

VOLVO V60

INNOVATION FOR PEOPLE

Made by Sweden

At Volvo Cars, we continuously innovate in order to make your life better. Every car, every technology and every design is the result of a clear vision – to put people at the heart of everything we do. It's a vision that has driven us from the start, one informed by Sweden, a country which values people as individuals and where conventions are challenged. It's a culture with a rich design heritage and a unique way of looking at the world.

This vision has inspired us to create the likes of the three-point safety belt and side-impact airbags – inventions that have saved lives and changed automotive history. And with our new generation of models we continue with this tradition. Scandinavian design combines with modern Swedish luxury to enrich your experience. Intuitive Sensus technology makes life less complicated and keeps you connected with the world, while the latest Drive-E powertrains balance responsive power with class-leading efficiency. And supporting you while you are driving, our IntelliSafe innovations make your journey more comfortable and enjoyable while helping to prevent accidents.

We understand what's important to people. It forms the basis of all the innovations which we create. Innovations that improve lives.

At Volvo Cars we design our cars around you.

The V60 is designed to help you make the most of your life, whatever you're doing. It's a car that makes you feel special through the enjoyment, comfort and beauty it provides; a car for people who need the versatility of an estate and an entertaining driving experience.

It starts with the standard Dynamic Chassis, created to give you a responsive, in-command feeling behind the wheel.

A range of Drive-E powertrains give you responsive performance as well as low fuel consumption and emissions. By using lightweight construction, low-friction technology and advanced transmissions they get the most out of every drop of fuel.

Inside, the V60 blends Volvo practicality with an atmosphere of calm and serenity. Our seats have been famous for their comfort ever since we took the unprecedented step of consulting ergonomic experts to help us develop them, and the current generation are the latest example of this revolutionary approach. Supportive and comfortable, you will arrive fresh and relaxed after even the longest journey.

Sensus – our way of connecting you with your Volvo and the world around you – puts the latest technology at your command, in a way that's intuitive and natural. For the V60 it includes high-quality displays and easy-to-use controls that make life easier, as well as the option of high-end audio systems and internet connectivity that keeps you in touch with your digital world on the move.

Inside and out, the V60 embodies the best in Scandinavian design. You see it in the elegant and uncluttered interior, with its alluring blend of modern materials and traditional craftsmanship; in the calm, confident presence the V60 has on the road. Elegant, versatile and distinctly different, the V60 is a car designed around the way you live. A car that has the power to make you feel good every day.

VOLVO V60

Why give up the thrill of driving just because you need to carry stuff?

The Volvo V60 is a beautifully balanced combination of dynamism, style and versatility.

When driving on curvy roads you'll enjoy the crisp response of a well-balanced chassis. During the longer trips, the relaxed comfort of your V60 will keep you and your passengers fresh for hours. In more challenging traffic situations – in the city, for example – a range of supportive technologies will take the stress out of driving and keep you in control.

The agile character of your V60 is enhanced by its looks. The muscular shoulders, the distinctive front with advanced headlamps, the sleek coupe-like roofline and the powerfully sculpted rear section with its signature rear light arrangement – all make for a strong road presence. Inside, a beautifully crafted interior creates a calm yet invigorating environment that creates a unique sense of well-being, just as it befits a Scandinavian design masterpiece.

To support the more practical aspects of life, smart versatility including a 430 litres load compartment and a 40/20/40 three-split backrest will come handy. You conveniently bring both people and gear without compromising on either comfort or safety. Add our range of highly efficient Drive-E powertrains including our Twin Engine plug-in hybrids and our Sensus technology that connects your Volvo with the world around you – the V60 is truly designed to fit in with your life, whatever it involves. It's your sportswagon, worthy of the name.

"It's your sportswagon, worthy of the name."

VOLVO V60

"The car has a beauty that – as with much of contemporary Scandinavian design – is rooted in the natural world."

HOW DO YOU MAKE A BEAUTIFUL ESTATE?

By design.

The looks tell you this car is a beautiful combination of versatility and performance. “The road presence comes from its focused and determined-looking headlights,” explains Volvo Car’s senior exterior designer Peter Reuterberg. “We were thinking of a wolf’s eyes when we designed the car’s “face”. It has a confident, focused expression, like a powerful animal.” Our designers have also made the roof sweep down and the rear windows taper – the overall effect is to make it appear more like a coupe. Meanwhile, the scalloped surfaces on the bonnet accentuate the classic Volvo V-shape with a purposeful frown running right down to the headlights. The car has a beauty that – as with much of contemporary Scandinavian design – is rooted in the natural world. “Those clean surfaces and contours give it a very Scandinavian feel,” says Peter Reuterberg. “The way surfaces build up and then change shape is inspired by snowdrifts in the Swedish countryside – it’s a combination of soft forms and sharp breaks.” The strong shoulders are another unmistakable Volvo design cue – as is the expressive grille with the iconic Volvo diagonal. They enhance the car’s self-confident look and tell the world it’s proud to be a Volvo.

THE PROSPECT OF A PERFECT DRIVE.

We've designed the cockpit around you, the driver. Sit in the driver's seat and the dashboard, which is gently angled towards you, puts you in complete command. Inspired by high-performance motorbikes, we came up with the idea of a single round instrument flanked by two smaller dials. Then, we carefully sculpted the three-spoke steering wheel with the aim of giving you a clear sense of connection between your car and the road.

Where you sit is equally important. Volvo Cars takes pride in designing seats that not only offer great comfort but also outstanding support, so that at the end of every journey you make you will feel as calm and refreshed as when you started. Our sport seats look great and, true to our commitment to ergonomic design, side support all the way from your thighs to your shoulders ensures that you keep firmly in position, even when you're cornering fast.

And because it's a Volvo, we designed the seats so your passengers will enjoy the ride too. Everybody travels first class, and with our two-stage integrated booster cushions children over 3-4 years will ride safely in comfort while seated at the right position.

