**CLASSIC MINI MEETS THE MINI OF TODAY.
THE RESULT: MINI UNITED.**

Misano, Amsterdam, Silverstone and Le Castellet – four towns in four countries, all with one thing in common: for a few days, they've all been the most attractive town in the world – at least for MINI fans, owners, and connoisseurs. The MINI United open air festival is where the MINI community comes together to enjoy a spectacular mix of music, motor sports and lifestyle activities.

The real attractions at this event are, of course, the MINI models. Connoisseurs' favourites like the 1959 Classic Mini get the full red carpet treatment. Hot on their heels come ultra-stylish models, race cars and a few surprises to boot – in short, MINI United has all it takes

to quicken the pulse of MINI fans of all ages. Because some things, after all, never go out of fashion. Like the low centre of gravity, short wheelbase and legendary go-kart feeling all MINI models are famous for – or those eye-catching lines and that distinctive profile. And not forgetting those all-important Chrome elements that make an exceptional car a MINI, just as they always have done.

MINI COUPÉ.

**THE WRONG PART
OF TOWN NEVER
FELT SO RIGHT.**

Most people would turn weak at the knees, but for adventurous spirits, it's a sight to make the spirits soar: the MINI Coupé. Built for pure driving excitement.

GARNIVAL

Sorry we are
CLOSED

DEV-0587

COOPER S

**BORED OF LEFT
AND RIGHT?
THEN TRY A WHOLE NEW
DIRECTION.**

The MINI Coupé is licensed to thrill. Dynamic styling and contrasting sport stripes ensure it makes an impact from any angle. So sit back and admire the view.

**TWO SEATS, 143 HP –
AND 365 DAYS OF
ADVENTURE A YEAR.**

Surprised by the crowds? You shouldn't be.
The MINI Cooper SD Coupé is one stunning looker.
You'll just have to get used to the attention.

YOU DON'T CHOOSE TO BE A FAN. YOU'RE BORN ONE.

The MINI Coupé and MINI Roadster are genuine sports cars, with a low seating position, direct steering, and stiff bodywork. This uncompromising concept is no better expressed than in the John Cooper Works models. The MINI John Cooper Works Coupé and MINI John Cooper Works Roadster boast a 211-horsepower 1.6-litre TwinScroll turbo engine, and offer up to 280 newton-metres of torque – enough to satisfy the most discerning MINI aficionados. A wide range of modifications have been made to the vehicle's design and technology, in order to get the most out of this enviable power, resulting in a driving experience that is out of this world.

**HUNGRY FOR ADVENTURE. NOT FOR FUEL.
THE MINI COUPÉ AT A GLANCE.**

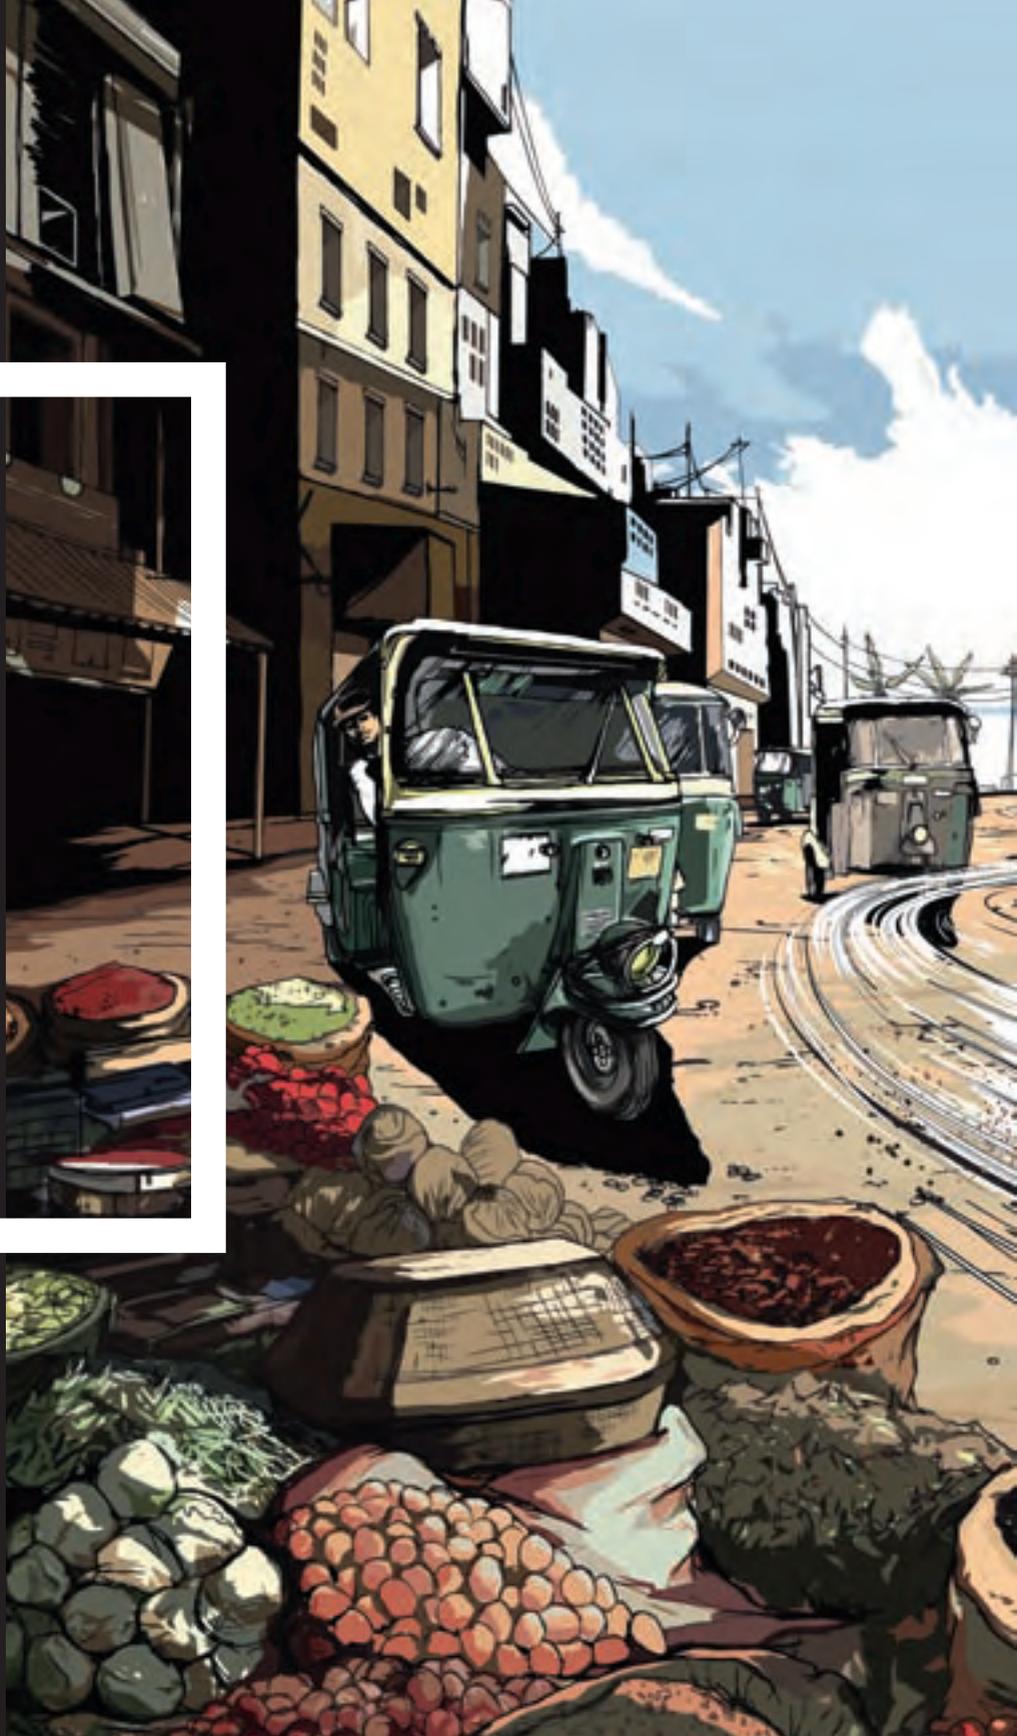

- 1 DESIGN: DYNAMIC.** The heavily slanted front windscreen and low roof create a sweeping profile. Together with the sport stripes and active rear spoiler, this makes for a look which isn't just elegant, but exudes speed.
- 2 ENGINE: POWERFUL.** The four-cylinder twin-scroll turbo engine fitted to the MINI Cooper S Coupé was voted Best Engine Of The Year¹ in its class five years in a row. This state-of-the-art power plant is just one of the reasons why this is such a pulse-racing sports car.
- 3 RESPONSES: INSTANTANEOUS.** Stiff bodywork, a low centre of gravity and incredibly direct steering add up to superb acceleration, great traction, and more wow factor.
- 4 AERODYNAMICS: BREATHTAKING.** The streamlined front end, low wind resistance and automatically extending active rear spoiler deliver more grip and enhanced safety.
- 5 MINIMALISM²: INNOVATIVE.** Shift Point Display, Automatic Start-Stop Function, Brake Energy Regeneration and fully variable valve timing deliver maximum fun with minimum fuel consumption. For example, the MINI Cooper SD Coupé manages 65.7 mpg on the combined cycle whilst also offering a 0 to 62 mph sprint time of just 7.9 seconds.

¹ For more information about the "Best Engine Of The Year" award, visit www.ukipme.com/engineoftheyear/

² MINIMALISM features may vary depending on the optional equipment fitted. Please contact your MINI Dealer for further information.

MINI ROADSTER.

MAKING EVERY CORNER A BREATH OF FRESH AIR.

Now every corner is an experience to remember. Laid-back styling, smart technology and the trademark MINI driving experience make this two-seater a stimulating companion on any road trip. The punchy engine of the MINI Roadster powers it on towards its next adventure. And if you'd rather face that with the roof up, all it takes is a matter of seconds.

STYLE AND PRACTICALITY? CHECK.

Packed with good ideas: the roll-over bar in polished stainless steel, an automatically extending active rear spoiler and a through-loading hatch between the cabin and the 240-litre luggage compartment. Features designed with the head, so you can follow your heart, and enjoy motoring unplugged.

