For more than 60 years, Volvo Cars has been driven by a vision to create estate cars that enrich people's lives. That exact same vision underpins the new V60. This is a car where modern Scandinavian design and a focus on innovation allow you to live the life you want. The V60 does more than simply fit into your active life. This is a car that will help make every moment count.

Elegant, sporty, spacious and versatile: welcome to the new generation of Volvo estate car. Welcome to the Volvo V60.

WHY WE INNOVATE

Because you have a wave to catch
And a mountain to climb
Because you promised the kids to go skiing tomorrow
Because you need a break
And sometimes a brake
Because elks don't read road signs
And neither do cows or kangaroos
Because parallel parking should be a cakewalk
Because you appreciate beauty and craftsmanship
Because you love the feel of hand-stitched nappa
Because you like your coffee hot and your water chilled
Because you have blind spots
Because it's been a long day
And you deserve a massage from your car seat
Because you don't have eyes in the back of your neck
Because you want to be in control
Because you expect to be entertained
And informed
And occasionally pampered
Because you forgot where you parked
Because you would rather share than own
Because there are road works today
Where there were none yesterday
Because we want to impress you
And that isn't easy
Because you care about the future
Because we live on a finite planet with finite resources
Because you're human
Because time is not money, but life

WHEN WE INNOVATE, THE CAR IS NOT TOP OF MIND.

We admit it. You fascinate us. We think and talk about you all day. Everything about your life – its ups and downs, joys and disappointments, needs, demands, frustrations and hopes – captivates us.

So when we innovate, every detail – from service design right down to the teeniest screw – has to justify itself to you. Does it add anything? Is it useful?

All this time spent thinking about your life has allowed good things to happen. Perhaps you didn't know, but we have a vision that by 2020 nobody dies or is seriously injured in a new Volvo. Nice-sounding words? Not at all, it's realistic and achievable.

We know you live a rich, fulfilling life in almost every way. We say almost, because there's one commodity you seem to be short of. Time. So by 2025, we aim to pack every new Volvo with enough smart solutions to free up a whole week of quality time per year. 168 hours to do with as you please.

We also know you care about the future of the planet. That's why our Drive-E technologies allow you to drive sustainably – without compromising on performance. We know you want to stay connected to the world around you. Our Sensus solutions ensure you are. We know you always want to feel in control. Our IntelliSafe technologies not only help to save lives, but also give you more enjoyment behind the wheel.

And we know you're interested in self-driving cars. Each day we take pioneering steps in our quest to deliver a safe and relaxing autonomous driving experience. The same goes for fully electrified powertrains. And even smarter services.

We happily walk the extra mile to give you what you want.

You are why we innovate.

MOMENTS MAKE MEMORIES.

Life is about the experience. Making the most of every moment. The moments of calm. The moments of freedom. The moments of confidence. Creating memories that will last forever.

With versatility, intuitive technology and engaged dynamics, the V60 is the car with which you will share life's little – and big – moments. A car that is the ultimate lifestyle enabler.

CONFIDENT SCANDINAVIAN DESIGN.

The purity of line and purpose that defines the Volvo V60 is classic Scandinavian design. Dynamic, elegant and considered, it is a car that projects confidence.

It's the little things that make the biggest differences. Our deeply sculptured sides emphasise the car's athletic character, while a roof

spoiler further helps convey the dynamic nature of the V60. Large side windows suggest a spacious interior and help communicate its practicality. Finely crafted details such as the proud front grille and LED lights – front and rear – help lend it a strong identity.

This is the bold new wave of Volvo Cars' design, personified.

Inscription

GET ACCUSTOMED TO LUXURY.

Inside the V60, you're in a place where Scandinavian design and Swedish craftsmanship meet. A place where all the occupants travel in comfort, thanks to superb seats and individually adjustable climate control. Clean, uncluttered design combines form and function. Authentic materials and refined details, such as the diamond pattern on the control knobs create a sense of contemporary luxury.

The front seats are shaped to complement the human form, so they're exceptionally supportive and have a wide range of adjustment. In the rear, generous legroom and the supportive seats mean everyone will be comfortable.

The optional panoramic glass roof floods the cabin with light. It's tinted to reduce glare and has a powered sunshade. With four-zone climate control, both front seat occupants and the outer rear passengers can select their ideal temperature, while our CleanZone technology filters incoming air to help remove dust, pollen, particulates and odours.

Bowers & Wilkins audio system

VOLVO V60

The distinctive air vents have controls with a metal finish and a diamond-pattern on the knob. Driftwood trim is a unique wood treatment, influenced by Volvo Cars' Swedish heritage. It is satisfying to look at and touch.

Swedish craftsmanship and fine materials in the V60 are an important part of your experience. The elegant handcrafted Swedish Orrefors® crystal gear selector in the T8 and T6 Twin Engines* blends traditional techniques with advanced design and technology.

* Available later in 2018. TBC

Spacious, filled with light and beautifully made, the interior of the V60 is a place where you'll delight in the details.