Of course, we're committed to a clean environment inside your car as well. As part of CleanZone – our approach on interior air quality, all interior materials in your Volvo are hypo-allergenic and do not emit harmful gases. CleanZone also includes a highly effective dust and pollen filter. And our Interior Air Quality System uses an active carbon filter to reduce harmful gases and particles, allowing you and your passengers to enjoy clean cabin air – even in polluted cities.

No need to take your hands off your steering wheel as you shift up and down the automatic gearbox in manual mode – just flick through the gears with our optional gearshift paddles. You'll be in total command of your car, with both hands on the wheel. And quicker gear changes for a more responsive drive when you're in the mood.

"We've designed the cockpit around you, the driver."

Upholstery shown not available in the UK

SENSUS

*The intuitive way to interact
with your car.*

Volvo Sensus is our all-encompassing approach that connects you with your car and the world around you. It means you're on the road, but not offline. With Sensus Connect, you can turn the 7-inch screen in your dashboard into an internet-connected infotainment hub*. Not only can you surf the web, you can also download apps – from Stitcher to TuneIn. Sensus Connect also gives you access to basic internet maps and routing, and to take advantage of navigation guidance, 3-D views and navigation apps, there's Sensus Navigation as standard. If you'd like to take your connectivity to the next level, there's Volvo On Call. This option gives you 3G-connectivity with excellent reception through your car's integrated roof aerial, so you can create a Wi-Fi hotspot for all of your devices. Meanwhile, Connected Service Booking allows you to book your car in for a service from the comfort of the driver's seat.

A high-end audio experience is also part of Sensus. That's why we've designed our state-of-the-art Premium Sound by Harman Kardon®. Using 12 high-fidelity loudspeakers, the amplifier is equipped with Dirac Live®, the next generation sound enhancement software. With an incredibly realistic stage sound as well as enhanced bass performance, this sound system provides an unparalleled aural experience for every passenger and connects easily with external media players.

Our digital driver display is another delight. Not only does it give you all the information you need without overwhelming you – its three background modes, Elegance, Eco, and Performance, allow you to adapt the instrument look and interface to your driving desires. The physical controls, such as our floating centre stack with its iconic 'manikin' climate control buttons, are another example of Scandinavian design that's both functional and beautiful. And then there's our eye-catching illuminated gearshifter, which is available for selected automatic gearboxes. Glowing gently in the dark, it adds a touch of atmosphere to your night drives.

*A mobile data plan is required to enable online access and connectivity

"Sensus is about making your interaction with your car intuitive, and ensuring you're on the road, but not offline."

Volvo On Call. Making your life less complicated. Experience a world where you are connected to your Volvo with the Volvo On Call phone app.

Volvo On Call is your digital key to a range of convenient services that will make life easier and enhance the experience of owning a Volvo. Some services you can enjoy today, and more will be introduced later. Volvo On Call also connects your Volvo to the rest of the world and lets you control the car remotely. Check if you've locked the car and lock it if you haven't, or create a wifi hot spot so you and your passengers stay connected to the internet. If you choose the automatic then on cold mornings the remote engine start allows you to heat and defrost your car so that you start the day in comfort. And on hot days use Volvo On Call to cool your car so it's the perfect temperature when you're ready to leave.

Plan journeys at home and send the destination to your car, so that when you're ready to go so is the navigation system. It will sync with your calendar to remind you of appointments and tell you how to get to them.

Volvo On Call is compatible with your smartphone, iPad®, Windows 10 based PC or tablets and wearables such as Apple Watch – you can even operate your car remotely using voice commands with Microsoft Band 2. And should you need roadside or emergency assistance Volvo On Call will connect you directly to the Volvo service centre. If your car's alarm is activated, Volvo On Call tells the service centre, who will contact you. If your Volvo is stolen, Volvo On Call can help the police track your car.

Volvo On Call also informs you of your car's fuel level, logs journey data and tells you when your Volvo is due for a service. It's another example of Volvo Cars developing human-centric innovations to improve your life.

Light up the dark. Driving in the dark just became a lot more enjoyable and safer. Our Active High Beam stays on high beam all the time. You don't have to flick between low and high beam, and when you meet or catch up another vehicle the system shades out only as much of your beam as necessary to avoid dazzling – while you still get the benefit of a brightly lit road. This intelligent technology can even recognise pedestrians and cyclists and avoid dazzling them too. And when you enter a city, the high beam shuts off.

INTELLISAFE

*Intuitive safety by Volvo Cars.
For you, and for those around you.*

At Volvo Cars, safety is an intrinsic part of our DNA. We've invented some of the world's most pioneering life-saving technologies – such as the three-point safety belt that's been acknowledged one of the most important innovations of mankind.

But we aim higher. Our vision is that by 2020 nobody should be killed or seriously injured in a new Volvo.

IntelliSafe is our approach for a more harmonious relationship between cars and people. To achieve this, we have infused your Volvo with smart, intuitive innovations for a safer drive. And the IntelliSafe technologies help protect not only the people inside your car – we also consider people on the outside, for example with technology that helps you to detect pedestrians and cyclists.

When you drive at speeds up to 31mph, our City Safety collision avoidance technology can look ahead of you and help brake automatically if you're about to run into a vehicle in front. To give you more support at higher speeds, our Collision Warning with Auto Brake and Pedestrian and Cyclist Detection can alert you if you're too close to a vehicle and a collision is imminent – day or night. During daylight, the system also reacts if there's a pedestrian in your path or a cyclist ahead travelling in the same direction as your car. And if necessary, your car can brake automatically to help you avoid or mitigate a collision.

To help you stay in the lane, our Lane Departure Warning or Lane Keeping Aid technology will alert or intervene if you unintentionally should cross a lane marking – there's even Driver Alert technology that reminds you to take a break in case your driving behaviour shows signs of drowsiness.

