- How the new C-Class Edition 125 compares
- Standard Equipment
- Technical Data

The new C-Class Edition 125 makes an impressive addition to your fleet, boasting a generous level of specification that includes our COMAND Online navigation and multimedia system as well as a host of technical innovations such as Front and Rear Parktronic and Attention Assist, which monitors your driving style.

What's more, the new C-Class Edition 125 offers class-leading Whole Life Cost with a saving of £2,473.05 for the C 220 CDI BlueEFFICIENCY Edition 125 SE Saloon over 3 years, together with a Residual Value £1,750 higher than the BMW equivalent. BIK tax is also as low as 13% for the Saloon and 18% for the Estate

In this guide, you'll discover how both the saloon and estate compare to the BMW 320 d SE in terms of fuel consumption, pence per mile, P11D price and more. And why this particular C-Class edition is the ideal cost-effective choice.

- Technical Data

CAP's benchmark analysis reports that the C 220 CDI BlueEFFICIENCY SE Edition 125 Saloon Manual has class-leading environmental credentials and delivers significant savings.

“The new Mercedes-Benz C Class C 220 CDI BlueEFFICIENCY SE Edition 125 saloon is a real cost champion. Compared to an Audi A4 2.0 TDi SE (Stop Start) it offers the company fleet manager savings worth almost £2900 over 36 months through considerably lower servicing costs and a far higher forecast value in three years time. And because of its class leading environmental credentials the company car driver would be almost £1600 better off by choosing the SE Edition 125 over a BMW 320d (184) SE and over £2000 better off compared to the Audi.”

CAP also highly recommends the C 220 CDI BlueEFFICIENCY SE Edition 125 Saloon Auto.

“With fuel consumption over 10% better than a BMW 320d (184) SE Step Auto saloon, the new Mercedes-Benz C 220 CDI BlueEFFICIENCY offers substantial fuel cost savings of almost £700 over 60,000 miles at today's prices. And on top of that there are benefit in kind savings of £955 over a three years period which all adds up to a highly attractive package that's not only kinder to the environment than the competition through lower CO₂ emissions but also far kinder to the company car drivers pocket to the tune of over £1600.”
