Transporter vans

Panel vans

Great for tools and cargo

Kombis

Take your crew, too

Chassis cabs

More versatility for your load

Getting the job done

Doing business is better with
the versatile Transporter

Whatever you need, there's a Transporter for you

THE TRANSPORTER is the perfect starting point for whatever your business requires. The spacious panel van is great for hauling heavy loads while the kombi lets you carry six people and cargo in comfort. If you need to carry more (or want a conversion) the Transporter chassis is available as a versatile single- or double-cab.

Volkswagen's range of advanced 2.0-litre TDI diesel engines – with the option of BlueMotion Technology for even greater efficiency – are incredibly economical, helping you to save money in the long run. And they have a great three-year warranty and support package.

You can also customise your van with cost-effective trimlines and an extensive range of factory-fit options. All you've got to do is decide what's right for you.

Delivering the goods. It's what we've always done...

Today's much-loved Volkswagen vans are only the latest step in a 60-year journey that started with one clever idea

Back in 1947, Dutch importer Ben Pon spotted workers at Volkswagen's Wolfsburg factory using a stripped-down Beetle to move parts and machinery around. Inspired, he sketched the platform for a versatile commercial vehicle that could be adapted to a wealth of uses. From this, the Transporter was born, and the van world has never looked back.

Today, Volkswagen vans are more popular than ever, with a diverse model range – from the compact Caddy, through sturdy Crafter panel vans and dropsides to the Caravelle passenger carrier and the Amarok pick-up.

They're as versatile and dependable as Volkswagens have always been, but now they're more spacious, more comfortable, easier to drive and more fuel-efficient than ever. They're backed up by a Van Centre network that's ready to solve any problem you may have, too.

Getting the job done efficiently and reliably has been at Volkswagen's heart for the past 60 years. It's a reputation for rugged reliability that has endured over the decades. And that's why you can count on us to deliver a vehicle that works for you, today.

Everyday driving made effortless

Getting the Transporter from job to job is a breeze – especially with the addition of optional DSG and 4MOTION® four-wheel drive

The Transporter's powerful and efficient 2.0-litre TDI engines provide plenty of power for heavy loads, while compact, city-friendly dimensions give the Transporter the sort of car-like driving feel that makes delivering the goods easy. In fact, a short-wheelbase Transporter is only slightly longer than a family saloon, making it easy to park – especially when you add optional parking sensors.

Geared up for easy shifts

All Transporters come with either a five- or six-speed manual gearbox, with an easy-to-reach, dash-mounted gear lever. You can also opt for the convenience of our seven-speed automatic Direct Shift Gearbox (DSG).

Add some off-road ability

If you'll be driving off-road where more traction is required, consider choosing optional 4MOTION®. The system delivers true all-wheel-drive performance when needed, but – under normal conditions – it reverts to driving only the front wheels to ensure maximum fuel economy.

Safety comes as standard

The Transporter is packed with technology that helps keep you – and your goods – safe on the road. Volkswagen's advanced ESP (Electronic Stabilisation Programme) works with ABS (Anti-lock Braking System), EBD (Electronic Brakeforce Distribution) and TCS (Traction Control System) to improve safety and control, while Hill Hold Assist makes hill starts a doddle. All these features are fitted as standard on every Transporter and work without you having to lift a finger.

Driving on muddy building sites or where more traction is needed? Consider adding optional 4MOTION®

Driving tech explained

Direct Shift Gearbox (DSG)

Our seven-speed, Direct Shift Gearbox (DSG) is great for city driving. It can be used either as a fully automatic gearbox or as a quick-shift manual – just nudge the gear lever forwards or backwards to change gear up or down.

4MOTION

4MOTION® is an all-wheel-drive system that helps you to maintain optimum grip, especially in slippery conditions. If one wheel loses traction, 4MOTION® reacts in milliseconds and sends more power to the wheels that have the most grip.

Comfortable and convenient

Spacious, versatile and packed with features, the Transporter's cab is a great place to keep your business working

Whether you're doing motorway miles or door-to-door deliveries, you probably spend more time in your van than you do on your sofa, so it has to be comfortable. You also want to stay in touch with colleagues and customers to keep your business working. That's why we've designed the cab with both comfort *and* work in mind.

The perfect fit for you

Ergonomically designed seats give terrific support and have height, lumbar, reach and rake adjustment, while the steering column has height and rake adjustment to ensure your driving position is personalised. Remote central locking, and electric front windows and door mirrors also come as standard for added convenience.

Stay in touch on the move

Your clients want to be able to reach you all the time. That's why we offer optional Bluetooth® connectivity, allowing you to connect your phone and speak to people when you're on the move. A selection of high-quality audio and satellite-navigation systems will also keep you entertained and on the right road, wherever you are.

Electric front windows and electrically adjustable mirrors are fitted as standard

Ultra-clear dashboard

All the controls are easy to use, so you stay focused on the road. A gearshift indicator helps you change gear at the most economical moments.

Comfy seats

Our ergonomically designed seats offer terrific support. Different seat packages let you choose a layout that's perfect for you and your passengers.

Cool and comfortable

Heat-reflective glass keeps things cool, even in the summer. Add Climatronic air-conditioning to give you even greater temperature control through the seasons.

Entertainment and sat-nav to suit you

Want to play MP3s, listen to DAB radio, watch a DVD when you're at rest, or add Europe-wide sat-nav? We've got the kit for you in our options section.

Three-spoke steering wheel

The three-spoke steering wheel is comfortable and easy to use at all times. An optional Bluetooth® kit and multi-function steering wheel let you control your phone and audio system with ease.

Plenty of places to store your stuff

WORKING VEHICLES don't just carry the load in the rear – their cabs also carry all the clutter that fills your working day. That means invoices, drinks, laptops and more. You'll find lots of clever storage spaces in every Transporter – a shelf in the roof, huge door pockets, a large area under the passenger seats and an optional fold-down tray on the passenger seat.

Engines

Technology that helps to cut fuel bills and lower emissions

Intelligent power to drive you on

The Transporter's advanced 2.0-litre TDI engines are strong enough to get the job done, while keeping fuel bills to a minimum

Fuel is likely to be your van's biggest running cost nowadays, and a big burden on your business. That's why we've taken our years of experience developing advanced turbodiesel (TDI) technology and applied it to the Transporter's 2.0-litre TDI engine range. As a result, they now offer more power and use less fuel than ever before – up to 20% less, in fact.

Versatile engine choices

The Transporter's engine range starts with an 84PS 2.0-litre TDI that returns our best fuel efficiency, and goes all the way to the range-topping 180PS twin-turbo 2.0-litre BiTDI that has plenty of power and torque for heavy loads.

Go even greener

If you want to save even more fuel and cut emissions even further, you can always add BlueMotion Technology, or go for the ultra-efficient BlueMotion model. Turn the page to learn more about how BlueMotion Technology works.

Tips to save you even more fuel

Add a sat-nav

A sat-nav can plot shorter routes and prevent wrong turns – some can even help you navigate around traffic jams. It all helps to cut fuel consumption.

Driver training

Training can teach you to drive more economically and safely. Ask the Freight Transport Association (www.fta.co.uk) for details.

Check your tyre pressures

Up to 20% of fuel consumption comes from the tyres' rolling resistance. It's even more if your tyres are underinflated, so check them regularly.