**A LOW-SLUNG
HIGH FLYER
THAT'S AS
FREE AS A BIRD.**

Get the top down, take a deep breath, and hit the gas. Enjoy the sound of the engine, and lap up every mile in a vehicle that is irrepressibly British, while not in the least bit reserved – the MINI Roadster.

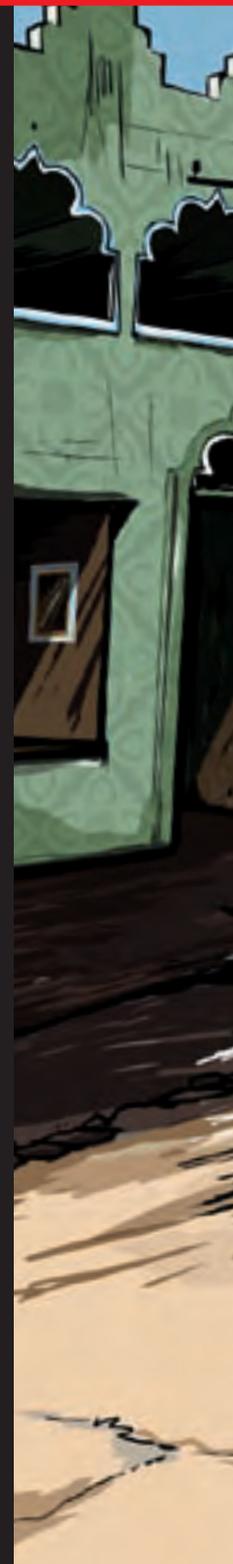

ROCK 'N' ROADSTER.

Following in the tyre tracks of a legend: the first MINI John Cooper Works Roadster has a rich tradition of driving fun to live up to. For extra excitement, it comes with a Sport button and an overboost function. An exciting range of interior equipment and optional exclusive Recaro sport seats, featuring Dinamica/leather combination upholstery in Carbon Black, are sure to get hearts beating even faster. So climb in, and get ready to rock.

Interested? To find out more about the MINI John Cooper Works, see the latest MINI John Cooper Works Brochure.

GET AWAY FROM BACK SEAT DRIVERS.

- 
- 1 CONCEPT: LEGENDARY.** A two-seater, open-top sports car, stripped down to the essentials – what could be more traditional? Emotionally engaging design with sculpted side sections, and roll-over bars in polished stainless steel – what could be more appealing?
 - 2 DRIVING EXPERIENCE: INIMITABLE.** The most dynamic open-top MINI ever, with a low centre of gravity, stiff bodywork and an active rear spoiler, for the ultimate go-kart thrill.
 - 3 VERSATILITY: INCREDIBLE.** The MINI Roadster could not be better suited to everyday adventuring – it features 240 litres of luggage capacity, an intelligent through-loading system, and countless storage compartments.
 - 4 AERODYNAMICS: BREATHTAKING.** The low vehicle height, heavily slanted front windscreen and intelligent aerodynamics reduce the wind resistance, while the automatic active rear spoiler maximises downforce, for a fun-packed ride on every journey.
 - 5 SOFT-TOP: CLASSICAL.** Open or closed? In less than 10 seconds, and at speeds of up to 20 mph, MINI Roadster drivers can quickly lower or raise the semi-automatic soft-top roof. The soft-top can be operated at the push of a button, and is secured with a simple twist of a handle.

**YOUR MINI COUPÉ
AND MINI ROADSTER
IN DETAIL.**

MODELS.

MINI IN DETAIL.

Adventurers have to make some tough decisions in life – like whether to go for the Cooper, Cooper S, Cooper SD or John Cooper Works. Then there's a whole host of different colours, seats, upholsteries, interiors and trims to choose from. Being spoiled for choice has never been so much fun.

MINI.CO.UK/CONFIGURATOR

Please check online for an overview of all the optional equipment.

MODELS.

MINI COOPER COUPÉ.

First impressions count: on the MINI Cooper Coupé, the radiator grille slats are chrome-plated, the exterior mirrors are finished in the same contrast colour as the roof, and the side scuttles with built-in white direction indicator lights are in black. Chrome elements such as the exhaust tailpipe and tailgate handle add emphasis to the powerful rear end of the car.

MINI COOPER S COUPÉ.

The MINI Cooper S Coupé is not afraid to show what it's got, with a sporty hexagon-look radiator grille, a central air intake in the bonnet, and a front bumper featuring two separate air ducts to cool the brakes. At the rear, the exhaust system has two stylish chrome-plated tailpipes.

MINI COOPER SD COUPÉ.

With 305 Nm available at just 1,750 rpm, the MINI Cooper SD Coupé is the sports coupé that walks the torque. Visually it looks just as dynamic as the MINI Cooper S Coupé: the side scuttles with white direction indicator lights are chrome-plated, and bear the red MINI Cooper S emblem.

MINI COOPER ROADSTER.

With its sparkling chrome-plated radiator slats, tailpipe and tailgate handle, the MINI Cooper Roadster fully embodies the motorsport styling of other Cooper models. The side scuttles with built-in white direction indicator lights are finished in black, as is the traditional soft-top.

MINI COOPER S ROADSTER.

The MINI Cooper S Roadster is not afraid to show its sporty side, with a hexagon-look radiator grille, an eye-catching air intake in the bonnet and a front bumper featuring two separate air ducts to cool the brakes. The chrome-plated side scuttles incorporate white direction indicator lights and bear the red Cooper S emblem, while two chrome tailpipes provide the perfect finishing touch.

MINI COOPER SD ROADSTER.

In terms of looks, this vehicle is just as sporty as the MINI Cooper S Roadster, with its hexagon-look radiator grille, air intakes on the bonnet and front bumper, and chrome on the side scuttles and tailpipes. When it comes to performance however, the MINI Cooper SD Roadster is a strong contender, delivering a staggering 305 Nm of torque at 1,750 rpm.

COLOURS.

COLOURS.

ADVENTURE COMES IN MANY COLOURS.

Want to really show off your style? It couldn't be easier with the fresh and funky colours available for the paintwork, roof and upholstery of the MINI Coupé and MINI Roadster. Get creative now at MINI.CO.UK/CONFIGURATOR

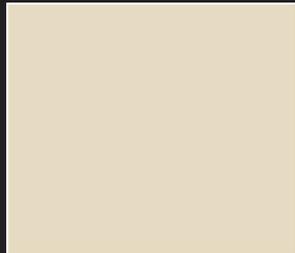

- ① EXTERIOR COLOURS.
- ② ROOF COLOURS FOR COUPÉ.
- ③ SOFT-TOP COLOUR FOR ROADSTER.

EXCLUSIVE MINI YOURS COLOUR.

¹ Where the exterior colour is Midnight Black metallic, the roof in Jet Black is replaced by a roof in Body Colour.

² Available from end of fourth quarter of 2012.

³ The contrast roof in Pure Silver is not available after October 2012.

COLOURS.

SPORT 'N' STRIPES.

Sport stripes – the classic symbol of speed and panache. And there's no finer example of that than the sport stripes for the MINI Coupé and the MINI Roadster. Available with stylish colours for the roof and exterior mirrors.

The sport stripes in Black go perfectly with the **exterior mirror caps** in gloss black.

[MINI.CO.UK/CONFIGURATOR](https://www.mini.co.uk/configurator)

Visit the Configurator to learn more about the wide range of optional equipment.

THE FINISHING TOUCH.

The exterior mirror caps come as standard in the same contrast colour as the roof on all MINI Coupé models.

The exterior mirror caps in body colour are available for all MINI Roadster models.

All models are also available with the option of a chrome finish on the exterior mirror caps.

Even when the MINI Coupé is not moving it looks quick. Where the roof is in black, the sport stripes on the bonnet and rear are in the same colour. However, the roof stripes are in Body Colour, making a striking contrast. Sport stripes can also be found on the MINI Roadster, on the bonnet and rear.

Sport stripes in silver give the MINI Coupé a particularly elegant look. Here too, the roof is in the same colour as the stripes on the bonnet and rear of the car, while the stripes on the roof are in body colour. The same applies to the MINI Roadster – with the exception of the roof, of course. Get it? Good!

WHEELS.

WHEELS.

YOU CAN'T REINVENT THE WHEEL. ALLOYS THOUGH, ARE ANOTHER MATTER.

Wheels are a vital part of your MINI – and there's a great all-round selection to choose from. Take a look at these light-alloy wheels at your leisure, and you'll soon find the one that looks just right for your MINI.

Use the Configurator to see the wheel of your choice on your MINI.

EXTERIOR.

EXTERIOR.

MAKE A STATEMENT AT THE TOUCH OF A BUTTON.

For the ultimate driving high, there's nothing better than a little downforce. The automatic **active rear spoiler** means the MINI Coupé and MINI Roadster have exactly this in abundance. As the vehicle increases its speed, the spoiler increases the pressure applied to the rear axle, delivering superior traction and incredible road holding. What's more, for the first time in MINI history, the active rear spoiler is fitted as standard. It automatically deploys at 50 mph and retracts at 37 mph, though drivers who like to stay in control can also deploy it manually, at the push of a button.

1. Chrome Line Exterior

2. Chrome Line Exterior

3. Chrome Line Exterior

4. Chrome Line Exterior

1.– 4. Add some sparkle, with the **Chrome Line Exterior**. For the MINI Cooper Coupé and the MINI Cooper Roadster this includes chrome edging for the lower front grille and front fog lights. At the rear, the central fog light features

chrome edging. The MINI Cooper S/SD Coupé and the MINI Cooper S/SD Roadster have even more of a good thing, featuring chrome edging for the brake-cooling front air ducts, rear fog lights and a chrome tailgate handle.

EXTERIOR.

1. Bi-xenon headlights

2. Rear fog light

4. Adaptive Headlights

5. Rear fog light and Park Distance Control (PDC)

7. White direction indicator lights

8. White direction indicator lights

1. **Bi-xenon headlights** for low and full-beam settings, with headlight beam-throw control and headlight washer system, offer particularly powerful illumination.

2. The **fog light** fitted in the centre of the bumper also includes the reversing light, positioned on the left and right of the fog light.

