The new S-Class Coupé. The Grand Performer.

A design that leaves you speechless – too awe-inspiring are the proportions of this grand, sporty coupé with power domes gracing its elongated bonnet, its elegantly poised roof line and frameless side windows. But why stop there? It's time to introduce a leader in technological excellence, a beacon of modern luxury and innovation. An athletic coupé that elevates everyday driving to a distinctly sophisticated experience. With the all-encompassing comfort and reassurance of owning a truly exclusive car with a star that shines brighter than ever.

How it all begins: with a design idiom that leaves you speechless. We are enthralled by the typical proportions of a large, sporty coupé. The long bonnet with powerdomes, the elegant roof line and the frameless side windows. However, we wanted more. A technology leader, a new symbol for modern luxury.

Heaven on Earth.

Welcome to the world of modern luxury. A choice of three leather interiors in combination with a host of trim features in hand-crafted quality make the touch and feel inside a journey of discovery in its own right. The gently sweeping dashboard appears to hover in space and conjures up an exclusive character. Seven different light moods serve to complement the interior. Climb inside and enter a whole new world.

An entourage to be reckoned with.

585 hp (430 kW). 900 Nm. V8. That's music to the ears of the automotive enthusiast. But wait till you hear the rich, soothing engine sound building up as you gently press down the accelerator. It's an emotional trigger from the word go. Cruise along and the power train gently purrs, while MAGIC BODY CONTROL irons out any bumps in the road for the most comfortable and dynamic driving experience you could wish for. The active chassis suspension works with a stereo camera that scans the road

surface ahead in order to adjust the damping of each individual wheel in advance. It also features a curve tilting function for maximum driving pleasure, especially on country roads. But that's not all, the S-Class is designed to adapt to your individual mood and driving style with a choice between suspension characteristics 'Comfort', 'Sport' and 'Curve'. It's the perfect blend of high-tech and human intuition.

In the S-Class Coupé, beauty charms the senses. While the exterior is all about sophisticated athleticism, the interior provides an exclusive comfort zone where spaciousness, exclusive materials and innovative ideas meet. The finest leather upholstery is paired with premium wood trim, carefully hand-crafted for a heavenly tactile experience. The instrument panel with its light, smooth curves creates a luxuriously contemporary lounge atmosphere, against a choice of seven ambient lighting modes. It's an unforgettable journey before you've even started.

The new S 63 AMG Coupé.

Catapult-like acceleration accompanied by a sonorous V8 bass line. Seemingly endless driving power and a high-performance braking system. More exciting than any film, more emotive than any music. And you can experience it all surrounded by the comfort of an S-Class. Thanks to AMG Performance all-wheel drive, the new S 63 AMG Coupé with its AMG 5.5-litre V8 biturbo engine developing 585 hp (430 kW) and 900 Nm accelerates from 0–62 mph in 4.2 seconds.

MAGIC BODY CONTROL

One particular option turns the new S-Class Coupé's suspension into a technological masterpiece. An active, hydraulic suspension system can absorb almost all of the vehicle's pitching and rolling. Sheer amazement strikes the second you enter a bend. The car tilts inwards by up to 2.65°, substantially reducing the lateral forces felt by the occupants. It sounds like magic, feels like magic and also has magic in its name: MAGIC BODY CONTROL with curve tilting function.

Some of the model features, optional extras and colours shown may not be available in your country, or may only be available in a different specification.

What makes a car a Mercedes?

Tradition comes with responsibility. To us, it means commitment to innovation. We have always explored uncharted territory, setting milestones all along the way: the first vehicle with a crumple zone, the first ABS, the first diesel car or, indeed, the first car. But why dwell on the past, when there's so much to look forward to?

