For more than 60 years, Volvo Cars has been driven by a vision to create estate cars that enrich people's lives. That exact same vision underpins the new V60. This is a car where modern Scandinavian design and a focus on innovation allow you to live the life you want. The V60 does more than simply fit into your active life. This is a car that will help make every moment count.

Elegant, sporty, spacious and versatile: welcome to the new generation of Volvo estate car. Welcome to the Volvo V60.

WHY WE INNOVATE.

For us, innovation is about people. Every car, every technology and every design is the result of our passion to make life easier and better for you.

Our starting point is always research – because by understanding you, your needs and your desires, we can create products that truly work for you. Innovating with people in mind allows us to help solve some of the complexities and challenges of modern life, making it less complicated and more enjoyable.

To do this we're thinking big, making huge strides to shape the future of motoring. We have made a unique commitment that, from 2019, every new car we launch will feature an electric motor, creating one of the most diverse electric ranges of any car maker. We're the first major premium car company to do so, paving the way for a new chapter in the history of the automobile.

We're also continuing our journey of tech innovation and leadership in connectivity. Our vision is that by 2025, every new Volvo sold will help its owner reclaim one week of quality time per year. This will be possible through our innovations around connectivity and car access, including 'shared key' features that will save you time and revolutionise how you interact with your car.

Of course, we also have a progressive vision for the future of safety. We believe that, by 2020, no one should be killed or seriously injured in a new Volvo car. We will achieve this through our unique approach to safety, which builds on real-life research to create innovations that better protect people.

Collectively, this is what drives us forward as a company and is why we're investing in the future, a future where innovation is designed around you.

MOMENTS MAKE MEMORIES.

Life is about the experience. Making the most of every moment. The moments of calm. The moments of freedom. The moments of confidence. Creating memories that will last forever.

With versatility, intuitive technology and engaged dynamics, the V60 is the car with which you will share life's little – and big – moments. A car that is the ultimate lifestyle enabler.

CONFIDENT SCANDINAVIAN DESIGN.

The purity of line and purpose that defines the Volvo V60 is classic Scandinavian design. Dynamic, elegant and considered, it is a car that projects confidence.

It's the little things that make the biggest differences. Our deeply sculptured sides emphasise the car's athletic character, while a roof

spoiler further helps convey the dynamic nature of the V60. Large side windows suggest a spacious interior and help communicate its practicality. Finely crafted details such as the proud front grille and LED lights – front and rear – help lend it a strong identity.

This is the bold new wave of Volvo Cars' design, personified.

GET ACCUSTOMED TO LUXURY.

Inside the V60, you're in a place where Scandinavian design and Swedish craftsmanship meet. A place where all the occupants travel in comfort, thanks to superb seats and individually adjustable climate control. Clean, uncluttered design combines form and function. Authentic materials and refined details, such as the diamond pattern on the control knobs create a sense of contemporary luxury.

The front seats are shaped to complement the human form, so they're exceptionally supportive and have a wide range of adjustment. In the rear, generous legroom and the supportive seats mean everyone will be comfortable.

The optional panoramic glass roof floods the cabin with light. It's tinted to reduce glare and has a powered sunshade. With four-zone climate control, both front seat occupants and the outer rear passengers can select their ideal temperature, while our CleanZone technology filters incoming air to help remove dust, pollen, particulates and odours.

Perforated Nappa Leather | Charcoal in Charcoal
interior RC00 | Driftwood inlay | Tailored dashboard |
Bowers & Wilkins audio system

VOLVO V60

The distinctive air vents have controls with a metal finish and a diamond-pattern on the knob. Driftwood trim is a unique wood treatment, influenced by Volvo Cars' Swedish heritage. It is satisfying to look at and touch.

Swedish craftsmanship and fine materials in the V60 are an important part of your experience. The elegant handcrafted Swedish Orrefors® crystal gear selector in the T8 and T6 Twin Engines* blends traditional techniques with advanced design and technology.

Spacious, filled with light and beautifully made, the interior of the V60 is a place where you'll delight in the details.

THE LUXURY OF VERSATILITY.

The thoughtfully designed interior of the V60 helps you do what you want to do, combining smart versatility with dynamic elegance.

The load compartment is nearly square, without any intrusion from the rear suspension, resulting in a space that easily accommodates bulky and awkwardly-shaped objects so you can make the most of the class-leading luggage capacity. The powered tailgate allows you to open or close it using a button on the car's remote, dashboard or the tailgate itself. And it's available with a hands-free function that allows you to open and close it simply by moving your foot under the rear bumper.

Clever details make every day easier. A bag holder that flips up out of the floor of the load compartment stops shopping bags from sliding around, while a hidden storage compartment allows you to keep valuables out of sight.

And rear backrests that fold at the touch of a button mean you can fold them from the load compartment without having to open the rear doors.

Momentum
726 Birch Light metallic

CAPTURE THE FEELING.