3. The **fog lights** built into the front bumper increase safety in poor visibility.

4. **Adaptive headlights**, featuring automatic headlight beam-throw control, ensure optimum illumination whether driving in city or country, and allow

drivers to see further ahead on the motorway. Sensors measure the steering angle, rate of turn and vehicle speed, and electric motors then adjust the position of the light beam accordingly to suit the speed and direction of the car.

5. The **fog lights** built into the left and right of the bumper grille on the MINI Cooper S/SD models also contain the reversing light. **Park Distance Control (PDC)** at the rear makes parking and manoeuvring in tight spaces easier. A warning sound advises the driver of the distance between the vehicle and an obstacle (visual signal also available in conjunction with MINI Radio Visual BOOST).

3. Front fog lights

6. LED rear lights

9. Darkened rear glass

6. The rear lights feature **LED** technology. The direction indicator is ring-shaped, and is positioned in the middle of the main light, while the brake light is split into two sections, above and below the main light. The unique LED light ring means the MINI is instantly recognisable, even at night.

7. – 8. The **white direction indicator lights** feature clear glass in the front, rear, and side scuttle direction indicator lights.

9. A cool feature: the side windows and rear windscreen are tinted a darker colour. Even cooler: darkened rear glass reduces the build-up of heat in the interior of the car caused by strong sunlight, so the driver never feels the heat.

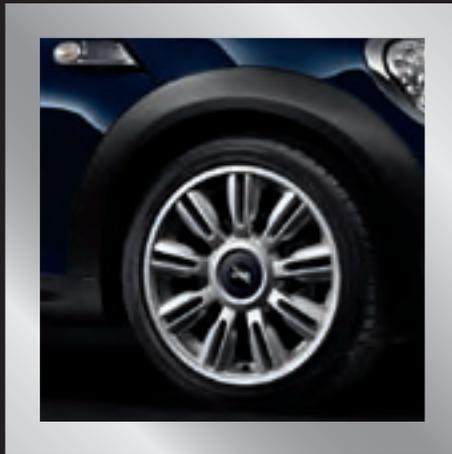

MINI YOURS CUSTOMISATION PROGRAMME.

YOUR IDEAS. YOUR STYLE. MAXIMUM IMPACT.

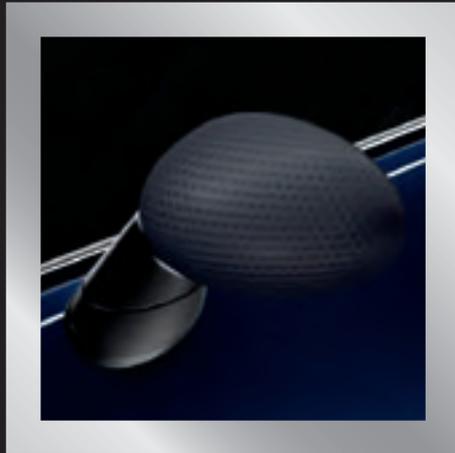

If you appreciate great design and like to be special, then the MINI Yours customisation programme is the perfect way to make your MINI even more individual. The exclusive special colour Reef Blue metallic is just the first step towards your own distinctive look. Unique light-alloy wheels and matching exterior mirror caps, bonnet stripes, a wealth of further options and a complete exterior package will all give your MINI even more personality, and help you get even more fun out of it. For example, give your MINI an exclusive look with MINI Yours Soda side scuttles teamed with MINI Yours Soda bonnet stripes in black.

THE ULTIMATE IN INDIVIDUALISM.

True beauty is on the inside. After all, you don't want passers-by to be the only ones who see your unique taste. You want to see it, feel it, live it yourself. And now, thanks to the options in the MINI Yours customisation programme, you can surround yourself with stylish patterns and luxurious materials.

The MINI Yours leather-upholstered dashboard in Black/Polar Beige.

INTERIOR.

DAZZLE YOURSELF: THE CHROME LINE INTERIOR.

1. Chrome Line Interior (speedo)

2. Chrome Line Interior (cupholder)¹

3. Chrome Line Interior (belt ring)

4. Chrome Line Interior (loudspeakers)

5. Chrome Line Interior (door handles)

1.– 5. With the **Chrome Line Interior**, the instruments, the air vents in the instrument panel, and the ring around the gear lever are all finished in chrome. And if that's not enough, the door handles, loudspeakers in the door

and cupholders are also chrome-plated, while the belt rings have a matt chrome finish.

¹ Rear cupholder not available with chrome edging in combination with front centre armrest.

FANCY SOMETHING EVEN SPORTIER?

1. Shift paddles on the 3-spoke sport leather steering wheel

2. 6-speed Automatic Transmission Steptronic

3. Sport button

1. + 2. The **6-speed Automatic Transmission Steptronic** makes gear changes easier, and – in Steptronic mode – decidedly sporty. In addition to the selector lever, the 6-speed Automatic Transmission Steptronic has two optional shift paddles on the 3-spoke sport leather steering wheel (mandatory for the Cooper S/SD models). These allow drivers to make manually initiated automatic gear changes quickly and safely without taking their hands off the wheel.

3. If you want to push your MINI Coupé or MINI Roadster harder, first you've got to push the **Sport button**. This makes steering and throttle responses more immediate, for an even more involving driving experience. On models fitted with Automatic Transmission Steptronic, it makes gearshift times faster too.

INTERIOR.

MORE THAN JUST ON AND OFF: THE INTERIOR LIGHTS PACK.

In addition to the standard interior lighting in the headliner, the interior lights pack offers door area lighting in the door trims, front reading lights, lights in the front footwells and an additional light in the lower centre console. Exquisite details: the Ambient Lighting for the door handles, door storage compartments, B-pillar trims and instrument panel downlight can cycle steplessly through all the colours of the spectrum.

Available as an option in all MINI models, the centre armrest in the front folds up and comes with an integrated compartment.

INTERIOR.

ROOM TO SPARE.

At 280 and 240 litres respectively, the luggage compartments of the MINI Coupé and MINI Roadster are easy to load, while the standard through-loading system means they can carry bulky items with ease. In addition, important or valuable objects can be securely stowed behind the seats, in a box beneath the load-compartment floor,

or in one of the many storage compartments. Available as an option, a 12-volt socket in the luggage compartment can also be used to power electric devices, while a range of Genuine MINI Accessories solutions, such as the rear-mounted bicycle rack¹, can meet larger transportation challenges.

¹Additional optional equipment required.

Headliner in anthracite with ellipses. The ceiling of the passenger compartment in the MINI Coupé comes as standard in this dark shade, and incorporates recesses in the same elliptical shape as the door trims. The result is more headroom and an uplifting sports-car feel. The controls for the interior lighting, the optional interior lights pack and the active rear spoiler are located above the rear-view mirror.

Get in! The **through-loading function** with lockable hatch measures 360 x 200 millimetres, making it big enough for a guitar, surfboard or anything else you need on your adventures. Even better, it can be opened from the driver or passenger seat, so you can pop small items in the boot without getting out of the car.

**TECHNOLOGY
AND EQUIPMENT.**

TECHNOLOGY AND EQUIPMENT.

The large **speedo** in the middle of the instrument panel includes warning and indicator lights and the fuel gauge.

Where the MINI navigation system or the MINI Radio Visual BOOST is also fitted, the central round instrument features a **speedo** around the outside.

ALL YOU NEED TO KNOW.

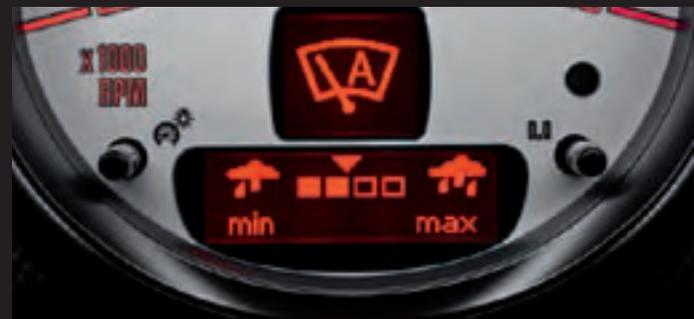

1. Rev counter

1. The **rev counter** is positioned in the middle of the steering column. The upper display shows the current speed, while the lower display is used for features such as the trip counter or the Shift Point Display, which recommends the best gear for a button on the on-board computer. At the touch of a button, the on-board computer lets you know your average speed and fuel consumption, range and current fuel consumption. The Condition Based Service function (CBS), which comes as standard on all MINI models, indicates when the vehicle next needs servicing or oil replacing.

2. On-board computer

3. Rain sensor and automatic lights-on

TECHNOLOGY AND EQUIPMENT.

**WE GET 1,550 HOURS OF SUNSHINE ON AVERAGE EACH YEAR.
SO MAKE THE MOST OF THEM!**

1. Openometer

2. Wind deflector

3. Semi-automatic soft-top control

4. Semi-automatic soft-top control

1. **The Openometer** measures how long the car has been driving with the top open, counting and saving each minute from the moment the top is fully open and the engine is running. Trips with the top down of up to seven hours are displayed directly, and the total time is stored by the on-board computer.

2. Want the top-down experience with none of the turbulence? The **wind deflector** for the MINI Roadster is the perfect solution. It is easily attached between the roll-over bars, and significantly reduces draughts, as well as noise.

3. + 4. **Semi-automatic soft-top roof.** With the semi-automatic soft-top, the only action that is carried out by hand is securing it to or releasing it from the windscreen frame. Lowering the roof, including locking it in the open position, is carried out at the push of a button, as is raising it. This button is found in the toggle bar on the windscreen frame, directly next to the switch for the active rear spoiler. The entire process takes less than 10 seconds, and can even be carried out while the vehicle is in motion, at speeds of up to 20 mph.

TECHNOLOGY AND EQUIPMENT.

1. Comfort Access system

2. Comfort Access system

3. Folding exterior mirrors

1. – 2. The **Comfort Access system** allows you to lock and unlock the vehicle without ever having to touch the remote control, and to start and stop the engine without a key by using the Start/Stop button.

3. With the option of **folding exterior mirrors** it's possible to fold the mirrors away electrically and safely.

ULTIMATE CONVENIENCE AT THE TOUCH OF A BUTTON.

4. Rear-view mirror with automatic anti-dazzle function

4. The **auto-dimming exterior mirrors and interior rear view mirror** dim the light from the headlights of following vehicles if this reaches a certain level of intensity.