Use your gearshift indicator

A gearshift indicator is fitted to all Transporters. It helps you change gear at the most efficient times.

More miles, less impact

BlueMotion Technology reduces your van's fuel usage and CO₂ emissions. It's now available for most models in the Transporter range

If you want to take the fuel efficiency of your Volkswagen Transporter to a whole new level – and cut emissions even further – you can always add BlueMotion Technology to your engine choice.

The power of technology

BlueMotion Technology is a combination of energy-saving solutions – start/stop, low-rolling-resistance tyres, energy recuperation and cruise control – that you can add to many vehicles in the Transporter range. Working together, they reduce CO₂ emissions and improve fuel economy. Over the life of your van, that could lead to a significantly lower whole-life running cost, as well as lots of time saved at the pumps.

Savings without compromise

Another benefit of BlueMotion Technology is that the savings come without compromising the way you work. You can still add trimlines – such as the Trendline or Highline – to vans that have been fitted with BlueMotion Technology, as well as most factory-fit options. Your Van Centre will help you choose the best specification for your needs.

Cruise control

By keeping your vehicle at a constant speed, cruise control saves fuel that would normally be wasted when your speed fluctuates. It's especially useful when you're driving for long stretches, because it stops your speed creeping up unintentionally and reduces driver stress.

Low-rolling-resistance tyres

Fitting tyres with low rolling resistance means that the engine doesn't have to work as hard to get your van moving – or keep it moving. It all helps to save fuel and reduce carbon emissions.

How BlueMotion Technology works to lower your fuel bills and CO₂ emissions

BlueMotion Technology is available as an engine option on most Transporter panel vans and kombis, and is made up of four elements. Together, they make significant cuts in fuel consumption and CO₂ emissions, which keeps money in your pocket and reduces the impact on the world around us.

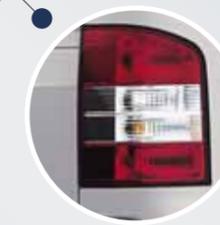

Start/stop

Start/stop allows you to save fuel at traffic lights. When you stop, put your van in neutral, release the clutch and the engine automatically switches off, saving fuel and reducing emissions. When you're ready to go, depress the clutch and the engine starts up again.

Regenerative braking

When braking, energy during deceleration is wasted. Our energy recuperation system uses some of that momentum to turn the alternator and charge the battery. If the battery is well-charged, the engine has to do less work turning the alternator to keep it topped up. This cuts fuel use and emissions.

Models

Pick your perfect van, add a trim or choose a special model

Transporter panel van

All the space you'll need

When shifting large loads, you'll need a van with a large cargo bay and easy access. In which case, the Transporter panel van is your perfect match

The Transporter panel van comes with lots of options to make delivering your cargo as easy and efficient as possible. A choice of two wheelbases lets you load items up to 2.97m long, while optional roof packs can increase the load height to 1.94m and bring the load volume up to an impressive 9.3m³.

Easy to load

With a low floor height of 566mm, getting cargo in and out is a breeze. You can also secure your load with up to eight lashing rings. The panel van comes with a passenger-side sliding door fitted as standard, but adding an optional second sliding door lets you access your cargo on whichever side of the road you park. Panel vans come with unglazed rear doors as standard, but you can choose to add a variety of factory-fitted rear door options, including tailgates or doors with 250-degree hinges, which fold completely out of the way for easy loading and unloading.

Configured to your needs

We know that personalising your cargo bay helps you to get even more from your vehicle. So, whether you're after roof bars, towing attachments or plying to keep your van's interior looking good, we've got a range of factory-fitted options that are designed to last.

Sizing your load

You can easily fit two 0.8m x 1.2m Euro pallets into a short-wheelbase Transporter. The long-wheelbase model can take three with room to spare

With a floor height of 566mm and a load length of 2.97m, getting cargo in and out of the Transporter panel van is easy

Transporter kombi

The best of both worlds

Want to carry your crew, while still shifting plenty of stuff? With three extra seats in the rear and loads of cargo space, the Transporter kombi can do both with ease

Sometimes work isn't just about shifting cargo or tools. You may have to take crew to a job, too, and moving them in separate vehicles costs money. Enter the Transporter kombi – a truly versatile way to move up to six people and goods in one swift move.

Same great cargo versatility

The Transporter kombi comes in the same versatile configurations as the panel van. That means short and long wheelbases for loads up to 2.97m in length, with optional roof packs that can increase the interior height to 1.92m and bring the total load volume up to 9.3m³. You can also add a second sliding door to the standard passenger-side door, or a rear tailgate or twin rear doors with 250-degree hinges for ease of loading. In fact, you can customise the Transporter kombi in all the same ways as you can with a panel van.

Seating that works for you

All Transporter kombis come with a driver's seat, single passenger seat and three-seat rear bench as standard. For extra versatility, the rear bench folds down, increasing the load area to almost that of a panel van. There are also optional seat packs – for example, swivelling front seats that let you and a passenger turn to face those in the rear.

Sizing your load

An average washing machine will occupy about 0.25m³ of your Transporter kombi's load volume and weighs about 70kg

Transporter chassis and dropside

Robust and flexible

The heavy-duty Transporter chassis comes with the option of a factory-fitted dropside or a load area that can be customised to your specific needs

When what you need to carry won't fit in a panel van, or if you need to configure the load area to your specific needs, the Transporter chassis offers a range of options. It's available as either a single cab that seats up to three people or a double cab that seats up to six.

Dropsides that do the job

When it comes to creating your perfect heavy-duty Transporter, you've got two options. You could pick a Transporter chassis fitted with our off-the-shelf, rugged alloy dropside body. Or, if you're after something specific, your local Van Centre can point you in the direction of a Volkswagen Commercial Vehicles-approved converter, who can provide a solution that'll fit your requirements.

• To find out more about converting a Transporter chassis, visit www.volkswagen-vans.co.uk/conversions, contact your local Van Centre, or call us on 0800 717131

Trimlines

Even more features
for your van, for
one great price

More features, better value

Startline, Trendline and Highline: add options to your van in an easy, cost-effective way

Trimlines combine our most popular factory-fit options in one easy-fit pack, for one value-added price. This means that choosing a trimline is more cost-effective than buying the same options separately.

The result: a feature-packed van that delivers more for your business every day, with better resale value in the long-term.

The range of Transporter trimlines begins with the already well-equipped Startline. You can add more comfort and convenience by upgrading to Trendline, while Highline is our most feature-packed trimline, offering excellent value for money at an affordable price.

You can add trimlines to any Transporter panel van or kombi and combine them with BlueMotion Technology to save even more with Volkswagen's most fuel-efficient engines yet. And, if you want to add more options, feel free. Your Van Centre can help you pick what's right for you.

STARTLINE, TRENDLINE AND HIGHLINE

Trendline

Add extra style with body-coloured bumpers, door handles and door mirrors, as well as special wheel trims (main image).

Inside the cab, Tasamo cloth upholstery, a premium dashboard, comfort pack and driver's armrest increase the luxury feel.

Rear parking sensors help you get into tight spaces with ease, while an RCD 310 CD/radio with aux-in for external devices makes journeys even more enjoyable.

In addition, cruise control and Bluetooth® phone connectivity means the road gets your undivided attention.