From the moment you settle into your seat and close the door behind you, the V60 is a car set up to inspire driving pleasure. Standard Comfort seats have extensive adjustment so it's easy to get comfortable – and to stay comfortable, even on long journeys.

On the road, the chassis and suspension provide exceptional control, creating a truly dynamic driving character. At the front of the car, a sporty double wishbone, transverse link suspension provides the best possible contact between tyre and road surface. At the rear, an integral link design features a sophisticated transverse leaf spring made from lightweight composite and tuned to provide sporty, dynamic roadholding without compromising refinement and ride comfort. Advanced, lightweight materials reduce overall weight and ensure sharp responses.

As well as providing a confidence-inspiring drive, the V60 delivers the breadth of ability that you expect from a Volvo, with a ride that provides excellent comfort over any road.

The optional active chassis allows you to customise the way the V60 rides and handles, and four Adaptive Drive Modes mean you can choose your preferred configuration for engine, gearbox, accelerator and steering. Or you can even create your own bespoke set-up with Individual mode.

However you configure it, the V60 is as comfortable on the highway as it is capable on your favourite roads.

The advanced engineering in the V60 delivers pure, dynamic driving pleasure. With double-wishbone front suspension similar to that found in sports cars, the V60 provides you with more precision and control more of the time.

DRIVE-E *Efficient power without compromise*

T6 Twin Engine | Inscription
 727 Pebble Grey metallic | 19" 5-multi spoke
 Black Diamond Cut alloy wheels

POWER TWINNED WITH EFFICIENCY.

Our range-topping plug-in hybrid, the T8 and T6 Twin Engine, has power and finesse, with the ability to adapt to every moment. Driving the front wheels is a powerful turbocharged and supercharged petrol engine. Power to the rear wheels comes from a responsive electric motor. This set-up really does offer the best of everything – all the benefits of electrification, yet without compromising on power and range.

Because it was designed to use a hybrid powertrain, the T8 and T6 Twin Engine has the same space and capacity as other V60 models, so it's just as practical. Charging is quick and easy. Just plug it in to the mains supply.

Five drive modes allow you to change the car's character to suit the road ahead and even your mood. Pure provides electric-only power enough for the average daily commute of many people. Switch to Power mode and the turbocharged, supercharged petrol engine and powerful electric motor work together to give you an instant response and all-wheel drive traction when you accelerate. In default Hybrid mode, the T8 and T6 Twin Engine chooses between the petrol engine, electric motor or a combination of the two, to keep you moving as smoothly and efficiently as possible. And to optimise traction in slippery conditions, there's an AWD mode that gives you all-wheel drive that distributes the drive between the front and rear wheels to help keep you going. A customisable Individual mode allows you to tailor your car's behaviour to suit your specific needs.

Plug your T8 or T6 Twin Engine into our specially-designed wall box at home and charge it conveniently and safely. Fully charged, the battery will provide enough electric-only power to cover the average daily commute of many people.

**POWERFUL.
EFFICIENT.
REFINED.**

Wherever you're headed, our powerful and refined petrol and diesel powertrains make the driving experience a real pleasure. Choose from the efficient D3 or D4 turbodiesels. Compact and light, these four-cylinder powertrains reduce weight over the front wheels, helping to improve agility and the way the car responds to your driving inputs. And because smaller engines lose less energy through friction, you'll find them more efficient – every drop of fuel works harder and helps minimise emissions.

And through our innovative i-ART direct fuel injection system we are able to precisely monitor each of the four cylinders in our D3 and D4 diesel engines, so the control system can calculate the exact amount of fuel needed. It makes your engine perform better and more efficiently for the lifespan of the car, as well as reducing engine noise for a more refined experience.

All of our powertrains can be complemented by adaptive drive modes, allowing you to alter the way the V60 drives to suit the road ahead. Eco mode, for example, recalibrates the powertrain for the lowest possible fuel consumption, while Dynamic sharpens response times to make the V60 react faster to your commands.

PILOT ASSIST. YOUR JOURNEY MADE EASIER.

Our semi-autonomous technology helps make your life easier, allowing you to relax and enjoy the drive while still being in control. Pilot Assist helps to reduce some of the effort required at higher speeds (up to 80mph) or in stop-start traffic, so journeys are more enjoyable. It keeps the V60 at a set speed and distance from the vehicle in front, and uses steering inputs to keep you in the centre of your lane. This means that even in the most monotonous driving situations, such as on long highway journeys, your car helps take some of the strain and keeps you focused on the drive.

It does this using a combination of information from both a camera and a radar integrated into the V60's windscreen, which the car uses to monitor its position relative to visible lane markings and the vehicle in front of you (if there is one).

Pilot Assist is also connected to the navigation system to help improve the accuracy of your line when driving around curves. Adaptive Cruise Control improves efficiency, too, helping to make the car respond faster to your commands.

This is our approach to technology – designed to make every journey you take safer and more relaxing.

Please note: The driver is always responsible for how the car is controlled, the functions described here are only supportive.