Our IntelliSafe technologies also support your daily driving. The Road Sign Information technology keeps you updated on actual speed limits and other important road signs. At night, our Active High Beam stays on high beam all the time to optimise your vision without dazzling other road users. And to make you a bit more relaxed on the road, our Adaptive Cruise Control can maintain your set speed and distance to the vehicle in front. In slow-moving city traffic, our Queue Assist function (only available for automatics) can automatically maintain the selected distance to the car in front – from standstill and up to 18 mph. Our BLIS™ system helps you to early detect other vehicles in your blind spot, while the Cross Traffic Alert function facilitates reversing out of tight parking spaces where your vision can be restricted.

And because we know you love to drive, our active IntelliSafe technologies like Electronic Stability Control add to reassuring driving stability in all conditions without sacrificing the joy of driving. It's simply about giving you the most human-centric driving experience, on your terms. And helping to keep people out of harm's way, whether they happen to be inside or outside your car.

"Our vision is that by 2020 nobody should be killed or seriously injured in a new Volvo."

City Safety is designed to prevent you from colliding with the car in front if it stops, or slows suddenly. This advanced IntelliSafe system will automatically brake to avoid a collision and works at speeds of up to 31 mph – an accident can be avoided at a speed difference of up to 9 mph to the vehicle in front.

Because we also care about other road users, our pedestrian and cyclist detection with full auto brake watches out for people walking in your path or cycling in the same direction as your car and applies the brakes if you're unable to react in time.

Our **BLIS™ system** uses radar sensor technology to alert you to vehicles that are close to or in your blind spots in your adjacent lane. This way, you're far less likely to change lanes when it isn't safe.

When you're **reversing** out of tight parking spaces, our Cross Traffic Alert function watches out for vehicles you can't see.

467 Magic Blue metallic

DRIVE-E

Enjoying more. Using less.

Drive-E isn't just about our new generation of efficient powertrains, it's about our all-embracing approach to efficient driving. And while we're committed to creating smarter, more innovative technologies to reduce our cars' impact on the environment, we'll never lose sight of the pleasure to be had in driving. In short, we believe you don't need to sacrifice power and superb driveability for efficiency and low CO₂ emissions.

Our Drive-E powertrain range consists of highly efficient, four cylinder petrol and diesel engines, up to 2.0-litre. We've mated these turbocharged, low-friction, light-weight powertrains with our all-new eight-speed automatic gearbox, which ensures you get optimum performance at any engine speed.

Your Volvo also has an ECO+ function which can reduce fuel consumption by up to five per cent, depending on driving style. ECO+ not only optimises shift points, engine control and throttle response. It also includes an ECO coast function. This disengages the clutch when you release the accelerator at speeds above 40 mph: instead of the engine braking the car and using up fuel in the process, your Volvo will coast along using its kinetic energy. And further reducing your CO₂ emissions in the city, our Start/Stop technology helps eliminate idling at standstill.

Our Drive-E diesel powertrains have additional technologies designed to reduce fuel consumption and emissions. Twin turbochargers and the revolutionary i-ART ensure that these intelligent engines provide responsive, clean and efficient performance – each cylinder has its own microchip and pressure sensor for perfect metering of fuel. Better still, these advanced engines remain in precise tune even after years of use.

"With our new generation 2.0-litre, four-cylinder Drive-E powertrains you don't need to sacrifice power and superb driveability for efficiency and low CO₂ emissions."

SMART POWER FOR CLEVER PEOPLE.

With advanced powertrain technologies, such as electrification, we aim to provide you with an unrivalled driving experience. In fact, we've focused on electrification and plug-in hybrid technology for more than 40 years. This experience together with advanced research put Volvo Cars in the forefront of technology.

Our D6 Twin Engine AWD with plug-in hybrid technology allows you to enjoy an involving drive as well as cutting CO₂ emissions. This powertrain does 0–62 mph in under seven seconds yet emits just 48 g/km of CO₂*. It's got three driving modes: Pure uses just its electric motor, emitting zero CO₂; Hybrid uses the diesel engine and electric motor and should give you fuel consumption of 155.2 mpg; Power gives you both diesel engine and electric motor at full capacity – giving you a very impressive power and torque as well as instant four-wheel-drive (the diesel engine drives the front wheels, while the electric motor drives the rear). And if you'd like to complement the performance of the V60 Twin Engine with an even sportier look, there's an R-Design version, too.

*NEDC Hybrid driving cycles.

D6 Twin Engine | R-Design Lux Nav
707 Crystal White Pearl | Ixion IV 8x19"
Matt Black/Diamond Cut alloy wheels

Connect the V60 Twin Engine to your home's electricity supply and depending on your power supply, you'll get a full charge in 3.5 to 7.5 hours. When driving, you can choose from three modes (PURE, HYBRID and POWER) to suit your location and your mood.

714 Osmium Grey metallic

IT'S NOT YOUR USUAL WAGON.

We've worked hard to combine the versatility and load-carrying capability of the V60 with natural driving dynamics so that – like its sister, the S60 saloon – it responds faithfully to your desires.

When you accelerate out of a tight corner, for example, your V60 will follow the path you choose with almost telepathic accuracy. Drivers will love Corner Traction Control, a torque vectoring system that helps you avoid understeer by applying just the right amount of power and brake force to the inner and the outer wheels as you accelerate out of a corner. You'll find this particularly handy when you're merging into fast moving traffic from a side road. A good chassis is the essential foundation for this, and you can choose from two types according to your preferred driving style: Dynamic and R-Design Sport chassis.

Meanwhile, at the heart of versatility is the intelligent seating. The backrest can be easily folded down in 40/20/40 segments to supplement the rear 305 litres of load space, while the front seat backrest can be folded down, too. And parents will love the two-stage integrated booster cushions for children: they fold out of the rear seats, ensuring that kids who've outgrown their child seats are at the correct height for their seatbelts to work effectively.

READ MORE AT VOLVOCARS.CO.UK

YOUR JOURNEY BEGINS HERE.