THE LUXURY OF VERSATILITY.

The thoughtfully designed interior of the V60 helps you do what you want to do, combining smart versatility with dynamic elegance.

The load compartment is nearly square, without any intrusion from the rear suspension, resulting in a space that easily accommodates bulky and awkwardly-shaped objects so you can make the most of the class-leading luggage capacity. The powered tailgate allows you to open or close it using a button on the car's remote, dashboard or the tailgate itself. And it's available with a hands-free function that allows you to open and close it simply by moving your foot under the rear bumper.

Clever details make every day easier. A bag holder that flips up out of the floor of the load compartment stops shopping bags from sliding around, while a hidden storage compartment allows you to keep valuables out of sight.

And rear backrests that fold at the touch of a button mean you can fold them from the load compartment without having to open the rear doors.

Momentum
726 Birch Light metallic

CAPTURE THE FEELING.

From the moment you settle into your seat and close the door behind you, the V60 is a car set up to inspire driving pleasure. Standard Comfort seats have extensive adjustment so it's easy to get comfortable – and to stay comfortable, even on long journeys.

On the road, the chassis and suspension provide exceptional control, creating a truly dynamic driving character. At the front of the car, a sporty double wishbone, transverse link suspension provides the best possible contact between tyre and road surface. At the rear, an integral link design features a sophisticated transverse leaf spring made from lightweight composite and tuned to provide sporty, dynamic roadholding without compromising refinement and ride comfort. Advanced, lightweight materials reduce overall weight and ensure sharp responses.

As well as providing a confidence-inspiring drive, the V60 delivers the breadth of ability that you expect from a Volvo, with a ride that provides excellent comfort over any road.

The optional active chassis allows you to customise the way the V60 rides and handles, and four Adaptive Drive Modes mean you can choose your preferred configuration for engine, gearbox, accelerator and steering. Or you can even create your own bespoke set-up with Individual mode.

However you configure it, the V60 is as comfortable on the highway as it is capable on your favourite roads.

The advanced engineering in the V60 delivers pure, dynamic driving pleasure. With double-wishbone front suspension similar to that found in sports cars, the V60 provides you with more precision and control more of the time.

POWER TWINNED WITH EFFICIENCY.

Our range-topping plug-in hybrid, the T8 and T6 Twin Engine*, has power and finesse, with the ability to adapt to every moment. Driving the front wheels is a powerful turbocharged and supercharged petrol engine. Power to the rear wheels comes from a responsive electric motor. This set-up really does offer the best of everything – all the benefits of electrification, yet without compromising on power and range.

Because it was designed to use a hybrid powertrain, the T8 and T6 Twin Engine has the same space and capacity as other V60 models, so it's just as practical. Charging is quick and easy. Just plug it in to the mains supply.

Five drive modes allow you to change the car's character to suit the road ahead and even your mood. Pure provides electric-only power enough for the average daily commute of many people. Switch to Power mode and the turbocharged, supercharged petrol engine and powerful electric motor work together to give you an instant response and all-wheel drive traction when you accelerate. In default Hybrid mode, the T8 and T6 Twin Engine chooses between the petrol engine, electric motor or a combination of the two, to keep you moving as smoothly and efficiently as possible. A customisable Individual mode allows you to tailor your car's behaviour to suit your specific needs.

* Available later in 2018. TBC

Plug your T8 or T6 Twin Engine into our specially-designed wall box at home and charge it conveniently and safely. Fully charged, the battery will provide enough electric-only power to cover the average daily commute of many people.

**POWERFUL.
EFFICIENT.
REFINED.**

Wherever you're headed, our powerful and refined petrol and diesel powertrains make the driving experience a real pleasure. Choose from the efficient D3 or D4 turbodiesels. Compact and light, these four-cylinder powertrains reduce weight over the front wheels, helping to improve agility and the way the car responds to your driving inputs. And because smaller engines lose less energy through friction, you'll find them more efficient – every drop of fuel works harder and helps minimise emissions.

And through our innovative i-ART direct fuel injection system we are able to precisely monitor each of the four cylinders in our D3 and D4 diesel engines, so the control system can calculate the exact amount of fuel needed. It makes your engine perform better and more efficiently for the lifespan of the car, as well as reducing engine noise for a more refined experience.

All of our powertrains can be complemented by adaptive drive modes, allowing you to alter the way the V60 drives to suit the road ahead. Eco mode, for example, recalibrates the powertrain for the lowest possible fuel consumption, while Dynamic sharpens response times to make the V60 react faster to your commands.

PILOT ASSIST. YOUR JOURNEY MADE EASIER.

Our semi-autonomous technology helps make your life easier, allowing you to relax and enjoy the drive while still being in control. Pilot Assist helps to reduce some of the effort required at higher speeds (up to 80mph) or in stop-start traffic, so journeys are more enjoyable. It keeps the V60 at a set speed and distance from the vehicle in front, and uses steering inputs to keep you in the centre of your lane. This means that even in the most monotonous driving situations, such as on long highway journeys, your car helps take some of the strain and keeps you focused on the drive.