CITY SAFETY TECHNOLOGY. YOUR PRO-ACTIVE PARTNER ON THE ROAD.

Oncoming Mitigation by Braking

A Volvo Cars safety world first, this innovation can detect vehicles heading towards you on the wrong side of the road. If a collision can't be avoided, it can brake your car automatically in order to help reduce the effect of a collision.

Oncoming Lane Mitigation

If you drift across the lane markings and into the path of an oncoming vehicle, your car warns you and gently steers you back onto the correct path. This system does this using automatic steering assistance, helping you to avoid collisions with oncoming vehicles.

Lane Keeping Aid

The Lane Keeping Aid will gently steer your car back into its lane if it senses you are about to inadvertently cross into a different lane. If this is not enough or if you keep steering across the lane markings, you'll be alerted with vibrations in the steering wheel.

Our advanced pro-active safety technology helps you feel confident and in control. At the heart of this technology is City Safety. By helping you to keep a lookout and brake or steer away for you if necessary, it makes driving more enjoyable while helping to prevent accidents.

City Safety can identify other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you if needed and can brake automatically to help avoid a collision or reduce impact. Our advanced Oncoming Mitigation by Braking technology – a Volvo

Cars safety world first – can detect if there's another vehicle driving towards you and brakes automatically to mitigate the impact.

Your Volvo can also support if you're forced into a rapid evasive action at speeds between 31 and 62mph. As you begin to steer away, City Safety can help you do it as effectively and safely as possible by braking the inner wheels individually and reinforcing your steering input.

City Safety is simply your perfect co-pilot: pro-active when it's needed, and staying discreet in the background the rest of the time.

Run-off road Mitigation

Stay safely on the road with this Volvo Cars safety innovation. If Run-off road Mitigation detects you're about to leave the road unintentionally, it uses steering input and, if necessary, brake support to guide you back on track.

BLIS™

BLIS™ uses radar sensors at the rear of the car to monitor your surroundings, and detect if vehicles have entered your blind spot or are approaching fast from behind. If you pull out into the path of an approaching vehicle it will also alert you.

Driver Alert Control

If you are getting drowsy or inattentive at the wheel, Driver Alert Control will alert you and suggest a break. With Sensus Navigation, it can even guide you to the nearest safe and convenient location for a rest-stop.

PROTECTING WHAT'S MOST IMPORTANT.

Protecting you and your passengers has always been at the heart of every car we make, and the advanced safety features in your Volvo are the result of decades of passionate innovation.

In a Volvo, it's the interaction between all the safety features that determines how efficiently the car will protect you in a collision. Everything, from the design of the seats to the surrounding safety cage and the safety belts and airbags, works together to help minimise the strain on all occupants and maximise protection.

The front seats not only provide world-class comfort, they are also designed to protect you in the event of an impact. Our unique

whiplash injury protection helps protect your back and neck if your car is hit from behind. And in a Run-off road scenario, the energy-absorbing front seat structure will help protect your spine in a hard landing, should the car become airborne.

Your Volvo can even sense and prepare for impact. The optional prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

Crash-absorbing front seats

The sculpted front seats in your Volvo are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

Volvo safety cage

The passenger compartment uses a high percentage of ultra high-strength boron steel to create a protective cage around everyone inside the car, while front and rear deformation zones help dissipate the crash energy. The safety belts and airbags work together to cushion you and your passengers in a controlled fashion.

Child safety

At Volvo Cars we've spent decades continually researching and improving child safety. Our unique approach includes creating and carrying out tests based on real-life traffic situations, as well as testing our child seats alongside our cars. With our latest range of child seats, we offer unparalleled protection.

PARKING PEACE OF MIND.

Every journey you will ever make begins and ends with the parking experience, which is why Volvo Cars has invested a lot of thought into developing solutions that make parking easier and help save you time. Your V60 can help find you a parking space and park itself.

If you want to take control of parking yourself, then the 360° camera and Park Assist sensors help you to park safely and easily. The 360° camera is there to help you with its bird's-eye view of your surroundings, shown on the centre display.

And for even simpler, safer parking, Park Assist Pilot is like having someone park your car for you. It will tell you if a space is big enough and then takes over the steering for the parking manoeuvre. It can park in a space just 1.2 times the length of your Volvo – all you need to do is accelerate and brake according to the prompts on the driver display.

Then, when you leave a parking space, Cross Traffic Alert helps you to avoid a collision when you reverse out. It warns you of vehicles, pedestrians and cyclists approaching from either side and will even brake for you if it detects an imminent collision.

360° camera

Our 360° camera provides you with a helpful bird's-eye view of your car and its surroundings on the 9-inch centre screen display in the cabin, so you'll be able to park simply and safely, with 100 per cent visibility of what's around you.

THE HUMAN TOUCH.

We set out to make living with your Volvo easier and more enjoyable. To do that, we understood that Sensus – Volvo Cars' name for the advanced technology that connects you to your car and the world around you – should have a natural, human feel.

