# PROTECTING THE FUN OF DRIVING. AND YOU.

In the S60 or V60 you're in safe hands. Because your new car comes with the option to add an incredible array of advanced features to give both driver and passengers all the support and protection they need. Which is not surprising, because no other carmaker in history can match Volvo's record of industry-leading safety innovations.

Included as standard on your S60 or V60 is City Safety, which senses potential collisions (active from 2 to 31 mph) and can activate the brakes should you not react in time.

(i) For best performance and lowest fuel consumption 98 RON is recommended, 95 RON can be used for normal driving

(ii) The results do not express or imply any guarantee of the fuel consumption of a particular car

(iii) Official fuel consumption figures are obtained in accordance with Directive 93/116/EC as amended by 1999/100/EC. The figures are obtained under controlled test conditions and as such consumption achieved on the road will not necessarily accord with the official test results. Factors including driving styles and road, car and weather conditions will also have a bearing on actual fuel consumption achieved

(iv) Unbraked towing weight must not exceed 50% of kerb weight up to a maximum of 750 kg

(v) All diesel models are fitted with a particulate filter

**Notes:** The weight of the vehicle will influence the level of CO<sub>2</sub> emitted and as a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO<sub>2</sub>. However, vehicle tax is paid according to the weight and CO<sub>2</sub> emissions of the standard vehicle, as published in this price list. A weighbridge must be used to determine specific weights. Data valid for manual transmission unless specified. Auto = Geartronic Automatic Transmission.
