A BRAND NEW EXPERIENCE

Peugeot 3008 is the ultimate crossover with elegant styling, a sumptuous cabin, intelligent storage solutions and a raised driving position to give a commanding view of the road ahead, Peugeot 3008 really is the car that has it all.

Its stylish interior and intuitive technology create a refreshed ambience and quality finish that make Peugeot 3008 a top of the range Crossover.

An ergonomic driving position is combined with dynamic, new technology. The colour head up display provides essential driver information in your field of vision and the reversing camera* makes manoeuvring easier.

Robust and practical, Peugeot 3008 offers a brand new experience.

*Standard or optional according to version.

STRENGTH & CHARACTER

Striking new light signatures emphasise the elegant, contemporary design of Peugeot 3008. A strand of LEDs underline the technological headlights* and three 'floating claws' emerge from the rear lights, creating subtle contrasts that draw attention to their characteristically Peugeot feline appearance.

The stylish front face has been modernised to complement the streamlined bodywork. The structured wheel arches, sculptured wing design and chrome trim reflect the light and enhance Peugeot 3008's crossover identity.

*Standard or optional according to version.

GRIP CONTROL^{®*}

Grip Control optimises traction in low grip conditions and allows you to choose the appropriate traction for the road surface from five available modes: Standard, Snow, Mud, Sand and ESP off. This enhanced traction adds to the practicality of Peugeot 3008 and makes for an exciting drive.

Perfectly integrated into the centre console, the sleek, sophisticated design of the Grip Control dial will please technology fans. No matter what the conditions, you'll enjoy every journey with the help of specific Mud and Snow tyres.

*Available as a cost option.

A SENSATIONAL INTERIOR

Get behind the wheel of the Peugeot 3008 to experience a sleek, exclusive interior and unique driving position.

The raised seating position offers saloon-worthy dynamism while the elegantly designed centre console combines top quality materials with the latest technology. Chrome trim and stylish door handles complete the design.

The ergonomic passenger compartment makes driving intuitive, conveniently locating every control within easy reach. The head up retractable colour screen is controlled by easy to use toggle switches and displays essential driver information including speed, cruise control with speed limiter and Distance Alert[®]. All of this information is visible without having to take your eyes off the road.

*Standard, optional or unavailable according to version.
Light grey interior trim unavailable in the UK.

TECHNOLOGY

Technological equipment for improved safety:

Key Technological Highlights:

Reversing Camera*

The reversing camera* automatically activates when reverse gear is engaged and allows the driver to view the area behind the vehicle while the manoeuvre is taking place.

Parking space measurement system*

The parking space measurement system assesses the size of the potential parking space and informs you whether or not it is possible to park in the available space. It also evaluates the level of difficulty of the manoeuvre.

Parking aid*

Front and rear parking aids inform the driver of the distance between the car and any obstacle.

Automatic Electric Parking Brake**

The electric parking brake is automatically applied when the engine is switched off and releases automatically on acceleration. It incorporates the "Hill Assist" function, which immobilises your vehicle for a short time (approximately two seconds) during a hill start, the time it takes to move from the brake pedal to the accelerator pedal.

*Standard, optional or unavailable according to version.

**Please read the handbook instructions carefully.

A PANORAMIC VIEW

The image shows the interior of a car from a rear passenger perspective. The car has a panoramic glass roof. The view is split vertically: the left side shows a sunset over a mountain range, and the right side shows a city street with trees and buildings. The car's interior features grey leather seats and a modern dashboard with a central infotainment screen and air vents. A rearview mirror is visible in the center of the windshield.

Every journey is a unique experience when you have a panoramic view of the colours and landscapes outside. The large panoramic glass roof* increases interior light, creating a serene atmosphere and a sense of well-being.

*Standard, optional or unavailable according to version.

Grey leather trim unavailable in the UK.

ACCESSORIES

- 1 Roof mounted cycle attachment*
- 2 18" Oxalis alloy wheels
- 3 Chrome effect mirror caps
- 4 Rear spoiler
- 5 Carpet mats
- 6 Towbar mounted cycle carrier*
