

VOLVO S90

INNOVATION FOR PEOPLE.

Made by Sweden.

At Volvo Cars, we continuously innovate in order to make your life better. Every car, every technology and every design is the result of a clear vision – to put people at the heart of everything we do. It's a vision that has driven us from the start, one informed by Sweden, a country which values people as individuals and where conventions are challenged. It's a culture with a rich design heritage and a unique way of looking at the world.

This vision has inspired us to create the likes of the three-point safety belt and side-impact airbags – inventions that have saved lives and changed automotive history. And with our new generation of cars we continue with this tradition. Scandinavian design combines with modern Swedish luxury to enrich your experience. Intuitive Sensus technology makes life less complicated and keeps you connected with the world, while the latest Drive-E powertrains balance responsive power with class-leading efficiency. And supporting you while you are driving, our IntelliSafe innovations make your journey more comfortable and enjoyable while helping to prevent accidents.

We understand what's important to people. It forms the basis of all the innovations which we create. Innovations that improve lives.

At Volvo Cars we design our cars around you.

When we designed our new executive sedan we had a single aim: to create a car that would redefine the idea of luxury. The result is the new Volvo S90, a car that blends the best of Scandinavian design with advanced technology to give you a new experience, beyond the commonplace and everyday. A new kind of luxury. Swedish luxury.

The powerful, low-slung body, with the classic Volvo hallmark of a wide and muscular shoulder line, expresses the car's intent. It's confident and assured, the embodiment of a design philosophy that extends inside the car, where you'll discover a cabin crafted from exceptional materials such as Swedish crystal and flame birch.

In the S90, technology supports you without overwhelming you. From safety technology that helps to avoid collisions to the T8 Twin Engine powertrain, with its electric motor and powerful petrol engine, every one of the advanced features has been engineered to improve every journey.

This is how a modern luxury sedan should be. This is the Volvo S90.

THE ART OF CREATION

Where elegance complements technology.

From any angle the S90 looks elegant and powerful. The short overhangs, long wheelbase and low roofline combine to create a solid, sculpted whole that is sophisticated and elegant. The muscular shoulder line is distinctly Volvo, anchoring the car to its heritage while connecting it to the future.

The S90 is packed with innovative technology that has one purpose: to make your life easier, and one principle: it must be easy to use. A big touch screen means we've been able to reduce the number of buttons to a minimum, and as it's in portrait format reading and scrolling maps is much easier. Run-off road Mitigation is a world-first innovation that helps to steer you back on track if the car starts to veer off the road accidentally. This is our human-centric approach to technology – it works for you.

Underneath the crisply sculpted exterior lies a chassis that delivers the perfect combination of precise handling and welcome comfort. Double wishbone front suspension and integral axle rear suspension give you control over the car's movement. The optional rear air suspension with active chassis has different settings to suit your mood, or the road, and keeps the car at the optimum level, regardless of load.

Elegance, craftsmanship and technology. This is what the S90 is made of.

"Underneath the crisply sculpted exterior lies a chassis that delivers the perfect combination of precise handling and welcome comfort."

Classically Volvo, distinctly modern. Combining powerful proportions with Scandinavian subtlety elevates the S90 beyond the everyday. The long bonnet and low roofline suggest power and grace, while the sculpted shoulder line identifies the S90 as a Volvo.

Small details make a big impact. Fine detailing and bold shapes combine to create a strong impression. Integrated tailpipes add to the design's coherence, while the shape of the LED rear lights gives the S90 real presence, whether moving or stationary.

DESIGNED FOR CONTROL

*Precision and accuracy
at every touch.*

From the moment you settle into the sculpted driver's seat you're in control. You sit low in the S90, with the 9-inch centre display with touch screen angled towards you to create the feeling of a cockpit. You're surrounded by an environment where beautiful materials and advanced technology meet, creating a cabin that looks great and works perfectly.

The exceptional craftsmanship enhances the feeling of precision. Take the air vents, for example. With a metal-finish vertical strip and distinctive diamond-pattern surfaces for the control knobs they are beautiful to look at and a pleasure to use. In the S90 every component moves with the accuracy afforded by fine engineering. It is a car that gives you control over every part of your journey.

EXPERIENCE A NEW WAY TO TRAVEL.

Travel first class in every seat, every day. Because when you're in the S90 you're in your own private lounge, a place where comfort and luxury combine with technology and craftsmanship.

It starts with the front seats. Sculpted to complement the human form, they provide superb support and a huge range of adjustment, so everyone can find the ideal seating position. The shape of the backrests increases legroom for passengers in the rear, and individually controlled heated rear seats mean everyone benefits from the same levels of comfort.

At night the cabin glows with the warmth of its interior lighting, welcoming you into the car. The optional high-level illumination

includes backlit door handles and illuminated tread plates, as well as additional interior lighting that enhances the exclusive ambience. Our CleanZone technology helps ensure a healthy interior environment and clean cabin air. It filters dust, pollen, particulates and odours while monitoring the air quality and closing the intakes if pollutant levels rise too high. It happens automatically – all you need to do is set the temperature you want and the S90 does the rest.

You'll appreciate the details that make your life easier and more pleasant. For the power operated boot lid there's a hands-free function, so you don't have to put down what you're carrying to open it. In the S90, technology and convenience go hand in hand.

In the driver's seat you're in charge. Control functions such as navigation and entertainment from the steering wheel buttons, while the 12-inch driver display keeps you informed.

Every element of the cabin is crafted to make form and function one. The door handles can be backlit, making them easier to find in the dark.

Beautiful, natural materials such as Linear Walnut complement the car's advanced technology, creating a uniquely contemporary look.