Our 9-inch centre display with touch screen allows you to intuitively control the functions of your Volvo and stay connected. The touch screen surface is so responsive that you can operate it wearing gloves. It also has an anti-reflective coating to help reduce glare, so it's always easy to see what's on the screen.

One of Volvo Cars' guiding principles is to make it easy for you to interact with your Volvo without being distracted. As a result, we put essential information right in front of the driver by using a digital driver display in the instrument panel. This high-resolution screen showcases key information for the driver and can vary the size and shape of the readouts it shows, depending on how you are using your car. For example, if you are using the navigation system, the display for that becomes enlarged, so you can focus on your directions more easily. The driver display also adapts its brightness according to exterior light sources such as bright sunshine or the lower light conditions of tunnels.

An optional head-up display also projects information onto the windscreen so it's closer to your eyeline – another way of reducing any potential for distraction.

And with Voice Control, you can access many functions of the V60, while keeping your hands on the steering wheel and your eyes on the road at all times. As it uses natural speech patterns, you don't need to learn specific commands – you can just talk to your Volvo as if you were talking to another person.

The 9-inch centre display with touch screen is the control centre for Sensus. You can use it to operate the navigation, entertainment, climate control and your smartphone. Sleek and responsive, it looks beautiful and works beautifully – just how all technology should be.

YOUR WELL-CONNECTED GUIDE.

Intuitive technology in the V60 helps get you where you need to go quickly and easily. The clear graphics of Sensus Navigation are easy to read, while the portrait format of the centre display means maps scroll less and are able to show more of the road that you are travelling on.

Our innovations also save you time by helping you to find what you're looking for, with built-in apps such as Google Search and

Yelp. Find a petrol station, a restaurant or a hotel and then use Sensus Navigation to take you there.

The V60 keeps you connected with your digital world with an onboard wifi hotspot and 4G connectivity. And connecting your phone to the car is as easy as plugging it in – Apple CarPlay™ or Android Auto™ will do the rest, turning the centre display into an extension of your phone's screen.

Voice control

Volvo Cars' latest voice recognition technology understands natural speech, so you can simply talk naturally to your car – there's no need to memorise specific phrases to operate climate control, navigation, media or telephone features.

Sensus Navigation

With its clear mapping, seamless connectivity and ease of use, Sensus Navigation is your companion on every drive, taking care of the journey and leaving you to enjoy every moment.

Smartphone integration

Apple CarPlay™ or Android Auto™ allows you to simply and easily connect your smartphone to your car. All you need to do is plug it in and the centre display will show you the same type of interface that you'll recognise from your phone's home screen.

HEAR THE DIFFERENCE.

Immerse yourself in the clarity and detail of your favourite music in the V60. By working with some of the world's finest audio makers, we've created an in-car experience that takes you closer to the music you love.

The V60 was designed with exceptional audio performance in mind. Audio systems from Bowers & Wilkins and Harman Kardon® ensure superb reproduction, every time. The advanced technology of the range-topping Bowers & Wilkins package uses 15 speakers to deliver peerless 1100-watt performance, highlighted by the unique 'open air' subwoofer, with its rich, resonant bass notes. This system also uses unique technology developed together with the Swedish audio software specialists Dirac Research that can change the

in-car acoustics to resemble a performance space – one of which is the Gothenburg concert hall – for a more lifelike sound.

Harman Kardon® Premium Sound is our other high-level sound experience. It uses 14 speakers to surround you with music and delivers 600 watts of sound via a 12-channel amplifier. The Dirac Unison tuning software also automatically adjusts the intensity of the sound so that when you are listening to different recordings or sources, you don't have to turn up the volume yourself.

And with seamless smartphone integration, enjoying music on your device is as easy as making a call, thanks to Apple CarPlay™ and Android Auto™. Spotify® comes as standard with Sensus, giving you access to all the music you'll ever want.

We developed Harman Kardon® Premium Sound together with the hi-fi specialists at Harman Kardon®. Powered by a 600W digital amplifier, the 14 speakers are tailored to the acoustics inside your Volvo and deliver a powerful, high fidelity surround sound. A unique sound processing software by audio specialists Dirac Research optimises the response of each individual speaker as well as the speakers all together to ensure they perform in perfect harmony. So wherever you're seated in the front or rear seats, you can enjoy a seamless first-class listening experience in all conditions and – not least – an extremely unified and tight bass sound.

Apple CarPlay™ is a trademark of Apple Inc.
 Android is a trademark of Google Inc.
 Bowers & Wilkins is a trademark of B&W Group, Ltd.

VOLVO ON CALL. YOUR PERSONAL ASSISTANT.

The Volvo On Call app connects your car with the rest of your world, helping make life less complicated. It's there when you need it, so your car becomes more than just a means of travel – it's your personal assistant.

You can remotely warm or cool the car's cabin, so it's comfortable when you want to leave. It can help you find a parking space, then take you straight to it. You can sync your Volvo On Call app with your calendar, so if you've got appointments it will tell your car where they are and how to get there. And it keeps you safe, automatically contacting emergency services if you're involved in an accident and telling them where you are.