Highline

All the features of the Trendline and more. The Highline's 16" Colmar alloy wheels (17" Thunder on 180PS models) look the business, and Climatronic air-conditioning and a leather-covered steering wheel make the cab look, and feel, cool. Front fog lights show you the way ahead, while a Thatcham Category 1 alarm and immobiliser give you peace of mind when you're away from your van.

BlueMotion

Take fuel economy to a new level with our most efficient Transporter

Paint options

The Transporter BlueMotion is available in every paint colour in the Transporter range, as well as Olympic Blue (seen here).

Plenty of options

The Transporter BlueMotion has almost the same extensive range of options as the rest of the Transporter range, letting you customise your van. A few are limited because of the BlueMotion model's ultra-efficient design, but your Van Centre can help you pick the best solutions.

Same great load space

The Transporter BlueMotion is as user-friendly as any other Transporter. Its short wheelbase is great for city driving, yet it can still carry up to 871kg and loads as long as 2.57m.

BlueMotion technologies

The Transporter BlueMotion contains all our BlueMotion technologies: start/stop, energy recuperation, low-rolling-resistance tyres and cruise control.

Improved economy

The 2.0-litre TDI engine brings fuel economy of 48.7mpg (combined) and CO₂ emissions of 153g/km. Yet with 114PS, it still has plenty of power.

The ultimate in efficiency

The Transporter BlueMotion is a unique model offering the very best fuel economy in the Transporter range

The Transporter BlueMotion panel van is a true hero of the Volkswagen Commercial Vehicle range. As well as using all BlueMotion Technologies, every aspect of its specification has been optimised to reduce weight and improve aerodynamics. That means you benefit from impressive fuel-efficiency figures of 48.7mpg (combined) – 11 mpg better than a standard Transporter – and CO₂ emissions of 153g/km.

Sportline

Mark yourself out from the pack with our most stylish Transporter

It's the business

Make a real impression with the top-of-the-range Transporter Sportline – it's stunning inside and out

The Transporter Sportline lifts Volkswagen's best-seller into a bold new business class. Available as a panel van or a kombi, the Sportline features all the versatility you'd expect, but its remarkable performance and sleek styling will turn heads and confirm to your customers that they're dealing with discerning tradespeople. We know, because *What Van?* picked the Sportline as 'Editor's Choice' in its 2012 awards.

A sporty ride

18" Sportline five-spoke alloy wheels – available in silver or black – give the Sportline a dynamic look.

Up to the task

The Sportline retains all the practicality you'd expect in any Transporter – 6.7m³ of load space and a 1,259kg payload. The kombi version seats up to five people, and long- and short-wheelbase variants widen your choice further.

The style is in the details

The Transporter Sportline can be a subtle promoter of your business. Sportline logos and chrome detailing highlight a sophisticated cab and front end, while darkened light clusters and polished-steel side bars create a striking appearance.

Powerful and efficient

The Sportline uses the Transporter's top-of-the-range 2.0-litre BiTDI twin-turbo diesel engine. With 180PS and 400Nm of torque, it has enough power for any job, while remaining refined and economical.

Entertained and in-touch

The Sportline's Kehwood Multimedia System has a 7" colour touch-screen and full European satellite-navigation with real-time traffic info. There are also connections for Bluetooth® mobile phones and other external devices.

Luxury office on the move

The Sportline's stylish cabin features two-tone leather upholstery, front floor mats with a Sportline logo, and leather covers for the steering wheel and gearknob. There's a driver's-seat armrest and air-conditioning, too.

Transporter panel van: **Startline features**

Startline

Exterior

80-litre lockable fuel tank
Black wheel centre caps
Door mirrors, electrically heated and adjustable
Galvanised steel body
Grey bumpers
Heat-reflective glass
180° unglazed rear wing doors
Steel wheels:
16" x 6.5J (84PS, 102PS, 114PS and 140PS models)
17" x 7J (180PS models)
Tyres:
205/65 R16 on 84PS, 102PS and 140PS models
215/65 R16 with low rolling resistance on BlueMotion and BlueMotion Technology models
235/55 R17 on 180PS models
215/60 R17 all-weather on T32 180PS models
Full-size spare wheel
Tool kit and jack

Interior

Cab area:
12V socket
Electric front windows
Digital clock
Driver's seat with height, lumbar, reach and rake adjustment
Dual passenger seat with storage box
Interior light
Manually controlled heating system with dust and pollen filter, and air recirculation
Austin cloth upholstery
RCD 210 radio/single CD player with two speakers
Rev counter
Rubber floor covering
Lockable glove compartment
Storage net on lower dash passenger side
Gear shift indicator
Cargo area:
Two door-activated interior lights (three with optional high roof)
Half-height load sidelining in hardboard
Interior entry step
Interior roof trim in painted hardboard (low roof only)
Load-lashing rings (six for short-wheelbase, eight for long-wheelbase)
Rear-door interior release lever
Sheet steel flooring
Sliding passenger-side door

Safety and security

Driver and front passenger (with deactivation) airbags
Thatcham Category 2 approved immobiliser
Height-adjustable head restraints
Height- and rake-adjustable steering column
Remote central locking with interior locking and two remote folding keys
Electronic Stabilisation Programme (ESP)
Electronic Differential Lock (EDL)
Anti-lock Braking System (ABS)
Electronic Brakeforce Distribution (EBD)
Traction Control System (TCS)
Hill Hold Assist

Sliding passenger-side door

The Transporter panel van has a passenger-side sliding door fitted as standard. You can replace this with a driver-side door as a factory-fit option at no cost. Or, add a driver-side door so you can load the vehicle from either side.

RCD 210 radio/CD player

The RCD 210 includes an AM/FM radio and MP3 file-compatible CD player, and comes with two 20W speakers in the cab. You can choose to upgrade your audio – or add phone connectivity or a sat-nav – in our factory-fit options section.

In-cab storage solutions

Vans don't just carry load in the rear – the cab carries the clutter that fills your working day, too. Luckily, there are lots of clever storage solutions in the Transporter, including a large area under the dual passenger bench.

Rear wing doors

The Transporter panel van comes with unglazed rear wing doors fitted as standard. You can replace these with glazed wing doors, either a glazed or unglazed tailgate, or 250° butterfly doors that offer even greater access.

Electrically adjustable door mirrors and front windows

Every Transporter panel van comes fitted with electrically heated and adjustable door mirrors, as well as electric front windows.

Safety features: as standard

The Transporter comes with a driver and front passenger airbag, as well Electronic Stabilisation Programme (ESP), Anti-lock Braking System (ABS) and Electronic Brakeforce Distribution (EBD). Hill Hold Assist for easy hill starts is also fitted.

Cargo area

The rear of the Transporter panel van is equipped with features to make work easy. There's an entry step and two door-activated interior lights, half-height load sidelining, roof trim to protect your vehicle, and up to eight load-lashing rings.

* For full details of VED (Vehicle Excise Duty) bands and other costs included in the On The Road package, please ask your Van Centre.

** Includes BlueMotion Technology as standard.

*** BlueMotion Technology can be added to any model in the Transporter range except for those with a 102PS engine

For a full description of BlueMotion Technology and additional prices, see p30

Finance that makes buying a Volkswagen even more affordable

Our extensive range of finance packages can make driving a Volkswagen Transporter a reality. Ask your Van Centre for a Business Finance brochure and speak to us today – you may be surprised at how much you can afford.