We created the V60 with one single purpose: to provide you with a car that perfectly fits you and your lifestyle. A car that meets your expectations of a dynamic drive with relaxed comfort and elegant design – built with care for people and the world we share. A car that's intuitive to use and makes life less complicated, and is a pleasure to live with every day.

At the heart of your V60 is a dynamic, efficient powertrain. Which ever you choose, you will enjoy our latest Drive-E technology that gives you instant response and a smooth ride. Fuel consumption and CO₂ emissions are kept low, and our powertrains already comply with future exhaust emission legislation.

Our Drive-E powertrain range includes advanced diesel and petrol engines mated to our smooth eight- or six-speed Geartronic™ automatic gearbox or a distinct six-speed manual gearbox, available with responsive AWD all-wheel drive technology or front-wheel drive. And for the ultimate combination of performance and efficiency in your V60, there's the option of our D6 Twin Engine AWD or D5 Twin Engine AWD powertrain with plug-in hybrid technology.

Make your choice, and enjoy the journey wherever it takes you.

T4

With our 190hp/300Nm T4 petrol powertrain you can enjoy a smooth, responsive and highly efficient driving experience. Already from low revs, it delivers a steady flow of power for excellent driveability in all conditions. Available with a 6-speed manual gearbox or our 6-speed Geartronic™ automatic.

D5 Twin Engine AWD

D6 Twin Engine AWD

Combining an electric motor and a powerful turbodiesel, our D5 Twin Engine (163+68hp/420+200Nm) or D6 Twin Engine (220+68hp/440+200Nm) plug-in hybrid gives you the best of two worlds: a zero emission electric vehicle in the city and a high-performance car on the motorway – with all-wheel drive when needed.

D4 AWD

The refined five-cylinder 190hp/440Nm D4 AWD diesel powertrain gives you instant power across the rev range. Our responsive all-wheel drive and a 6-speed automatic put you in command of the drive.

D4

Our sophisticated 190hp/400Nm D4 diesel powertrain allows you to enjoy more while using less. Available with a distinct 6-speed manual gearbox or our smooth 8-speed automatic, the D4 will give you the most efficient and confident driving experience.

D3

We designed the 150hp/320Nm D3 diesel powertrain to give you the ultimate combination of fuel economy, performance and refinement. Available with a 6-speed manual gearbox or a 6-speed automatic, the D3 is a perfect partner for any journey.

D2

With our 120hp/280Nm D2 diesel powertrain you can enjoy superb efficiency without having to sacrifice the fun of driving. Mated to a 6-speed manual gearbox or our 6-speed automatic, this powertrain gives the ultimate combination of performance and fuel economy.

VOLVO V60

714 Osmium Grey metallic | Portia, 8x19"
Black Diamond Cut alloy wheels

Volvo V60 Business Edition

The high level of standard equipment meets your demands on style, comfort and safety.

Volvo V60 SE Nav

Heighten the premium look and ambience of your Volvo sportswagon.

Volvo V60 SE Lux Nav

The highly sophisticated expression of Swedish luxury.

Volvo V60 R-Design Nav

The thrill of a spirited drive, characterised by style, responsiveness and control.

Volvo V60 Polestar

Perfectly balanced performance for the optimal driving experience, born and raised on the racetrack.

Volvo V60 Cross Country

The elegant yet capable Cross Country sportswagon, built to enhance your every adventure.

CREATE THE VOLVO V60 OF YOUR CHOICE.

Our approach in everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that perfectly matches your style and personality.

To ensure you get your V60 exactly as you want it, we have created a wide range of options, trim levels and personal expressions. Even if your V60 is generously equipped already in the standard Business Edition trim level, you may want to enhance the experience even further with SE Nav trim level. Maybe you want to indulge your senses

in the finest Swedish luxury? Then you'll feel at home with SE Lux Nav. If you're in for a more sporty style inside and out, take a look at R-Design. Or for the ultimate performance car experience – opt for the V60 Polestar. And for true all-road capacity that takes you and your adventures further, there's the rugged yet elegant V60 Cross Country. Whatever you prefer, you can rest assured there's a Volvo V60 for you. Read on, and see what your V60 will look like.

THE RIGHT EQUIPMENT FOR YOUR DRIVE.

Choosing a Volvo V60 is easy. And now all you need to do is select the trim level that's right for you. The Business Edition equipment trim level will already provide you with a high level of technology that will meet high demands on style, comfort and safety. For example, our dual-zone climate system ensures you and your passengers can enjoy a comfortable cabin climate in all temperatures – the driver and front seat passenger can adjust the temperature to suit individual preferences. And of course: you get our world-leading IntelliSafe technologies including the award-winning City Safety collision avoidance technology and advanced Electronic Stability Control as standard.

To further enhance your Swedish luxury experience, there's the option of our SE Nav equipment trim level. Bright deco exterior design elements together with larger 17-inch wheels will add to the exclusiveness and road presence of your V60, while the sporty elegant leather upholstery and Milled aluminium decor inlays complement the interior ambience. And when driving in the dark, the Active Bending Lights with Dual Xenon illumination technology allow you to enjoy the benefit of boosted vision round bends at night. Adding our Active High Beam functionality, you can stay on high beam all the time without dazzling other road users.

V60 BUSINESS EDITION

Includes:

16" Hera Alloy wheels | Audio controls in steering wheel | Leather-clad gear knob | Leather-clad steering wheel | Textile floor mats | 3-point safety belts on all 5 seats with belt reminder | 40/20/40 split rear seat | Airbag, driver & passenger side | AUX input | Charcoal decor inlays | City Safety | Corner Traction Control (CTC) | Dual cup holders, front | Electronic Stability Control (ESC) | Electrically operated parking brake | Electronic Climate Control (ECC) with ventilation outlets in B-pillars | Front seat 12V outlet | Headlamp level adjuster | Illuminated

vanity mirror | Inflatable Curtains (IC) | ISOFIX, rear | LED DRL (Daytime Running Light) | Load cover | Mellbystrand textile upholstery | Outer temperature gauge | Remote control central locking | Sensus Connect with 7" colour screen in the centre stack and High Performance audio system with CD/DVD player | Bluetooth® | Side impact airbags integrated in the front seats | Trip computer | Tyre sealant kit | Tyre Pressure Monitoring System (TPMS) | WHIPS™ (whiplash protection integrated in the front seats) | Rain Sensor | Cruise control

A HIGHER GRADE OF LUXURY.