5. Air conditioning

6. Automatic air conditioning

7. Heated front windscreen

8. Seat heating

5. The **air conditioning system** with microfilter means passengers can enjoy their ideal interior temperature, whatever the conditions outside. The amount and distribution of conditioned air can be individually adjusted.

6. **Automatic air conditioning** rapidly adjusts the interior temperature to the selected level, and then keeps it there. The built-in active carbon filter protects passengers against unpleasant odours from outside.

7. The **heated front windscreen** allows you to heat the front windscreen at the touch of a button, and also includes the rain sensor and automatic headlight activation.

8. The **seat heating** for the driver and front passenger has three different, individually adjustable seat temperature settings.

**ENTERTAINMENT AND
COMMUNICATIONS.**

ENTERTAINMENT AND COMMUNICATIONS.

THAT'S ENTERTAINMENT. THAT'S MINI.

In just five easy steps, you can personalise the information, communications and entertainment functions of your MINI. The first step is to choose your radio head unit. With its large display, the MINI Radio Visual BOOST is a particularly powerful portal to exciting new dimensions of interactivity. You can then pick and choose from the available service, music and Bluetooth/USB categories to suit your personal requirements, from MINI Connected to the MINI navigation system. (Only a selection of the full range is shown here.) Whatever your tastes, you're sure to find the ideal solution.

1 RADIO HEAD UNITS.

2 MUSIC.

3 BLUETOOTH/USB.

4 NAVIGATION SYSTEM.

5 MINI CONNECTED.

1 RADIO HEAD UNITS.

1. MINI Radio BOOST CD

2. MINI Radio Visual BOOST

1. The **MINI Radio BOOST CD** has a two-column display, antenna diversity for optimum reception, DAB radio tuner, and controls for external audio players.

2. The **MINI Radio Visual BOOST** has all the features of the MINI Radio BOOST CD, and then some: a high-resolution 6.5-inch display with comfortable intuitive control system and a distinctive MINI look and feel. Basic Bluetooth hands-free kit with USB audio interface, an on-board computer and an audio/video adapter for the Apple iPod/iPhone are also included.¹ The built-in video function (in conjunction with compatible video-capable Apple devices) allows videos to be watched on the display when the car is stationary.

ENTERTAINMENT AND COMMUNICATIONS.

2 MUSIC.

1. harman/kardon hi-fi loudspeaker system

3 BLUETOOTH/USB.

3. Basic Bluetooth telephone preparation with USB audio interface

2. harman/kardon hi-fi loudspeaker system

4. Full Bluetooth telephone preparation with USB audio interface

1. – 2. Harman Kardon hi-fi loudspeaker system: a digital multichannel amplifier and a total of ten high-performance speakers seamlessly integrated into the vehicle interior deliver a unique sound experience, thanks to a total output of up to 480 watts, with powerful bass and brilliant treble.

3. The basic Bluetooth telephone preparation with USB audio interface connects wirelessly to Bluetooth-enabled mobile phones. The USB audio interface enables the connection of an iPod, USB stick or MP3 player, so tracks from its music library can be browsed and selected by album, artist and genre on the central or radio display.¹

4. The full Bluetooth telephone preparation with USB audio interface also includes a centre armrest and a 3-spoke sport leather steering wheel with multi-function and cruise control. With a snap-in adapter, available separately as an option, a Bluetooth-enabled mobile phone can be plugged into the armrest, which charges its battery, and connects it to the vehicle aerial for improved reception. In conjunction with the optional MINI Radio Visual BOOST you can also use many of the functions on your smartphone, such as Bluetooth audio streaming and album cover artwork display, easily and safely on the radio display.^{1, 2}

¹ For information on the compatibility of devices for audio, video and telephone functions, visit: MINI.com/connectivity

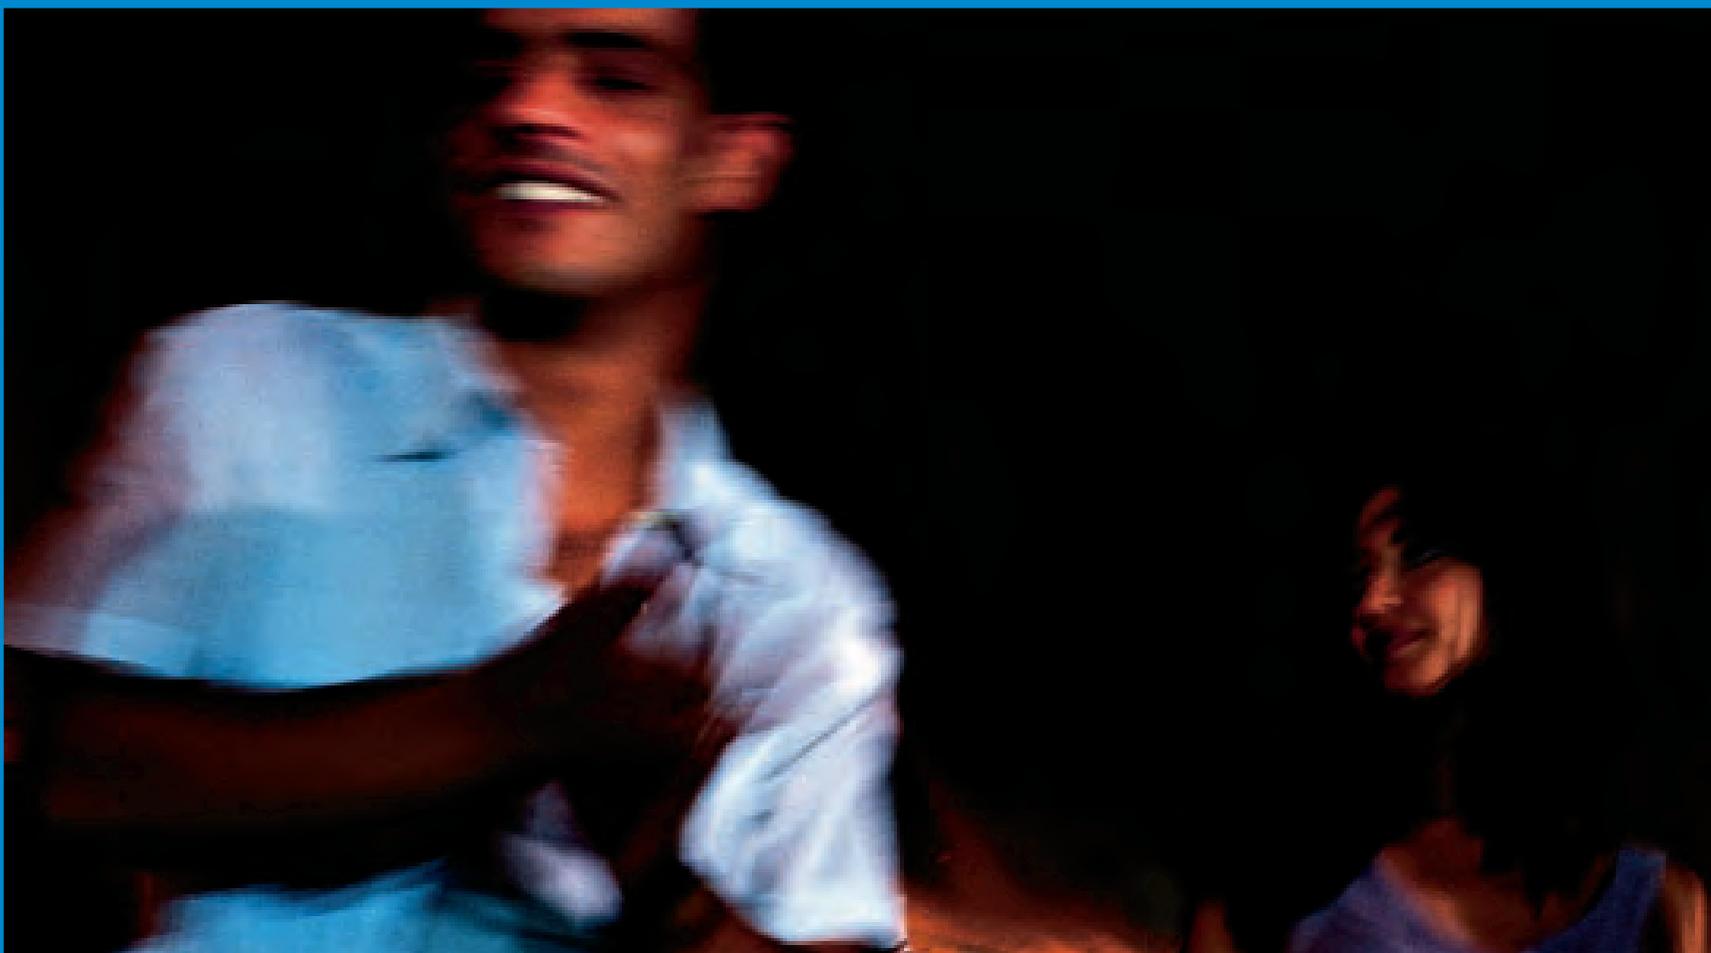

² Subject to availability of device-specific snap-in adapters.

4 NAVIGATION SYSTEM.

The **MINI Navigation system** turns the MINI Radio Visual BOOST into a powerful navigation solution, with navigation instructions given via voice prompts and on-screen arrows and maps. It also includes day and night modes, a search function for points of interest, TMC reception via a double tuner, a GPS aerial and support for updates via the USB interface.¹

ENTERTAINMENT AND COMMUNICATIONS.

The **main menu** is located on the central display of your MINI, and displays the full range of infotainment options. All you have to do is choose how you'd like to be entertained.