Volvo On Call keeps you connected to the things you need. It's always on. Always with you. Always there.

YOUR DAY MADE EASIER WITH VOLVO ON CALL

From saving you time in the morning to helping you relax on the way home, Volvo On Call can be an indispensable part of your daily routine.

THE PERFECT START

Before leaving the house, you send your destination to the car's navigation system so it's ready for you to set off. You get in the car which is already warm and defrosted, thanks to Volvo On Call's ability to run the engine remotely (automatic only).

07.30

WHERE NEXT?

A calendar card shows your next meeting. You push a button in the app, sending the address to the car's navigation system.

11.00

FIND YOUR CAR

You've forgotten where you parked, so you use the car locator map to find the street and then use the flash lights function to pinpoint the car.

12.00

REMOTE CONTROL COMFORT

You set the engine to warm the car interior (automatic only) so it's ready for when you leave the office.

READY FOR A NEW DAY

A notification reminds you that you've got a meeting in the morning so you send the location to the Sensus Navigation system ready for the morning.

13.00

17.15

17.45

22.20

SET UP YOUR HOTSPOT

You pick up some colleagues. Using Volvo On Call, you create an in-car wifi hotspot with a strong internet connection for their mobile devices.

FIND A RESTAURANT

You head for home, not wanting to cook dinner. The Volvo On Call operator sends your dining choice destination to your car's navigation system within seconds.

SIGN UP TO THE FUTURE

Volvo Cars' approach to the future of the car experience is known as Care by Volvo.

Care by Volvo is designed to remove the financial investment usually associated with car ownership while still meeting your changing needs through a fixed monthly payment. This means that Volvo Cars takes full responsibility as the owner of the car throughout its lifecycle – from production to final recycling, while at the same time providing you with a seamless user experience.

It's as easy as can be. Decide which car and offer you would like, order it and drive. Care by Volvo includes all regular servicing, maintenance, insurance and tax.

Care by Volvo is the future of the car experience. It's like a phone subscription. You always have the latest technology and powertrain systems in the latest Volvo models, as we move from mild- and plug-in hybrids towards fully electric Volvo cars.

VOLVO V60

The exclusive Volvo V60 Inscription with its subtle jewellery touches and beautifully crafted wheels expresses the essence of contemporary Swedish luxury. On the inside, you are surrounded by genuine materials and fine craftsmanship. It's a sensory experience, further enhanced by the Comfort seats in smooth Leather and genuine Driftwood decor – all to make the Volvo V60 Inscription your own personal statement of dynamic luxury.

The V60 Inscription with dynamic, yet elegant 19-inch 5-multi spoke alloy wheels (optional) in distinctive Black Diamond Cut design.

The Inscription front grille in elegant chrome finish and the signature headlights with LED illumination.

The bright side window trim adds up to the luxurious appearance of the V60 Inscription.

Dual integrated end pipes and bright decor trim enhance the elegant and powerful impression from the rear.

The sculpted Comfort seats with optional Perforated Fine Nappa Leather upholstery and adjustable seat cushion extensions and the Driftwood decor provide a sensory experience of contemporary luxury. In the tunnel console, there's a scroll wheel in diamond patterned metal finish that allows you to select your preferred drive mode and steering characteristics.

The exclusive Driftwood decor in the dashboard and tunnel console resembles the look and feel of wood shaped by the natural force of water, wind and waves.

The rear seat passengers can enjoy the comfort and convenience from a centre armrest with integrated cup holders and storage.

The optional Perforated Fine Nappa Leather front seats feature perforated Nappa Leather on the seating panels and contrasting stitching for a sporty, luxurious look and feel and includes seat ventilation for optimised comfort.

The intuitive 12-inch driver display with four graphic modes and the 9-inch centre display with touch screen puts you in the centre of action.

R-Design
707 Crystal White pearl

RDESIGN

INSPIRED BY SPORT.

If you love to drive, the Volvo V60 R-Design is for you. With athletic styling and precise control, R-Design captures the thrill of a sporty driving experience. A wealth of distinctive design details raises the sporty soul of your Volvo and gives it an even more powerful road presence. It's a design expression that catches the eye from every angle and hints at the promise of an amazing drive, every time. And you can rest assured that the V60 R-Design will deliver. You can feel it right from the moment you take your position in the sculpted R-Design driver seat – everything is there to inspire and support your driving.

BUILD YOUR OWN VOLVO V60 R-DESIGN AT
VOLVOCARS.CO.UK/BUILD

The Volvo V60 R-Design is characterised by distinctive styling and a powerful road presence. Sporty exterior R-Design details leave no doubts about the intention of your V60 R-Design. On the inside, sculpted R-Design seats, Metal Mesh decor and Charcoal headlining give the cabin a sporty, cockpit-like feel. A finely-tuned sport chassis helps ensure you're in control without compromising ride comfort.