SENSUS

*Informed, in control and
always up to date.*

Sensus has a guiding principle – to make your life easier and more enjoyable, whether it's your convenience, entertainment or navigation requirements. Sensus connects you with your Volvo and the rest of the world. It keeps you informed, entertained and in control of your journey.

Intuitive, easy-to-use controls are a prime feature of Sensus and you will find them on the large, 9-inch centre display with touch screen. Replacing physical buttons with virtual equivalents on the screen allows them to be larger and easier to use. Bold, clear graphics make it easy to absorb information at a glance. Our philosophy has always been that you should be able to operate your Volvo and keep your eyes on the road. The optional head-up display means you can do just that while staying connected and informed.

And Sensus goes further, with in-car wifi keeping your devices connected to the internet, while our audio systems offer considerable flexibility when it comes to choosing your desired music source and tailoring its sound.

The Sensus experience enriches every moment that you spend in your Volvo.

*"Sensus connects you with your Volvo
and the rest of the world."*

CONNECTING YOU WITH A WORLD OF ENTERTAINMENT.

Get closer to the music you love, no matter which seat you're in. With Sensus Connect all of your music is available all of the time, whether it's direct from your favoured media source or streaming from the internet.

It all begins with the 9-inch centre display, the control centre for Sensus. The surface responds to the lightest of touches – you only need to brush your fingers over the glass to operate the controls. It even works with gloved hands.

Connecting your devices is quick and easy. With our Smartphone integration you simply plug your smartphone into the car using the USB connection and you can turn the centre display into an extension of your iPhone® (5 or later) or Android smartphone (5.0 Lollipop or

later). You can connect via Apple CarPlay™ or Android Auto™ to access your device's music, make calls and send messages. And when connected, your phone will be charging, too.

Your choice of entertainment is not limited by what you have on your smartphone or portable audio player. Wifi and tethered internet increases your choice, with a fast and stable connection through the roof aerial. The Spotify® in-car app makes finding new music quick and easy, and you have access to internet radio and on-demand services, as well. Our High Performance audio system is tuned to make the most of your music, while Bowers & Wilkins takes the listening experience to another level.

Our Bowers & Wilkins audio system gives every occupant a superb audio experience, no matter which seat they are sitting in. Developed with Bowers & Wilkins, creators of high-end audio, this innovative technology brings exceptional clarity and realism to your favourite music. The unique air-ventilated subwoofer delivers richer, deeper bass by drawing air in from outside the car so it can pulse more air through the speaker. There are 19 speakers,

allowing everyone in the car to get the best possible sound, all the time. And you get closer to the performance by using one of the system's three room modes to bring the music to life. Concert mode recreates the unique acoustic experience of the Gothenburg Concert Hall, while Stage and Studio modes put you at the heart of the music, allowing you to hear it as the musicians intended.

"Turn the centre display into an extension of your smartphone using our Smartphone Integration."

9-inch centre display. The focal point of the elegant cabin is the 9-inch centre display with touch screen, which uses a portrait format to give you a large viewable area that means less scrolling. This format is perfectly suited to displaying maps, and mirrors the look of modern

smartphones in its layout, so it feels instantly familiar and intuitive. It features a glossy black finish that, thanks to a special coating, minimises reflection – so it not only looks beautiful but works beautifully. This is how technology should be.

GET TO YOUR DESTINATION EVERY TIME, WITH EASE.

Let **Sensus Navigation** be your guide, helping you find your destination and keeping you informed. Send the destination to your car using the Volvo On Call app, and our sophisticated navigation uses intuitive technology so that wherever you go, you'll get there quickly and easily.

Everything you need to know is shown on the 8-inch (standard) or 12-inch (optional) driver display right in front of you. The high-resolution image self-adjusts so it's never too bright, automatically resizing the instruments to accommodate navigation information. The optional head-up display displays all the vital information onto the lower part of the windscreen, projected to look like it is hovering in front of the car. It means you stay informed without ever having to take your eyes off the road.

Getting to your destination is made even easier with the clear graphics of our maps. And, because we give you free lifetime mapping upgrades, Sensus stays one step ahead, guiding you accurately.

Sensus also saves you time by helping you find what you're looking for, with built-in navigation apps capable of locating parking spaces and finding petrol stations.

With Sensus taking care of the way ahead, your journey will be even more enjoyable.

Voice control. Controlling Sensus is as easy as telling it what to do. Talk to your Volvo, using natural phrases such as “go to Covent Garden, London” or “call Emily Johnsson”, and voice control will carry out your instructions to operate climate control, navigation, infotainment and your smart phone.

Centre display. The portrait format centre display with touch screen makes reading maps and following navigation prompts beautifully straightforward. Maps appear as they would in an atlas and they scroll less, so you can see where you're going and what's coming next. Its clarity, size and orientation make it the ideal companion for every journey.

Volvo On Call. Making your life less complicated. Experience a world where you are connected to your Volvo with the Volvo On Call phone app.

Volvo On Call is your digital key to a range of convenient services that will make life easier and enhance the experience of owning a Volvo. Some services you can enjoy today, and more will be introduced later. Volvo On Call also connects your Volvo to the rest of the world and lets you control the car remotely. On cold mornings the remote engine start allows you to heat and defrost your car so that you start the day in comfort. And on hot days use Volvo On Call to cool your car so it's the perfect temperature when you're ready to leave. Check if you've locked the car and lock it if you haven't, or create a wifi hotspot so you and your passengers stay connected to the internet.

Plan journeys at home and send the destination to your car, so that when you're ready to go so is the navigation system. It will sync with your calendar to remind you of appointments and tell you how to get to them.