It does this using a combination of information from both a camera and a radar integrated into the V60's windscreen, which the car uses to monitor its position relative to visible lane markings and the vehicle in front of you (if there is one).

Pilot Assist is also connected to the navigation system to help improve the accuracy of your line when driving around curves. Adaptive Cruise Control improves efficiency, too, helping to make the car respond faster to your commands.

This is our approach to technology – designed to make every journey you take safer and more relaxing.

Black Diamond Cut alloy wheels

CITY SAFETY TECHNOLOGY. YOUR PRO-ACTIVE PARTNER ON THE ROAD.

Oncoming Mitigation by Braking
A Volvo Cars safety world first, this innovation can detect vehicles heading towards you on the wrong side of the road. If a collision can't be avoided, it will brake your car automatically in order to help reduce the effect of a collision.

Oncoming Lane Mitigation
If you drift across the lane markings and into the path of an oncoming vehicle, your car warns you and gently steers you back onto the correct path. This system does this using automatic steering assistance, helping you to avoid collisions with oncoming vehicles.

Lane Keeping Aid
The Lane Keeping Aid will gently steer your car back into its lane if it senses you are about to inadvertently cross into a different lane. If this is not enough or if you keep steering across the lane markings, you'll be alerted with vibrations in the steering wheel.

Our advanced pro-active safety technology helps you feel confident and in control. At the heart of this technology is City Safety. By helping you to keep a lookout and brake or steer away for you if necessary, it makes driving more enjoyable while helping to prevent accidents.

City Safety can identify other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you if needed and can brake automatically to help avoid a collision or reduce impact. Our advanced Oncoming Mitigation by Braking technology – a Volvo

Cars safety world first – can detect if there's another vehicle driving towards you and brakes automatically to mitigate the impact.

Your Volvo can also support if you're forced into a rapid evasive action at speeds between 31 and 62mph. As you begin to steer away, City Safety can help you do it as effectively and safely as possible by braking the inner wheels individually and reinforcing your steering input.

City Safety is simply your perfect co-pilot: pro-active when it's needed, and staying discreet in the background the rest of the time.

Run-off road Mitigation

Stay safely on the road with this Volvo Cars safety innovation. If Run-off road Mitigation detects you're about to leave the road unintentionally, it uses steering input and, if necessary, brake support to guide you back on track.

BLIS™

BLIS™ uses radar sensors at the rear of the car to monitor your surroundings, and detect if vehicles have entered your blind spot or are approaching fast from behind. If you pull out into the path of an approaching vehicle it will also alert you.

Driver Alert Control

If you are getting drowsy or inattentive at the wheel, Driver Alert Control will alert you and suggest a break. With Sensus Navigation, it can even guide you to the nearest safe and convenient location for a rest-stop.

PROTECTING WHAT'S MOST IMPORTANT.

Protecting you and your passengers has always been at the heart of every car we make, and the advanced safety features in your Volvo are the result of decades of passionate innovation.

In a Volvo, it's the interaction between all the safety features that determines how efficiently the car will protect you in a collision. Everything, from the design of the seats to the surrounding safety cage and the safety belts and airbags, works together to help minimise the strain on all occupants and maximise protection.

The front seats not only provide world-class comfort, they are also designed to protect you in the event of an impact. Our unique

whiplash injury protection helps protect your back and neck if your car is hit from behind. And in a Run-off road scenario, the energy-absorbing front seat structure will help protect your spine in a hard landing, should the car become airborne.

Your Volvo can even sense and prepare for impact. The optional prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

Crash-absorbing front seats

The sculpted front seats in your Volvo are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

Volvo safety cage

The passenger compartment uses a high percentage of ultra high-strength boron steel to create a protective cage around everyone inside the car, while front and rear deformation zones help dissipate the crash energy. The safety belts and airbags work together to cushion you and your passengers in a controlled fashion.

Child safety

At Volvo Cars we've spent decades continually researching and improving child safety. Our unique approach includes creating and carrying out tests based on real-life traffic situations, as well as testing our child seats alongside our cars. With our latest range of child seats, we offer unparalleled protection.

PARKING PEACE OF MIND.

Every journey you will ever make begins and ends with the parking experience, which is why Volvo Cars has invested a lot of thought into developing solutions that make parking easier and help save you time. Your V60 can help find you a parking space and park itself.

If you want to take control of parking yourself, then the 360° camera and Park Assist sensors help you to park safely and easily. The 360° camera is there to help you with its bird's-eye view of your surroundings, shown on the centre display.

And for even simpler, safer parking, Park Assist Pilot is like having someone park your car for you. It will tell you if a space is big enough and then takes over the steering for the parking manoeuvre. It can park in a space just 1.2 times the length of your Volvo – all you need to do is accelerate and brake according to the prompts on the driver display.

Then, when you leave a parking space, Cross Traffic Alert helps you to avoid a collision when you reverse out. It warns you of vehicles, pedestrians and cyclists approaching from either side and will even brake for you if it detects an imminent collision.