Our headlights with LED illumination, the glossy black R-Design grill with frame in Silk Metal finish and unique glossy black lower outer grilles add to the dynamic character of your V60 R-Design.

R-Design door mirror caps in dynamic glossy black and stylish glossy black window trim highlight the sporty look of your V60 R-Design.

Enjoy the ultimate R-Design experience with our optional 20-inch 5-triple spoke Matt Black Diamond Cut aluminium wheels and the lowered sport chassis with stiffer springs and shock absorbers for sportier handling and less roll when cornering.

Dual integrated end pipes for a distinctive road presence.

The Volvo V60 R-Design in Crystal White pearl with optional 20-inch 5-triple spoke Matt Black Diamond Cut alloy wheels.

The R-Design interior featuring the R-Design sport steering wheel, R-Design gear shifter and gaiter in Fine Nappa Leather with contrasting stitching, Contour seats with exclusive Charcoal Fine Nappa Leather/Open Grid Textile upholstery, Metal Mesh aluminium decor inlays and our optional Tailored dashboard (not available in UK) with contrasting stitching.

The Metal Mesh aluminium decor add to the dynamic, hi-tech ambience inside your V60 R-Design.

The sculpted R-Design Contour seats with adjustable seat cushion extensions provide relaxed support, while the exclusive Fine Nappa Leather/Open Grid Textile upholstery with contrasting stitching provides a sporty yet sophisticated feel.

The R-Design sport steering wheel in Leather with gearshift paddles and our 12-inch driver display with four graphic modes.

VOLVO V60 CROSS COUNTRY. READY FOR YOUR ADVENTURE.

The Volvo V60 Cross Country embodies the human spirit of pushing the boundaries of what's possible and going in that direction. To be equally curious and courageous, to go further and open up a world of new destinations.

It's a genuine Volvo Cross Country vehicle in every aspect, providing you with the capacity to confidently deal with any road or weather. All-wheel drive, increased ground clearance and an advanced chassis give you the control you need to keep moving when conditions get tough.

Unique exterior details and large wheels create a rugged yet stylish look that excels in the centre of the city as well as in the middle of nowhere. And no matter what's going on outside your car, the V60 Cross Country is a haven inside. The spacious cabin is made from the finest material and constructed with the care and attention provided by Swedish craftsmanship. So wherever your sense of adventure takes you, the Volvo V60 Cross Country is ready to get you there in style and comfort.

V60 Cross Country

20" 7-double spoke Matt Graphite Diamond Cut alloy wheels

IN COMMAND, EVERYWHERE.

To help you pursue your passions to the full, the advanced chassis of your Volvo V60 Cross Country puts you in command in all weathers and on all roads. High ground clearance (206 mm) and large wheels give you access to more roads, and our all-wheel drive technology helps keep you going by instantly distributing the right amount of power to the wheels that need it most. This enhances driving stability on all road surfaces and makes it easier to drive in slippery conditions

or when towing. Hill Descent Control is another feature that makes driving down steep or slippery roads as easy and safe as possible. And by selecting Off-road mode from the Drive Mode menu, you make the car easier to drive on difficult surfaces such as mud and loose gravel by and recalibrating the car's powertrain so you have more control at slower speeds.

The chassis of the V60 Cross Country is designed to deliver all-road capability, agile handling and supreme comfort. High ground clearance, large wheels and all-wheel drive enhance your capacity to get through where others get stuck.

BE PREPARED.

Whatever gear you need to bring on your adventures, your V60 Cross Country has what it takes to make it happen. The load compartment gives you class-leading capacity, and the compartment's clean, straight-forward design makes it easy to utilise it to the full. If necessary, you conveniently fold one or both seat backrests at a touch of a button. Should you need to temporarily increase the load capacity of your V60 Cross Country, you'll easily attach Volvo Cars' load carriers, such as a roof box, on the car's integrated roof rails. Or for even bigger challenges – the car's all-wheel drive and highly capable chassis give the V60 Cross Country all the characteristics of an outstanding tow car, with a towing capacity of up to 2,000 kg depending on powertrain.

By adding our foldable tow bar you conveniently turn your V60 Cross Country into a highly capable tow car. A push of a button, and the tow bar folds out into position. And when not needed, it's discreetly hidden under the rear bumper.

The Volvo V60 Cross Country is a car that's elegant, tough and practical. Its large wheels and increased ground clearance give you confidence on any road, while wheel arch extensions and dark lower body parts add a rugged edge. On the inside, you can relax on the way to your adventure in a meticulously crafted interior with excellent finish and detailing wherever you look. Optional leather seats with contrasting stitching and Iron Ore aluminium decor add to the car's bold character.

The Glossy Black window trim (Cross Country Pro) perfectly matches other exterior details such as the unique front grille and adds a touch of contemporary style that's unique for the V60 Cross Country.

The optional, large 20-inch 7-spoke Matt Graphite alloy wheels perfectly complements the car's rugged Cross Country character.