Volvo On Call is compatible with your smartphone, iPad®, Windows 10 based PC or tablets, and wearables such as Apple Watch – you can even operate your car remotely using voice commands with Microsoft Band 2. And should you need roadside or emergency assistance Volvo On Call will connect you directly to the Volvo service centre. If your car's alarm is activated, Volvo On Call tells the service centre, who will contact you. If your Volvo is stolen, Volvo On Call can help the police track your car.

Volvo On Call also informs you of your car's fuel level, logs journey data and tells you when your Volvo is due for a service. It's another example of Volvo Cars developing human-centric innovations to improve your life.

Momentum

INTELLISAFE

Always looking out for you.

IntelliSafe is our name for the intuitive, intelligent Volvo Cars technologies that support your driving, help to prevent accidents and protect you in a collision. These innovations play a key role in helping us to realise our bold vision that, by 2020, no one will be killed or seriously injured in a new Volvo car.

City Safety is at the heart of IntelliSafe. Fitted as standard, it's like a co-pilot that's looking out for you, detecting danger ahead then warning you and intervening if necessary. City Safety identifies other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you of any hazards and, if you don't react, it will brake automatically to help avoid or mitigate a collision.

Journeys are more relaxed with IntelliSafe to support you. Pilot Assist adjusts the steering to help you keep the car centred in its lane and at a set speed and distance from the car in front.

Oncoming Lane Mitigation can help avoid collisions with oncoming vehicles. If you drift across the lane markings in the way of an oncoming vehicle, your car steers back. Run-off road Mitigation steers and, if necessary, brakes to help prevent you leaving the road accidentally. Driver Alert Control recognises if you're tired or distracted and suggests that it's time to take a break, while Road Sign Information reminds you of the speed limit.

Add IntelliSafe Surround and you will get BLIS™ (blind spot information) with Steer Assist for increased awareness and confidence on the highway, alerting you to vehicles alongside you. If you don't react to the warning and start to drift into the path of another vehicle, the Steer Assist function will gently guide you back into your lane.

With safety technology that's as advanced as this, your Volvo can help make every day safer. For you, your passengers and everybody.

The power to protect. Hidden behind the striking front end lies an array of safety technology that helps to make driving safer and easier.

With Oncoming Lane Mitigation your Volvo helps reduce the risk of colliding with an oncoming vehicle. Working at speeds between 37mph and 87mph, it automatically helps you steer back into your lane if it detects that you have crossed the lane markings and into the path of an oncoming vehicle.

With Pilot Assist, your Volvo makes your journey easier and more relaxing. Pilot Assist helps keep your Volvo at a set speed or a set distance from other vehicles and, at speeds of up to 80mph, it helps keep the car in the centre of the lane by making small adjustments to the steering.

Cross Traffic Alert helps you to reverse out of a space knowing that there are no vehicles about to collide with you. This technology can spot vehicles approaching from either side of your Volvo at a distance of up to 30 metres. In some circumstances, it can also detect approaching cyclists and pedestrians.

Momentum

714 Osmium Grey metallic | 19" 5-Triple Spoke Matt Tech Black/Diamond Cut, 498

Perfect parking, every time. Park Assist Pilot is like having someone park your car for you. It tells you if a parking spot is the right size for your Volvo and then takes over the steering to slot it in. It requires a space just 1.2 times the length of your Volvo, so it can tackle even the tightest of spaces. Engage a gear, accelerate and brake according to the screen prompts and your Volvo will take over the steering completely to manoeuvre your car into the space. If you want to park the car yourself, the optional 360° camera will help you fit into the space with confidence.

PROTECTING WHAT'S MOST IMPORTANT.

Protecting you and your passengers has always been our priority at Volvo Cars, and our latest generation of cars does more than ever to keep you safe. From preventive technology that helps you avoid collisions to protective features that cushion the impact of any collision, we will never stop innovating in order to improve your safety.

Your Volvo surrounds you with protective safety. The foundation for our new generation of cars is a very strong passenger compartment that uses a high percentage of ultra high-strength (boron) steel to create a protective cage around you and your passengers.

Volvo Cars gave the world the three-point safety belt in 1959 and our latest developments continue this commitment to life-saving inventions.

Should your car leave the road, Run-off road Protection technology reduces your chances of suffering serious injury. Prepared front safety belts automatically tighten when the car senses that an impact is imminent, ensuring that you and your passenger are in the safest position if a collision occurs. If the car leaves the ground as a result of running off the road our unique energy-absorbing seats help to protect your spine in the event of a hard landing.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

The sculpted front seats in the S90 are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

Volvo is synonymous with road safety. We put our first safety cage into production in 1944, and created the three-point safety belt back in 1959. And we're still innovating today. Prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

DRIVE-E

Enjoying more, using less.

With the perfect balance between performance and efficiency, every Volvo engine gives you on-demand power with low fuel consumption. We achieve this with Drive-E, the cutting-edge technology behind every one of our advanced petrol and diesel engines, where performance and efficiency are built in.

It's our innovative culture that enables us to create such engines. The D5 powertrain in the S90 features PowerPulse, a Volvo Cars world-first. It activates the turbocharger as soon as you press the accelerator to give an instant boost of acceleration from standstill and at lower speeds. Technology such as this enables us to offer the power of a much larger engine from a compact four-cylinder, so you get the perfect mix of power and efficiency.

Smaller engines lose less energy through friction so they can make every drop of fuel work harder to minimise emissions. We've used low-friction components to make them run smoother and more efficiently. Reducing size and weight has freed up interior space and improved the car's handling.

The precise eight-speed automatic gearbox makes the most of each engine's potential, designed to minimise power loss and maximise performance, always selecting the right gear for whatever is coming next, or you can choose to change gear yourself in manual mode.