360° camera

Our 360° camera provides you with a helpful bird's-eye view of your car and its surroundings on the 9-inch centre screen display in the cabin, so you'll be able to park simply and safely, with 100 per cent visibility of what's around you.

THE HUMAN TOUCH.

We set out to make living with your Volvo easier and more enjoyable. To do that, we understood that Sensus – Volvo Cars' name for the advanced technology that connects you to your car and the world around you – should have a natural, human feel.

Our 9-inch centre display with touch screen allows you to intuitively control the functions of your Volvo and stay connected. The touch screen surface is so responsive that you can operate it wearing gloves. It also has an anti-reflective coating to help reduce glare, so it's always easy to see what's on the screen.

One of Volvo Cars' guiding principles is to make it easy for you to interact with your Volvo without being distracted. As a result, we put essential information right in front of the driver by using a digital driver display in the instrument panel. This high-resolution screen showcases key information for the driver and can vary the size and shape of the readouts it shows, depending on how you are using your car. For example, if you are using the navigation system, the display for that becomes enlarged, so you can focus on your directions more easily. The driver display also adapts its brightness according to exterior light sources such as bright sunshine or the lower light conditions of tunnels.

An optional head-up display also projects information onto the windscreen so it's closer to your eyeline – another way of reducing any potential for distraction.

And with Voice Control, you can access many functions of the V60, while keeping your hands on the steering wheel and your eyes on the road at all times. As it uses natural speech patterns, you don't need to learn specific commands – you can just talk to your Volvo as if you were talking to another person.

The 9-inch centre display with touch screen is the control centre for Sensus. You can use it to operate the navigation, entertainment, climate control and your smartphone. Sleek and responsive, it looks beautiful and works beautifully – just how all technology should be.

YOUR WELL-CONNECTED GUIDE.

Intuitive technology in the V60 helps get you where you need to go quickly and easily. The clear graphics of Sensus Navigation are easy to read, while the portrait format of the centre display means maps scroll less and are able to show more of the road that you are travelling on.

Our innovations also save you time by helping you to find what you're looking for, with built-in apps such as Google Search and

Yelp. Find a petrol station, a restaurant or a hotel and then use Sensus Navigation to take you there.

The V60 keeps you connected with your digital world with an onboard wifi hotspot and 4G connectivity. And connecting your phone to the car is as easy as plugging it in – Apple CarPlay™ or Android Auto™ will do the rest, turning the centre display into an extension of your phone's screen.

Voice control

Volvo Cars' latest voice recognition technology understands natural speech, so you can simply talk naturally to your car – there's no need to memorise specific phrases to operate climate control, navigation, media or telephone features.

Sensus Navigation

With its clear mapping, seamless connectivity and ease of use, Sensus Navigation is your companion on every drive, taking care of the journey and leaving you to enjoy every moment.

Smartphone integration

Apple CarPlay™ or Android Auto™ allows you to simply and easily connect your smartphone to your car. All you need to do is plug it in and the centre display will show you the same type of interface that you'll recognise from your phone's home screen.

HEAR THE DIFFERENCE.

Immerse yourself in the clarity and detail of your favourite music in the V60. By working with some of the world's finest audio makers, we've created an in-car experience that takes you closer to the music you love.

The V60 was designed with exceptional audio performance in mind. Audio systems from Bowers & Wilkins and Harman Kardon® ensure superb reproduction, every time. The advanced technology of the range-topping Bowers & Wilkins package uses 15 speakers to deliver peerless 1100-watt performance, highlighted by the unique 'open air' subwoofer, with its rich, resonant bass notes. This system also uses unique technology developed together with the Swedish audio software specialists Dirac Research that can change the

in-car acoustics to resemble a performance space – one of which is the Gothenburg concert hall – for a more lifelike sound.

Harman Kardon® Premium Sound is our other high-level sound experience. It uses 14 speakers to surround you with music and delivers 600 watts of sound via a 12-channel amplifier. The Dirac Unison tuning software also automatically adjusts the intensity of the sound so that when you are listening to different recordings or sources, you don't have to turn up the volume yourself.

And with seamless smartphone integration, enjoying music on your device is as easy as making a call, thanks to Apple CarPlay™ and Android Auto™. Spotify comes as standard with Sensus, giving you access to all the music you'll ever want.

We developed Harman Kardon® Premium Sound together with the hi-fi specialists at Harman Kardon®. Powered by a 600W digital amplifier, the 14 speakers are tailored to the acoustics inside your Volvo and deliver a powerful, high fidelity surround sound. A unique sound processing software by audio specialists Dirac Research optimises the response of each individual speaker as well as the speakers all together to ensure they perform in perfect harmony. So wherever you're seated in the front or rear seats, you can enjoy a seamless first-class listening experience in all conditions and – not least – an extremely unified and tight bass sound.

Apple CarPlay™ is a trademark of Apple Inc.
 Android is a trademark of Google Inc.
 Bowers & Wilkins is a trademark of B&W Group, Ltd.