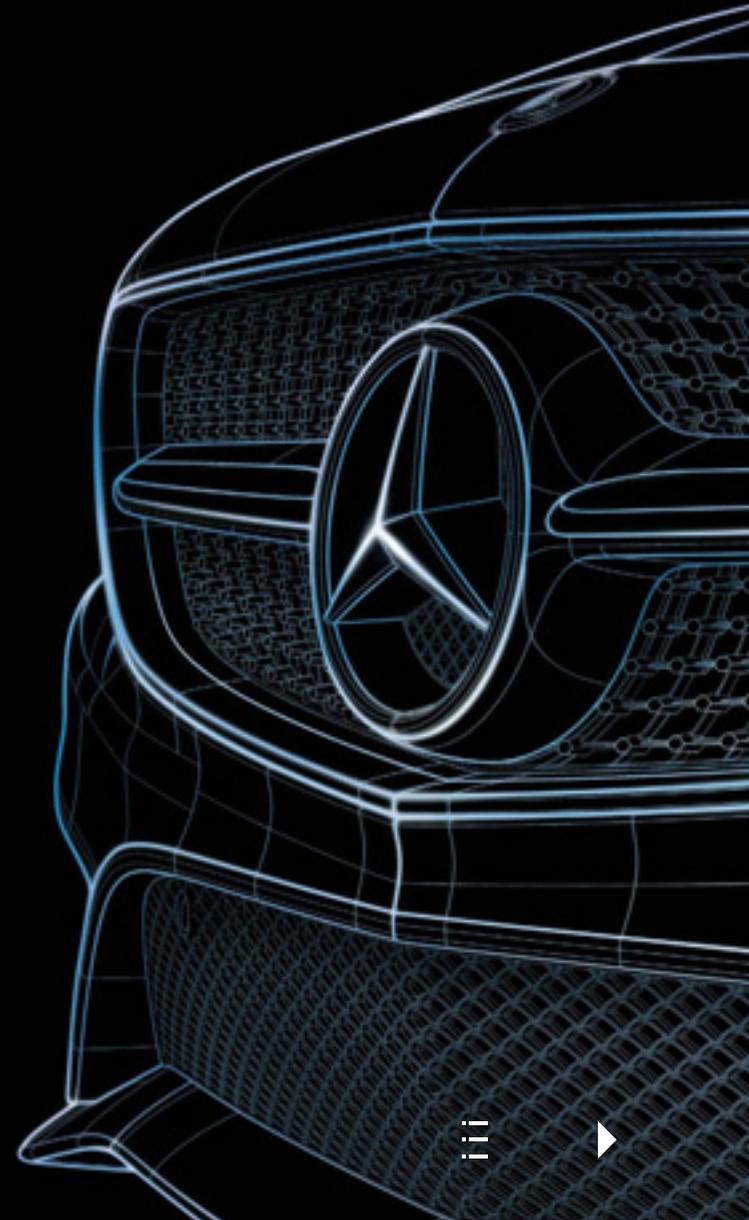

Mercedes-Benz Intelligent Drive – our vision of accident-free driving. At its heart are intelligent technologies, actively supporting the driver and increasing the driver's comfort. They monitor and assess the vehicle's environment and driving performance, and warn the driver of impending danger. If necessary, some of these intelligent technologies can even initiate measures to help prevent accidents. Potentially dangerous situations are identified much earlier and are consequently ever more frequently avoided. To discover the pioneering world of Mercedes-Benz Intelligent Drive visit www.mercedes-benz-intelligent-drive.com

BlueEFFICIENCY – our vision of zero-emission driving. While 'sustainability' is a big word, we lend it real meaning in everything we do. From the most eco-friendly manufacturing process possible through to alternative drive concepts.

Welcome to a world that revolves around you. For us, the focus is on people. To pursue this responsibility we have developed a new platform to enable your own personal contact with Mercedes-Benz, with individual services that are made for you. connect me connects the vehicle with your adventure world, with everything that is important to you. move me offers new mobility solutions. And with inspire me, we provide an exclusive glimpse into the future of mobility. Your access to a fascinating world: www.mercedes.me

As you can see, we've set ourselves far-reaching goals. But what could be more pleasant than to enjoy the journey in a Mercedes-Benz?

A heart and a soul.

Automotive strength of character has always been powered by eight cylinders. No other engine construction gets so deep under the skin. In keeping with this tradition, the new S 500 Coupé rolls out an unmistakable, irresistible sound carpet. An in-house-developed sound control system ensures that this effect is heard when starting off or accelerating heavily, for example, whereas the note of the drive system is completely restrained whilst cruising. So on an acoustic level, too, the emotiveness of a sports coupé is combined with the comfort of an S-Class, giving the car a unique character.

The power of the new S-Class Coupé is not just felt directly by the driver, it is also translated directly into propulsion. Standard equipment for the new S-Class Coupé includes a 7-speed automatic transmission. You hardly notice this, however, as the low engine speed increments between the individual gears make for seamlessly smooth gear changes.

As the **7G-TRONIC PLUS** is able to skip individual gears, multiple downshifts are possible for fast and powerful sprints. The shift characteristics can be preset from economical to dynamic with the 'Economy' and 'Sport'

transmission modes. In 'Manual' mode, drivers with sporty inclinations can switch gears manually using the DIRECT SELECT steering wheel gearshift paddles – as in motorsport.

The next gear in transmission technology has already been engaged: Mercedes-Benz will soon be presenting the world's first 9-speed automatic transmission with hydro-dynamic torque converter in the premium segment. In the new S-Class Coupé, of course. Please ask your authorised Mercedes-Benz Retailer for further information on availability.

↘ **FIND OUT MORE**

A drive system so powerful it deserves its own chapter: the S 63 AMG is presented in detail on page 31

MAGIC BODY CONTROL suspension. With curve tilting function.

It's hard not to be impressed by the curve tilting function, which derives its name from the fact that the car's body tilts inwards by up to 2.65° when taking a bend. In this way, the lateral forces felt by the occupants are reduced significantly and dynamic cornering becomes even more of a pleasure. Looking ahead to enhance your comfort: the suspension sets itself up to negotiate bumps in the road before the car drives over them. This is all thanks to the innovative **ROAD SURFACE SCAN** function – a technological milestone: with the aid of a stereo camera behind the interior mirror, the road surface ahead is scanned precisely to allow the damping of each individual wheel to be optimally adjusted in advance to the impending bumps. MAGIC BODY CONTROL is not available in conjunction with all-wheel drive.

Two things above all help to prevent body roll and keep the car safely on track: character and all-wheel drive.