We created the V60 SE Lux Nav to meet your highest expectations on Swedish luxury. It's a personal expression that evokes a strong sense of elegant refinement. Each detail is there to give you and your passengers a sophisticated and invigorating experience. Distinguished exterior design cues enhance the luxurious look

and feel of the V60, while the meticulously crafted interior gives you ample room for a relaxed driving experience. The V60 SE Lux Nav epitomises our proud heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the V60 SE Lux Nav is in a class of its own – just like you.

SE LUX NAV

Includes SE Nav trim level plus the following:

Digital driver display | Power driver seat with memory function for seat and side mirrors | Rear armrest with cup holders and storage | Roof rails, bright | Chrome deco | Keyless drive and PCC | Active bending headlights

1

SE Lux Nav is Volvo V60 in its most luxurious guise. Well-judged exterior design cues such as front chrome inlays and bright roof rails combine with the stylish 17-inch alloy wheels to enhance the car's timeless Scandinavian design. The wheels also contribute to the car's confident stance.

Inside, the luxurious theme continues with authentic, finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. As a driver, you can lean back in a sculpted power-operated seat with smooth leather upholstery and enjoy the intuitive view of the digital driver display. Depending on your mode, this display gives you three graphic modes to choose from: the default mode Elegance with its stylish black colour theme, the green Eco mode and Performance mode in striking red. The memory function of the power seat allows you to store your settings both for the seat and

the door mirrors. Every time you use your remote control to unlock the car, the driver's seat and the door mirrors will automatically adjust to your last settings. And for your passengers in the leather rear seat, an armrest with cup holders and storage adds to relaxed comfort and convenience.

For an exceptional sound experience inside your V60 SE Lux Nav, you can add our powerful high-end audio system Premium Sound by Harman Kardon® with 12 hi-fi loudspeakers that provides a rich, clear and faithful sound wherever you're seated. This audio system also comprises Sensus Connect with the larger 7-inch centre display that gives you full access to a wide range of online services and apps. Add our advanced Sensus Navigation system, and you'll enjoy integrated, intuitive guidance all the way.

2

3

4

5

The V60 SE Lux Nav exterior with its subtle design touches is a timeless expression of classical Scandinavian design. The exterior colour palette allows you to create the V60 SE Lux Nav that best reflects

your style and preferences. Available in a wide range of design expressions, the alloy wheels connect visually with the exterior design cues to create a harmonic impression of contemporary elegance.

RDESIGN

INSPIRED BY THE ART OF DRIVING.

If you love to drive, the V60 R-Design is for you. With a unique personality, R-Design captures the thrill of a spirited driving experience characterised by style, response and control. A wealth of distinguished design details raise the dynamic soul of your Volvo sportswagon and give it a more sporty, distinct road presence. It's an expression that catches the eye from every angle and hints the promise of an amazing drive, every time. And you can rest assured

the V60 R-Design will deliver. Surrounded by meticulously crafted and expressive interior design details, you can feel it already the moment you take your position in the sculpted R-Design sport seat. Everything – from the R-Design steering wheel and digital driver display, to the Charcoal headliner – is there to inspire and support your drive. And for even better cornering, the V60 R-Design benefits from a fine-tuned sport chassis.

R-DESIGN NAV

1

R-Design is Volvo in smart designer sports gear – it's all about a performance-inspired look and feel, both inside and out. It's a truly eye-catching expression with sporty exterior design cues, such as its own distinctive grille in Matt Tech Black with high-gloss stripes, front spoiler, Bright Silver matt finish door mirror caps and striking 18-inch alloy wheels. At the back, prominent chrome dual tailpipes and a motorsport style rear diffuser with aero fins add the perfect finishing touch.

On the inside, the sporty theme continues with unique R-Design decor inlays, Charcoal headlining and R-Design sport seats in Nubuck Textile leather or leather. Together, these features give the cabin a technical, cockpit-like feel. Contrasting stitching in the seats, the gear shifter gaiter and the steering wheel in perforated leather all reinforce the sporty yet elegant ambience. The deeply sculpted R-Design sport seats will embrace you from the thighs to

the shoulders for the comfortable support and in-command feel you expect of a true driver's car. Further adding to your sense of being in control, the R-Design also provides you with a digital driver display with a unique R-Design display mode.

Behind the wheel, you can enjoy the sharp response and feedback from quicker steering and a finely tuned R-Design sport chassis. Lower and firmer, this chassis features adjusted anti-roll bars and stiffer springs. The unique rear monotube dampers are designed to respond more quickly for improved body control in all conditions. Stiffer bushings together with a front strut brace that stiffen up the body structure give more controlled roll and body movements, resulting in a sporty road-hugging drive with out you having to compromise ride comfort.

The V60 R-Design is available with all powertrains including our plug-in hybrid D6 Twin Engine.

(Standard)

The exterior leaves no doubt about the intention of your V60 R-Design. The exterior colours are carefully selected to match the car's dynamic character – each with its unique expression. For example, the R-Design exclusive Bursting Blue metallic adds a techy, sporty look

that perfectly highlights the body inserts in high-gloss black and silk metal finish. The stylish Ixion five-spoke R-Design 18-inch or 19-inch wheels give your V60 R-Design a dynamic road presence that puts your sportswagon in a class of its own.

polestar

POLESTAR ENGINEERED.

Imagine a finely tuned instrument, engineered to fulfil your desire of an uncompromised performance car for real life. A car where the engine, aerodynamics, brakes, transmission, tyres and suspension work together to maximise your driving experience and give you total control. Still, a car that's relaxing to drive and meets the demands of your everyday course.