VOLVO ON CALL. YOUR PERSONAL ASSISTANT.

The **Volvo On Call app** connects your car with the rest of your world, helping make life less complicated. It's there when you need it, so your car becomes more than just a means of travel – it's your personal assistant.

You can use it to make your car ready for the drive to the office, or the drive home, by remotely cooling or heating the cabin. It can help you find a parking space, then take you straight to it. You can sync your Volvo On Call app with your calendar, so if you've got appointments it will tell your car where they are and how to get there. And it keeps you safe, automatically contacting emergency services if you're involved in an accident and telling them where you are.

YOUR DAY MADE EASIER WITH VOLVO ON CALL

From saving you time in the morning to helping you relax on the way home, Volvo On Call can be an indispensable part of your daily routine.

THE PERFECT START

When you get into the car in the morning it's warm and defrosted, thanks to the Volvo On Call app's ability to run the heater (automatic only). En route, you press the On Call button in the car and ask the operator to send your destination to the car's navigation system, so you don't have to manually enter it.

07.30

WHERE NEXT?

A calendar card shows your next meeting. You push a button in the app, sending the address to the car's navigation system.

11.00

FIND YOUR CAR

You've forgotten where you parked, so you use the car locator map to find the street and then use the flash lights function to pinpoint the car.

12.00

13.00

DELIVERIES TO YOUR CAR

The shoes you ordered yesterday using In-car Delivery are delivered to the boot of your Volvo (expected late 2018).*

14.45

You get a notification that your order has been delivered to the boot of your car.

REMOTE CONTROL COMFORT

You set the parking heater (if fitted) to warm the car interior so it's ready for when you leave the office (automatic only).

17.15

17.45

WIFI ON THE GO

You head for home. Using the wifi hotspot you can stream music via your phone to the car's audio system.

READY FOR A NEW DAY

A notification reminds you that you've got a meeting in the morning. You send the location to the Sensus Navigation system and set the parking heater timer to come on before you leave.

22.20

*Expected late 2018

SIGN UP TO THE FUTURE.

Welcome to the future. Where a simple, convenient subscription will revolutionise your car experience. We call it Care By Volvo, a new way to experience Volvo cars, and part of our vision to give you back more time to do the things you love.

For one fixed monthly cost, with no down payment, you can have access to your own Volvo model. And we take care of everything else: insurance, tax, maintenance and servicing. It is convenient, transparent and hassle-free. And as the service is flexible, once you've subscribed, you can borrow other Volvo models for short periods of time* – if you need a larger car, for instance.

Making use of our exclusive concierge services, which will vary depending on your location, will allow you to make better use of your time. And because you get to drive the latest Volvo models, you benefit from our progressive technologies and innovations.

Better still, because you don't own the car in the traditional sense, you don't take any of the responsibility. You future proof yourself against unexpected costs.

This is the future of motoring. This is the luxury of simplicity. Available from Volvo Cars today.

*Dependent on location

YOUR JOURNEY BEGINS HERE.

We created the new V60 with one single purpose: to provide you with a car that perfectly fits you and your active lifestyle. It's a sporty estate that meets your expectations of a dynamic drive with exceptional comfort and distinctive Scandinavian design – built with care for people and the world we share. And designed to be intuitive to use and to make life easier, the V60 is a pleasure to live with every day.

At the heart of your V60 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest Drive-E technology that gives you responsive power. Fuel consumption and CO₂ emissions are kept low, complying with exhaust emission legislations.

Our Drive-E powertrain range includes advanced diesel and petrol engines mated to our smooth eight-speed automatic gearbox or distinct six-speed manual gearbox.

And for the ultimate combination of performance and efficiency, there's the option of our smooth and powerful T8 or T6 Twin Engine AWD powertrain with plug-in hybrid technology.

Make your choice, and enjoy the journey wherever it takes you.

T8 Twin Engine AWD

Our T8 Twin Engine plug-in hybrid powertrain delivers an exhilarating drive with uncompromised efficiency. Combining a high-performance petrol engine and an electric motor, this powertrain allows outstanding highway performance and zero emission commuting – with all-wheel drive capability when needed. More information available later in 2018.

T6 Twin Engine AWD

We created the T6 Twin Engine plug-in hybrid powertrain to give you the ultimate combination of performance and efficiency. A powerful petrol engine and an electric motor join forces to deliver for efficient long distance driving and zero emission commuting. And when needed, you have access to all-wheel drive. More information available later in 2018.

D4

Our sophisticated 190hp/400Nm D4 diesel powertrain allows you to enjoy more while using less. Mated to our smooth 8-speed automatic or 6-speed manual gearbox, the D4 is designed to give you the most efficient and confident driving experience.

D3

We designed the 150hp/320Nm D3 diesel powertrain to give you the ultimate combination of fuel economy, performance and refinement. Available with our responsive 8-speed automatic gearbox or a 6-speed manual gearbox, the D3 is a perfect partner for any journey.