Transporter panel van: Trendline and Highline

Trendline

A selection of our most popular factory-fit options that you can add to the Startline specification. They come in one easy-fit pack for one value-added price, so you'll save money over buying them individually. You can also add BlueMotion Technology for even greater savings on your fuel bills

Body-coloured bumpers, mirrors and door handles

A great way to add extra style to your Transporter. The Trendline also includes special wheel trims for that finishing touch.

RCD 310 radio/CD with aux-in

Adds two extra speakers (four in total), an MP3 compatible CD player, an aux-in for external devices and the ability to add Digital Audio Broadcast (DAB) radio as a factory-fit option.

Also included in the Trendline trim

Cab area

Premium dashboard (includes platinum-grey centre console surround, rubber storage compartment trays and air vent controls)

Bluetooth® mobile phone connection. Includes trip computer with multi-function display

Tasamo cloth upholstery

Comfort pack (includes grab handle on A-pillars, sunglasses holder, driver and front-passenger seat side storage compartments, sun visors with vanity mirrors, two-tone horn, reading lights, dimmable dashboard illumination and additional noise-suppression measures)

Armrests for driver's seat

Cargo area

Full-height steel bulkhead

Cruise control

By keeping your van at a constant speed for long stretches of your journey, cruise control saves fuel that would normally be wasted when your speed fluctuates.

Rear parking sensors

You can see a lot using the Transporter's large wing mirrors, but city obstacles such as bollards are often hidden from view. Parking sensors will help alert you to these hazards.

Highline

Includes all the Trendline elements (see page left), but adds even more style and functionality to the base specification. As with the Trendline, buying the options in one pack gives you better value than buying them separately. You can still add BlueMotion Technology, too

16" Colmar alloys

Set of four 6.5J x 16 alloys with 215/65 R16 tyres. Not compatible with 180PS engines or T32 models.

17" Thunder alloys (on 180PS)

Set of four 7J x 17 alloys with 235/55 R17 tyres (all-weather tyres when used with BlueMotion Technology). Not compatible with T32 models.

Leather-covered steering wheel, gearknob and gaiter

Add a luxurious feel to the interior of your Transporter panel van.

Climatic air-conditioning

Make sure that you and your passengers are always at the right temperature – warm on winter days, and cool in the heat of summer.

Front fog lights with cornering function

Get an even better view of the road ahead, particularly in low-light conditions. Also adds style to your van's front-end.

Also included in the Highline trim

Thatcham Category 1 approved alarm and immobiliser with tow-away, perimeter and interior cab protection

Upgrade any Transporter panel van from Startline to Trendline (except BlueMotion or Sportline models)

Trendline price (panel van)	
Basic (ex vat)	£1,200.00
Total RRP (inc vat)	£1,440.00

The savings you make (ex vat)	
What it's worth	£1,890.00
What you pay	£1,200.00
What you save	£690.00

Upgrade any Transporter panel van from Startline to Highline (except BlueMotion or Sportline models)

Highline price (panel van)	
Basic (ex vat)	£2,400.00
Total RRP (inc vat)	£2,880.00

The savings you make (ex vat)	
What it's worth	£3,755.00
What you pay	£2,400.00
What you save	£1,355.00

Transporter panel van: BlueMotion Technology

BlueMotion Technology

Technology that dramatically improves the fuel efficiency of your van and lowers its emissions, cutting your fuel bills and your impact on the environment. It can be added to any of the Transporter trimlines: Startline, Trendline and Highline

Start/stop

Start/stop helps you to save fuel in slow traffic and at traffic lights by cutting the engine. When you're ready to get going again, the engine automatically restarts.

Low-rolling-resistance tyres

Tyres with low rolling resistance mean that the engine doesn't have to work as hard to get your van moving – or keep it moving. It all helps to save fuel and reduce your running costs and emissions.

Cruise control

By keeping your van at a constant speed for long stretches of road, cruise control saves fuel that would normally be wasted when your speed fluctuates.

Energy recuperation

Energy recuperation uses momentum during deceleration to turn the alternator and charge the battery. That means the engine has to do less work at other times.

BlueMotion Technology badge

By carrying the BlueMotion Technology badge, you'll be showing that your business chooses its vehicles to keep its impact on the environment to a minimum.

BLUEMOTION TECHNOLOGY

Add the BlueMotion Technology price to the price of any Transporter panel van (except 102PS, BlueMotion or Sportline models)

BlueMotion Technology price

Basic (ex VAT)	£335.00
Total RRP (inc VAT)	£402.00

Please note: The 114PS engine includes BlueMotion Technology as standard, and therefore incurs no additional charge.

Transporter BlueMotion panel van

A unique model with the best fuel economy in the Transporter range. It uses all the BlueMotion Technologies and a specification optimised to reduce weight and improve aerodynamics. The end result – a fuel efficiency of up to 48.7mpg (combined)

*Trendline and Highline are not compatible with the BlueMotion model, but many factory-fit options can be fitted. Please check the Options section, or ask your Van Centre for details.

BLUEMOTION

BlueMotion panel van features

Everything on the Transporter panel van Startline and BlueMotion Technology, plus:

Tyre pressure monitor

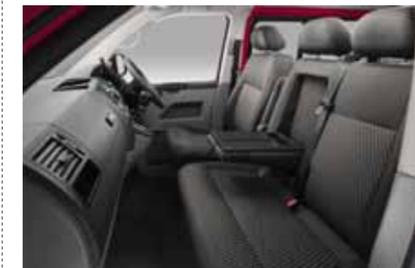

Timo cloth upholstery

BlueMotion exterior badge

Tyre pressure monitor

A helpful feature that'll help you keep your tyres at the correct pressure – vital for safety, but also useful for ensuring improved fuel economy.

Timo cloth upholstery

Stylish, hard-wearing upholstery that ensures the interior will retain its good looks.

Transporter panel van: **Sportline**

Transporter Sportline panel van

The most stylish, feature-packed model in the Transporter range. The 180PS 2.0-litre TDI engine delivers plenty of power, while our most desirable and advanced factory-fit options – including some exclusive to this model – mark you and your van out from the pack

* Trendline, Highline and BlueMotion Technology are not compatible with the Transporter Sportline, but many factory-fit options can be added. Please see the Options section, or ask your Van Centre for details

A dash of extra style

The exterior of the Transporter Sportline is packed with stylish highlights, including body-coloured bumpers, door handles and front and rear spoiler, as well as gloss black door mirrors, stainless-steel sidebars and chrome detailing.

Added interior comfort

Inside the cab, the Transporter Sportline adds even more style and comfort, courtesy of two-tone leather upholstery, front floor mats with a Sportline logo and a leather-covered steering wheel and gearknob. There's a driver-seat armrest and advanced Climatic air-conditioning, too.

