**MOPAR® IS ORIGINAL EQUIPMENT —
DESIGNED BY THE SAME PEOPLE WHO
MADE YOUR JEEP® BRAND VEHICLE.
NO ONE UNDERSTANDS THE ENTIRETY
OF YOUR VEHICLE'S FUNCTIONALITY
AND DESIGN LIKE WE DO.**

WE ONLY MAKE ORIGINAL PARTS

WE DON'T DESIGN PARTS OR ACCESSORIES IN A VACUUM.

We consider the vehicle as a whole when engineering our components. Our parts are exclusively designed to complement your vehicle without compromising its aesthetic, functionality and performance.

OUR STANDARDS ARE SKY HIGH.

Factory original equipment must adhere to a strict standard of testing. Drive with confidence knowing your Mopar® Parts and Accessories have passed this rigorous testing.

WE ONLY USE THE GOOD STUFF.

We only use high-quality materials because we know that our parts and accessories will impact the appearance, durability and value of your vehicle for years to come.

WE HAVE IT. OTHERS DON'T.

Only Mopar has direct, exclusive access to your vehicle's specifications. This information allows us to use an integrated design approach to create precise-fitting parts and accessories.

EASY-AS-IT-CAN-BE INSTALLATION.

Installing aftermarket pieces often requires cutting/drilling into the vehicle body. Most Mopar Accessories use existing openings and weld nuts for secure installation. This makes the job easier, keeps rust and corrosion away and helps protect the structural integrity of your Jeep® Brand vehicle.

MAP OUT YOUR STRATEGY

ADDING BIGGER TIRES AND WHEELS TO YOUR JEEP® GLADIATOR CAN REQUIRE ADDITIONAL MODIFICATIONS. BE SURE YOU UNDERSTAND HOW EQUIPMENT UPGRADES WILL AFFECT OTHER COMPONENTS AND CAREFULLY PLAN OUT YOUR BUILD.

1 LARGER TIRES

Whether you're in the mud or on the rocks, larger tires are designed to give you a better off-road experience.

2 OFF-ROAD WHEELS

Just like larger tires better connect to the terrain, off-road wheels help improve handling, acceleration, braking, traction and steering.

3 HIGHER FENDER FLARES

Allow you to upgrade to larger wheels and install Lift Kits without experiencing tire interference in the wheel well.

4 2-INCH LIFT KIT⁽¹⁾⁽²⁾

A Lift Kit gives additional clearance to help your Jeep Gladiator better navigate off-road terrain and clear even more challenging obstacles.