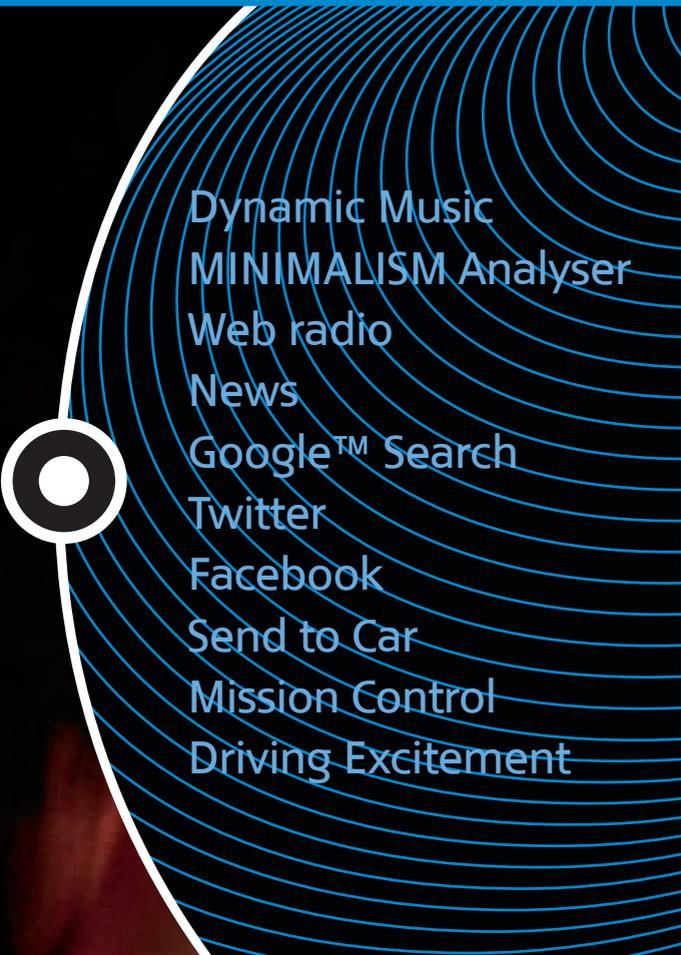

Another highlight is the **Driving Excitement** function, which includes a digital sport display and analyses how sporty and accurate your driving style is, further ratcheting up the fun.

International **web radio** with MINI Connected: select from thousands of stations. Wherever you happen to be, you're guaranteed to find something to please.

5 MINI CONNECTED.

Full speed ahead on the information super-highway: **MINI Connected** revolutionises the world of in-car infotainment, seamlessly linking car and driver with the online world. An all-new USB interface integrates the sophisticated features of your iPhone (not supplied) seamlessly into the audio and infotainment system of your MINI. Information and contents appear on the central display in typical MINI style and are controlled via either the MINI joystick or 3-spoke sport leather steering wheel with multi-function controls. "MINI Connected ready" apps like the MINI Connected iPhone app allow you to play back web radio stations, connect to Facebook and Twitter or get the latest news via RSS feeds. Another highlight is the Driving Excitement function, which includes a digital sport display and analyses how sporty and accurate your driving style is. The best thing, however, is that from now on you'll be able to view and operate iPod functions in the familiar and intuitive Apple menu system in your MINI, all thanks to the revolutionary MINI Connected PlugIn.^{1,2}

¹ Additional optional equipment required.

² Availability and range of features are dependent on the other equipment fitted, and may vary from country to country. Range and graphic design of MINI Connected functions subject to change without notice. Broadband mobile Internet access required. Costs resulting from this (e.g. data roaming) will be payable as specified in the contract with your network provider. MINI Connected app available free of charge from the device manufacturer's app store (subject to national restrictions). Updates available free of charge, but version upgrades may be chargeable. If further MINI Connected-compatible apps become available, these will be identified/promoted accordingly. For more information about device compatibility and the functions contained in MINI Connected, visit MINI.com/connectivity.

MINI SPORT PACK.

MINI SPORT PACK.

ADRENALINE TO GO.

MINI Sport Pack – MINI Cooper Coupé

The MINI Sport Pack gives your MINI Coupé or MINI Roadster a sporty appearance while delivering a genuine racetrack experience. It features a redesigned front apron with built-in air ducts to cool the brakes, side skirts with track-style air intakes, and a striking rear bumper.

A statement of intent: the Cross Spoke CHALLENGE 17" alloy wheels in striking silver.

MINI SPORT PACK.

THE ALL-ROUND POWER PACKAGE.

MINI Sport Pack – MINI Cooper S Roadster

The MINI Sport Pack includes a front apron with built-in air ducts to cool the brakes, side skirts with track-style air intakes and a striking rear bumper. For a real racetrack feel, the 17-inch Cross Spoke CHALLENGE alloy wheels in silver and the Dynamic Traction Control (DTC) allow optimum use to be made of natural over and understeer.

The John Cooper Works door sill finisher underscores the car's sporty personality.

MINI SPORT PACK.

**STRENGTH HAS NEVER
BEEN SO SEDUCTIVE.**

With **contrast stitching in Chili Red** on both the gearshift and handbrake gaiters, the manual transmission is almost as good to look at as it is to use. And the interior's racing heritage is reinforced by the 3-spoke sport leather steering wheel with accentuating contrast stitching in a Chili Red and the John Cooper Works logo.

The optional **Recaro sport seats** with Dinamica leather combination upholstery in Carbon Black, improved lateral support and built-in headrests with embossed logo are the perfect addition.

There is also the option of a high-quality leather upholstery for the **John Cooper Works dashboard** with a knee roll in Dinamica Anthracite – the perfect finishing touch to your MINI.

**JOHN COOPER
WORKS TUNING.
GENUINE
MINI ACCESSORIES.**

JOHN COOPER WORKS TUNING.

The MINI Cooper S Coupé and MINI Cooper S Roadster with John Cooper Works Tuning

18" V-Spoke R133 in burnished black

Additional instruments

Side scuttles

Leave the city shaking, with the racetrack technology of **John Cooper Works Tuning**¹. The side scuttles, air intake and exterior mirror caps are all in clear-lacquered Carbon, while the eye-catching alloy wheels epitomise racing design. No less impressive is the sport silencer in chrome, with which the inimitable John Cooper Works engine note roars at its throaty best. Take the chequered flag – and draw envious glances wherever you go – with the MINI Coupé and MINI Roadster, two cars that are not afraid to flex their muscles.

The interiors are no different. A glance at the Sports steering wheel in Alcantara with optional Carbon trim and the additional instruments immediately highlights the precision and style that John Cooper Works Tuning brings to the passenger compartment, with a wide range of components available to create a uniquely exhilarating interior.

GENUINE MINI ACCESSORIES.