To help you drive more efficiently, select Eco mode and the S90 recalibrates the drivetrain for the lowest possible fuel consumption and emissions. The coast function disconnects the engine from the automatic transmission when you release the accelerator at speeds above 40mph so it isn't being used to slow the car.

Our diesels are quiet and smooth for a relaxing journey, thanks to ground-breaking i-ART injection technology. By precisely metering exactly the right amount of fuel for each cylinder, i-ART helps the engine run more smoothly while using less fuel. And the technology ensures it stays that way for the car's lifetime. You will always benefit from low fuel consumption.

At Volvo Cars, by looking to the future we enhance your life today. Drive-E brings together advanced technologies to give you efficiency, performance and range – and a better drive for you.

"Balancing performance and efficiency, every Volvo powertrain gives you on-demand power with low fuel consumption and emissions."

TWO HEARTS, ONE CAR.

With advanced powertrain technologies, such as electrification, we aim to provide you with an unrivalled driving experience. In fact, we've focused on electrification and plug-in hybrid technology for more than 40 years. This experience together with advanced research put Volvo Cars in the forefront of technology, and our latest powertrain advancement – the high-performance T8 Twin Engine AWD with plug-in hybrid technology – allows you to enjoy an involving drive as well as cutting CO₂ emissions.

With 407hp the combination of a four-cylinder petrol engine and powerful electric motor offer the power and performance of a much larger engine, but use much less fuel. The 320hp petrol engine drives the front wheels and the electric motor powers the rear, giving instantaneous acceleration and on-demand all-wheel drive.

With just the electric motor powering the car, you benefit from silent, emissions-free driving and an electric-only range of over 28 miles, which is ideally suited to daily commuting.

Four different drive modes offer precise control over the car's powertrain. Hybrid mode uses petrol and electric power for the best balance of power and efficiency while Pure uses the electric motor

only for zero-emission driving. Power combines the full output of the petrol engine and the electric motor for the best performance, while AWD switches to full-time all-wheel drive. Blend your favourite elements of each mode and create a mode that's tailored to your needs by selecting Individual.

Controlling this technology is intuitive and straightforward. A beautiful machined-alloy roller switch allows you to flick easily between modes. And if you've chosen an Active Four-C Chassis your car automatically selects the best chassis settings to complement the drive mode, allowing you to enjoy the drive while your Volvo does the work.

Charging the battery is quick and easy. Drive the car and the battery charges itself, thanks to regenerative braking. If you need to top it up, plug it into the mains supply and the battery can be fully charged in under three hours. Adding to your convenience, the Volvo On Call app shows battery and charge status. It also allows you to remotely schedule battery charging using a timer function.

The T8 Twin Engine AWD gives you the best of both worlds. Power without compromise.

Made from Orrefors® crystal glass, the gear selector in the T8 blends traditional Swedish materials with advanced design and technology.

The combined power of a turbocharged petrol engine and a responsive electric motor makes the S90 T8 a true performance saloon.

Plug in, turn on, charge up. Use the charging port to connect the S90 to the mains and enjoy the refinement of the electric motor wherever you go.

"The T8 Twin Engine gives you the best of both worlds. Power without compromise."

The way we've designed the T8 Twin Engine gives you more than just efficiency – you will notice how well balanced and responsive the car feels on the road, and how quickly it reacts to changes of direction. By mounting the electric motor over the rear axle and fitting the battery along the car's centreline, we've given the S90 with near-perfect weight distribution, a key element in creating agile handling.

The battery's location helps give the S90 a low centre of gravity, so it is stable, sure-footed and comfortable. And because the battery is not in the boot, you get the same luggage capacity in the T8 Twin Engine as you do in all other S90 models. Our cars are designed from the outset to use plug-in hybrid technology, so your experience with them is never compromised.

Inscription

721 Mussel Blue metallic |

DRIVEN TO PERFECTION.

We designed the S90 from the ground up for precision and comfort. That's why the sophisticated suspension gives you the best of both worlds. Accuracy and precision when you want it, backed up by comfort and technology to make every drive enjoyable.

Double wishbone front suspension works in harmony with integral link rear suspension to give you precise control over the car. With our Active Four-C Chassis with rear air suspension, your S90 will compensate for loads while adapting the chassis to the road and driving conditions for an even better ride. Advanced driver aids such as stability control and understeer control logic keep the S90 stable, improving the way it handles corners. All-wheel drive models provide even greater reassurance on demanding roads.

You can choose between four drive modes that allow you to tailor the car's behaviour to your mood and find the perfect setting for the road you're on. Altering the engine, gearbox, accelerator and steering response changes the way the car behaves and, with the optional rear air suspension, how it rides and handles. Gearshift paddles increase your control further.

And when you come to a stop, the S90 helps you to get going again. Hill Start Assist makes pulling away on an incline effortless by holding the car on the brake until you press the accelerator. Auto Hold keeps the brakes on after you've released the pedal, so you can let the car do all the work in stationary traffic.

Discover superior comfort and handling with our optional Active Four-C Chassis with rear air suspension. It soaks up poor road surfaces and keeps the ride height constant so the car responds how you want it to. Active chassis technology allows you to change the way the S90 rides and handles.

VOLVO S90

Inscription

721 Mussel Blue metallic |
20" 8-Spoke Silver/Diamond Cut, 214

YOUR JOURNEY BEGINS HERE.

We created the S90 with one single purpose: to provide you with a car that perfectly fits you and your lifestyle. A car that meets your expectations of a dynamic drive with refined comfort and sophisticated design – built with care for people and the world we share. A car that's intuitive to use and makes life less complicated, and is a pleasure to live with every day.