A unique grille, large wheels, increased ground clearance, high gloss black side window trim and lower body parts and wheel arch extensions in contrasting Charcoal add to the rugged character of the V60 Cross Country. Here shown with optional 19-inch Matt Graphite alloy wheels.

Our signature design LED illumination headlights and unique high-gloss front grille with lower spoiler together with a wider front and rear track and 206 mm ground clearance give a commanding, confident stance.

At the rear, the integrated stainless steel dual tail pipes and the Charcoal bumper with embossed Cross Country logotype add to the car's strong road presence.

The Cross Country Leather seats together with Iron Ore aluminium decor and the optional Tailored dashboard (not available in UK) add to the sensory experience of contemporary luxury.

The Leather seats with unique Cross Country stitching and adjustable seat cushion extensions provide relaxed long-distance comfort and enhance the luxurious interior ambience.

Select your preferred drive mode and steering characteristics with the scroll wheel in diamond patterned metal finish.

VOLVO V60 MOMENTUM. CONTEMPORARY DYNAMIC STYLE.

The V60 Momentum is a confident expression of dynamic style and versatility, where smart features and contemporary design interact to create an elegant and sporty experience. Designed to be your ultimate lifestyle enabler, the V60 Momentum will provide you with a high level of technology that meets your demands on style, comfort, safety and distinctive design.

The exterior of the V60 Momentum is twisted towards a more dynamic approach. Our signature design LED headlights and black exterior details such as the grille, side window trim and integrated roof rails finish contribute to the both sporty and elegant appearance of the V60 Momentum.

VOLVO V60

The Volvo V60 Momentum embodies the essence of confident Scandinavian design. LED headlights highlight, black exterior design cues and dual stainless steel end pipes enhance the distinct presence of your Volvo estate. Inside the V60 Momentum, you and your passengers are surrounded by thoughtful comfort. The interior ambience is further enhanced by Iron Ore aluminium decor and aluminium tread plates.

Park Assist supports you when reversing and the chrome dual end pipes give your V60 Momentum a more dynamic look.

The V60 Momentum with signature design LED illumination headlights, black grille and black integrated roof rails, 18-inch alloy wheels (optional) and black side window trim.

The black front grille with bright chrome frame LED illumination headlights give the V60 Momentum a distinctive, dynamic character.

Inside the V60 Momentum, you can enjoy the contemporary spirit of our City Weave textile/T-Tec upholstery and Iron Ore aluminium decor.

The Comfort seats provide excellent body support and are upholstered in Textile/Tec for a contemporary look and feel.

The Iron Ore aluminium decor in the dashboard perfectly complements the dynamic character of your V60 Momentum.

The standard 12-inch driver display allows you to choose between different visual appearances. To provide optimum visibility, the display's brightness automatically adapts to exterior light conditions.

EXTERIOR COLOURS.

Our wide range of exterior colours allows you to create the Volvo V60 that best reflects your style and preferences. Available in

different variations, each colour imbues your Volvo estate with a sense of dynamic elegance.

MAKE IT YOURS.

The Volvo styling accessories are created by our own team of designers to perfectly complement the lines of the V60 and enhance its dynamic, contemporary character. And to make your sporty Volvo estate an even stronger and more personal statement, you can add our exterior styling package. Body coloured front and rear side deflectors and sculpted side mouldings accentuate the car's low

stance, while the integrated dual split end pipes create an even more powerful look. And for the V60 Momentum, a black rear diffuser adds an extra touch of dynamic luxury.

This is your opportunity to express yourself and come up with a look that is all yours.

V60 exterior styling package.

Sculpted side mouldings.

Integrated dual split end pipes
in stainless steel.

MORE RUGGED, MORE YOU.

Bring out the rugged, adventurous soul of your Volvo V60 Cross Country with our specially-designed Exterior styling kit. The front and rear skid plates together with the side scuff plates in brushed stainless steel and the dual split tail pipes perfectly complement

the car's adventurous appearance. And adding attitude beyond the ordinary, the powerful, large 20-inch Matt Graphite alloy wheels in expressive 7-spoke design further enhance the rugged Cross Country look.

Side scuff plates with Cross Country logo-type (included in the Exterior styling kit). Available 2019.

Front skid plate (included in the Exterior styling kit). Available 2019.

20" 7-spoke Matt Graphite alloy wheels.

Rear skid plate and dual split tail pipes (included in the Exterior styling kit). Available 2019.

Reversible/folding textile
load compartment mat
(with integrated bumper cover).

GET READY.

We designed the V60 to be your versatile partner, allowing you to do what you want to do. To make your Volvo estate work even harder for you, just add our load accessories.

Designed to look good and work flawlessly, they will make life less complicated and help you bring the gear you need for your adventures.

Shaped plastic load compartment mat.

Protective steel grille.

Roof box, designed by Volvo Cars.

Load carriers.

Bicycle holder, towbar mounted.

Foldable towbar, semi-electric.