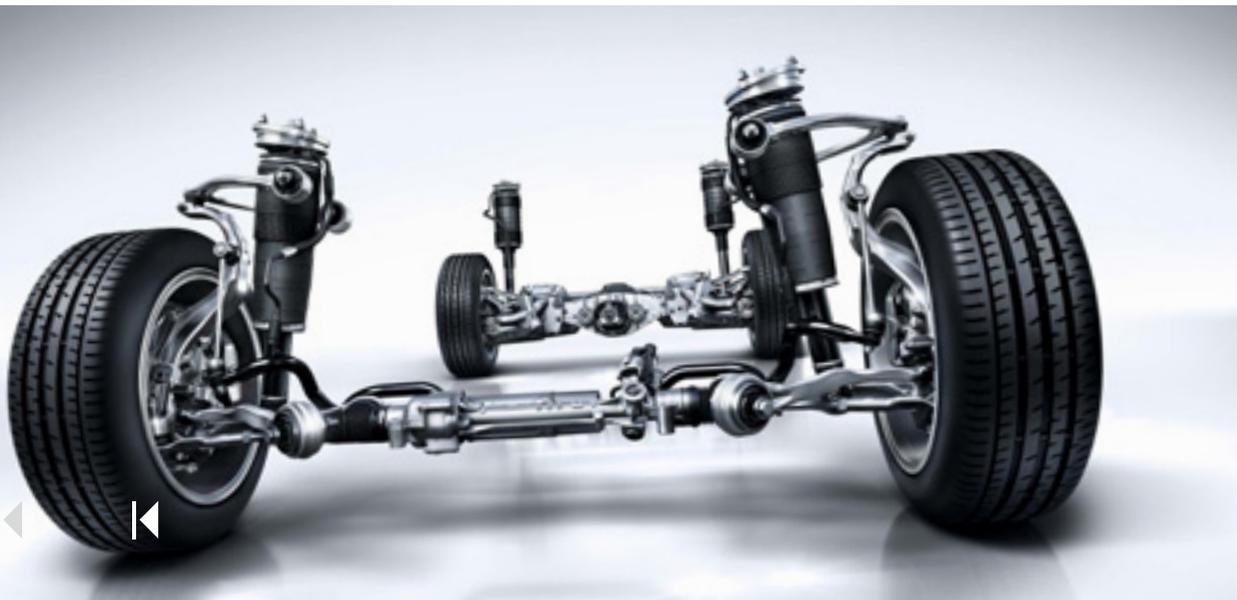

The new S 500 Coupé is equipped with all-wheel drive as standard. When accelerating, it translates the engine power into propulsion with practically no losses and gives the car astonishing stability and composure on the road, tangibly enhancing comfort and driving safety, especially on slippery or loose surfaces. The system likewise enhances excitement as its rear-biased power distribution and an extremely light and compact design promote sporty, dynamic driving.

THE S-CLASS COUPÉ DRIVING EXPERIENCE FURTHER HIGHLIGHTS

The MAGIC BODY CONTROL hydraulic suspension with curve tilting function is available as standard for the S 63 AMG and S 65 AMG Coupé. The **AIRMATIC air suspension system** is fitted as standard for the S 500 Coupé and the S 63 AMG Coupé. The damping at each wheel is adapted to the current driving situation and can be individually set as required. A major conflict of aims almost literally dissolves into thin air: you can enjoy pleasant, smooth ride comfort on long motorway stretches and sporty, direct driving dynamics on winding country roads.

The **suspension settings switch** on the centre console allows different drive modes to be selected, depending on the suspension. Confirmation of the selection made is displayed in both the instrument cluster and the head unit.

The **Direct-Steer system** supplements the comfort of speed-sensitive power steering with a variable ratio dependent on the steering angle. On winding roads, for example, this produces a more agile handling response and improved straight-line stability.

Mercedes-Benz Intelligent Drive.

The new S-Class Coupé perceives its surroundings more intensively, precisely and quickly than any other car in its class. A stereo camera can capture crossing objects and pedestrians in 3D and calculate their path. Intelligent algorithms evaluate this information and are thus able to detect and classify oncoming vehicles, vehicles ahead, crossing vehicles, pedestrians and various types of traffic signs and road markings over a wide visual range. Consequently, numerous safety and assistance systems, which depend on the vehicle's level of equipment, can almost autonomously record and analyse a wide range of traffic situations and initiate measures to assist the driver.

▾ FIND OUT MORE

Mercedes-Benz Intelligent Drive is our generic term for intelligent technologies which actively support the driver and help to take the strain out of driving. Find out more at www.mercedes-benz-intelligent-drive.com