Exterior

- 18" Sportline five-spoke alloy wheels with 255/45 R18 103 tyres. Includes Tyre Mobility System. Available in Brilliant Silver or Bi-colour finish
- Deep Black pearlescent or Reflex Silver metallic paint (Candy White with Gloss Black roof is available as an optional extra)
- Body-coloured bumpers and door handles
- Gloss black door mirror covers with Sportline logo
- Front spoiler
- Gloss black upper and lower front grille with chrome detailing
- Headlights with interior chrome detailing
- Darkened rear light clusters
- Polished stainless-steel side bars
- Tailgate without window
- Rear roof spoiler
- Sportline exterior badge

Interior

- Two-tone leather upholstery with Sportline logo
- Front carpet floor mats with Sportline logo
- Leather-covered steering wheel and gearknob
- Armrests on driver's seat
- Climatic semi-automatic air-conditioning for cab
- Kenwood DAB Multimedia System, with 7" colour touch-screen, full European Garmin satellite-navigation with real-time traffic information, built-in Bluetooth® phone connectivity. DAB radio and single CD with DVD playback. Full iPod or iPhone connectivity with an optional lead (please ask your Van Centre for full details)
- Trip computer with multi-function display

Safety and security

- Rear parking sensors
- Front fog lights with cornering light function
- Thatcham Category 1 – approved alarm and immobiliser with tow-away, perimeter and interior cab protection

Kenwood DAB Multimedia System

European sat-nav with integrated DAB radio, CD and DVD, as well as MP3 player and Bluetooth® phone connectivity – all controlled through the high-resolution 7" touch-screen.

18" Sportline alloys

18" Sportline five-spoke alloy wheels – available in Brilliant Silver (pictured left) or Bi-colour (above) – give the Transporter Sportline a dynamic look.

- Height and rake adjustable steering column
- Remote central locking with interior locking and two remote folding keys
- Electronic Stabilisation Programme (ESP)
- Electronic Differential Lock (EDL)
- Anti-lock Braking System (ABS)
- Electronic Brakeforce Distribution (EBD)
- Traction Control System (TCS)
- Hill Hold Assist

How to choose your perfect Transporter kombi

- p36 **Pick a Startline model/engine**
- p38 **Add Trendline or Highline to get our top options at one value-added price**
- p40 **Add BlueMotion Technology for even greater fuel savings**
- p42 **Pick the exclusive Sportline model for the ultimate style**
- p48 **Choose any extra factory-fit options you want**

Sliding passenger-side door

The Transporter kombi has a passenger-side sliding door fitted as standard. You can add a driver-side door as a factory-fit option to let your passengers access the vehicle from either side.

RCD 210 radio/CD player

The RCD 210 includes an AM/FM radio and MP3 file-compatible CD player, and comes with two 20W speakers in the cab. You can choose to upgrade your audio – or add phone connectivity or a sat-nav – in our factory-fit options section.

In-cab storage solutions

Kombis don't just carry passengers or loads in the rear – the cab also carries the clutter that fills your working day. Luckily, the Transporter kombi has lots of clever storage solutions.

Tailgate with heated rear window and wash/wipe

The Transporter kombi comes with a tailgate with heated window and wash/wipe as standard. You can replace this with an unglazed tailgate, glazed or unglazed wing doors, or 250° butterfly doors that offer even greater access.

Electrically adjustable door mirrors and front windows

Every Transporter kombi comes fitted with electrically heated and adjustable door mirrors, as well as electric front windows.

Safety features: as standard

The Transporter kombi comes with a driver and front passenger airbag, Electronic Stabilisation Programme (ESP), Anti-lock Braking System (ABS) and Electronic Brakeforce Distribution (EBD). Hill Hold Assist for easy hill starts is also fitted.

Cargo area

The rear of the Transporter kombi is packed with features to make work easy: an entry step and two door-activated interior lights, half-height load sidelining and roof trim to protect your vehicle and up to eight load-lashing rings.

Finance that makes buying a Volkswagen even more affordable

Our extensive range of finance packages can make driving a Transporter a reality. Ask your Van Centre for a Business Finance brochure and speak to us today – you may be surprised at how much you can afford.

* For full details of VED (Vehicle Excise Duty) bands and other costs included in the On The Road package, please ask your Van Centre.

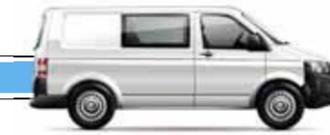

** Includes BlueMotion Technology as standard.

*** BlueMotion Technology can be added to any model in the Transporter range except for those with a 102PS engine

For a full description of BlueMotion Technology and additional prices, see p40

Transporter kombi: Trendline and Highline

Trendline

A selection of our most popular factory-fit options that you can add to the Startline specification. They come in one easy-fit pack for one value-added price, so you'll save money over buying them individually. You can also add BlueMotion Technology for even greater savings on your fuel bills

Body-coloured bumpers, mirrors and door handles

A great way to add extra style to your Transporter kombi. The Trendline also includes special wheel trims for that finishing touch.

RCD 310 radio/CD with aux-in

Adds two extra speakers (four in total), an MP3 compatible CD player, an aux-in for external devices and the ability to add Digital Audio Broadcast (DAB) radio as a factory-fit option.

Also included in the Trendline trim

Cab area

Premium dashboard (includes platinum-grey centre console surround, rubber storage compartment trays and air vent controls)

Bluetooth® mobile phone connection. Includes trip computer with multi-function display

Tasamo cloth upholstery

Comfort pack (includes grab handle on A-pillars, sunglasses holder, driver and front-passenger seat side storage compartments, sun visors with vanity mirrors, two-tone horn, reading lights, dimmable dashboard illumination and additional noise-suppression measures)

Armrests for driver's seat

Cruise control

By keeping your van at a constant speed for long stretches of your journey, cruise control saves fuel that would normally be wasted when your speed fluctuates.

Rear parking sensors

You can see a lot using the Transporter's large wing mirrors, but city obstacles such as bollards are often hidden from view. Parking sensors will help alert you to these hidden hazards.

Highline

Includes all the Trendline elements (see page left), but adds even more style and functionality to the base specification. As with the Trendline, buying the options in one pack gives you better value than buying them separately. You can still add BlueMotion Technology, too

16" Colmar alloys

Set of four 6.5J x 16 alloys with 215/65 R16 tyres. Not compatible with 180PS engines or T32 models.

17" Thunder alloys (on 180PS)

Set of four 7J x 17 alloys with 235/55 R17 tyres (all-weather tyres when used with BlueMotion Technology). Not compatible with T32 models.

Leather-covered steering wheel, gearknob and gaiter

Add an extra dose of luxurious feel to the interior of your Transporter panel van.

Also included in the Highline trim

Thatcham Category 1 approved alarm and immobiliser with tow-away, perimeter and interior cab protection

Climatic air-conditioning

Make sure that you and your fellow passengers in the front cab are always at the perfect temperature – warm on winter days, and cool in the heat of summer.

Front fog lights with cornering function

Get an even better view of the road ahead, particularly in low-light conditions. Also adds style to your van's front-end.

Upgrade any Transporter kombi from Startline to Trendline (except Sportline)

Trendline price (kombi)

The savings you make (ex vat)

What it's worth	£4,065.00
What you pay	£2,650.00
What you save	£1,415.00

Transporter kombi: BlueMotion Technology

BlueMotion Technology pack

Technology that dramatically improves the fuel efficiency of your van and lowers its emissions, cutting your fuel bills and your impact on the environment. It can be added to any Transporter kombi van trimline: Startline, Trendline or Highline

Start/stop

Start/stop helps you to save fuel in slow traffic and at traffic lights by cutting the engine. When you're ready to get going again, the engine automatically restarts.

Low-rolling-resistance tyres

Tyres with low rolling resistance mean that the engine doesn't have to work as hard to get your van moving – or keep it moving. It all helps to save fuel and reduce your running costs and emissions.