DESIGNED FOR YOUR ACTIVE LIFE.

The V60 is about catching every moment and sharing them with family and friends. To enhance the experience for anyone who shares your ride, we've created specially-designed accessories that cater for your passengers' comfort and safety. For children up to 10 years, our child seats combine comfort with state of the art safety and are designed to fit perfectly into your Volvo. We apply the same stringent standards to our child seats as we do to building our cars, so you know your children are well protected.

Child seat, booster cushion with backrest, Leather/Nubuck Textile (15-36 kg).

Child seat, rearward facing (9-25 kg).

Child seat, infant seat (up to 13 kg).

Child seat, booster seat (15-36 kg).

Neck cushion.

Colour-coordinated shaped plastic passenger compartment mats.

Dog harness (available in four sizes).

MAKE YOUR POWERFUL CHOICE.

We created the new V60 with one single purpose: to provide you with a car that perfectly fits you and your active lifestyle. It's a sporty estate that meets your expectations of a dynamic drive with exceptional comfort and distinctive Scandinavian design – built with care for people and the world we share. And designed to be intuitive to use and to make life easier, the V60 is a pleasure to live with every day.

At the heart of your V60 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest Drive-E technology that gives you responsive power. Fuel consumption and CO₂ emissions are kept low, complying with exhaust emission legislations.

Our Drive-E powertrain range includes advanced diesel and petrol engines mated to our smooth eight-speed automatic gearbox or distinct six-speed manual gearbox.

And for the ultimate combination of performance and efficiency, there's the option of our smooth and powerful T8 or T6 Twin Engine AWD powertrain with plug-in hybrid technology.

Make your choice, and enjoy the journey wherever it takes you.

T8 Twin Engine AWD

Our T8 Twin Engine plug-in hybrid powertrain delivers an exhilarating drive with uncompromised efficiency. Combining a high-performance petrol engine and an electric motor, this powertrain allows outstanding highway performance and zero emission commuting – with all-wheel drive capability when needed. More information available later in 2018.

T6 Twin Engine AWD

We created the T6 Twin Engine plug-in hybrid powertrain to give you the ultimate combination of performance and efficiency. A powerful petrol engine and an electric motor join forces to deliver for efficient long distance driving and zero emission commuting. And when needed, you have access to all-wheel drive. More information available later in 2018.

T5

The 250hp/350Nm T5 petrol powertrain is as responsive on the highway as in the city. This superb all-rounder delivers generous power just where you need it, ensuring excellent driveability in combination with our smooth 8-speed automatic gearbox.

D4

Our sophisticated 190hp/400Nm D4 diesel powertrain allows you to enjoy more while using less. Mated to our smooth 8-speed automatic or 6-speed manual gearbox, the D4 is designed to give you the most efficient and confident driving experience.

D3

We designed the 150hp/320Nm D3 diesel powertrain to give you the ultimate combination of fuel economy, performance and refinement. Available with our responsive 8-speed automatic gearbox or a 6-speed manual gearbox, the D3 is a perfect partner for any journey.

SERVICE BY VOLVO. A SIMPLER WAY.

When you buy a Volvo, you buy the simplest way to have a car. No matter what your car may need, your authorised Volvo retailer will take care of it for you and make sure that your Volvo stays in tip-top shape.

We have our own approach to service that's personal, efficient, and which takes care of you as well as it takes care of your car. We call it Service by Volvo and it will provide everything you need in the simplest way possible.

Your Volvo Cars retailer offers a whole range of simplifying services all designed around you, ensuring you a carefree ownership experience. Still, this is just the beginning. Soon, you will also get a Personal Service Technician, and your car will be ready within the hour so you can relax in our lounge instead of driving back and forth. It's because everything we do is about finding new ways to make life simpler for people, with our cars as well as our service.

HAVE YOU GOT YOUR VOLVO ID?

A Volvo ID allows you to access a whole world of connectivity with your Volvo. With your Volvo ID, you can:

- Access your My Volvo account on volvocars.co.uk for car information, updates and offers.
- Access internet services and apps in your car, including connected service booking
- When applicable, sign in to the Volvo On Call app and connect with your car from everywhere

CONNECTED SERVICE BOOKING

Via Sensus Connect, your Volvo will remind you when it needs servicing and offer to contact your Volvo retailer for you. Booking proposals sent from your preferred retailer can easily be managed directly in the car. When the time comes to drive to your workshop, your Volvo will remind you and even guide you there. And since your Volvo tells us what it needs, we can make sure it always receives the service it requires when it gets there.

V O L V O

**Official fuel consumption for the Volvo V60
in MPG (l/100km) ranges from:**

Urban 32.1 (8.8) – 53.3 (5.3), Extra Urban 48.7 (5.8) – 72.4 (3.9), Combined
40.9 (6.9) – 64.2 (4.4). CO₂ Emissions range from 160 – 117g/km.

MPG figures are obtained from laboratory testing intended for comparisons
between vehicles and may not reflect real driving results.
