FIORINO ADVENTURE is the ideal vehicle to drive in all conditions and tackle rugged terrain. The **ADVENTURE** is a special version equipped with an electronic differential lock, **TRACTION+**, a device that gives you the extra grip to overcome rough terrain such as mud and snow. Other features include higher suspension and specific 15" Multi-Season tyres, under-engine protection, front bumper with skid plate and higher side protection.

URBAN

SAFETY

IT KEEPS YOU SAFE.

When your business involves you being on the road every day, safety is paramount.

FIORINO offers all the safety equipment and driving aids such as **ABS** with electronic brake force distribution **EBD**, **ESC** complete with **ASR** (Anti Slip Regulation) and **HBA** (Hydraulic Brake Assist).

HILL HOLDER for those tricky hill-starts and **PARKING SENSORS**. Front **AIRBAGS** and front side airbags, which protect both head and chest. **CRUISE CONTROL** helps you cruise along the motorway without having to press the accelerator pedal.

TRACTION+

Is an aid for driving and setting off in poor grip conditions (snow, ice, mud, etc.) which allows the drive force to be distributed over the same axle when both wheels are slipping. It acts by braking the wheels with poor grip (or those slipping more than the others), thereby transferring the drive force to those which have more grip on the ground.

CRUISE CONTROL

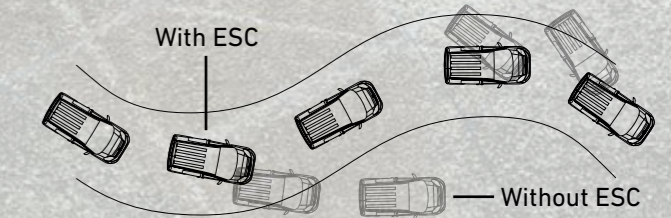

It allows you to drive on long and straight roads with few driving changes (motorways) at a pre-set speed without having to press the accelerator pedal.

ESC

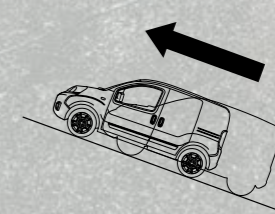

The Electronic Stability Control is a system that controls vehicle stability in the event of tyre grip loss, helping to maintain directional control.

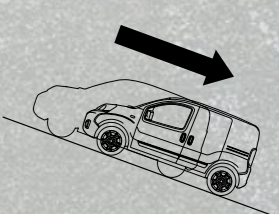

HILL HOLDER

Integrated in the ESC system, it automatically activates in uphill/downhill with engine running and blocks the vehicle for few seconds without you having to press the brake pedal.

CO₂ and fuel consumption values are determined on the basis of the measurement/correlation method referring to the NEDC cycle as Regulation (EU) 2017/1153. Fuel consumption and CO₂ figures are provided for comparative purposes only and may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedure.