Cruise control

By keeping your van at a constant speed for long stretches of your journey, cruise control saves fuel that would normally be wasted when your speed fluctuates.

Energy recuperation

Energy recuperation uses momentum during deceleration to turn the alternator and charge the battery. That means the engine has to do less work at other times.

BlueMotion Technology badge

By carrying the BlueMotion Technology badge, you show that your business chooses its vehicles to keep its impact on the environment to a minimum.

Add the BlueMotion Technology price to the price of any Transporter kombi (except 102PS and Sportline models. Standard on 114PS)

BlueMotion Technology price

Basic (ex VAT)	£335.00
Total RRP (inc VAT)	£402.00

Transporter kombi: Sportline

Transporter Sportline kombi

The most stylish, feature-packed model in the Transporter range. The 180PS 2.0-litre TDI engine gives plenty of power, while our most desirable and advanced factory-fit options – including some exclusive to this model – mark you and your van out from the pack

* Trendline, Highline and BlueMotion Technology are not compatible with the Transporter Sportline, but many factory-fit options can be added. Please see the Options section, or ask your Van Centre for details

A dash of extra style

The exterior of the Transporter Sportline is packed with stylish highlights, including body-coloured bumpers, door handles and front and rear spoiler, as well as gloss black door mirrors, stainless-steel sidebars and chrome detailing.

Added interior comfort

Inside the cab, the Transporter Sportline adds even more style and comfort, courtesy of two-tone leather upholstery, front floor mats with a Sportline logo and a leather-covered steering wheel and gearknob. There's a driver-seat armrest and advanced Climatic air-conditioning, too.

Exterior

- 18" Sportline five-spoke alloy wheels with 255/45 R18 103 tyres. Includes Tyre Mobility System. Available in Brilliant Silver or Bi-colour finish
- Deep Black pearlescent or Reflex Silver metallic paint (Candy White with Gloss Black roof is available as an optional extra)
- Body-coloured bumpers and door handles
- Gloss black door mirror covers with Sportline logo
- Front spoiler
- Gloss black upper and lower front grille with chrome detailing
- Headlights with interior chrome detailing
- Darkened rear light clusters
- Polished stainless-steel side bars
- Tailgate with window
- Rear roof spoiler
- Sportline exterior badge

Interior

- Two-tone leather upholstery with Sportline logo
- Front carpet floor mats with Sportline logo
- Leather-covered steering wheel and gearknob
- Armrests on drivers seat
- Climatic semi-automatic air-conditioning for cab
- Kenwood DAB Multimedia System – 7" colour touch-screen, full European Garmin satellite-navigation with real-time traffic information, built-in Bluetooth phone connectivity, DAB radio and single CD with DVD playback. Full iPod or iPhone connectivity with an optional lead (please ask your Van Centre for full details)
- Trip computer with multi-function display

Safety and security

- Rear parking sensors
- Front fog lights with cornering light function
- Thatcham Category 1 approved alarm and immobiliser, with tow-away, perimeter and interior cab protection

Kenwood DAB Multimedia System

European sat-nav with integrated DAB radio, CD and DVD, as well as MP3 player and Bluetooth® phone connectivity – all controlled through the high-resolution 7" touch-screen.

18" Sportline alloys

18" Sportline five-spoke alloy wheels – available in Brilliant Silver (pictured left) or Bi-colour (above) – give the Transporter Sportline a dynamic look.

Transporter chassis: **Standard features***

Exterior

- 80-litre lockable fuel tank
- Black wheel centre caps
- Door mirrors, electrically heated and adjustable
- Galvanised full steel body
- Grey bumpers
- Heat-reflective glass
- Ladder frame chassis at rear
- Steel wheels:**
- 16" x 6.5J
- Tyres:**
- 205/65 R16 (84PS, 102PS and 140PS models)
- 205/65 R16(140PS 4MOTION® double cab only)
- 215/65 R16 (140PS 4MOTION® chassis cab only)
- 215/65 R16 (140PS DSG engines)
- Full-size spare wheel
- Tool kit and jack

Interior

- Single cab area:**
- 12V socket
- Electric front windows
- Digital clock
- Driver's seat with height, lumbar, reach and rake adjustment
- Dual passenger seat with storage box
- Interior light
- Manually controlled heating system with dust and pollen filter, and air recirculation
- Austin cloth upholstery
- RCD 210 radio/single CD player with two speakers
- Rev counter
- Rubber floor covering
- Lockable glove compartment
- Storage net on lower dash passenger side
- Gear shift indicator
- Double cab passenger area:**
- Two side doors with fixed windows
- Three-seat bench with storage underneath
- Childlocks
- Interior entry steps
- Interior roof and side trim in grey painted hardboard
- Rubber floor covering
- Sliding passenger-side door

Safety and security

- Driver and front passenger (with deactivation) airbags
- Thatcham Category 2 approved immobiliser
- Height-adjustable head restraints
- Height- and rake- adjustable steering column
- Electronic Stabilisation Programme (ESP)
- Electronic Differential Lock (EDL)
- Anti-lock Braking System (ABS)
- Electronic Brakeforce Distribution (EBD)
- Traction Control System (TCS)
- Hill Hold Assist
- Remote central locking with interior locking switch and two remote folding keys

Single cab

The perfect Transporter chassis for keeping your load length to a maximum. Despite the rear's stripped-down nature – perfect for a dropside, or customising to your needs – the Transporter chassis still boasts a feature-packed cab.

Double cab

The ideal model if you want to carry your crew as well as a sizeable load. The three-seat bench in the rear provides extra storage space.

RCD 210 radio/CD player

The RCD 210 includes an AM/FM radio and MP3 file-compatible CD player, and comes with two 20W speakers in the cab. You can choose to upgrade your audio, or add phone connectivity or a sat-nav, in our factory-fit options section.

Safety features: as standard

The Transporter comes with a driver and front passenger airbag, as well Electronic Stabilisation Programme (ESP), Anti-lock Braking System (ABS) and Electronic Brakeforce Distribution (EBD). Hill Hold Assist for easy hill starts is also fitted.

In-cab storage solutions

Vans don't just carry load in the rear – the cab carries the clutter that fills your working day, too. Luckily, there are lots of clever storage solutions in the Transporter, including a large area under the dual passenger bench.

Electrically adjustable door mirrors and front windows

Every Transporter chassis comes fitted with electrically heated and adjustable door mirrors, as well as electric front windows.

How to choose your ideal Transporter chassis

- p46 **Pick a base model/engine**
- p48 **Choose any extra factory-fit options you want**

* Trimlines – such as Startline, Trendline, Highline and Sportline – and BlueMotion Technology are not available for the Transporter chassis single cab and double cab

Check your roof height

Roof packs are great for adding load height and volume, but make sure they suit where you work. Height restrictions in city-centre car parks could be as low as 1.8m. To check the height of your van, see the data section, starting on page 70.

† Please confirm colour availability of body-coloured options with your Van Centre
‡ Not compatible with certain other options, including alarms, roof load-rack preparation, sunroofs, alternative side door options and some gearbox/drivetrain options. Please consult your Van Centre

Choose your rear doors

Transporter panel vans come with unglazed rear wing doors, while the kombi is fitted with a tailgate with a heated window and wash/wipe. You can choose what doors your van has, though, including wing doors with 250° hinges for even easier access.