This is the Volvo V60 Polestar. The result of continuous development and testing, engineered to give you a completely balanced performance package. It's a car that performs on all roads, in all conditions, all year round. In our minds, the V60 Polestar is the perfect performance car.

POLESTAR

Specification highlights:

20" Polestar bespoke rims | Polestar front air splitter and side skirts in carbon fibre | Polestar rear diffuser | Polestar rear spoiler | Polestar steering wheel in Perforated Leather/Nubuck Textile | Polestar Nubuck Textile/Leather Sport seats with Bursting Blue contrast stitching | Polestar pedals and foot rest | Polestar tread plate and gear knob | Polestar chassis with

Öhlins Dual Flow Valve shock absorbers, stiffer coil springs and front strut brace | T6 AWD Polestar 367hp engine | 8-speed automatic gearbox | Gear shift paddles | Polestar tuned AWD all-wheel drive | Six-piston Brembo® front callipers and 371 mm ventilated front brake discs | 2.5" stainless steel free-flow exhaust system

YOUR PERFECTLY BALANCED PERFORMANCE PACKAGE.

We created the Volvo V60 Polestar to give you an optimally precise, predictable and consistent driving experience. To make you as a driver feel confident in any situation, all components work as one in order to deliver optimal performance and balanced driving characteristics.

The high-performance 2.0-litre turbo-/supercharged 367hp/470Nm Polestar T6 AWD powertrain is tuned by Polestar's engineers to produce more power and a broader torque-band. With an impressive output of 184hp per litre, this engine propels the V60 Polestar from 0–100 km/h in 4.8 seconds and responds instantly to optimise driveability, performance and efficiency. We also calibrated the 8-speed automatic gearbox and added gearshift paddles to give you more control and faster gearshifts. The all-wheel drive system has been tuned to provide increased driving dynamics with more power to the rear wheels at take-off and sharp cornering. Braking performance is optimised through specially-designed 6-piston Brembo® brake callipers and 371 mm ventilated and slotted front brake discs and matching ventilated rear disc brakes. The powerful Polestar 20-inch alloy wheels in expressive Glossy Black Diamond

Cut design with selected noise-reducing tyres enhance steering precision and optimise airflow around the brakes for the best possible braking performance.

Polestar's engineering team tuned the chassis for optimal body control and road feedback. Bespoke Öhlins® racing shock absorbers, upgraded anti-roll bars and 80% stiffer Polestar springs stiffen the chassis to strike the perfect balance between performance and comfort. A Polestar developed front strut bar with carbon fibre enforcement further improves handling and steering precision.

All exterior details are wind tunnel tested to optimise the car's aerodynamic performance. Polestar Engineered carbon fibre components such as a front air splitter and side skirts combine to improve driving dynamics while enhancing the car's sporty, high-tech look.

On the inside, the sculpted Polestar seats in Nubuck Textile/Leather keep you steadily in place. Contrasting Bursting Blue stitching, Charcoal headlining and decor inlays in genuine carbon fibre enhance the exclusive Polestar driving experience.

1. The Polestar sport pedals in aluminium with rubber inserts for intuitive control. **2.** The Polestar steering wheel in Perforated Leather/Nubuck Textile gives maximum grip for a great, active driving experience while the steering wheel gearshift paddles put you in total command of your driving. **3.** The Polestar chassis features Polestar suspension, a Polestar carbon fibre front strut bar, Öhlins' patented Dual Flow Valve shock absorber technology and 20-inch Polestar alloy wheels for the perfect balance between body control and comfort. The front air splitter, the side skirts, the rear spoiler and rear diffuser increase downforce to optimise tyre grip and control. **4.** A high-capacity Brembo® braking system, paired with Polestar Engineered alloy wheels and selected tyres, creates superior, balanced braking performance. **5.** The 8-speed Geartronic™ automatic gearbox is calibrated to respond instantly to your driving intentions. **6.** The carbon fibre front splitters reduce the amount of airflow underneath the car and add a distinctive yet subtle performance look to the overall design. **7.** Further adding to performance, a Polestar free-flow active stainless steel exhaust system makes the engine breathe more freely.

Every component on a performance car needs to work together as one in order to create optimal driveability. The exterior of the car is no exception. Polestar Engineered carbon fibre components such as a front air splitter and side skirts enhance downforce, high-speed

stability and steering precision. The carbon fibre also connects visually with other Polestar design elements, such as the door mirror covers in carbon fibre and – not least – the Polestar 20-inch alloy wheels in Glossy Black Diamond Cut.

ADVENTURE THAT LIVES UP TO ITS PROMISE.

The Volvo V60 Cross Country is the modern Swedish sportswagon cross-over. With a rugged yet refined design, it gives you both an engaging driving experience and the capacity to fulfil your outdoor adventures. Thanks to its raised ground clearance and capable chassis, the V60 Cross Country delivers what its appearance promises: it has real all-road, all-weather capability that can be further enhanced with all-wheel drive.

Equally at home on all roads – from rough gravel roads to highways – the V60 Cross Country is a car that lets you live the adventure.

All-weather capability and the ability to occasionally leave smooth, well-travelled roads behind are essential. For that, you need a tough, durable yet stylish partner that doesn't compromise on capability and versatility. And that's really what the V60 Cross Country is all about.

Available in three different equipment levels, you easily create your very own V60 Cross Country. Make your choice, and soon you'll enjoy the adventures that lie ahead.