CREATE THE SWEDISH DYNAMIC ESTATE OF YOUR CHOICE.

Our approach in everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that matches your style and fits perfectly into your life.

To ensure you get your new V60 exactly as personal as you want it, you have two different design expressions to choose from – each with

a distinctive style and character: the sophisticated V60 Inscription or the more dynamic V60 Momentum.

Whatever you prefer, you can rest assured there's a Volvo V60 for you. Read on, and see what your new V60 will look like.

Volvo V60 Inscription

The dynamic expression of Swedish luxury.

Volvo V60 Momentum

Dynamic contemporary style with a confident appearance.

Inscription

A HIGHER GRADE OF DYNAMIC REFINEMENT.

We created the elegant V60 Inscription to meet your expectations on Swedish luxury. It's a highly personal expression that evokes a strong sense of dynamic refinement. Each detail is carefully selected to give you and your passengers a stylish and invigorating experience.

Sophisticated exterior design cues enhance the luxurious look and feel of the V60 Inscription. Its distinctive chrome-finish grille, bright decor side window trim and 10-multi spoke 18-inch Black Diamond Cut alloy wheels correspond with the car's dynamic and elegant Scandinavian design.

The Inscription experience continues on the inside, where a meticulously crafted interior with Leather seats and genuine Driftwood decor gives you ample room for a relaxed driving experience.

The V60 Inscription epitomises our proud heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the V60 Inscription is in a class of its own – just like you.

V60 INSCRIPTION

Includes V60 Momentum trim level plus the following:

Exterior:

18-inch wheels | Front LED Foglights | Front Park Assist | Inscription front grille | Lower outer grille with chrome frame | Bright integrated roof rails, satin silk finish | Bright deco side windows | Integrated double end pipes

Interior:

Comfort seats with Leather-faced Upholstery | Driftwood decor | Metal mouldings | 4-way lumbar support | Cushion extension | Power Driver and Passenger Seats | Interior lighting high level

V60 INSCRIPTION PRO

Includes V60 Momentum trim level plus the following:

Exterior:

Active Bending Headlights with Adaptive Shadow Technology | Headlight Cleaning System | Front LED Foglights with Cornering Function | Handsfree Tailgate Opening/Closing | 19" 5-Multi Spoke (Diamond Cut/Black) Alloy Wheels with 235/40 Tyres

Interior:

Nappa Soft Leather Perforated and Ventilated Upholstery | Heated Steering Wheel | Head-Up Display in Windscreen | Power Front Seat Side Support | Heated Front Seats

Inscription

727 Pebble Grey metallic | 19" 5-multi spoke
Black Diamond Cut alloy wheels

1

The sophisticated V60 Inscription expresses the essence of dynamic contemporary luxury. Just like beautifully crafted pieces of jewellery design, the 10-multi spoke 18-inch alloy wheels in distinctive Black Diamond Cut design harmonise perfectly with the chrome finish grille, the bright decor side window trim and the bright integrated roof rails. Together with the elegant dual integrated end pipes, the wheels also contribute to the car's confident stance. Our signature LED illumination contributes to both a strong visual identity and excellent vision in the dark.

On the inside, the luxurious theme goes on with authentic, finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. You can lean back in a sculpted power-operated Comfort seat upholstered in smooth Leather. Power-operated 4-way lumbar support and adjustable cushion extensions contribute to enhanced long distance comfort.

Unique Driftwood decor and our most advanced interior ambience illumination adds to the exclusive Inscription experience. For you as driver, the large 12-inch driver display and convenient drive mode settings in the console between the front seats add to your feeling of being in command. And to enhance your driving experience, our optional active chassis optimises comfort and handling – select between four different chassis settings with the drive mode control.

For an even higher level of comfort you can upgrade to our Perforated Fine Nappa Leather seats with ventilation. And turning your V60 Inscription into a concert hall, our optional high-end audio system Bowers & Wilkins brings exceptional clarity and realism to your music, wherever you're seated.

1. The chrome finish front grille and bright side window trim add up to the luxurious appearance of the V60 Inscription. Here shown with dynamic yet elegant 19-inch 5-double spoke alloy wheels (optional) in distinctive Black Diamond Cut design. **2.** Dual integrated end pipes and bright decor trim enhance the elegant and powerful impression from the rear. **3.** The rear seat passengers can enjoy the comfort and convenience from a centre armrest with integrated cup holders and storage. **4.** The sculpted Comfort seats with optional Perforated Fine Nappa Leather upholstery and adjustable seat cushion extensions and the Driftwood decor provide a sensory experience of contemporary luxury. In the tunnel console, there's a scroll wheel in diamond patterned metal finish that allows you to select your preferred drive mode and steering characteristics. **5.** The exclusive Driftwood decor in the dashboard and tunnel console resembles the look and feel of wood shaped by the natural force of water, wind and waves. **6.** The optional Perforated Fine Nappa Leather front seats feature perforated Nappa Leather on the seating panels and contrasting stitching for a sporty, luxurious look and feel and includes seat ventilation for optimised comfort. **7.** The intuitive 12-inch driver display with four graphic modes and the 9-inch centre display with touch screen puts you in the centre of action.