At the heart of your S90 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest Drive-E technology that gives you instant response and a smooth ride. Fuel consumption and CO₂ emissions are kept low, and our powertrains already comply with future exhaust emission legislation.

Our Drive-E powertrain range includes advanced diesel and petrol engines mated to our smooth eight-speed Geartronic™ automatic gearbox or a distinct six-speed manual gearbox, available with responsive AWD all-wheel drive technology or front-wheel drive. And for the ultimate combination of performance and efficiency in your S90, there's the option of our T8 Twin Engine AWD powertrain with plug-in hybrid technology.

Make your choice, and enjoy the journey wherever it takes you.

T8 Twin Engine AWD

Our T8 Twin Engine AWD plug-in hybrid powertrain delivers an exhilarating drive with uncompromised efficiency. Combining a high-performance petrol engine and an electric motor, this 407hp/640Nm powertrain allows outstanding highway performance and zero emission commuting – with all-wheel drive capability when needed.

D5 AWD

Our most powerful 235hp/480Nm diesel powertrain D5 AWD allows you to experience performance and refinement without compromises. Twin-turbo engine technology, our 8-speed Geartronic™ automatic and all-wheel drive add to instant control.

D4

Our sophisticated 190hp/400Nm D4 diesel powertrain allows you to enjoy more while using less. Available with our dynamic all-wheel drive and 8-speed Geartronic™ automatic, the D4 is designed to give you the most efficient and confident driving experience.

The thrill of a spirited drive, characterised by style, responsiveness and control.

CREATE THE VOLVO S90 OF YOUR CHOICE.

Our approach in everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that perfectly matches your style and personality.

To ensure you get your S90 exactly as you want it, we have created a wide range of options, trim levels and personal expressions. The standard Momentum trim level provides you with the poise and

technology you need as a discerning driver. Maybe you want to indulge your senses in the finest Swedish luxury? Then you'll feel at home with Inscription. Or if you're in for a more sporty style inside and out – take a look at R-Design. Whatever you prefer, you can rest assured there's a Volvo S90 for you. Read on, and see what your S90 will look like.

THE RIGHT EQUIPMENT FOR YOUR DRIVE.

Choosing a Volvo S90 is easy. And now all you need to do is select the trim level that's right for you. Already our standard trim level Momentum will provide you with a high level of technology that will meet high demands on style, comfort and safety. For example, you can enjoy the control provided by our 8-inch driver display and Sensus Connect with enhanced connectivity – such as the intuitive operation of our 9-inch centre display with touch screen and voice control – and the clear sound reproduction of our High Performance audio system. Our electronically-controlled dual-zone climate system ensures you and your passengers can enjoy a comfortable cabin climate in all temperatures – the driver and front seat passenger can adjust the temperature to suit individual preferences. And of course: you get our world-leading IntelliSafe technologies including the award-winning City Safety collision avoidance technology, Lane Keeping Aid, Road

Sign Information, Run-off road Mitigation, Oncoming Lane Mitigation and semi-autonomous driving technologies such as Adaptive Cruise Control and Pilot Assist as standard.

Our signature head lights with LED illumination together with stylish 17-inch or 18-inch alloy wheels will add to the exclusiveness of your S90. And for an even more powerful road presence, add our optional 19-inch 5 triple-spoke alloy wheels.

On the inside, aluminium tread plates welcome you every time you enter the cabin of your Volvo. The stylish Leather upholstery and Iron Ore decor inlays further complement the interior ambience. A power adjustable 4-way lumbar support for the front seats including vertical adjustment makes it easy to optimise the support to your needs. And when it's dark, the upgraded interior illumination enhances the luxurious feeling inside your S90.

MOMENTUM

Includes:

Exterior:

17" or 18" alloy wheels (depending of your choice of powertrain) | Automatically dimmed inner rear-view mirror | LED headlights with automatic lever adjuster | Visible end pipes in chrome | Front grille high gloss black with chrome frame | Fully colour adapted sills and bumpers | Park assist, rear | Retractable rear-view mirrors

Interior:

4-way power adjustable lumbar support, front seats | Comfort seats with Leather upholstery | Textile floor mats | CleanZone | Leather-clad steering wheel | Iron Ore decor inlays | Aluminium tread plates, front and rear | Manual adjustable drivers seat

Sensus:

8" driver display | 9" centre display | High Performance audio system | Sensus Connect | Remote control buttons in steering wheel

IntelliSafe:

City Safety | Adaptive Cruise Control | Pilot Assist | Lane Keeping Aid | Lane Departure Warning | Driver Alert Control | Road Sign Information | Speed limiter | Run-off road Mitigation | Lane Mitigation

MOMENTUM PRO

Includes Momentum equipment level plus the following:

Heated Washer Nozzles | Headlight Cleaning System | Heated Steering Wheel | Heated Windscreen | Active Bending LED Headlights | Front Foglights | Power Driver Seat | Manual Seat Extensions | Volvo On Call | 18" Alloy Wheels

1. S90 Momentum with optional 19-inch wheels and dual visible chrome tailpipes. **2.** Signature LED illumination, the high gloss black grille, bright deco exterior details contribute to a both powerful and elegant appearance. **3.** Park Assist supports you when reversing and the chrome dual end pipes give your S90 a more dynamic look. **4.** The standard 8-inch driver display allows you to choose between different visual appearances. To provide optimum visibility, the display's brightness automatically adapts to exterior light conditions. **5.** Sensus Connect includes the large 9-inch centre display with touch screen, voice control, USB/AUX inputs, internet maps and our 330W High Performance audio system with 10 excellent speakers and Bluetooth® audio streaming. **6.** The smartly positioned coat hangers right behind the front seats make it easy to hang a garment without obscuring vision through the rear windows.