V60 CROSS COUNTRY SE NAV

Includes:

17" Valder alloy wheels | Automatically dimmed frameless inner mirror | Bluetooth® | Sensus Connect with 7" colour screen in centre stack and High Performance audio with CD/DVD player | Gloss black work around side windows | Leather upholstery | High Performance audio system | Leather-clad steering wheel with silk metal inlay | Metal luggage threshold | Park assist rear | Rain sensor | Retractable rear-view mirrors with ground lights | Uni décor climate control "manikin" | 3-point safety belts on all 5 seats with belt reminder | 40/20/40 split rear seat | Airbag, driver & passenger side | Audio controls in steering wheel | AUX input | City Safety | Corner Traction Control (CTC) | Cruise control | Dual cup holders, front |

Electronic Stability Control (ESC) | Electrically operated parking brake | Electronic Climate Control (ECC) with ventilation outlets in B-pillars | Front seat 12 V outlet | Headlamp level adjuster | Illuminated vanity mirror, driver side | Illuminated vanity mirror, passenger side | Inflatable Curtains (IC) | ISOFIX, rear | Leather-clad gear knob | Leather-clad steering wheel | LED DRL (Day Running Light) | Load cover | Lock door switch passenger side | Outer temperature gauge | Remote control central locking | Side impact airbags integrated in the front seats | Textile floor mats | Trip computer | Tyre Pressure Monitoring System (TPMS) | Tyre sealant kit | WHIPS™ | Milled aluminium inlays

V60 CROSS COUNTRY LUX NAV

Includes Cross Country SE Nav equipment level plus the following:

18" Neso alloy wheels | Leather upholstery | Digital driver display | Power driver seat with memory function for seat and side mirrors | Rear armrest with cup holders and storage | Active Bending Xenon Headlights | Keyless Drive (with PCC)

Ready for action. This Volvo is for you who live life as a genuine adventure. And the V60 Cross Country doesn't just look the part, it has got the capability to back up that seriously rugged profile. For example, the Cross Country features 201mm of ground clearance that enhances your ability to take on rough terrain or deep snow and mud.

VOLVO V60

700 Twilight Bronze metallic | Neso 7.5×18"
Matt Tech Black Diamond Cut alloy wheels

WHEN ADVENTURE TAKES YOU TO UNEXPLORED ROADS.

The high ground clearance of the V60 Cross Country helps you being in control in town, as well as the ability to take on rougher roads. If you choose an all-wheel drive powertrain, you'll have even more capability to carry on when conditions turn difficult. And when you find yourself facing a particularly challenging descent, the Hill Descent Control helps ensure a safe, smooth and "in-control" ride down – all you need to do is steer.

But this is still a true Volvo, with as much ability on all kind of roads with a suspension that delivers an excellent combination of ride comfort and handling. Enthusiastic drivers will also appreciate the Corner Traction Control with Torque Vectoring – your V60 Cross Country turns into corners with real sporting precision.

With rugged design elements all around, this car challenges you to take it on an adventure, braving the elements and exploring new terrain. In the front, a black honeycomb grille and lower grille decor elements in black give it our unique Cross Country "face", which is further enhanced by a front skid plate.

The V60 Cross Country is available with three highly efficient powertrains: D4 AWD, D4 and D3.

Your perfect companion. The minute you set eyes on the Volvo V60 Cross Country, you know it means business. At the same time, rugged design cues add to the car's muscular stance and leave you in no doubt that this car is ready for any adventure.

This Cross Country sportswagon is a dynamic driver's car, but it also allows you to take everything you need on your weekend away,

no matter how remote your destination is. You and your passengers travel first class in ergonomic seats in a well-appointed cabin, while a versatile load compartment makes room for your gear.

So if you're looking for a car that not only stands out of the crowd, but is also a perfect companion for you and your family on all roads, the Volvo V60 Cross Country is for you.

707 Crystal White pearl | Bor 8x19"
Matt Tech Black Diamond Cut alloy wheels

Looks with a purpose. The V60 Cross Country is a car you spot from a distance. It communicates pride and confidence – and the car's silver roof rails accentuate this stature even further. Take a closer look and you'll find that glossy black detailing on the mirrors and window frames adds another touch of exclusivity.

But the Volvo V60 Cross Country is, above all, a capable, athletic car. The unique 18-inch Neso alloy wheels in diamond-cut design with Matt Tech Black inserts harmonise perfectly with dark exterior design details and add to the purposeful, rugged looks. Black wheel-arch extensions make for a wide, muscular stance and continue seamlessly into the distinctive side scuff plates. A rear skid plate together with integrated chrome tailpipes adds to the powerful impression. And above all: these rugged design elements not only look good, they also protect the body when you are driving in tough conditions beyond the tarmac.

Your Volvo V60 Cross Country is as personal as the adventures you're going to enjoy in it. Available in two different equipment levels, you'll easily find the V60 Cross Country that's really you.

Generously equipped as standard, the V60 Cross Country provides you with a high level of comfort, safety and performance features. Unique design elements add to the unique Cross Country character: the black grille with a distinctive honeycomb insert, the lower front grille, the front and rear skid plates, the glossy black side window trim and door mirrors, the black wheel arch extensions and matt silver side scuff plates all combine to make a strong statement about style and capacity. The design of the wheels allows for tyre profiles that ensure maximum comfort and handling characteristics.

You'll also get 17-inch wheels and exterior design details for a more luxurious touch and feel. Adding to the contemporary ambience inside the car, the sculpted seats feature our modern leather upholstery. Everybody will enjoy the enhanced sound by our High Performance audio system with 8 loudspeakers and USB/AUX connectivity. Bluetooth® streaming allows you to connect your smartphone to your Volvo – so you can enjoy the benefits of music streaming and integrated handsfree phone functionality. And with the larger 7-inch centre display, you'll have full access to Sensus Connect with its wide range of online services and apps. A rain sensor and rear park assist sensors also contribute to a relaxed

drive. For an even more luxurious touch, there's the V60 Cross Country Lux Nav. The 18-inch wheels give a powerful yet elegant road presence that emphasizes the get-there ability of your V60 Cross Country. On the inside, you can enjoy the comfort of seats in smooth leather upholstery with unique colour-coordinated stitching. A power operated driver's seat and a digital driver display with three graphic display modes provide a comfortable driving experience where you are in control. And anyone who shares the ride in the rear seat will enjoy the convenience of a rear armrest with smart cup holders and storage.