Fit an extra side door

Transporter panel vans come with a sliding door on the passenger side as standard. Fitting a side door on the driver side lets you access your load from the pavement, no matter what side you have to park on.

Useful towing tips

1. Watch your weight

Make sure your trailer doesn't exceed your vehicle's maximum towing limit or its gross train weight. You'll find these in your handbook

2. Load well, stay stable

For stability, put heavy items low down over the trailer axle. Ensure the trailer has a slightly nose-down attitude, but that it doesn't exceed the van's or trailer's nose weight limit.

3. Check your tyres

Your van's tyres may need to be inflated to a greater pressure to cope with the extra load. Check your vehicle's handbook.

Choose a bulkhead

Bulkheads separate the load space from the cab, giving you greater protection from shifting loads, less noise from the cargo bay and a warmer cab in winter.

Choose cruise control

Cruise control can help reduce the fatigue and stress of sticking to speed limits on long journeys. It also helps reduce the amount of fuel you use by cutting out the acceleration and braking used to maintain a steady road speed.

Lane Change Assist

Lane Change Assist makes motorway driving safer by helping to prevent accidents when you want to change lanes. The system monitors your blind spots and warns you of a potentially hazardous situation by flashing warning lights in the exterior mirrors.

Useful security tips

- 1. Get an alarm**
Alarm noise may be enough to scare a thief and prevent a costly break-in.
- 2. Lock your doors**
Even if you're only away from your van for a minute, locked doors deter thieves looking for an easy target.
- 3. Keep it tidy**
Seemingly trivial items can still be bait to thieves. Stow gadgets out of sight or take them with you. Thieves know to look in the glove box, too.
- 4. Load out of sight**
Try and load your van in a secure location. Thieves can linger in public areas for an easy swipe-and-run.
- 5. Park for visibility**
Use well-lit areas. Avoid parking near vehicles or foliage that a thief could use for cover. Parking right up against walls can stop a thief getting in through your van's doors, too.

Choose your electrics

Some factory-fit options, such as heaters or air-conditioning, require an up-rated battery or alternator to work. Your Van Centre can advise you on the best solution for you.

Want more? Pick an Add On...

The Transporter comes with a wide range of factory-fit options, but you may want something extra. That's where Add Ons comes in

Add Ons is the new name for our extensive range of Volkswagen-approved accessories, available to buy and be fitted at your Van Centre. Whether you want to add extra style to your van, get more out of your cargo bay, convert a work van into a weekend leisure vehicle or add extra audio, phone and sat-nav accessories to your cab, we've got the Add Ons for you.

Help keep it 100% Volkswagen

There are big advantages to purchasing your accessories from Volkswagen. Add Ons have all been designed with Volkswagen in mind, so they're a perfect match for fit and style, and have been designed and developed to be just as rugged, reliable and long-lasting as your vehicle.

Keep your Add Ons covered

Most Add Ons include a two-year warranty. However, if you order and fit them when you buy your a new van, we may be able to extend that to three years to match your vehicle's warranty. Pop into your Van Centre and ask our staff about how much Add Ons can add to your life.

To get a brochure, pop into a Van Centre. To find your nearest one, call 0800 717131 or visit www.volkswagen-vans.co.uk

Top five Transporter Add Ons

1 Kenwood DAB Multimedia system*

Our top-of-the range DAB radio and sat-nav system includes a DVD player and Bluetooth®. It comes as standard on the Transporter Sportline and is available as an Add On for all other models.

* Some functions only work when vehicle is at rest

2 Rear-bumper cover

Help protect your rear bumper from daily wear and tear and keep it looking good.

3 Waterproof seat covers

Protect your driver and front-passenger seats from wet and dirt. Not for vehicles with side airbags. (Available in standard, or with Sportline logos)

4 Polished stainless steel side rails

These rails not only look good, they also protect your van's sills from damage. They're available for short- and long-wheelbase vans, as well as the Sportline models.

5 18" Sportline Brilliant Silver alloys

Add extra style with these 8J x 18 alloys, or any of the many other alloys from our Add Ons range.

Transporter panel van: Dimensions

Short wheelbase

Long wheelbase

Dimensions (short wheelbase)	Low roof	Medium roof
Wheelbase	3,000	3,000
Load compartment		
Length	2,570	2,570
Width	1,692	1,692
Width (between wheel housings)	1,244	1,244
Height	1,410	1,626
Area	4.3m ²	4.3m ²
Volume	5.8m ³	6.7m ³
Sliding side door		
Width	1,020	1,020
Height	1,284	1,284
Rear wing doors		
Width	1,486	1,486
Height	1,305	1,305
Turning circle (wall to wall)	11.9m	11.9m

Dimensions (long wheelbase)	Low roof	Medium roof	High roof
Wheelbase	3,400	3,400	3,400
Load compartment			
Length	2,970	2,970	2,970
Width	1,692	1,692	1,692
Width (between wheel housings)	1,244	1,244	1,244
Height	1,410	1,626	1,940
Area	5.0m ²	5.0m ²	5.0m ²
Volume	6.7m ³	7.8m ³	9.3m ³
Sliding side door			
Width	1,020	1,020	1,020
Height	1,284	1,284	1,284*
Rear wing doors			
Width	1,486	1,486	1,486
Height	1,305	1,305	1,694
Turning circle (wall to wall)	13.2m	13.2m	13.2m

Dimensions in mm unless otherwise indicated.
* Optional high side sliding door with 1,724mm height is also available

† Unladen weight and payload figures are calculated with approximately 90% fuel load and a 75kg allowance for driver. The published payload figure is based on a standard specification vehicle. It does not include any items of optional equipment. Any optional equipment will reduce the payload from the published figure. Roof load limit 100kg (with two roof carriers) or 150kg (with at least four roof carriers). Only with low roof. Trailer nose weight 100kg.

Model / gross vehicle weight (kg)	Engine/transmission	Axle load limit front/rear (kg)	Trailer weight braked 12%/unbraked (kg)	Gross train weight (kg)	Startline		Trendline		Highline		Sportline

† Unladen weight and payload figures are calculated with approximately 90% fuel load and a 75kg allowance for driver. The published payload figure is based on a standard specification vehicle. It does not include any items of optional equipment. Any optional equipment will reduce the payload from the published figure. Roof load limit 100kg (with two roof carriers) or 150kg (with at least four roof carriers). Only with low roof. Trailer nose weight 100kg.

† Unladen weight and payload figures for Transporter kombi models are calculated with 100% fuel load and no driver. The published payload figure is based on a standard-specification vehicle. It does not include any items of optional equipment. Any optional equipment will reduce the payload from the published figure. Roof load limit 100kg (with two roof carriers) or 150kg (with at least four roof carriers). Only with low roof. Trailer nose weight 100kg.

Transporter kombi: **Economy and performance**

Support

Keeping you - and your van - on the road and working

Full support right from the start

We want to make sure that using your van is as hassle-free and cost-efficient as possible, so every vehicle comes with a three-year warranty and a choice of finance, servicing and insurance options. It all helps to keep the big issues covered

A three-year warranty that lasts 100,000 miles

All Volkswagen Commercial Vehicles get a three-year, 100,000-mile warranty* - and so do any factory-fit options that you buy. The vehicle warranty is made up of:

- A two-year manufacturer's warranty with unlimited mileage
- A third-year Van Centre warranty, up to a maximum of 100,000 miles*

Even if you exceed 100,000 miles during your first two years, the manufacturer's two-year warranty will still be valid.