The interior of the S90 is created with you in the centre of attention. Every detail, every line, every shape is testimony to our designers' pursuit to create a space in which you feel relaxed and in complete control. The Momentum trim level features comfort seats in Leather upholstery available in several different interior colour combinations

to suit your personal preferences. The interior ambience is further enhanced by decor inlays in Iron Ore and aluminium tread plates. Or for an exclusive look inspired by contemporary Scandinavian furniture – opt for our genuine wood decor inlays.

Inscription

A HIGHER GRADE OF LUXURY.

We created the exclusive S90 Inscription to meet your highest expectations on Swedish luxury. It's a highly personal expression that evokes a strong sense of elegant refinement. Each detail is carefully selected to give you and your passengers a sophisticated and invigorating experience. Distinguished exterior design cues enhance the luxurious look and feel of the S90, while the

meticulously crafted interior gives you ample room for a relaxed driving experience. The S90 Inscription epitomizes our proud heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the S90 Inscription is in a class of its own – just like you.

INSCRIPTION

Includes Momentum equipment level plus the following:

Exterior:

18" Alloy wheels | Bright deco exterior with embossed Inscription side moulding | Dual integrated tailpipes | Foglights in front spoiler

Interior:

12" driver display | Comfort seats with Fine Nappa Leather upholstery | Inscription mats, front and rear | Illuminated metal tread plates | Interior high level illumination | Leather key remote | Linear Walnut decor inlays | Power driver seat with memory function for seat and side mirrors | Power passenger seat

INSCRIPTION PRO

Includes Inscription equipment level plus the following:

Heated Washer Nozzles | Headlight Cleaning System | Heated Steering Wheel | Heated Windscreen | Active Bending LED Headlights | Perforated and Ventilated Nappa Upholstery | Front Seat Massage | Power Side Support and Cushion Extensions | Volvo On Call | Tailored

Instrument Panel and Door Tops | Integrated Sun Curtains | 20" Alloy Wheels (n/a T8 Twin Engine)

Inscription

20" 8-Spoke Silver/Diamond Cut, 214

1

2

The highly sophisticated S90 Inscription expresses the essence of contemporary luxury. Instantly recognisable thanks to its distinctive chrome-finish grille and lower door bright deco moulding, this expression sets the S90 apart thanks to a number of well-judged exterior design cues that correspond with the car's timeless Scandinavian design. Just like beautifully crafted pieces of jewellery design, the ten-spoke Silver/Diamond Cut wheels harmonise perfectly with the metal finish of the bright deco body inlays. Together with the elegant dual integrated tailpipes, the wheels also contribute to the car's confident stance. Our signature LED illumination contributes to both a strong visual identity and excellent vision in the dark. And for an even better and uninterrupted light pattern, you can opt for our advanced Full-LED Active Bending Lights illumination technology.

Every time you open the door, the Inscription tread plates provide an illuminated welcome. The luxurious theme continues with authentic, finely crafted materials that create a lounge-like atmosphere of

sumptuous well-being. You and your passengers can lean back in sculpted power-operated Comfort seats with Fine Nappa Leather upholstery. Decor inlays in exclusive Linear Walnut, Inscription textile mats and our most advanced ambience interior illumination add to the rewarding Inscription experience. And for you as driver, the large 12-inch driver display and convenient drive mode settings in the console between the front seats add to your feeling of being in command. And to enhance your driving experience, our optional Active Four-C Chassis with rear air suspension optimises comfort and handling – select between three different chassis settings with the drive mode control.

For an even higher level of comfort you can complement the front seats with ventilation and massage functions. And turning your S90 into a concert hall, our optional high-end audio system Bowers & Wilkins brings exceptional clarity and realism to your music, wherever you're seated.

1. Small details make Inscription, such as the high gloss chrome frames around the door handles. 2. Inscription front grille in elegant chrome finish and the signature headlights with LED illumination. 3. The power-operated Comfort seats with Fine Nappa Leather upholstery and the exclusive Linear Walnut genuine wood decor inlays add to the sensory experience of contemporary luxury. 4. The lower door bright deco moulding with Inscription logotype. 5. The intuitive 12-inch driver display with four graphic modes and the 9-inch centre display with touch screen puts you in the centre of action. 6. Dual integrated tailpipes and bright deco trim add to an elegant and powerful impression. 7. Drive mode scroll wheel in diamond patterned metal finish and the Linear Walnut decor inlay. 8. The exclusive Inscription leather-clad remote key fob is in the same colour as the Fine Nappa Leather upholstery in your S90 Inscription – an excellent example of thoughtful Scandinavian craftsmanship and clean design.

RDESIGN

INSPIRED BY THE ART OF DRIVING.

If you love to drive, the S90 R-Design is for you. With a unique personality, R-Design captures the thrill of a spirited driving experience characterised by style, responsiveness and control. A wealth of distinguished design details raises the dynamic soul of your Volvo and gives it a sportier, more distinct road presence. It's an expression that catches the eye from every angle and hints at the promise of an amazing drive, every time. And you can rest assured that the

S90 R-Design will deliver. Surrounded by meticulously crafted and expressive interior design details, you can feel it right from the moment you take your position in the sculpted R-Design driver seat. Everything – from the R-Design steering wheel with gearshift paddles to the Charcoal headliner – is there to inspire and support your driving. And for an even more energetic, road-hugging drive, the S90 R-Design benefits from an advanced sport chassis.

