the car, various stability and safety systems are applied to an appropriate degree.

Variable Valve Timing with intelligence (Dual VVT-i)

Precise petrol engine technology that balances optimised driving pleasure with low fuel consumption and low emissions. Dual VVT-i refers to the engine's

ability to alter the timing of the intake valve opening. This means that valve timing is optimised for any driving condition.

Traction Control (TRC)

If you accelerate too hard and cause the drive wheels to lose grip and begin spinning, TRC will instantly reduce engine power to help restore traction.

Glossary

Discover more about Urban Cruiser technology.

Anti-lock Brake System (ABS) with Electronic Brake Force Distribution (EBD)

ABS helps you maintain control by electronically balancing the braking force between all four wheels to match the level grip of each one. EBD complements this by optimising brake force

distribution between each wheel. Together the two systems help prevent the wheels from locking, and allow you to steer around obstacles as you halt.

Brake Assist (BA)

BA automatically supports emergency braking if the brakes are applied quickly but without sufficient pressure on the pedal. It does this by measuring how fast and how hard the brake pedal is depressed and then, if

appropriate, increasing braking force. The timing and degree of assistance reflects your own braking action, when you ease the pressure on the pedal, BA similarly reduces the amount of assistance.

SRS Airbags

For safety, the Urban Cruiser has seven full Supplementary Restraint System (SRS) airbags including curtain shields and a driver's knee airbag fitted strategically to reduce injury in a collision.

Active Front Headrests

Prior to impact, the pre-crash intelligent headrests shift to appropriate positions to reduce whiplash injuries in the event of a rear end collision.

ISOFIX seat fixing

The seating incorporates special anchor points – including a top tether that helps prevent the seat tipping forward - for a safe and convenient way of correctly securing ISOFIX child seats (available from your Toyota Centre).

Electrochromatic mirrors

A specially designed rear view mirror that detects any intense glare from cars behind you, automatically darkening the mirror surface accordingly.

Smart Entry & Start System

Instead of a conventional key the Smart Entry & Start System features a transmitter that allows you to unlock the doors by simply touching the handle and start the engine at the touch of a button. All you need to do is carry the Smart Entry key in your pocket or handbag.

Toyota and the environment

To achieve lower emissions and greener vehicles on the way toward the ultimate eco-car, it is essential to measure progress. Toyota has therefore developed its Ecological Vehicle Assessment System, or ECOVAS. This is a comprehensive approach to assessing a vehicles whole life cycle in terms of its impact on the environment, starting at the early stage of development, before the vehicle is actually built.

The environmental impact of the Urban Cruiser (1.4 l diesel) compared to a former equivalent SUV model is demonstrated through the complete life cycle with 27% CO₂ (carbon dioxide), 43% NOx (nitrogen oxide), 26% NMHC (non-methane hydrocarbons), 40% PM (particulate matter) and a 24% SOx (sulphur oxide) reduction.

Making your car

During the production of your vehicle every effort is made to reduce the effect of the manufacturing process on the environment.

Since 2002 the environmental impact of manufacturing has continuously reduced, resulting in a 14% reduction in CO₂ emissions, 14% reduction in water consumption and 39% reduction in volatile organic compounds. Waste disposed of at cost was also reduced by 3%.

Getting vehicles and parts to you

We are always looking to employ the most efficient and environmentally friendly logistical and delivery methods. For instance, modes of transport with the least environmental impact are selected wherever possible.

Selling and servicing your car

We take great pride in demonstrating the benefits of driving eco-cars to each of our new customers. Every opportunity is then taken to raise awareness of their ongoing responsibility towards the environment when servicing and driving their car.

The end of the road for your vehicle?

95% of the Urban Cruiser is recoverable, 100% of materials are coded and the four heavy metals have been eliminated completely (in accordance with 2000/53/EC)

In addition, according to our environmental policy we offer Toyota drivers new and innovative ways of returning their old car. For more information visit: www.toyota.co.uk/environment or contact your local Toyota Centre.

Drive thoughtfully

Drive your car in the right way and you could reduce your fuel bill and your CO₂ emissions by around 30%.

- 01. Remove any extra weight and roof load.
- 02. Plan your route and avoid detours.
- 03. Avoid using your car for short journeys.
- 04. Check your tyre pressure regularly.
- 05. Service your car according to the owner's manual.
- 06. Shift up gear earlier.
- 07. Only use air conditioning when necessary.
- 08. Follow and anticipate traffic flow.
- 09. Keep your windows closed.
- 10. Switch off your engine if you have to wait longer than 60 seconds.

Owning an Urban Cruiser means you enjoy the peace of mind afforded by Toyota's global reputation for quality and integrity.

Flexible Finance from Toyota Financial Services

When choosing your new car you will make sure you choose the right model, the right specification and the right colour to suit you. Choosing how you finance your car is just as important.

Our range of finance plans have been designed with simplicity in mind to make funding your car as easy as driving it. All our plans offer easy budgeting and peace of mind and **AccessToyota** brings these and other benefits together in one flexible package.

AccessToyota is a finance plan that puts you in control You don't have to worry about finding a large deposit as you agree the amount of deposit that you want to pay and choose your repayment term from 2 to 3 years.

What makes **AccessToyota** different is that Toyota Financial Services (TFS) give your vehicle the security of a guaranteed future value (GFV) which is your optional final payment, deferred to the end of the agreement. Affordable monthly payments are yours to enjoy as your repayments are based on the vehicle selling price less your deposit and the GFV/optional final payment, plus the cost of borrowing.

In addition, you can have reassurance against the risk of a fall in used car prices, knowing the minimum amount your Toyota will be worth at the end of your agreement is guaranteed at TFS.