Enhance the versatile character of your V60 with smart Volvo Cars accessories such as a protective steel grille and a load compartment divider.

DESIGNED FOR YOUR LIFE.

Create a V60 that's perfect for your life, with Volvo accessories that are designed around you and your car.

Our Rear Seat Entertainment system makes every long journey a fun-filled event by transforming the rear seat into an entertainment centre. The rear seat passengers can enjoy their favourite films or play games on integrated 8-inch touch-screens with dedicated DVD players. Wireless headphones and a remote control are included, too.

If you sometimes have to bring gear inside your V60, our range of load accessories can give you a helping hand. A steel grille provides a sturdy barrier between the load and passenger compartment. When you don't need it, it folds conveniently up against the roof. Our load compartment divider splits the load compartment into two sections – convenient if you want to carry your dog and luggage, or to separate grimy or fragile cargo from other cargo. Add a dog gate to create a secure compartment for your pet and a load liner to protect the load compartment floor. And helping you to maintain the attractive appearance of the load compartment even if you occasionally transport dirty cargo, we have created a range of versatile tailor-made load compartment mats.

Our Rear Seat Entertainment system with independently operated 8-inch touch screens and integrated DVD players makes journeys more fun.

The wheels are the jewels of your car. Our gorgeous 18" Modin wheels feature a Diamond Cut five double-spoke design. They, too, are available in Matt Silver or Matt Iron Stone.

MAKE THE V60 YOUR OWN.

To reinforce the dynamic stance of your V60, you can customise it with our Exterior Styling Accessories, which are available in Matt Silver or Matt Iron Stone.

Our eye-catching front skid plate gives your V60 an even more purposeful look, with a metallic colour that's beautifully accentuated as it catches the light. The side scuff plates emphasise the sleek, coupé-like lines, visually connecting it close to the road. The rear skid plate with beautifully sculpted double integrated tailpipes boldly underlines the sporty character.

GET MORE FROM LIFE.

To make driving more relaxed we have developed technology such as our park assist camera, front blind view. It allows you to see around corners with a 180° field of vision as you negotiate tight exits with restricted visibility. And facilitating reversing, our rear-view camera shows what's going on behind your car on the centre display. On-screen guiding lines provide extra assistance for smooth parking.

Our new child seats combine comfort with state of the art safety and are designed to fit perfectly into your Volvo. Made from Wool-textile cloth, which is 80% wool, they're durable and tough but also soft and breathable, so your children stay comfortable and safe. We apply the same stringent standards to our child seats as we do to building our cars, so you know your children are well protected.

Further enhancing the load capacity of your V60 when you need it, you can add our load carriers. Easy to fit onto the car's roof rails, they instantly allow you to fit our load carrier accessories, from the ski rack to the canoe and kayak holder. Our stylish, aerodynamically designed roof boxes fit straight onto the load carriers, adding extra carrying capacity. Our detachable tow bar gives you the ability to tow and is easy to remove when not in use.

Your Volvo Cars dealer can also offer a wide range of winter wheels for safe driving during the wet and cold season.

POLESTAR ENGINEERED PARTS.

It is our passion for driving that led us to design this range of Polestar Engineered Parts for your Volvo V60. Developed by the same team responsible for our motorsport success and our dynamic road cars Volvo S60 and V60 Polestar, the new Polestar Engineered Parts programme fulfils Polestar's engineering philosophy by delivering a balanced, energetic driving experience.

The Polestar Engineered Parts are designed for the most critical performance areas of your V60 and are available as a Complete Performance Package. This includes everything from improvements to the chassis, wheels and tyres, intake and exhaust as well as aerodynamics and interior details. Any of these components will create a more compelling drive, and are also available in separate packages. With the Chassis Package you'll get Polestar-developed shock

absorbers and coil springs, as well as a strut bar, for a more direct and responsive driving experience. The Wheel Package includes the lightweight 19-inch Polestar wheel and high-performance tyres for maximum grip. Then there's the Intake & Exhaust Package, designed for our Drive-E powertrains. It combines a sports air filter with a Polestar air box lid and a stainless steel exhaust system. This package will deliver the most dynamic engine characteristics when combined with Polestar Engineered Optimisation.

All Polestar Engineered Parts meet all Volvo safety requirements. They are developed and tested by Volvo Cars and Polestar, ensuring a perfect fit and finish, as well as impeccable road manners, and with no impact on the car's limited factory warranty.

2

3

4

6

5

1. The Complete Performance Package includes essential hardware to add performance while subtle exterior details – such as the black door mirror caps and black lower door decor stripes – underline the dynamic appearance of your V60. The Polestar tailgate spoiler will efficiently aid high-speed stability. 2. The lightweight Polestar 19-inch alloy wheels with high-performance tyres will help with added steering precision and road grip. 3. The black Polestar door mirror caps harmonise perfectly with the black lower door decor stripes. 4. Designed to reduce back-pressure, the stainless steel exhaust system with larger end pipes gives the engine note a harder edge while also allowing it to breathe more freely for improved performance. A rear diffuser enhances downforce to increase stability at high speeds. 5. Sport pedals in aluminium with rubber inserts. 6. The Polestar gear knob is available for both Geartronic™ transmissions.

SERVICE BY VOLVO. A SIMPLER WAY.

When you buy a Volvo, you buy the simplest way to have a car. No matter what your car may need, your authorised Volvo workshop will take care of it for you and make sure that your Volvo stays in tip-top shape.

We have our own approach to service that's personal, efficient, and which takes care of you as well as it takes care of your

car. We call it Service by Volvo and it will provide everything you need in the simplest way possible.

Your Volvo Cars dealer offers a whole range of simplifying services all designed around you, ensuring you a carefree ownership experience. Still, this is just the beginning. Soon, you will also get a Personal Service

Technician, your car will be ready within the hour and you can relax in our lounge instead of driving back and forth. It's because everything we do is about finding new ways to make life simpler for people, with our cars as well as our service.
