

Livery Product Guide

LINCOLN

Lincoln Navigator L[®]

Introducing Ford Pro[™]

Imagine combining the world-class vehicles you need to build your fleet with the service options, financing flexibility and telematics data you need to manage it. Ford Pro is a productivity accelerator designed to drive your business forward, delivering solutions to fleets of all sizes.

A true one-stop-shop approach where you'll find the right tools, software and services to keep your business on track and your vehicles on the road. Today, and into the new era of electrification.

Premium Transportation

Ford-Lincoln continues to be a strong supporter of the Chauffeured Transportation Industry. All Livery vehicles are uniquely styled with spacious and luxurious interiors, certain to allow your customers to enjoy the journey as much as the destination.

L I N C O L N

Some features discussed may be optional. Vehicles shown may contain optional equipment. Features shown may be offered only in combination with other options or subject to additional ordering requirements or limitations. Select features and packages are shown. Please visit fleet.ford.com for a complete Ordering Guide. Information in this Preview Guide was developed from Ordering Guides as of September 2021. Following publication of this catalog, certain changes in standard equipment, options and the like, or product delays may have occurred which would not be included in these pages. Ford Motor Company reserves the right to change product specifications at any time without incurring obligations.

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. See Owner's Manual for details and limitations. ² Always wear your safety belt and secure children in the rear seat. ³ SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner. ⁴ Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. It does not replace safe driving. See Owner's Manual for details and limitations.