R-DESIGN

Includes Momentum equipment level plus the following:

Exterior:

18" 5-spoke Matt Black Diamond Cut alloy wheel | Door mirror caps in matt silver finish | Dual integrated end pipes | Lower front, unique sporty design | Grille with unique mesh in glossy black and frame in silk metal finish | LED foglights in front spoiler | Lower outer grilles, unique design and glossy black | Side window trim in silk metal finish | Body-coloured rear lower insert | Sport chassis

Interior:

12" driver display | Charcoal interior and upholstery with light contrast stitching | Contour seats with R-Design logotype | Fine Nappa Leather/Nubuck textile upholstery | Charcoal headlining | Interior high level illumination | Metal Mesh Aluminium decor panels | Manual cushion extension, driver and passenger seat | Front and rear illuminated tread plates with R-Design logotype in the front ones | Gearshifter knob in perforated Fine Nappa Leather and light contrast stitching | Gaiter with light contrast stitching | Remote control clad in Perforated Fine Nappa Leather | Textile mats with light contrast stitching | Sport pedals in aluminium with rubber inserts | Sport steering wheel with light contrast stitching and R-Design symbol

R-DESIGN PRO

R-Design is Volvo in smart designer sports gear – it's all about a performance-inspired look and feel, both inside and out. It's a truly eye-catching expression with sporty exterior design cues, such as its own distinctive grille in high gloss black with Silk Metal frame, front spoiler, stylish Silk Metal window trim, Bright Silver matt finish door mirror caps, prominent dual end pipes and striking R-Design aluminium wheels. Our signature headlights with LED illumination provide excellent vision and a distinctive attitude on the road. And for an even better uninterrupted vision in the dark, there's the option of the Full-LED Active Bending Lights.

On the inside, the illuminated R-Design tread plates in Silk Metal finish greet you onboard. The refined sporty theme continues with Metal Mesh decor inlays, Charcoal headlining and semi-powered R-Design Contour seats with a unique Nubuck Textile/Fine Nappa Leather or optional Fine Nappa Leather upholstery. Together, these features give the cabin a technical, cockpit-like feel. R-Design logotypes and distinctive stitching in the seats, the gear shifter and the steering wheel in perforated leather all reinforce the sporty yet

elegant ambience. The adjustable front seat cushion extensions further enhance your thigh support for improved comfort during long drives. And when it's dark, our most advanced interior illumination enhances the exclusive ambience inside your S90 R-Design. Further adding to your sense of being in control, the R-Design also provides you with our largest 12-inch driver display and gearshift paddles. Conveniently positioned in the tunnel console between the front seats, there's also a drive mode control that allows you to shift between four driving characteristics – Comfort mode, Dynamic mode, Eco mode and Individual mode.

Behind the R-Design sport steering wheel in Perforated Fine Nappa Leather, you can enjoy the dynamic response and feedback from quicker steering and a finely tuned sport chassis. Lower and firmer, this chassis features adjusted anti-roll bars and stiffer springs for a more responsive handling and less roll when cornering. The monotube design rear dampers respond more quickly for improved body control in all conditions, resulting in a sporty road-hugging drive without you having to compromise ride comfort.

1. The R-Design sport steering wheel in perforated leather with gearshift paddles and the 12-inch driver display with four graphic modes. 2. The 21-inch Matt Black/Diamond Cut aluminium wheels for the ultimate R-Design experience (optional). 3. The Carbon Fibre decor inlays add to the dynamic, hi-tech ambience inside your S90 R-Design (optional). 4. R-Design door mirror caps in contrasting silver look. 5. The R-Design interior featuring the R-Design sport steering wheel, R-Design gear shifter and gaiter in Perforated Fine Nappa Leather with contrasting stitching, Contour seats with exclusive Fine Nappa Leather upholstery (optional), Carbon Fibre decor inlays (optional) and Tailored dashboard and upper door panels with light Amber stitching (optional). 6. Dual integrated end pipes for a distinctive road presence. 7. The glossy black R-Design grill with frame in Silk Metal finish and unique glossy black lower outer grilles add to the dynamic character of your S90 R-Design.

The exterior leaves no doubt about the intention of your S90 R-Design. The exterior colours are carefully selected to match the car's dynamic character, each with its unique expression – especially Bursting Blue metallic. Exclusively created for R-Design, this colour

adds a techy, sporty look that perfectly highlights the body inserts in high-gloss black and silk metal finish. The five-spoke R-Design wheels in Matt Black Diamond Cut give your S90 R-Design a superior road presence that put your Volvo in a class of its own.

Inside your S90 R-Design, you can enjoy a dynamic and driver-focused interior made of high-class materials. The sculpted R-Design Contour seats with adjustable seat cushion extensions will provide relaxed support through any twists that the road has in store, while the exclusive Nubuck Textile/Fine Nappa leather or Fine Nappa

Leather upholstery with contrasting stitching provides a sporty yet sophisticated feel. A sensation further enhanced by the decor inlays in Metal Mesh or Carbon Fibre that perfectly complement the Charcoal interior.

YOUR S90, YOUR WAY.

Make the S90 your own with Volvo styling accessories; the perfect addition to your new car. Choose the exterior styling package with chrome inserts for an even more elegant look. Or enhance the dynamic character of your S90 with our exterior styling package

with body-coloured inserts. And especially for your S90 R-Design, we've created an exterior styling kit with glossy black inserts that adds to the car's exclusive appearance. You can also select individual components as separate accessories.