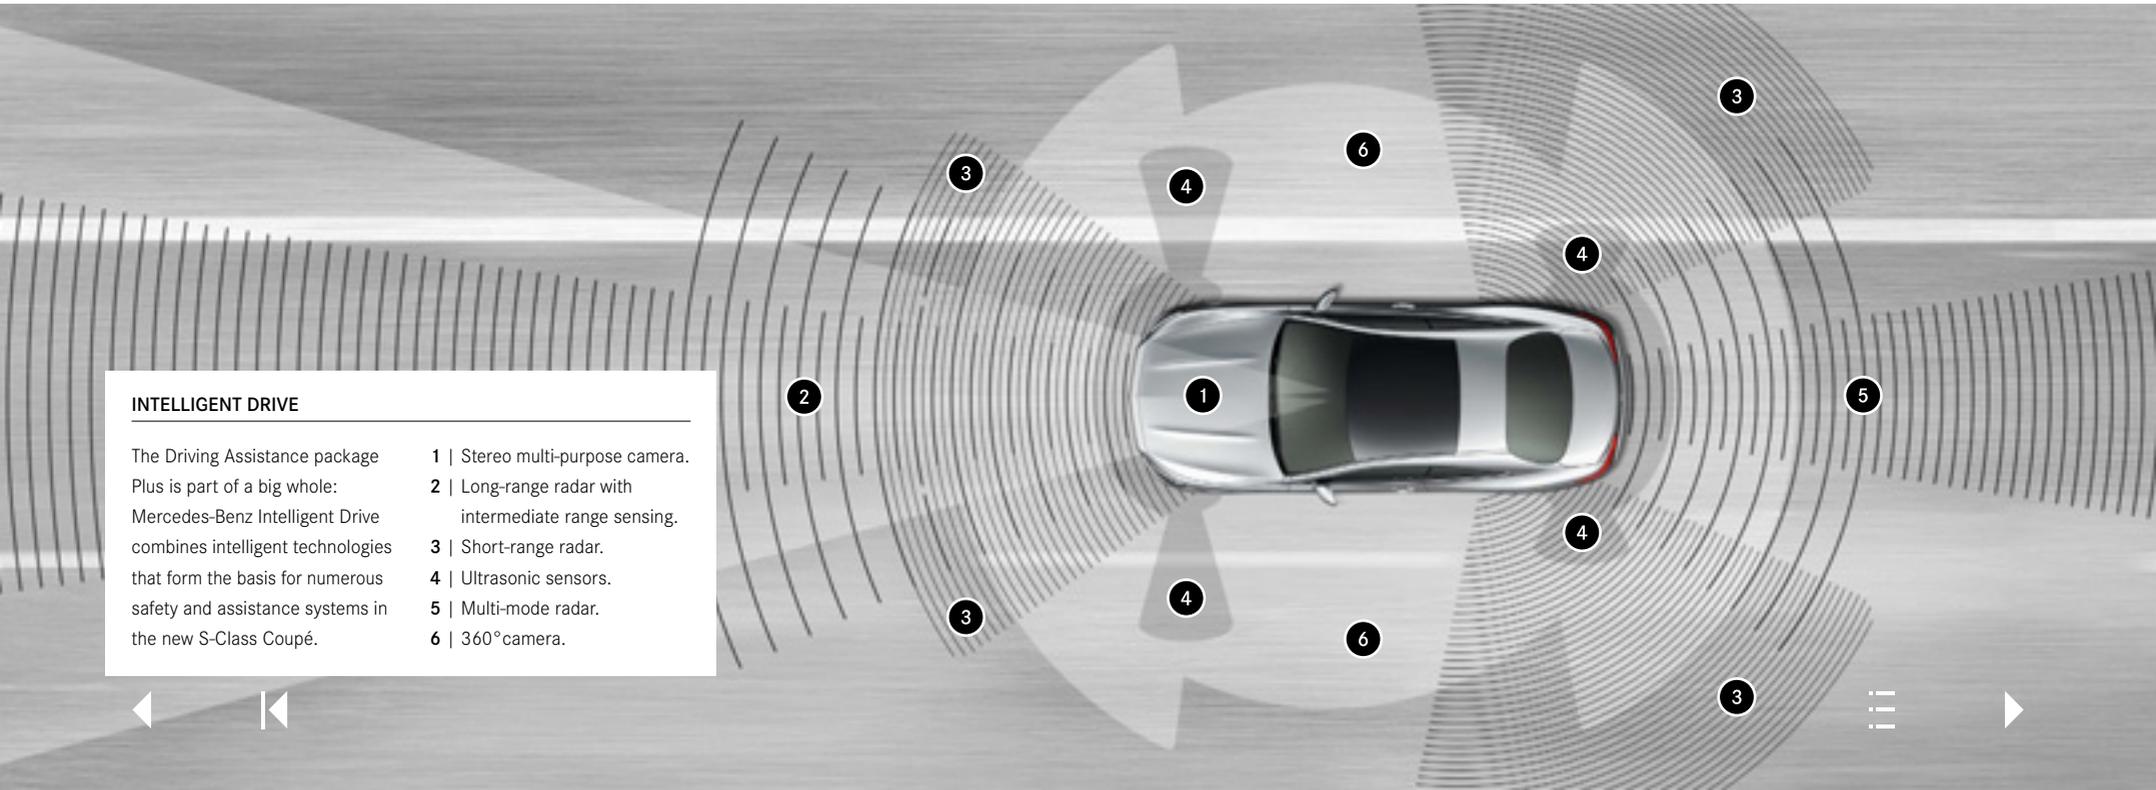

Driving Assistance package.

An optional equipment package consisting of safety and assistance systems that complement each other perfectly: it helps take the strain off the driver, reduce accident risks and improve the level of protection for the occupants and other road users. **Brake Assist BAS PLUS** with Cross-Traffic Assist and **PRE-SAFE® Brake** with pedestrian detection can reduce the risk of accidents at junctions, rear-end collisions and collisions with pedestrians, particularly in urban traffic. **Active Lane Keeping Assist** and **Active Blind Spot Assist** provide assistance if the vehicle leaves its lane unintentionally or during lane changes if there is a danger of collision with other vehicles. One-sided braking

intervention can help return the vehicle to its lane and prevent an accident. **PRE-SAFE® PLUS** extends the functions of the **PRE-SAFE® occupant protection** system with measures when a rear-end collision threatens. **DISTRONIC PLUS** with Steering Assist and Stop&Go Pilot helps the driver to keep a safe distance from the vehicle in front and also to remain in the centre of the lane – for a high level of stress-relieving comfort, especially on long routes and when following a queue of traffic.

INTELLIGENT DRIVE

The Driving Assistance package Plus is part of a big whole: Mercedes-Benz Intelligent Drive combines intelligent technologies that form the basis for numerous safety and assistance systems in the new S-Class Coupé.