The MINI Coupé and MINI Roadster with Genuine MINI Accessories

17" Multi Spoke R108 in silver

Organiser set

Holder for MINI Portable Navigation System

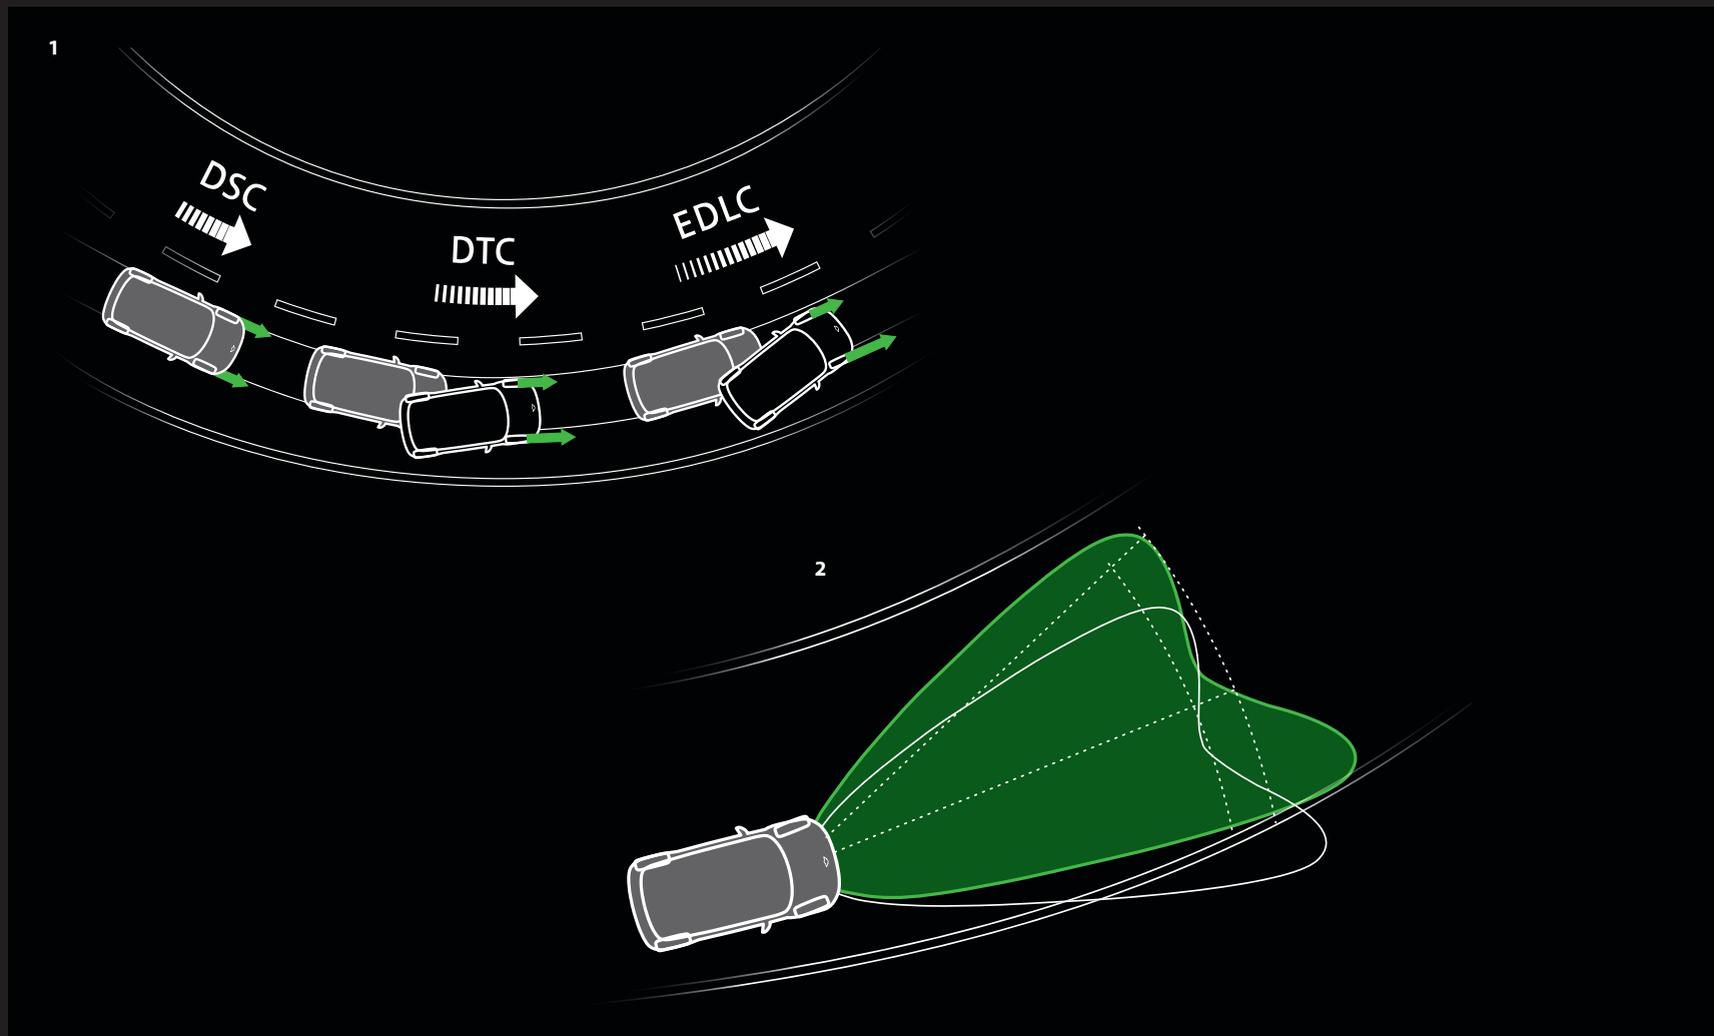

From one adrenaline kick to the next. **Genuine MINI Accessories**¹ bring a personal twist and a little extra excitement to every trip. Side stripes, additional headlights and alloy wheels are just some of the ways of adding even greater appeal to the MINI. As well as looking dazzling, our alloy wheels have been tested to the strictest MINI quality and safety standards. This is an area we take very seriously indeed, so that you need worry about nothing, except enjoying the road. Once inside the vehicle, you will barely notice the innovative holder for the MINI portable navigation system, as it is mounted behind the steering wheel and ensures there

are no trailing wires, while the navigation device revolves around the rev counter, for optimum visibility. Whatever your adventure, make sure you're fully kitted up. The practical organiser set is specially designed to make the most of the storage room in the trim of the divider, and is made up of a storage pouch in the rear and an organiser cover. You'll be amazed at just how much it can pack in. Make the best even better, with Genuine MINI Accessories designed to fit perfectly with your MINI Coupé and MINI Roadster.

¹ For more information, visit: MINI.co.uk/accessories

**CONCEPT
AND SAFETY.**

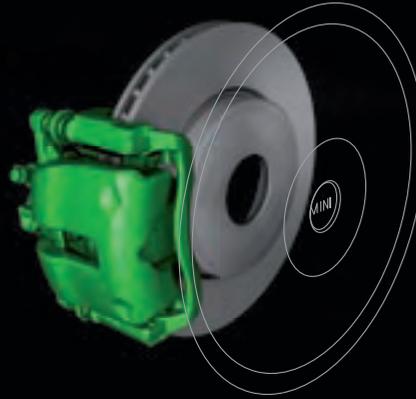

CONCEPT AND SAFETY.

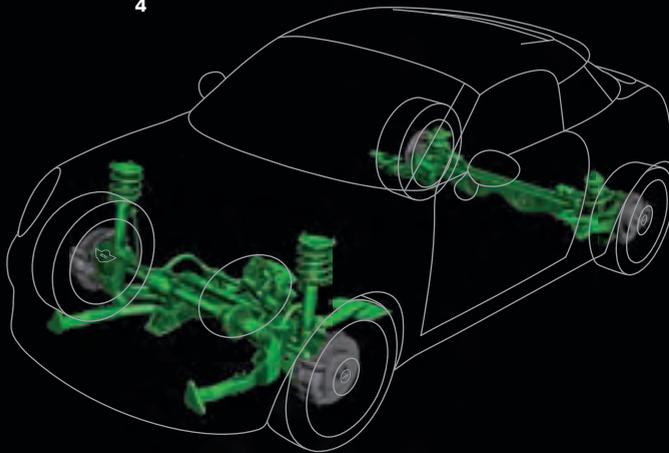

1. Fitted as standard, **DYNAMIC STABILITY CONTROL (DSC)** counteracts incipient loss of grip by intervening in the engine management and applying braking force to individual wheels at the front and rear as necessary. Should the inner wheel lose too much traction, the optional **DYNAMIC TRACTION CONTROL (DTC)** with **Electronic Differential Lock Control (EDLC)** will apply braking to it, ensuring the car maintains forward momentum through corners and on surfaces with variable levels of grip. At the same time, it enables more torque to be applied to the outer wheel. This option is standard on the MINI John Cooper Works Coupé and Roadster.

2. **ADAPTIVE HEADLIGHTS.** This option, featuring automatic headlight beamthrow control, ensures optimum illumination whether driving in city or country, and allows drivers to see further ahead on the motorway. Sensors measure the steering angle, rotational speed of the wheels and vehicle speed, and electric motors then adjust the position of the light beam accordingly. Only available in conjunction with Vision Pack.

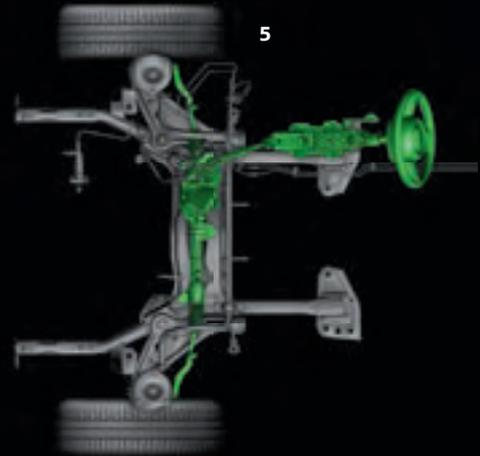

3

4

5

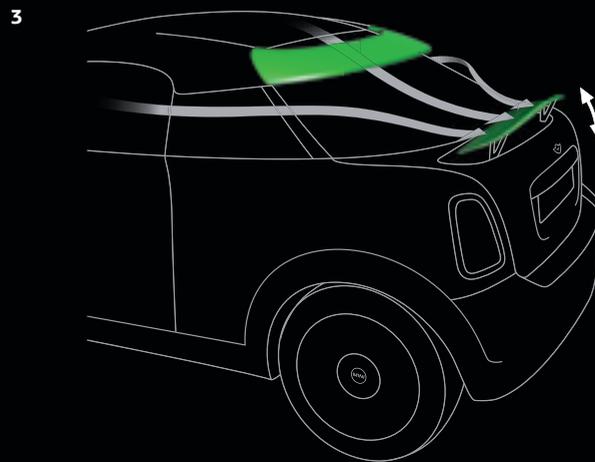

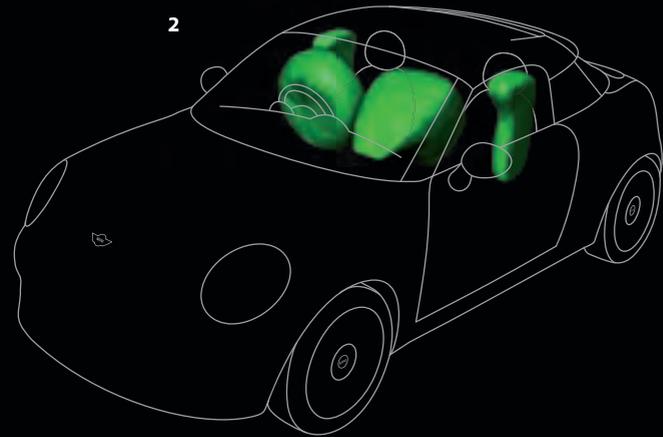

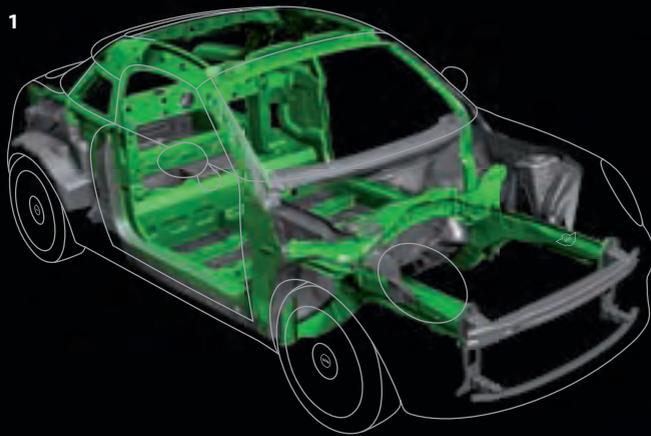

3. BRAKE SYSTEM. Four disc brakes with Anti-lock Braking System (ABS) and Cornering Brake Control (CBC) as standard ensure optimum braking performance in any situation. Electronic Brakeforce Distribution (EBD) manages the distribution of braking force between the front and rear axles. Brake assist also supports this process, to deliver maximum braking force and ensure the shortest possible stopping distances.

4. SUSPENSION. The combination of a single-link spring-strut front axle and a multi-link rear axle with wide track and a low centre of gravity results in the unmistakable MINI feeling: stable, agile, with optimum cornering ability at all speeds, plus superb traction and outstanding safety.

5. RACK-AND-PINION STEERING. Electric power assist ensures outstanding steering responses, with the driver receiving precise and involving feedback. The steering is lighter at low speeds and stiffer at high speeds, for ease of control at all times. For maximum comfort, it is only 2.4 turns from lock to lock.

CONCEPT AND SAFETY.

