

## Introduction

### **The capacity to benefit your business**

Spacious, versatile and stylish, premium estates are invaluable to a corporate fleet – and you won't find a finer example than the E-Class Estate.

Powerful yet frugal BlueEFFICIENCY engines feature on all 4 and 6 cylinder models, with the E 220 CDI and E 250 CDI offering CO<sub>2</sub> from 150 g/km and Benefit in Kind from 21%. Both fall below the 160g/km capital write down allowance.

In addition, the E-Class Estate combines a class leading load capacity of up to 1,950 litres with an Easy-Pack automatic powered tailgate and the Easy-Pack Quickfold system, making loading and unloading more convenient. A choice of distinctive models – SE, Avantgarde and Sport – satisfies a range of requirements.

As for duty of care, extensive standard safety equipment ranges from Attention Assist and Adaptive High Beam Assist\* to the Active Bonnet.

\* Standard on Avantgarde and Sport models only. Not available on SE model.

## Versatility

### **Space that works**

For all its luxury and style, the E-Class Estate works exceptionally hard for its drivers. The load compartment has a class-leading capacity of up to 1,950 litres and the self-levelling rear air suspension ensures it can handle even the heaviest cargo. A low sill enables convenient loading and unloading and drivers will also appreciate the Easy-Pack automatic powered tailgate, which can be opened remotely via a button on the key fob and closed with the touch of a button on the tailgate or drivers door.

Seating can be reconfigured easily, thanks to the quickfold lever on the rear seat backrests – or a release catch in the load compartment. In addition, the load compartment has a two-piece folding floor to accommodate taller items and a load retaining net to protect the passenger compartment from any unwanted intrusions.

Other useful optional equipment includes a pair of folding rear-facing child seats fitted within the load area and an Easy-Pack load-securing kit with rear sill protector.

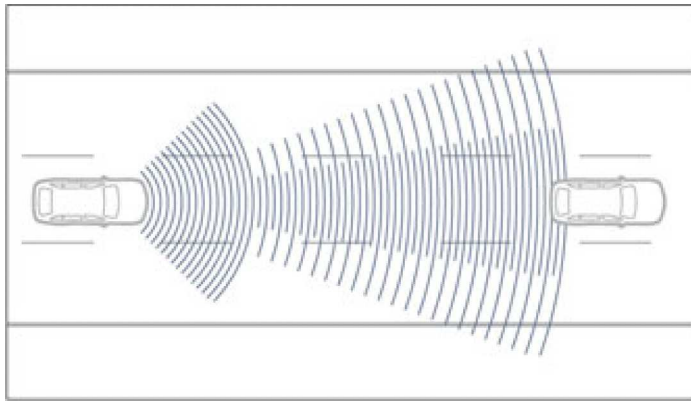

## BlueEFFICIENCY

### **Lower costs for you and the environment**

All 4 and 6 cylinder models of the E-Class Estate incorporate BlueEFFICIENCY measures to minimise fuel consumption and CO<sub>2</sub> emissions. The 4-cylinder diesel engines are particularly frugal, using 4th generation common-rail technology and dual turbochargers to maximise economy without compromising performance.

Both the E 220 CDI and E 250 CDI produce just 150 g/km CO<sub>2</sub> (manual) and 159 g/km CO<sub>2</sub> (auto) with Benefit in Kind of just 21% or 22% respectively. The cars offer a capital write-down allowance of 20% with combined fuel economy of up to 49.6 mpg (on a combined cycle). The E 350 CDI BlueEFFICIENCY and E 350 BlueTEC, both with potent V6 diesel engines, are also available offering greater power and acceleration.

The E-Class Estate also offers a choice of highly efficient direct injection petrol engines – the E 200 CGI BlueEFFICIENCY, E 250 CGI BlueEFFICIENCY and E 350 CGI BlueEFFICIENCY. However, should even more potent performance be required, the E 500 and E 63 AMG will fit the bill.

## Duty of care

### Raising the bar for safety

At Mercedes-Benz we appreciate that duty of care is a key concern – and we've equipped the E-Class Estate accordingly.

Innovative safety measures include Attention Assist, which helps monitor the driver for signs of fatigue and alerts them if required – a real asset when spending long periods on the road.

Should an accident happen, occupants are well protected by the E-Class Estate's advanced bodyshell design, which absorbs and redistributes huge amounts of energy in a collision. They also benefit from nine airbags as standard, including a driver's kneebag and front seat pelvis bags.

Other standard features include Pre-Safe®, our pioneering anticipatory safety system, and the Active Bonnet to enhance pedestrian safety. The Intelligent Light System – standard on the Avantgarde and Sport models – adds systems such as Adaptive High Beam Assist to the safety mix where upon detecting oncoming traffic, the headlights automatically dip the beam and can also vary the range on low beam for maximum visibility.