- 1 | Stereo multi-purpose camera.
- 2 | Long-range radar with intermediate range sensing.
- 3 | Short-range radar.
- 4 | Ultrasonic sensors.
- 5 | Multi-mode radar.
- 6 | 360° camera.

Manoeuvre with ease.

The optional 360° camera system makes parking and manoeuvring with a realistic all-round view possible with the help of four networked short-range cameras. A bird's-eye view of the vehicle and its surroundings can be displayed on the COMAND Online screen. Obstacles below the window line are also visible to the driver. This is helpful, for example, when approaching kerbs. One camera is mounted in the radiator grille at the front; there is one in each exterior mirror and one in the centre of the boot lid. Various views additionally show guide lines to make parking easier. The rear camera is protected against soiling by the large Mercedes star on the boot lid. When the 360° camera is activated, the star folds up electrically.

THE PARKING AIDS

Active Parking Assist makes it easier when searching for a parking space and when entering parallel and end-on parking spaces and leaving parallel spaces. The system automatically steers the vehicle into parking spaces, relieving the driver of the steering and braking work.

The **reversing camera** is activated automatically when reverse gear is engaged and shows the area behind the vehicle together with dynamic guide lines on the central display of the head unit.

The Integral Safety Concept from Mercedes-Benz.

Be it avoiding accidents, ensuring the best response to dangers or mitigating the consequences of accidents – Mercedes-Benz always takes a holistic approach to driving safety. Attentive every millisecond of the way, prudent in highly complex situations. This is how your Mercedes helps to protect both the vehicle occupants and other road users.

SAFE DRIVING

ATTENTION ASSIST can enhance driving safety, especially on long routes and when driving at night. It monitors the steering behaviour of the driver to recognise typical signs of drowsiness and severe loss of attention, and gives a visual and audible warning of impending microsleep.

Active Blind Spot Assist can warn the driver of vehicles in the blind spot during a lane-change, and help to avoid a collision with one-sided braking intervention (part of the optional Driving Assistance package).

COLLISION PREVENTION ASSIST combines a radar-based proximity warning, braking assistance with Adaptive Brake Assist and autonomous partial braking to reduce the danger of rear-end collisions (standard in certain countries, not available in conjunction with the optional Driving Assistance package).

The optional **Night View Assist Plus** enables drivers to detect pedestrians or larger animals sooner in the dark. They are clearly shown on the multifunction display of the instrument cluster.

IN THE EVENT OF DANGER

The **PRE-SAFE® system** initiates preventive measures to provide the best possible level of protection when there is a risk of an accident. To this end, it continuously analyses the sensor data from other systems, such as the Electronic Stability Program (ESP®) and Brake Assist (BAS), enabling it to detect strong under- or oversteering and emergency braking, for example. In the S-Class Coupé this concept has been significantly further developed by adding PRE-SAFE® (part of the optional Driving Assistance package) and now also takes effect in an impending rear impact. Measures include activation of the hazard warning lamps, reversible belt tensioning and locking the brakes of the stationary vehicle – to prevent the vehicle from rolling forwards to a junction, for example.

IN AN ACCIDENT

A comprehensive protection system is able to reduce the risk of injury substantially. This system includes the **active bonnet**, which is raised automatically by a few centimetres in a collision, helping to protect pedestrians or cyclists. The vehicle occupants are in turn protected by up to eight airbags.

AFTER AN ACCIDENT

In the event of an accident, the engine can be shut down automatically and the central locking system can be unlocked, in addition to which the hazard warning lights and the interior emergency illumination can be activated. Finally the integrated emergency call system can send GPS position data and important vehicle information as well as place a voice call.

↳ FIND OUT MORE

The luxury resort in your digital world.

Close links between the new S-Class Coupé and various online services allow a whole new range of services that make motoring an even more pleasurable and entertaining experience. You can use the vehicle as a WLAN hotspot, for example, and fast first aid can be organised automatically in the event of an accident by sending GPS data. Special apps allow thousands of radio stations and invaluable travel information to be received in the vehicle. A particularly valuable extra: **Live Traffic Information** receives more precise and up-to-date traffic information than ever before. Route guidance is optimised continuously, and the arrival time is calculated extremely accurately. And you arrive feeling more relaxed.

These online services are available in conjunction with the **COMAND Online** control and display system. Information is shown vividly on a 31.2 cm high-resolution display. The optional **head-up display** complements this system perfectly by projecting important driver information as a virtual image directly in the driver's field of vision. To the driver, the information appears to be hovering around two metres in front of them above the bonnet.

A hands-on technology leader.

To ensure that the wealth of new technologies and functions add real value, we have developed a new control concept. In addition to the COMAND Controller and the **LINGUATRONIC** voice-operated control system, the new S-Class Coupé is equipped with a **touchpad** that allows numerous telematics services to be controlled intuitively and astonishingly easily. As with a smartphone, you can navigate through the menu using one- or two-finger movements. The system even recognises your handwriting.

The sheer beauty of sound.

It's almost impossible to describe this sound. A total of 24 loudspeakers and an output of 1,520 watts transform the interior into an acoustic wonderland. The active woofer alone has an output of 400 watts. The optional **Burmester® High-End 3D surround sound system** is just as astonishing when it is switched off, however, since the immaculate design of the loudspeakers makes them miniature works of art. Allowing yourself to be completely swept away by this sound is perhaps one of the very few reasons for not wanting to drive the new S-Class Coupé yourself.

Light.