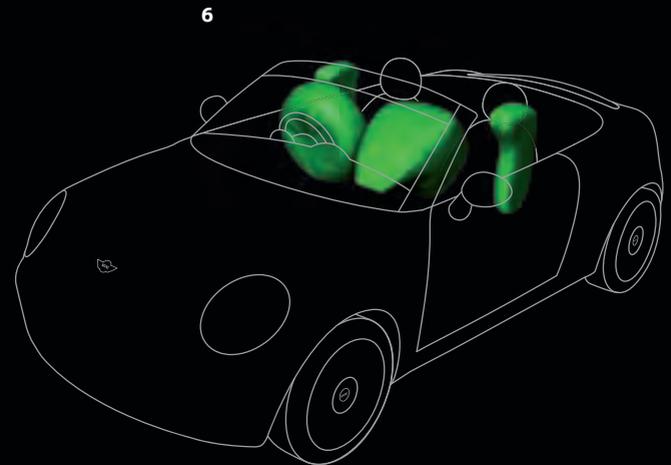

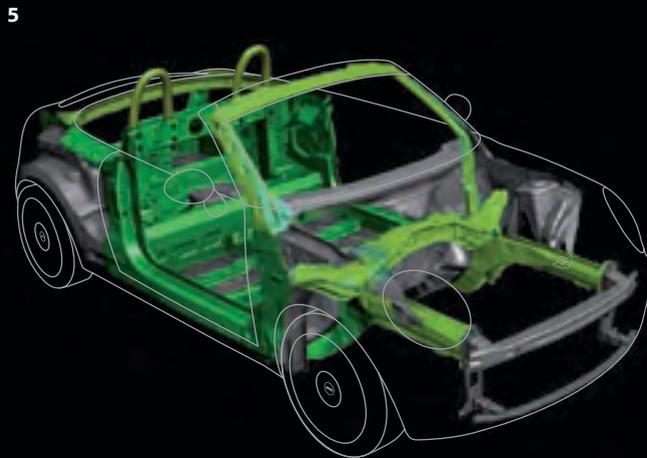

MINI COUPÉ.

1. **BODY.** The body of the MINI Coupé has been reinforced at strategic points, guaranteeing extreme torsional rigidity for an exceedingly robust passenger compartment. This enables the MINI Coupé to combine speed, safety and agile responses, even in adverse conditions.

2. + 6. The MINI Coupé and MINI Roadster are fitted as standard with **FOUR AIRBAGS**: driver and passenger airbags protect the head and upper body in the event of a head-on collision, while head/thorax airbags in the seats reduce the risk of injuries to the head, chest and abdominal areas from side impacts for the driver and front passenger.

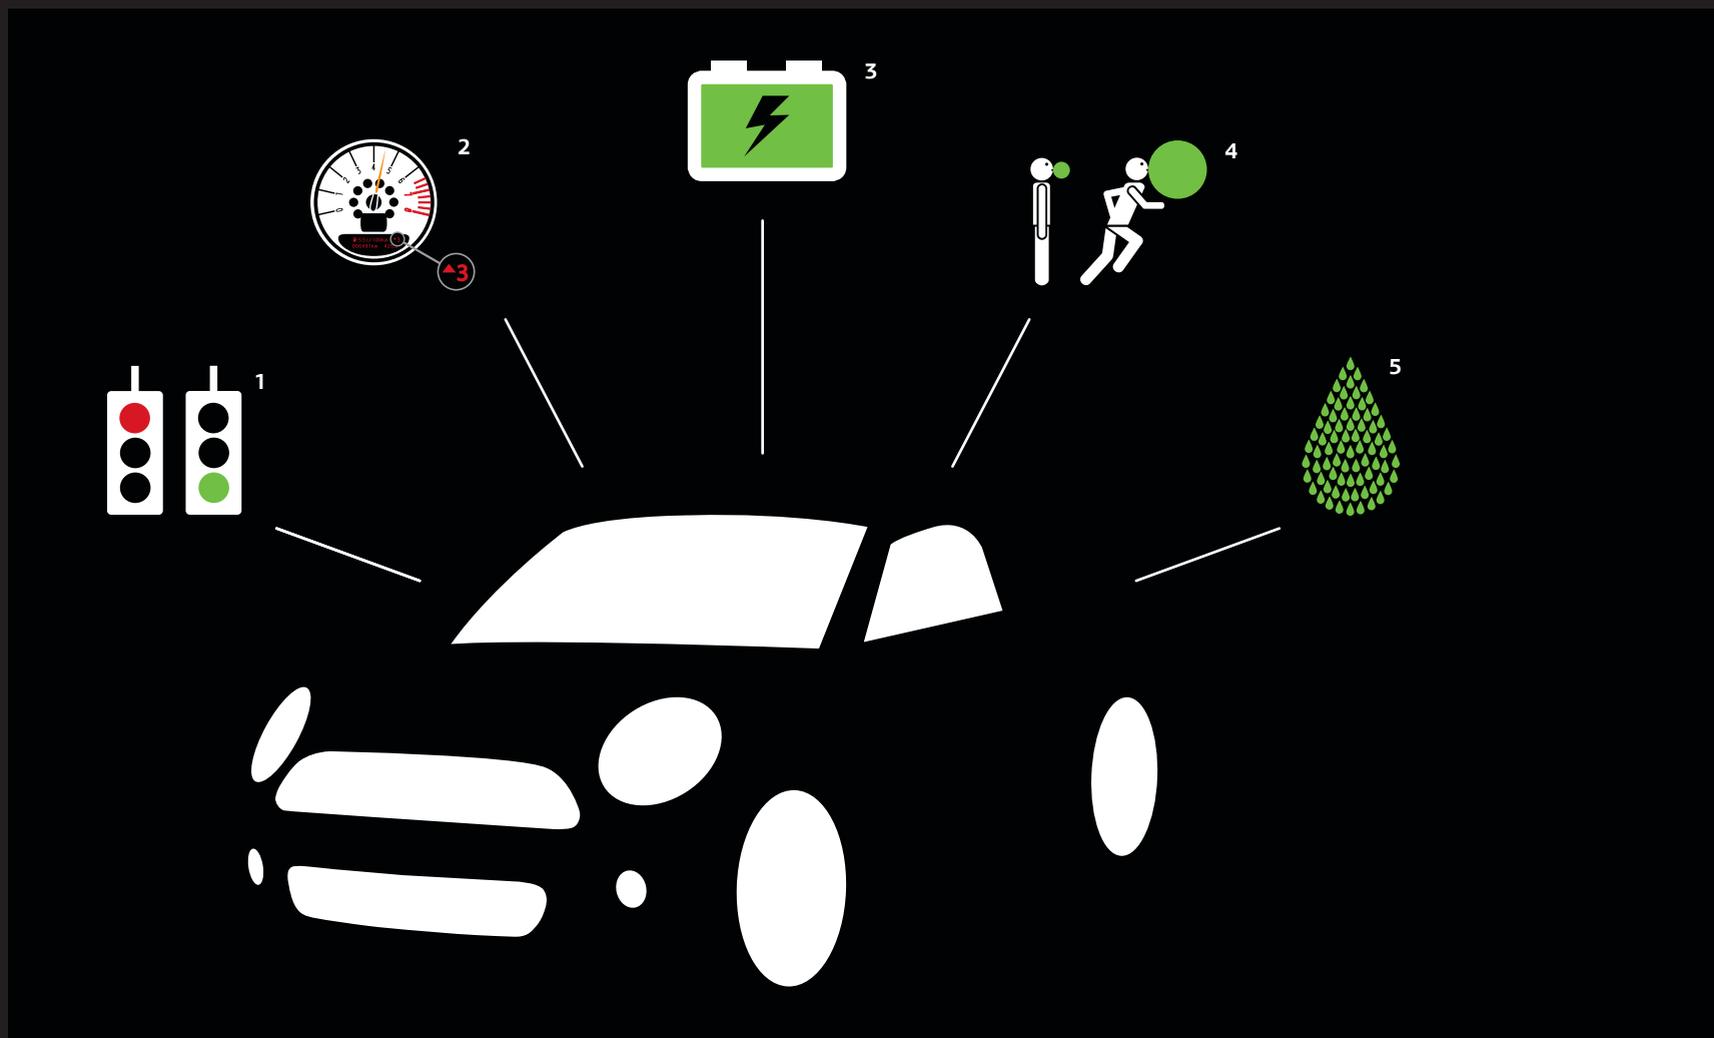

MINI ROADSTER.

3. + 4. Added safety at higher speeds. The **ACTIVE REAR SPOILER** fitted to the MINI Coupé and MINI Roadster automatically deploys when the vehicle surpasses the 50 mph mark. This provides greater downforce over the rear axle, and therefore improves ride stability. When the vehicle speed falls back below 37 mph, it automatically retracts back into the tailgate. The rear spoiler on both models can also be operated manually at the touch of a button.

5. The MINI Roadster features two **ROLL-OVER BARS**. Together with the extra-stiff windscreen frames, they protect passengers in the event of the vehicle rolling over. In addition, the roll-over protection system, in conjunction with a wide range of reinforcements, maximises torsional rigidity for an exceedingly robust passenger compartment. Best of all though, the two roll-over bars are made of polished stainless steel, and look fantastic.

CONCEPT AND SAFETY.