Then when your agreement comes to an end you have three flexible choices:

— Part exchange your vehicle for a brand new Toyota

- Pay your final payment (the GFV) and take full ownership of the car^o
- Simply hand the car back with nothing more to pay§

Ask your Toyota Centre to show you how AccessToyota could be the best choice for you.

Flexible Finance for all Toyota Customers

Whatever your needs, to complement AccessToyota, TFS has a full range of finance options to offer. From traditional Hire Purchase to Contract Hire and Leasing.

Whether you're a private motorist with a fixed monthly budget in mind or a business customer looking for VAT efficient funding options, just discuss your individual requirements with your Toyota Centre. They will be pleased to show you how convenient and competitive Toyota Financial Services can be.

- § Except on non-Toyota vehicles.
- On payment of the option to purchase fee.

Finance subject to status to over 18s only. Indemnities may be required. Terms and conditions apply. Toyota Financial Services is authorised and regulated by the Financial Services Authority. Toyota Financial Services, Great Burgh, Burgh Heath, Epsom, Surrey, KT18 5UZ.

On the day you purchase your Urban Cruiser, your Toyota Centre will present you with the 'Urban Cruiser Passport'. It's a guide to getting the best out of your Urban Cruiser and its comprehensive range of features. Of course, your Toyota Centre will explain the Urban Cruiser to you in detail - and always be available should you require any assistance.

Club Toyota

When you buy a Toyota you automatically become a member of Club Toyota, for 12 months free of charge. This entitles you to take advantage of a host of benefits including free RAC Roadside Assistance in the UK and Europe, specially negotiated rates for travel insurance, a 5% discount off Toyota Motor Insurance, plus exclusive offers and promotions through our quarterly customer magazine. For further information please call 0845 275 5555 or visit www.toyota.co.uk/club

Toyota Motor Insurance

Toyota Motor Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Centre or call 0800 350 500.

Toyota Fleet

Toyota Fleet provides complete business solutions for companies that run a fleet of vehicles. For more information on how Toyota Fleet can deliver your fleet requirements either contact your local Toyota Centre or the Toyota Fleet Business Centre on 0845 271 2712.

Toyota Warranties

Every new Toyota comes with a three-year/60,000-mile manufacturer's warranty, covering your car against the unlikely event of a manufacturing defect causing a mechanical fault. It includes coverage for paint and surface rust for three years with unlimited mileage and a 12-year anti-perforation warranty.

After the initial warranty period has ended, you can extend your warranty until the vehicle is seven years old - choosing from a range of packages to suit your vehicle and your needs. Our Extended Warranty covers the main component parts of the vehicle*, meaning that you pay

for nothing beyond routine servicing and maintenance, so there are no unexpected bills to pay.

* With the exception of batteries, corrosion of exhaust and damage or wear to the interior. Please refer to our Terms and Conditions for full details.

Toyota Accident Assistance

At Toyota, we believe that our customers deserve the best possible care. Therefore if you are involved in an accident, one call to Toyota Accident Assistance will get you back on the road again, whilst we take care of liaising with your insurer and arranging for your car to be repaired. By making us your first call, we will ensure your vehicle is repaired by Toyota to factory standards, meaning no compromise to your warranty or residual value.

Toyota Approved Used Car Scheme

All Toyota Approved Used vehicles come complete with a pre-delivery inspection, a mileage check, 12 months warranty, RAC breakdown cover, Club Toyota membership§ and a 30 day vehicle exchange plan.

Recycling Toyota End-Of-Life Vehicles

We offer a free vehicle take back scheme through our appointed service provider, Autogreen. This is a new and innovative way for Toyota drivers to return their vehicle at the end of its life for dismantling and recycling. For more information about End-Of-Life Vehicles please refer to www.tovota.co.uk/environment

Intelligent design

The Urban Cruiser is designed and engineered to minimise the maintenance overhead. There are fewer parts that require servicing and those that do are inherently durable to extend service intervals. Equally important is that Urban Cruiser technology is made easily accessible so that maintenance labour time can be minimised. These features combine with the highly competitive pricing of Toyota parts to ensure the lowest cost of maintaining your Urban Cruiser in an ideal working condition.

Toyota quality service

Your Toyota Centre will talk you through the Urban Cruiser 'Health and Safety' maintenance programme.

The programme is very straightforward and designed for your convenience. In effect, your Urban Cruiser needs a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 20,000 miles (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 10,000 miles (whichever comes sooner).

Toyota warranty

Comprehensive terms The warranty covers any defect caused by a manufacturing or assembly fault. It is valid for three years of normal use or 60,000 miles, whichever comes first, with no mileage limitation for the first year. If the car is immobilised due to a breakdown (as a result of a defect covered under warranty), you will also be covered for the cost of towing your vehicle to the nearest authorised Toyota repairer.

Rust and paint defects The warranty also covers surface rust and paint defects appearing on any of the painted body panels as a result of a fault in material for a period of 3 years, regardless of mileage.

Corrosion cover The warranty offers 12 years' coverage, regardless of mileage, against perforation of the bodywork (from inside to outside) that develop due to corrosion caused by faults in material or workmanship.

Toyota genuine parts

The Urban Cruiser is designed to minimise the cost of accident repair. Energy absorbing elements are built into the bumpers, expensive to replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low part and labour charges.

Added security

The Urban Cruiser's security system withstands the insurance industry's rigorous five-minute attack test and provides excellent protection. Both the alarm system and engine immobiliser are approved by Europe's major insurance companies.

To experience the Urban Cruiser or for more information, please contact your local Toyota Centre or visit our website www.toyota.co.uk/urbancruiser