Genuine Swarovski crystals can optionally be incorporated into the headlamps of the **LED Intelligent Light System** to create a new and unusual day and night design. The crystals' fascinating play of light in the turn indicators and daytime running lamps provides striking visual highlights and emphasises the unique nature of the vehicle. The turn indicator with 30 crystals underscores the eye-catching lines of the headlamps. 17 crystals shine resplendent in the daytime running lamp immediately below this.

As you can see: a headlamp can be a true designer piece. But, true to its name, the standard-fit LED Intelligent Light System is a lot more than just beautiful to look at. For better visibility on secondary roads and motorways, when turning or cornering, the low beam adapts to the weather, light and driving conditions automatically. In high-beam mode **Adaptive Highbeam Assist Plus** allows continuous long-range illumination of the road ahead without dazzle. It obscures part of the light beam for oncoming traffic or vehicles travelling ahead.

The LED technology also impresses with its very low energy consumption, long operating life and pleasant white light that comes close to the spectrum of natural daylight.

In the mood.

The vehicle interior can be subtly fragranced to suit personal preference with the optional **AIR-BALANCE package**, which consists of a fragrance generator located in the glove compartment, a glass flacon and a dispenser. Four high-end room fragrances are available to choose from: NIGHTLIFE MOOD, DOWNTOWN MOOD, SPORTS MOOD, FREESIDE MOOD – plus an additional flacon which the driver can fill with the scent of their choice. The intensity and duration of perfume atomisation are adjustable. The fragrance is discreet, given off gently and is rapidly dissipated after switching off.

Oxygen ionisation of the interior air is a further function of the AIR-BALANCE package. Enriching the air with oxygen anions has a refreshing effect. At the same time certain viruses, bacteria and spores can be reduced. In addition, a filter system with two activated charcoal fine-particle filters cleans the outside air that enters the vehicle interior via the air conditioning system.

Comfort that runs all the way down your back.

Every trip in the new S-Class Coupé is like spending time in a spa resort. Especially with the optional **Seat Comfort package** including the active multicontour seats with ENERGIZING massage function and dynamic function for the driver and front passenger. When on the move, the side bolsters automatically and dynamically adapt to vehicle movements to provide even better lateral support on winding roads and when driving

sportily. The ENERGIZING massage function stimulates and relaxes the back muscles as required, with 14 air chambers, six programmes and two intensities. So you can indulge yourself and stay fit better, even on long journeys. The combination of gentle pressure and pleasant warmth, based on the principle of a relaxing hot-stone massage, is particularly effective.

Nobody knows more about stars.

Every new S-Class Coupé is equipped with a panoramic roof as standard. It directly adjoins the windscreen and covers around two thirds of the roof area, creating a distinctive, exceptionally light look from the outside, while the inside is flooded with light and has a friendly, pleasant ambience. The optional **MAGIC SKY CONTROL** technology is the crowning glory of the panoramic roof. The large panoramic roof can change from dark to transparent or vice versa within a few seconds. When electrical voltage is applied,

particles in the glass structure align themselves so that light can pass through the glass. The glass darkens when it is switched off – this also happens automatically when the engine is stopped. The particles are distributed randomly and stop most of the light from passing through. This prevents the interior from heating up too much, with the interior temperature being reduced by up to 10° C.

S 63 AMG.

585 hp (430 kW) and 900 Nm of pure driving force: the AMG 5.5-litre V8 biturbo engine beneath the bonnet of the new S 63 AMG Coupé is one of the world's most powerful series-produced V8 biturbo power plants. Perhaps even one of the most emotive in the domain of high-end engine construction. The immense thrust is on tap across almost the entire engine speed range, just waiting to be unleashed. The integration of sophisticated efficiency measures allows a uniquely moderate fuel consumption for this output category, however.

The styling, the interior, the engine. The transmission, the brakes, the suspension: nothing has escaped the AMG engineers' attention – resulting in a driving experience on a par with a sports car. The drive system comprising AMG 5.5-litre V8 biturbo engine with the **AMG SPEEDSHIFT MCT 7-speed** achieve performance-oriented rapid shift times and acceleration.

TRIED-AND-TESTED MOTORSPORT TECHNOLOGY IN THE S63 AMG COUPÉ

The **AMG SPEEDSHIFT MCT 7-speed sports transmission**, with its seven gears, three transmission modes and double-declutching function, allows extremely dynamic acceleration and very short shift times as well as a fuel-saving driving style. It can also be operated manually using shift paddles on the steering wheel.

The **AMG sports suspension** based on AIRMATIC combines outstanding agility and vehicle control with superlative comfort on long journeys. The stiff kinematics, the continuously variable damping control and the optimised air suspension system ensure the best possible handling right up to the limits.

The **AMG speed-sensitive sports steering** supports a sporty driving style with a high level of steering precision and direct cornering properties, while the active damping enhances the feeling of safety as the car's speed increases. Depending on the suspension mode selected, the steering characteristics are adapted for a sportily taut or comfort-oriented steering response.

S 65 AMG.

The new S 65 AMG Coupé has the power of an automotive legend behind it: twelve cylinders provide truly outstanding poise and refinement. What makes this smooth running even more impressive is the fact that it is combined with an output of 630 hp (463 kW) and 1,000 Nm of torque. The most powerful, emotive and uplifting of feelings. Features such as the ECO start/stop function mean that you can enjoy all the thrilling V12 aspects of the new S 65 AMG Coupé yet still count on astonishingly low fuel consumption and emissions.