R-Design
720 Bursting Blue metallic | Exterior styling package with glossy black inserts |
21" 5-Double Spoke Matt Black/Diamond Cut alloy wheels

R-Design exterior styling package with glossy black inserts. Designed to perfectly complement your S90 R-Design, this exterior styling package with high-gloss black inserts allows you to create an exclusive, individual look. The front spoiler combines with the sill mouldings to emphasise the car's low-slung profile, while the split end pipes create an even more powerful appearance. A boot lid spoiler maximises high-speed stability and makes your S90 R-Design look even more dynamic. This exterior styling kit is also available with body-coloured inserts. The optional 21-inch 5-Double Spoke alloy wheels in Matt Black/Diamond Cut add to a superior road presence.

Inscription

721 Mussel Blue metallic | Exterior styling kit with body-coloured inserts |
21" 5-Spoke Fan Silver Bright alloy wheels

714 Osmium Grey metallic | Exterior styling package with chrome inserts |
21" 10-Open Spoke Turbine Tinted Silver/Diamond Cut alloy wheels

Exterior styling package with body-coloured inserts. A front spoiler and sculpted side sill mouldings with body-coloured inserts accentuate the car's low stance, while a boot lid spoiler hints at the potential performance. Integrated dual split end pipes and a body-coloured rear diffuser create an even more purposeful appearance. The optional 21-inch 5-Spoke Fan wheels give the S90 even more presence, whether it's moving or standing still.

Exterior styling package with chrome inserts. The front spoiler lip adds definition to the front end, while the chrome insert highlights the car's width. A boot lid spoiler makes the S90 look even more dynamic, and the sill mouldings emphasise the car's sporty, low-slung profile. At the rear, a body-coloured rear diffuser and integrated dual split end pipes give the car a powerful presence. The optional 21-inch 10-Open Spoke Turbine wheels add to the car's elegance and a more powerful visual statement.

DESIGNED FOR YOUR LIFE.

Create an S90 that's perfect for your life, with Volvo accessories that are designed around you and your car.

Our Media Server allows passengers to enjoy large amounts of stored entertaining content via their mobile devices, especially comfortable combined with our sleek iPad® holder. Discreet, slim sunshades provide protection from heat and glare and are integrated into the elegant cabin, retracting neatly when not needed.

The remote control can be personalised to match, or contrast, your car's interior trim, with different exterior casings in genuine

wood or leather. Our new child seats combine comfort with state of the art safety and are designed to fit perfectly into your Volvo. Made from Wooltextile, which is 80% wool, they're durable and tough but also soft and breathable, so your children stay comfortable and safe. Our exclusive booster cushion in genuine Leather and soft Nubuck Textile with adjustable backrest allows a child to travel in comfort safely restrained by the car's safety belt. We apply the same stringent standards to our child seats as we do to building our cars, so you know your children are well protected.

BUILT TO WORK.

Make the S90 work for you with Volvo Cars' range of exterior accessories, designed to look good and work flawlessly. Made from tough, high-quality materials they're built to withstand the kind of punishment meted out by Sweden's winters.

Take advantage of our range of roof-mounted accessories by adding our low-profile load carriers. Easy to fit onto the car's prepared mounts, they instantly allow you to fit our load carrier accessories, from the ski rack to the canoe holder. Our lightweight roof box fits straight onto the load carriers, adding 350 litres to the car's carrying capacity. Ideally suited to carrying skis (and capable of carrying up to six pairs) its Quick-grip mountings make it possible to fit with one hand. Neat touches such as LED lighting in the lid, to help you load in the dark.

A set of Volvo-designed mudflaps deflects road grime and dirt from the car's bodywork and reduces the effects of spray on following traffic. Made from soft plastic they are tough enough to withstand everyday use and flexible enough to bend, not break.

The electrically folding tow bar gives you the ability to tow and folds discreetly away when not in use. A press of a button inside the load compartment, and the tow bar folds out – all you have to do is lock it into position with one click. If the tow bar is not locked in position or if any of the lights on the trailer cease to function, you'll be alerted in the car's driver display.

Your Volvo Cars dealer can also offer a wide range of winter wheels for safe driving during the wet and cold season.

SERVICE BY VOLVO. A SIMPLER WAY.

When you buy a Volvo, you buy the simplest way to have a car. No matter what your car may need, your authorised Volvo workshop will take care of it for you and make sure that your Volvo stays in tip-top shape.

We have our own approach to service that's personal, efficient, and which takes care of you as well as it takes care of your

car. We call it Service by Volvo and it will provide everything you need in the simplest way possible.

Your Volvo Cars dealer offers a whole range of simplifying services all designed around you, ensuring you a carefree ownership experience. Still, this is just the beginning. Soon, you will also get a Personal

Service Technician, your car will be ready within the hour and you can relax in our lounge instead of driving back and forth. It's because everything we do is about finding new ways to make life simpler for people, with our cars as well as our service.

HAVE YOU GOT YOUR VOLVO ID?

A Volvo ID allows you to access a whole world of connectivity with your Volvo. With your Volvo ID, you can:

- Access your My Volvo account on volvocars.co.uk for car information
- Access internet services and apps in your car, including connected service booking
- When applicable, sign in to the Volvo On Call app and connect with your car from everywhere

CONNECTED SERVICE BOOKING

If your Volvo has Sensus Connect, it will remind you when it needs servicing and offer to contact your Volvo dealer for you. Booking proposals sent from your preferred dealer can easily be managed directly in the car. When the time comes to drive to your workshop, your Volvo will remind you and even guide you there. And since your Volvo tells us what it needs, we can make sure it always receives the service it requires when it gets there.

Welcome to Volvo Car Lifestyle Collection. Our Lifestyle Collection includes a wide range of lifestyle accessories – from Swedish crystal and crafted leather bags, to clothing, watches and more selected items. To view the complete collection, please visit collection.volvocars.com