The V60 Inscription exterior with its design touches is a timeless expression of confident Scandinavian design. The exterior colour palette allows you to create the V60 Inscription that best reflects your style and preferences. Sophisticated metallic colours such as Denim Blue, Pine Grey, Maple Brown and Onyx Black add an extra

touch of modern luxury. And available in distinctive Diamond Cut design, the 18-, 19- or 20-inch alloy wheels connect visually with the exterior design cues to enhance the car's powerful yet elegant appearance.

Comfort seat

Inside the V60 Inscription, you are surrounded by thoughtful luxury. There are genuine materials and fine craftsmanship wherever you look – a sensory experience further enhanced by the genuine Driftwood decor and the ergonomically designed Comfort seats in smooth Leather with adjustable seat cushion extensions. Or for an even more luxurious ambience – choose the seats in optional Perforated Fine Nappa Leather including power-operated side support, power seat cushion extensions and ventilation. And to make it easy to give the interior your own signature, you have many interior combinations to choose from, including Blond Amber or Maroon Brown.

VOLVO V60 MOMENTUM. CONTEMPORARY DYNAMIC STYLE.

The V60 Momentum is a confident expression of dynamic style and versatility, where smart features and contemporary design interact to create an elegant and sporty experience. Designed to be your ultimate lifestyle enabler, the V60 Momentum will provide you with a high level of technology that meets your demands on style, comfort, safety and distinctive design.

The exterior of the V60 Momentum is twisted towards a more dynamic approach. Our signature design LED headlights and black

exterior details such as the grille, side window trim and integrated roof rails finish contribute to the both sporty and elegant appearance of the V60 Momentum.

On the inside, you can relax in ergonomically designed seats with contemporary City Weave upholstery. Many interior combinations make it easy to tailor your own, personal V60 Momentum experience.

Tinted Silver Diamond Cut alloy wheel

1

The V60 Momentum embodies the essence of confident Scandinavian design.

Unique black exterior design cues together with the 17-inch, 18-inch or 19-inch alloy wheels add to the car's dynamic road presence, while the dual stainless steel end pipes add a powerful finish.

On the inside, aluminium tread plates welcome you every time you enter the cabin of your V60 Momentum. You can enjoy the control provided by our 12-inch driver display and Sensus Connect with enhanced connectivity – such as the intuitive operation of our 9-inch centre display with touch screen and voice control. Volvo On Call connects with your car with your smartphone and gives you access to a wide range of smart services, while everybody on board will appreciate the clear sound reproduction of our High Performance audio system including Bluetooth® music streaming. And for a truly high-level sound experience, there's the option of

Harman Kardon® Premium Sound with 14 hi-fi speakers including an air-ventilated subwoofer.

Our two-zone climate system ensures you and your passengers can enjoy a comfortable cabin climate in all temperatures – the driver and front seat passenger can adjust the temperature to suit individual preferences. As driver you will enjoy the feel of a leather-clad steering wheel with Silk Metal inlays, a leather-clad gear lever and ergonomic front seats with power adjustable 2-way lumbar support for your long distance comfort.

The seats are upholstered in sporty Charcoal Textile upholstery or contemporary City Weave Textile/T-Tec upholstery. Textile floor mats and Iron Ore aluminium decor further complement the interior ambience. And when it's dark, the interior illumination enhances the luxurious feeling inside your V60 Momentum.

1. The V60 Momentum with signature design LED illumination headlights, black grille and black integrated roof rails, 18-inch alloy wheels (optional) and black side window trim. **2.** Park Assist supports you when reversing and the chrome dual end pipes give your V60 Momentum a more dynamic look. **3.** Inside the V60 Momentum, you can enjoy the contemporary spirit of our City Weave textile/T-Tec upholstery and Iron Ore aluminium decor. **4.** The Iron Ore aluminium decor in the dashboard perfectly complements the dynamic character of your V60 Momentum. The large 9-inch centre display with touch screen keeps you connected and in control, while our High Performance audio system with 10 speakers provides excellent sound. **5.** The standard 12-inch driver display allows you to choose between different visual appearances. To provide optimum visibility, the display's brightness automatically adapts to exterior light conditions.

The wide range of exterior colours and wheels allows you to create a Volvo estate that's really you. Sporty elegant 17-inch alloy wheels in Silver finish come standard, and to further enhance the appearance of your V60 Momentum you have the option of larger 18- or 19-inch wheels. The exterior colour you choose has a dramatic impact on the

personality of your V60 Momentum. Available in different variations, each colour imbues your Volvo with a sense of dynamic elegance. Inspired by clean and open nature, our new metallic colours Birch Light and Pebble Grey add a distinctive Scandinavian touch to your V60 Momentum.