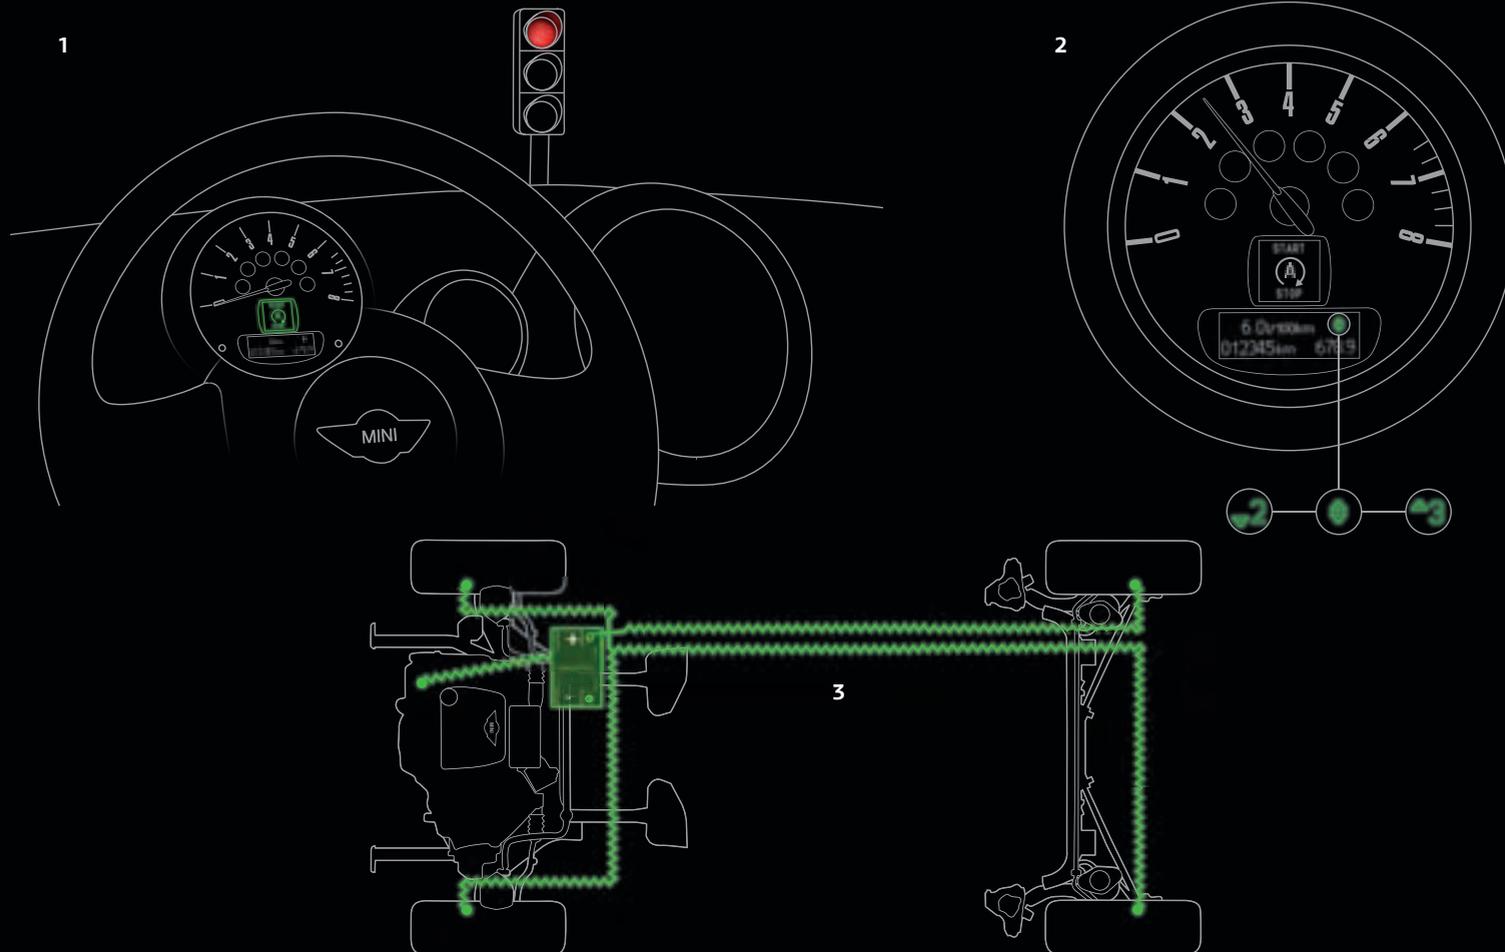

MINIMALISM. LESS IS MORE. Cutting out the fumes needn't mean cutting out the fun. This is made possible by a range of innovative technologies.

1. AUTOMATIC START/STOP FUNCTION¹. The Automatic Start/Stop function (manual transmission only) means that when the engine is idling – for example, at a red light or in a traffic jam – it is automatically switched off. As soon as the clutch pedal is depressed, the engine is switched back on.

2. SHIFT POINT DISPLAY¹. The Shift Point Display (manual transmission only) tells you via instructions in the revolution counter what gear you should be in to maximise fuel economy, reducing your emissions and your expenditure on fuel.

Full details of fuel consumption can be found in the Technical Data section.

3. BRAKE ENERGY REGENERATION¹. Brake Energy Regeneration uses Intelligent Alternator Control to convert unneeded kinetic energy into electricity. When the driver's foot is not on the gas, more energy is diverted to charging the battery than when the car is under acceleration.

4. FULLY VARIABLE VALVE TIMING. Fully variable timing of intake valve lift increases power output while simultaneously improving the efficiency of combustion. On all models with petrol engines.

5. COMMON-RAIL TECHNOLOGY. High-pressure injection at a consistent 1,600 bar and multiple pre-injections ensure the diesel enters the cylinder as a fine mist, which makes the engine run more quietly and improves both output and fuel economy.

MINIMALISM ANALYSER². Part of the optional MINI Connected infotainment system (see also the section on Entertainment and Communications), the MINIMALISM Analyser monitors a number of variables to determine how economically you are currently driving, and gives you advice on how you could use less fuel. After each journey, you can review and compare your driving data with the user-friendly MINI Connected app, and refine your driving style for even greater fuel-efficiency.

¹ Fitted as standard to all MINI Cooper, Cooper D, Cooper S, Cooper SD and John Cooper Works models.

² For more information on MINI Connected, see pages 86/87.

¹ All figures relate to vehicles with the standard six-speed manual gearbox. Figures in square brackets relate to vehicles with six-speed Automatic Transmission Steptronic.

³ With overboost function.

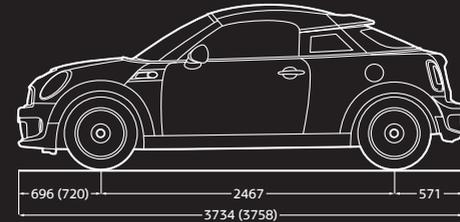

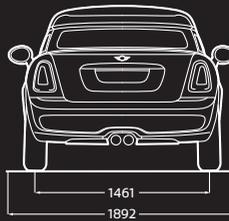

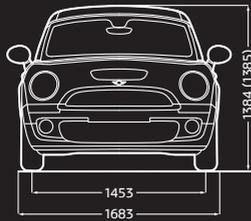

² All MINI models comply with the EU5 exhaust emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle (as defined in directive 80/1268/EEC), made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption. Figures relate to standard-specification vehicles, and may vary significantly where optional equipment (including wider tyres) is fitted.

⁴ The EU values shown here assume that the car is fuelled to 90 % of usable tank capacity and allow 68 kg for the driver and 7 kg for luggage. The DIN values shown assume that the car is fuelled to 90 % of usable tank capacity. Figure quoted is for standard-specification vehicles. Optional equipment may increase this figure.

MINI COOPER ROADSTER.

MINI COOPER S/SD ROADSTER. (MINI JOHN COOPER WORKS ROADSTER.)

All figures in mm.

MINI.CO.UK/CONFIGURATOR

This brochure gives you a broad introduction to the different equipment options and combinations available on the MINI Coupé and MINI Roadster. With the Online Configurator, you can find out more about the various models, play around with different combinations of engines, colours and materials, and explore all the different equipment options in more detail. So you can build a MINI that is a unique expression of your personality.

MINI SERVICE.

UNSTOPPABLE.

Interested in buying a MINI? Then you'll also be interested to know that every day, we put all our passion, effort and combined expertise into ensuring you can enjoy uninterrupted driving fun. "Can't" just isn't in our vocabulary. Because with MINI Service, anything is possible.

A MINI THINKS FOR ITSELF.

Because it's not just built for quality, but for ease of repair and maintenance too. With a MINI, fixed service intervals are a thing of the past, as the on-board Condition Based Service (CBS) system constantly monitors the status of the car to work out what servicing it needs and when – saving you both time and money.

SERVICING.

But won't a MINI be expensive to service you ask? Nope. We've made sure of that by offering every new MINI owner their first 5 years servicing (or 50,000 miles whichever is sooner) for a one off payment. We call this MINI tlc. And for even more peace of mind, with MINI tlc XL you can get 3 more years or 30,000 miles of servicing, again for a one off fixed cost. For further information including full pricing, terms and conditions visit www.mini.co.uk/aftersales or contact your MINI Dealer.

A BREAKDOWN?

It's unlikely, we know. But working on the basis that anything can happen, MINI Emergency Service is never more than a phone call away, 24 hours a day, 365 days a year. Specially trained MINI technicians will leave no stone unturned to get your MINI moving again, either over the phone or by coming to you at the roadside. In addition, there is a range of other breakdown assistance services to help you complete your journey (details vary from country to country), and MINI also offers car insurance.

**WE'VE GOT
EVERYTHING COVERED.**

MINI FINANCIAL SERVICES.

DON'T DREAM IT, DRIVE IT. MAKE IT HAPPEN, WITH MINI FINANCIAL SERVICES.

Admittedly, daydreaming about a MINI can be fun. But it can't compare with the thrill of actually driving one. And with the right finance solution from MINI Financial Services, the dream can become reality in a way that is tailored to your lifestyle, your budget and the MINI model that you choose.

MINI Leasing, MINI Finance and MINI Select are three roads that all lead to the same destination – namely, putting you behind the wheel of a MINI and making sure you're able to relax and get the maximum pleasure from it. All of them offer their own unique advantages, and speaking to your MINI Dealer will help you decide which one is right for you.

Once you've chosen the car and the finance deal, you'll be asking yourself if there's any way you can make the MINI experience even more exciting. Answer: no, of course not. But what you can do is protect against surprises of the wrong sort, by choosing an insurance solution that was made for MINI drivers. Because as well as finance, MINI Financial Services also offers a range of insurance products that are tailored to your exact needs and preferences.

Your next move? The best thing to do is to make an appointment at your local MINI dealership. The sales advisors there know every MINI Financial Services product inside out, and it's their job to help you make your MINI dream come true.

WARRANTY. RECYCLING.

WARRANTY.

Every MINI is supplied with a three-year unlimited mileage dealer warranty. (This excludes wear-and-tear parts, for example brake pads.) Every MINI also comes with a 12-year anti-corrosion warranty, which covers the vehicle against rusting of the body panels. This warranty is dependent on any previous damage to the vehicle body or under-body (e.g. stone impact damage, scratches, dents, accident damage or other damage caused by environmental factors) having been correctly repaired in accordance with current MINI guidelines. The painted surfaces of the car are covered by a three-year warranty. This excludes any damage to painted surfaces caused by improper treatment or unforeseen environmental factors. The statutory rights of the consumer are unaffected.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in the most sustainable and environmentally friendly way possible. That way, every MINI can be efficiently and ecologically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your MINI Dealer will be pleased to advise you on the disposal of your old vehicle. Alternatively, more information on this subject can also be found at www.MINI.co.uk.