HIGH-END PERFORMANCE: THE HIGHLIGHTS OF THE NEW S 65 AMG COUPÉ

The **AMG sports suspension** based on MAGIC BODY CONTROL with curve tilting function and innovative ROAD SURFACE SCAN adapts itself to the road conditions and is therefore able to largely absorb any road unevenness.

The **AMG SPEEDSHIFT PLUS 7G-TRONIC** automatic transmission with its seven gears and three driving modes provides dynamic acceleration and very short shift times.

The large, internally ventilated and perforated brake discs of the **AMG high-performance composite braking system** give the vehicle outstanding deceleration characteristics.

Wheels.

Wheels are indispensable on technical grounds, of course. But on an emotional level, too, perfect wheels are an absolutely crucial ingredient of many people's dream car. With this in mind, we have put together a particularly large and diverse selection for you.

AMG

793 AMG 5-twin-spoke light-alloy wheels, painted titanium grey with a high-sheen finish, with 245/45 R 19 front tyres and 275/40 R 19 rear tyres (part of AMG Line for S 500)

769 AMG multi-spoke light-alloy wheels, painted titanium grey with a high-sheen finish, with 245/40 R 20 front tyres and 275/35 R 20 rear tyres (option for S 500)

788 AMG 10-spoke forged wheels, painted titanium grey and polished, with 255/45 R 19 front tyres and 285/40 R 19 rear tyres (standard for S 63 AMG and S 63 AMG)

647 AMG 10-spoke forged wheels, painted titanium grey and polished, including fully integrated wheel bolt cover, with 255/40 R 20 front tyres and 285/35 R 20 rear tyres (option for AMG models)

648 AMG 10-spoke forged wheels, painted matt black, rim flange with high-sheen finish, including fully integrated wheel bolt cover, with 255/40 R 20 front tyres and 285/35 R 20 rear tyres (option for AMG models)

696 AMG multi-spoke forged wheels, ceramic high-gloss polished, including fully integrated wheel bolt cover, with 255/40 R 20 front tyres and 285/35 R 20 rear tyres (standard for S 65 AMG)

Genuine accessories.

The new S-Class Coupé leaves hardly anything to be desired. And for those extra special needs there are genuine accessories. These cover almost every conceivable need for more pleasant, practical and individual motoring. The diverse range of items all correspond to a common standard: every accessory has been developed specifically for the new S-Class Coupé in accordance with Mercedes-Benz's high quality standards. Discover the complete range online at www.mercedes-benz-accessories.com

Some of the model features, optional extras and colours shown may not be available in your country, or may only be available in a different specification.

- 01 The shallow boot tub in impact-resistant polypropylene with non-slip effect. Food-safe. With rib structure to fix the separately available stowage box in place.
- 02 10-spoke light-alloy wheels¹ in palladium silver metallic with high-sheen finish, for 245/40 R 20 tyres. Also optionally available for 275/35 R 20 rear tyres.
- 03 5-spoke light-alloy wheels¹ in tremolite metallic with high-sheen finish, for 245/45 R 19 tyres. Also optionally available for 275/40 R 19 rear tyres. (Not suitable for snow chains.)
- 04 10-spoke light-alloy wheels¹ in Himalayas grey with high-sheen finish, for 245/50 R 18 tyres. Also optionally available for 275/45 R 18 rear tyres.

¹Genuine accessory wheels are supplied without tyres.

Services

Test drive. You've seen the pictures, you've read the facts. Now all that's missing is to experience your dream Mercedes in the flesh. Which is why we invite you to take it for a spin. See it with your own eyes. Rev up the engine, and feel how your chosen Mercedes hugs the road. Relax in style or play with a whole host of exciting onboard technology. Contact your Mercedes-Benz Retailer for a test drive, or simply go online and visit www.mercedes-benz.co.uk/testdrive. We can't wait to see you in the driving seat.

Mercedes-Benz Finance. At Mercedes-Benz Finance, our single-minded aim is to provide optimum financial solutions for all those who share the Mercedes-Benz philosophy of absolute commitment to quality. Whether you are a private customer or a business user, our finance and leasing packages can be tailored to meet your individual needs. For further information on Mercedes-Benz Finance, please contact your local Mercedes-Benz Retailer.

Mercedes-Benz Insurance offers a fully comprehensive 5-star Motor Insurance policy, rated by Defaqto, a leading UK independent financial research company. Our policy is specifically designed to provide the cover you would expect from Mercedes-Benz. For a quotation, please call 0345 600 2180.¹

Interactive Owner's Manual. The website also offers an interactive tour, enabling you to take a closer look at your desired model. This simulation is the ideal way to acquaint yourself with your dream car. You can view key functions in detail, gain an insight into the car's inner workings or look at the benefits of each model. For further details, visit www.mercedes-benz.co.uk/sclasscoupemannual

¹Mercedes-Benz Motor Insurance is underwritten by Aviva Insurance Limited. For joint protection, calls may be recorded and/or monitored. All calls are charged at local rate. We may decline to quote in some circumstances.