Parktronic with Advanced Parking Guidance, to the front and rear, is also included to help reduce the risk of costly bumps and scrapes. A Bluetooth™ interface for hands free telephony is standard across the range.

## Packages

### **Enhancing safety, versatility and luxury.**

The E-Class Estate offers a range of optional packages to help satisfy specific fleet requirements.

For added peace of mind, the Driving Assistance Package incorporates Blind Spot Assist, which alerts drivers if a vehicle is in their blind spot, and Lane Keeping Assist, which warns them if they unintentionally stray out of their lane. DISTRONIC Plus with Pre-Safe® Brake is also included to help them maintain a safe distance to the vehicle ahead.

Other safety enhancements include the Rear Safety Package, featuring additional rear airbags and adaptive belt force limiters, along with optional Night View Assist which displays an infra-red view on screen of the road ahead to improve visibility on poorly lit roads.

Drivers can also opt for the Rear Seat Entertainment package, featuring a DVD player and twin 8-inch displays integrated into the front seat head restraints – a welcome addition on long journeys. Alternatively, the Luxury Package brings exclusive touches to the Estate's interior, such as nappa leather upholstery, Alcantara® roof lining and contrast stitching on the dashboard.

## Design

### **A new breed of estate**

With its striking twin-headlamp face and sleek, purposeful character lines, the E-Class Estate makes an eye-catching addition to your business fleet. Distinctive details range from the pronounced Arrow-shape of the bonnet and grille to the LED taillights. All models include daytime running lights, with the Avantgarde and Sport models benefitting from LED daytime running lights.

Inside, the emphasis is firmly on luxury, comfort and convenience. The car's contemporary interior design echoes its dynamic exterior styling and high quality materials feature extensively throughout. As you'd expect, all occupants enjoy generous amounts of legroom and the combination of ergonomic seating, intelligent cabin layout and intuitive controls ensures a safe, relaxing driving experience.

SE

Avantgarde

Sport

## Model lines

### **Beautifully appointed, generously equipped**

The E-Class Estate comes in three distinctive model lines - SE, Avantgarde and Sport - each combining extensive standard equipment with expressive design features.

The SE, for example, comes with 16" 5-twin-spoke alloy wheels, twin oval fog lamps, black roof rails and Artico man-made leather upholstery with heated front seats. Standard-fit Parktronic with Advanced Parking Guidance, to the front and rear, provides visual and acoustic steering guidance when parking.

The sophisticated Avantgarde has leather upholstery throughout, plus exclusive 17" alloy wheels. Standard equipment includes the Intelligent Light System and ambient lighting in the dashboard and door panels.

The Sport emphasises the E-Class Estate's dynamic side, with bold AMG bodystyling, 18" AMG alloy wheels and sports suspension. Interior highlights include AMG floor mats and front sport seats in Artico / Microfibre upholstery with contrast stitching.

## Comfort & driving dynamics

### **Putting the pleasure into business travel.**

Exceptional ride quality and superb long journey comfort are integral to the E-Class Estate. All models are fitted with Direct Control comfort suspension with Adaptive Damping as standard, which continuously adapts the shock absorption to suit the driving situation. Self-levelling rear air suspension is another key feature, offering the handling of the Saloon with the versatility of an Estate.

Handling is precise and assured, with Parameter speed-sensitive power steering (standard on the Sport model and V6/V8 engines) providing supremely agile and responsive cornering.

To ensure occupants arrive at their destination feeling relaxed and refreshed, standard features range from Automatic Climate Control to Ambient Lighting. Optional extras include Dynamic Multi-contour Seats with integrated massage function.

## Pricing

### Cautions regarding forward-looking statements

Internet pages, investor relations releases, annual and interim reports, outlooks, presentations, audio and video files of events (live or recorded) and other documents on this website contain among other things forward-looking statements that reflect management's current views with respect to future events. The words 'anticipate,' 'assume,' 'believe,' 'estimate,' 'expect,' 'intend,' 'may,' 'plan,' 'project' and 'should' and similar expressions identify forward-looking statements. Such statements are subject to risks and uncertainties, including, but not limited to: an economic downturn in Europe or North America; changes in currency exchange rates, interest rates and in raw material prices; introduction of competing products; increased sales incentives; the successful implementation of the new business model for smart; and decline in resale prices of used vehicles. If any of these or other risks and uncertainties occur (some of which are described under the heading 'Risk Report' in Daimler AG's most recent Annual Report and under the heading 'Risk Factors' in Daimler AG's most recent Annual Report on Form 20-F filed with the Securities and Exchange Commission), or if the assumptions underlying any of these statements prove incorrect, then actual results may be materially different from those expressed or implied by such statements. We do not intend or assume any obligation to update any forward-looking statement, which speaks only as of the date on which it is made.