For a contemporary look and feel, the V60 Momentum features comfort seats upholstered in Charcoal Textile upholstery or City Weave Textile/T-Tec upholstery. To enhance the luxurious character of your V60 Momentum, you can add Leather upholstery which is available in several different interior colour combinations to suit

your personal preferences. The dynamic interior ambience is further enhanced by Iron Ore aluminium decor and aluminium tread plates. Or for an exclusive look inspired by contemporary Scandinavian furniture, opt for our genuine wood decor inlays such as Linear Lime – a unique matt decor with a warm, modern retro look.

ACCESSORIES. YOUR V60, THE WAY YOU WANT IT.

We created the new V60 to make every moment count. And adding Volvo Cars accessories designed around you and your car, you can create your perfect sporty estate car.

Our range of smart load accessories makes life easier and helps you live it the way you want. With our specially-designed exterior styling accessories, you can create a truly individual look. For example, our exterior styling kit will enhance the car's sporty and dynamic

character and give it an even more powerful look, especially in combination with our large 20-inch 10-spoke alloy wheels. And for people who shares your ride, we have created accessories that add extra comfort and safety.

So go on and explore the Volvo V60 accessories and create your own engaging and dynamic estate. Because every moment counts.

MAKE IT YOURS.

The Volvo styling accessories are created by our own team of designers to perfectly complement the lines of the V60 and enhance its dynamic, contemporary character. And to make your sporty Volvo estate an even stronger and more personal statement, you can add our exterior styling package. Body coloured front and rear side deflectors and sculpted side mouldings accentuate the car's low stance, while the integrated dual split end pipes create an even more powerful look. And for the V60 Momentum, a black rear diffuser adds an extra touch of dynamic luxury.

This is your opportunity to express yourself and come up with a look that is all yours.

1. V60 exterior styling package. **2.** 20" 10-spoke Turbine Black Diamond Cut alloy wheels (require the optional sport chassis). **3.** Integrated dual split end pipes in stainless steel. **4.** Rear bumper protection plate in brushed stainless steel.

4

GET READY.

We designed the V60 to be your versatile partner, allowing you to do what you want to do. To make your Volvo estate work even harder for you, just add our load accessories.

Designed to look good and work flawlessly, they will make life less complicated and help you bring the gear you need for your

adventures. And with our user-friendly and stylish wall box, you'll charge your V60 T8 or T6 Twin Engine easily and safely when you're at home.

DESIGNED FOR YOUR ACTIVE LIFE.

The V60 is about catching every moment and sharing them with family and friends. To enhance the experience for anyone who shares your ride, we've created specially-designed accessories that cater for your passengers' comfort and safety. For children up to 10

years, our child seats combine comfort with state of the art safety and are designed to fit perfectly into your Volvo. We apply the same stringent standards to our child seats as we do to building our cars, so you know your children are well protected.

WELCOME TO VOLVO CAR LIFESTYLE COLLECTION.

Our Lifestyle Collection includes a wide range of lifestyle accessories – from crafted leather bags and clothing, to watches and sunglasses. To view the complete collection, please visit collection.volvocars.com

SERVICE BY VOLVO. A SIMPLER WAY.

When you buy a Volvo, you buy the simplest way to have a car. No matter what your car may need, your authorised Volvo workshop will take care of it for you and make sure that your Volvo stays in tip-top shape.

We have our own approach to service that's personal, efficient, and which takes care of you as well as it takes care of your

car. We call it Service by Volvo and it will provide everything you need in the simplest way possible.

Your Volvo Cars dealer offers a whole range of simplifying services all designed around you, ensuring you a carefree ownership experience. Still, this is just the beginning. Soon, you will also get a Personal Service

Technician, your car will be ready within the hour and you can relax in our lounge instead of driving back and forth. It's because everything we do is about finding new ways to make life simpler for people, with our cars as well as our service.

HAVE YOU GOT YOUR VOLVO ID?

A Volvo ID allows you to access a whole world of connectivity with your Volvo. With your Volvo ID, you can:

- Access your My Volvo account on volvocars.co.uk for car information
- Access internet services and apps in your car, including connected service booking
- When applicable, sign in to the Volvo On Call app and connect with your car from everywhere

CONNECTED SERVICE BOOKING

If your Volvo has Sensus Connect, it will remind you when it needs servicing and offer to contact your Volvo dealer for you. Booking proposals sent from your preferred dealer can easily be managed directly in the car. When the time comes to drive to your workshop, your Volvo will remind you and even guide you there. And since your Volvo tells us what it needs, we can make sure it always receives the service it requires when it gets there.

V O L V O

Official fuel consumption for the Volvo V60

in MPG (l/100km) ranges from:

Urban 30.4 (9.3)–48.7 (5.8), Extra Urban 45.6 (6.2)–60.1 (4.7),
Combined 38.7 (7.3)–134.5 (2.1). CO₂ Emissions range from 167–49g/km.
MPG figures are obtained from laboratory testing intended for comparisons
between vehicles and may not reflect real driving results.

Preliminary data. Please contact your local retailer for the latest information.