Roadside Assistance. Rest assured that should you ever need help, Mercedes-Benz Roadside Assistance is there for you. In the unlikely event of a technical breakdown² you can rely on the Mercedes-Benz Roadside Assistance Team – anywhere in Europe. Simply phone our Customer Assistance Centre on +44 (0)20 7975 7077,³ where our specialists will organise assistance for you. Mercedes-Benz will also assist you in the event of a minor mishap preventing you from driving your vehicle.⁴ Whether you lose your key, run out of fuel, or your vehicle is damaged due to an accident or vandalism,⁴ Mercedes-Benz ensures that you still reach your destination. Often, the problem can be rectified on the spot, but if this is not possible, we will naturally ensure that your vehicle is taken to the nearest Mercedes-Benz Retailer to get you back on the road as quickly as possible.

²Cover is initially valid for your vehicle for four years from the date of first registration. This can be extended from the fifth year, up to a maximum of 30 years, on completion of each scheduled maintenance service, providing that this service is carried out by a Mercedes-Benz Retailer, and recommended items are completed.

³If your mobile phone provider charges for Freephone numbers please call 020 7975 7077.

⁴Minor mishap cover is provided at the absolute discretion of Mercedes-Benz.

Service Care. To keep a tight grip on costs, Mercedes-Benz offers service plans to cover the costs of an annual service, for two, three and four years. Plans can be paid monthly with interest-free instalments or alternatively, if you pay upfront, should you sell your vehicle any remaining services will be transferred to the new owner. All routine maintenance and additional items are covered. To find out more, please contact your local Retailer or visit www.mercedes-benz.co.uk/servicecare

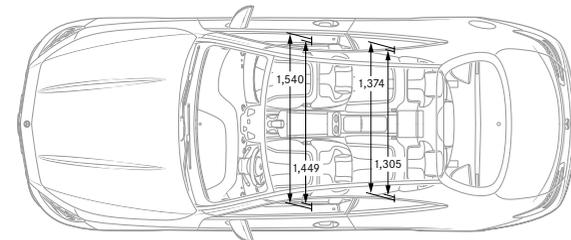

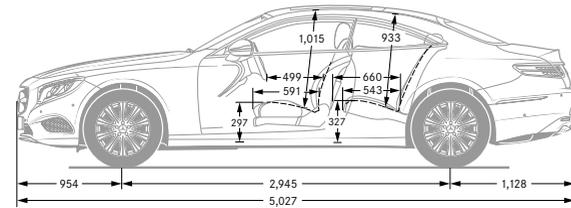

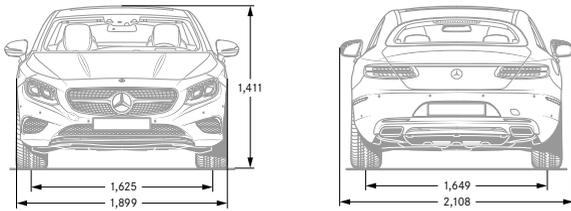

Rescue Assist: QR Rescue Codes. The latest innovation in vehicle safety from Mercedes-Benz. All Mercedes-Benz cars manufactured since November 2013 have Rescue Assist fitted as standard. Rescue Assist: QR Rescue Codes are two self-adhesive labels that contain your car's structural and technical information. When scanned with a smartphone or tablet they provide the emergency services with immediate access to rescue data, aiding in the safe and swift extraction of any passengers. www.mercedes-benz.co.uk/rescueassist

Mercedes-Benz World at Brooklands. Put our latest vehicles to the test at Mercedes-Benz World. Book an AMG Driving Experience on our handling circuits or tackle the deep water crossings and axle-twisting obstacles on our 10 acre off-road course. Under 16s can drive on the historic Brooklands circuit, while three to five year olds can become Little Learners on our indoor driving circuit. Discover automotive legends like the original 300 SL Gullwing, Formula 1[®] cars and the UK's largest collection of Mercedes-Benz and AMG models under one roof. Relax and refuel in Café 1886, or enjoy the delicious menu and elegant surroundings of the Gullwing Bistro. With three floors of interactive attractions and exhibitions, free entry and free parking every day, the whole family will enjoy an adrenaline-fuelled day out at Mercedes-Benz World. To book a Driving Experience call 0370 400 4000 or for more information visit www.mercedes-benzworld.co.uk

Take-back of end-of-life vehicles. Coming full circle. At the end of its long life, you can return your S-Class Coupé to us for environment friendly disposal in accordance with the EC End-of-Life Vehicle Directive.¹ But that day lies a long way off.

¹Applies in accordance with national regulations to vehicles up to 3.5 t permissible gross weight. The S-Class has met the statutory regulations governing the suitability of the vehicle's design for reuse and recycling for a number of years now. A network of vehicle take-back depots and dismantlers has been established which will process your vehicle in an environment-friendly manner. The ways in which both vehicles and parts can be recovered are subject to ongoing development and improvement. Consequently, the S-Class will be able to comply with any future increases in the recycling quota within the stipulated time limits. Further information is available at www.mercedes-benz.co.uk or by calling 0333 222 0500.

Please note: this online version of the printed brochure may contain abridged copy or other content changes. The manufacturer reserves the right to make changes to the design, form, colour and specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may show accessories and items of optional equipment which are not part of standard specification. Colours may differ slightly from those shown in the brochure, owing to the limitations of the printing process. This brochure has been compiled by Daimler AG of Germany and is distributed internationally. It provides a general indication of the range of models, features, optional extras and/or colours available in various countries. Some of the models, features, optional extras and/or colours shown may not be available in your country or may only be available in a different specification. Additionally some models, features, optional extras and/or colours may only be available in combination with others. For current and more specific information in relation to the range of models, features, optional extras and/or colours available in your country, and their pricing, you should contact your nearest authorised Mercedes-Benz Retailer.