Want cover for longer?

You can extend your vehicle warranty online or by phone. You can choose Comprehensive or Major Component cover and either one-off or monthly payments. Call **0845 641 9712** or visit www.volkswagen-cv-warranty.co.uk.

3
year
warranty
✓

* Unlimited mileage for the Crafter in its third year

Van Centres - always there for you

Our dedicated Van Centre network is at the core of everything we do, with more than 100 Van Centres and Authorised Repairers throughout the UK.

Our Van Centre network offers a wide range of services, from MOTs to accessories, servicing and fully-fitted parts. Not only that, but we use Volkswagen quality parts and you get dedicated staff who understand your vans intimately. So pop in for a coffee and a chat, and find out what your Van Centre can do for you.

Service options designed to fit your business perfectly

It's only natural that you want to keep your vehicle running at its best. Getting it serviced at a Volkswagen Van Centre is a great way to ensure that's exactly what happens. When it comes to servicing, we know every business has different needs. That's why we've developed three different service options for you to choose from:

- Pay Monthly
- Pay Upfront
- Pay On-Demand

Whichever suits your business best, you can rest assured that when you book in your vehicle, it'll be looked at by Volkswagen-trained technicians and that they'll use only Volkswagen quality parts. What's more, there's a two-year warranty on the parts and one-year on labour.

For more details visit www.volkswagen-vans.co.uk/service or call **0800 717131** to learn more.

Turn the page to learn more about our Van Centre network

Volkswagen Insurance keeps you covered*

Volkswagen Commercial Vehicle Insurance can provide you with cost-effective, comprehensive motor insurance. Look at some of the benefits:

- Seven-day free cover to allow you to drive your vehicle away
- All repairs performed by approved repairers
- Volkswagen quality parts on all repairs
- Courtesy vehicle provided during repair following an accident
- Cover for breakage and damage to glass
- Tools-in-transit cover (up to £1,000)
- In-vehicle personal belongings cover (up to £500)
- Vehicle recovery
- 60-day European Union cover
- Legal expenses cover up to £100,000

We also offer a range of gap insurance products. These help you replace your vehicle or protect you from any financial shortfall if it is written off.

For more details visit www.insurewithvwc.co.uk, call **0800 316 7896** or pop into your Van Centre and ask for a Finance brochure.

* Terms and conditions apply

Flexible Finance that makes things affordable

We can also make buying a new van more affordable in the first place. Speak to us about our selection of finance options, which include:

- Contract hire
- Finance lease
- Lease purchase
- Hire purchase

For more details visit www.volkswagen-vans.co.uk/finance or pick up one of our Finance brochures at your nearest Van Centre.

Three years' Roadside Assistance

Sometimes, the unexpected happens. If it does, your new Volkswagen comes with an unlimited-mileage recovery and assistance package. It lasts the same three years as your warranty and operates 24 hours a day, 365 days a year.

Cover is available across the UK and most of Europe. Our fully trained technicians can diagnose most problems at the roadside and they use Volkswagen quality parts.

Learn more Visit your Van Centre to get a Volkswagen Roadside Assistance handbook, visit www.volkswagen-vans.co.uk/roadside or call **0800 77 71 72**

7 ways your Van Centre can help you

Make full use of your nearest Van Centre – it's full of Volkswagen experts who know your vehicle better than anyone and who can help you to get the best out of it

1. Picking a van that's perfect for your needs

We know that choosing your next van or passenger carrier is a big decision. You want a vehicle that works as hard as you do, both now and for the long-term – one that's versatile, cost-effective and reliable. We're here to help make your choice easier.

Our Van Centre experts can offer advice on every model in the range and help you pick the right vehicle and factory-fit options for your business. They can also advise you on the best finance packages to ensure that your payments make financial sense.

2. Quality servicing you'd expect at a price you wouldn't

Unpredictability and moving goalposts are part of life for a modern business, making it difficult to know how many miles your vehicle will do in a year, or how long you'll need to keep it. Our National Service Pricing is designed for customers who need the flexibility of being able to book their vehicle in for a service whenever it needs it. When you do, our technicians will do everything to ensure that your van is back on the road, working hard for your business, as soon as possible.

3. Fast, hassle-free van rental for one-off jobs

Need another van for just a short while? We can hire you any vehicle from our fleet – Caddy, Transporter or Crafter – or passenger-carrier versions of the Transporter and Crafter if you need to move people.

For more information, call the Van Rental team on 01908 467450

4. Add Ons designed to help you get more from your van

Perhaps you've bought a van and your needs have changed – maybe you need a towbar or a roof rack, or perhaps you want to give your van some extra style. That's where Add Ons comes in. Add Ons is an extensive range of Volkswagen-approved accessories, available to buy and be fitted at your local Van Centre. We've got everything from towbars to tailgate spoilers, load nets to leather seats and sat-nav systems to stunning alloy wheels.

5. Taking the worry out of tyres

Why run around looking for a fitter who has your tyres in stock? Let us fit new tyres when your van is in for its service and it'll keep your van off the road for less time. We have a huge range of tyres for all Volkswagen vans, from economy to premium brands, including winter tyres.

6. Express Visual Checks – peace of mind for free

Your Van Centre or Authorised Repairer can give your vehicle a free, 29-point Express Visual Check for complete peace of mind. You'll be given a comprehensive report, with the results clearly explained, and your technician will talk you through what work may need to be done in the future, so that you can plan ahead and budget for it. If something needs urgent attention, you can get a precise quote before any work is done – and all the Volkswagen parts are covered by a two-year warranty.

What else can we do?

Loads! Just pop into any Van Centre and ask us. For example, we may be able to point you to a local signwriter, recharge your air-conditioning, or answer any queries about your vehicle. Whatever it may be, we're here for you.

To find your nearest Van Centre, visit www.volkswagen-vans.co.uk or call 0800 717131

7. Fully fitted parts for a fixed price – and not a penny more

The pricing of all our Volkswagen quality parts is straightforward and clear, so you know exactly how much you're paying. Even better, when they're fitted by trained technicians at a Van Centre or Authorised Repairer they come with two years' warranty and 12 months warranty on labour. If your van is over five years old, ask us about our Economy Parts range – a great-value way to help keep your vehicle 100% Volkswagen.

Notes

*Scribble any queries
you have here so you
don't forget them*

The small print and the footnotes

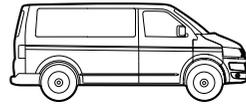

Print processes do not allow exact reproduction of the paint and upholstery colours. Some of the vehicles shown are European specification and may be fitted with optional equipment or accessories that are available at extra charge.

All data given and specifications are in accordance with information available at the time of going to print and are subject to change without notice. Vehicles not in current UK stock and customer order vehicles may take a number of weeks for delivery. Certain combinations of vehicle specifications and factory-fitted extras are not compatible and therefore all orders received are subject to confirmation. Models, factory-fitted options and paint and upholstery options subject to availability. Please check details and availability with an appropriate authorised Volkswagen Van Centre at the time of ordering.

Volkswagen Commercial Vehicle Finance is a trading name of Volkswagen Financial Services (UK) Limited. Finance subject to status, and available to over 18s only.

Full details of Volkswagen warranties are available from your authorised Volkswagen Van Centre or Van Service Centre.
