

MERCURY TRACER

1999

Your day is filled. So is your Tracer.

It seems like you're always in motion.

Heading to the grocery store. Picking up or dropping off the kids. Meeting friends for tennis. Well, here's a car designed to keep up with you. Mercury Tracer. With the kind of features that make it very adaptable to your needs. And with its peppy engine and responsive handling, it's just plain fun to drive. So you won't mind running around when you're running around in a Tracer.

Who knows? You may even look for excuses to take it out.

Optional LS leather seating surfaces shown.

Little big car.

No matter what your stature, you'll find Tracer will fit you just right.

With plenty of room for you, your passengers and all your cargo. And

Tracer isn't just roomy, it also

comes with a whole bunch of

features you'd expect to find on a

larger car. Like a 60/40 split-fold

rear seat, rear seat heat ducts, center

console and an AM/FM stereo

radio. Try a Tracer on for size—the

fit is going to surprise you.

Everywhere you look it's feature, feature, feature.

Now here's a convenient feature for you — a handy center console. It includes two forward cup holders (that can even hold juice boxes), a rear storage bin for your CDs or tapes, and a rear cup holder.

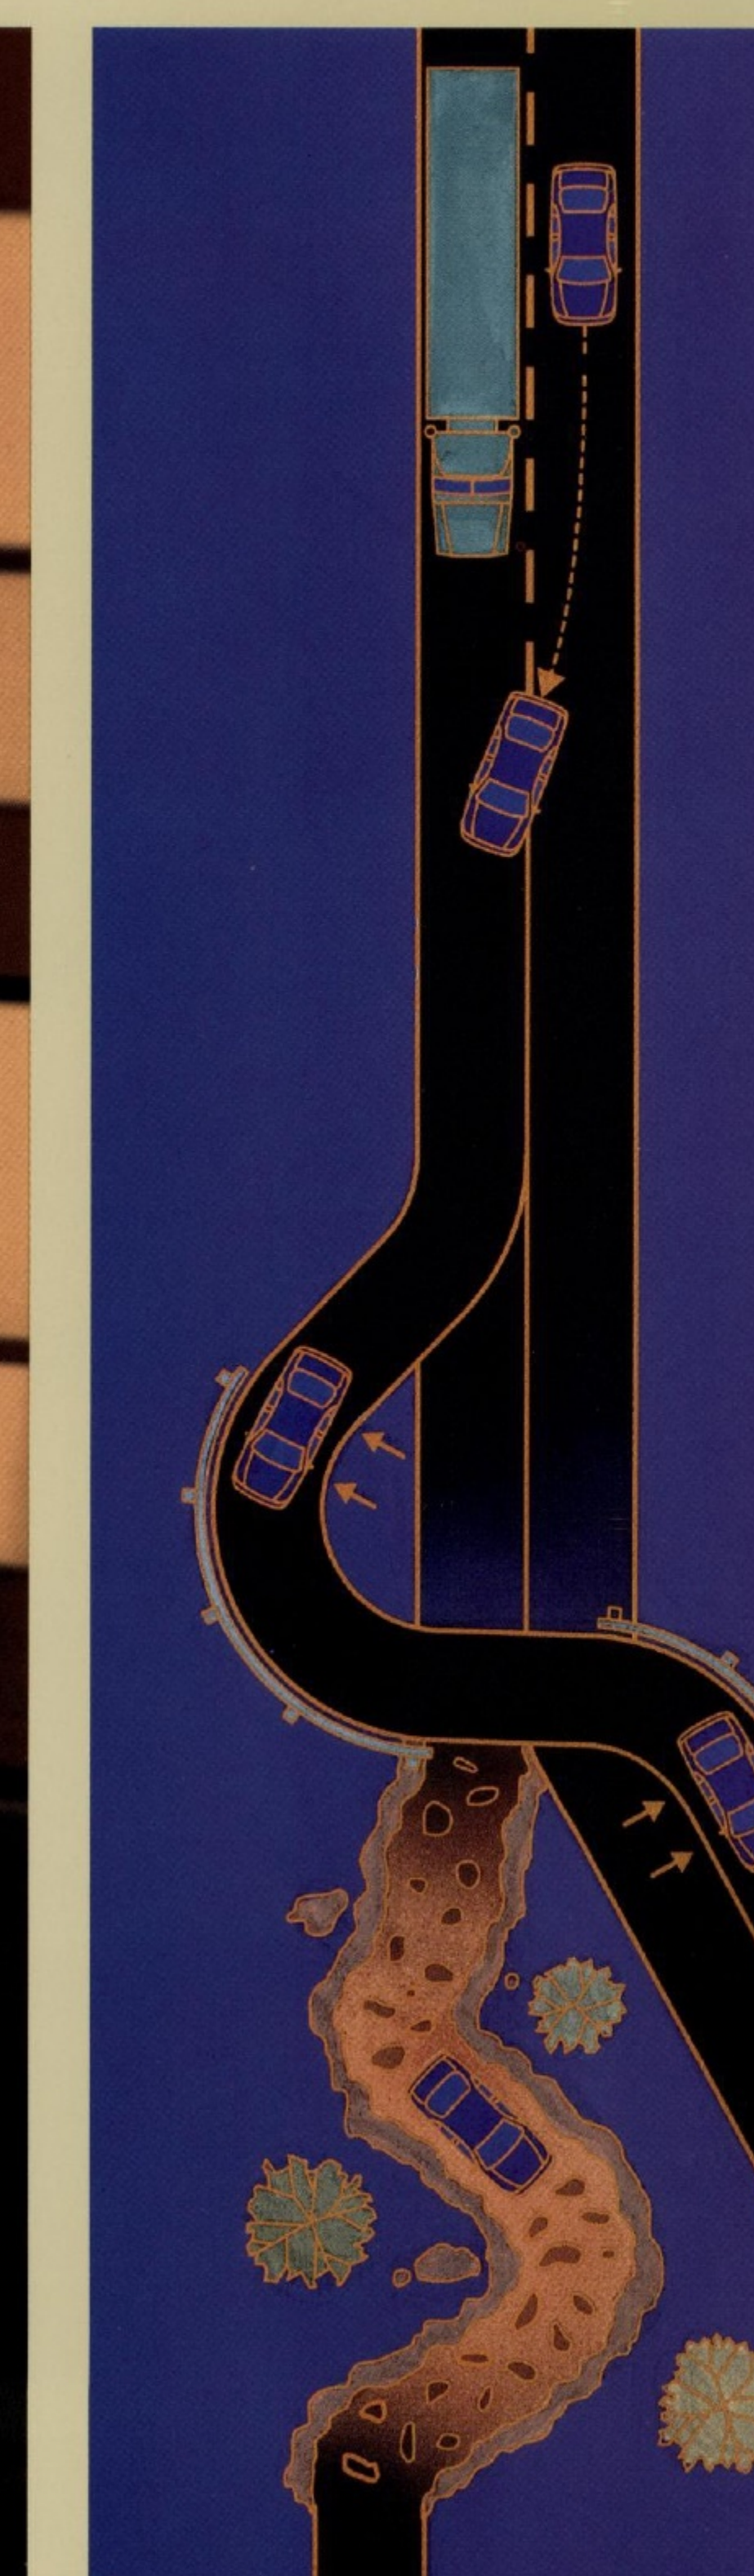

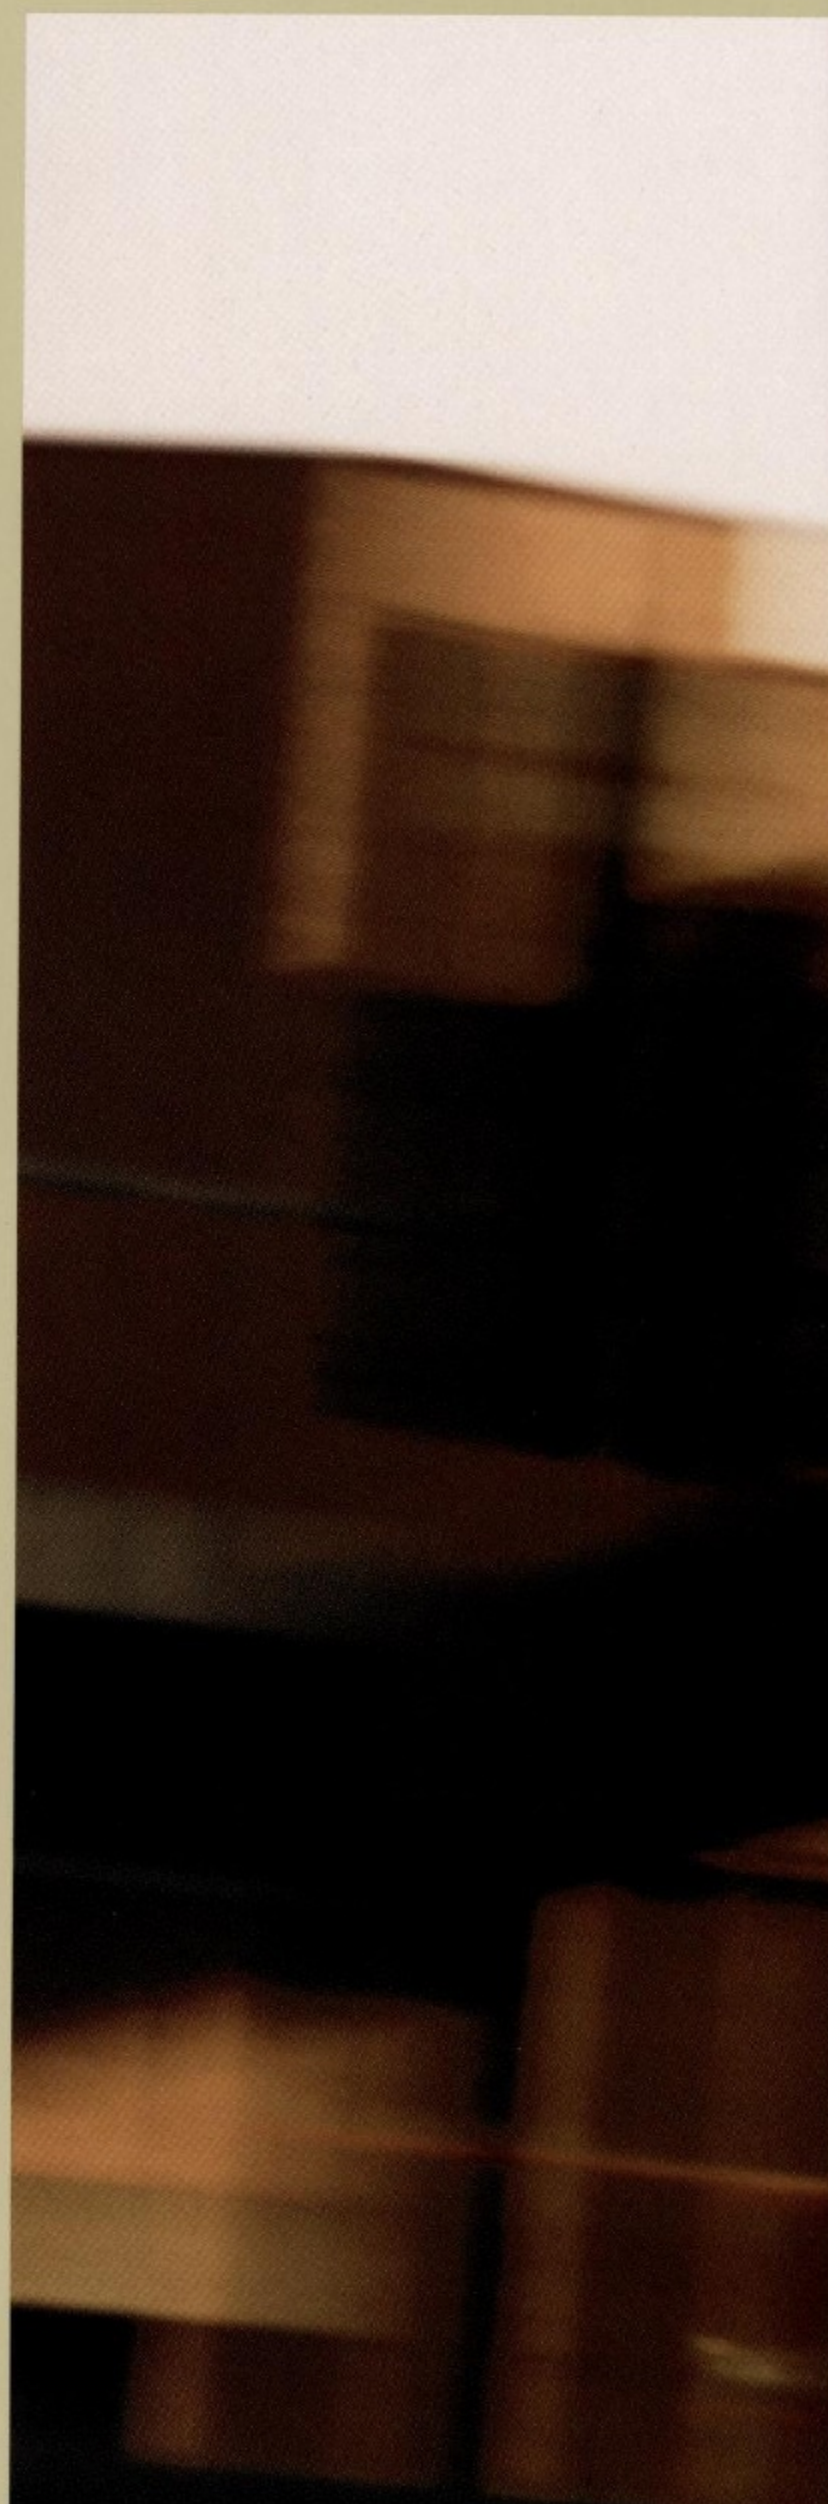

It's kind of nice to be able to adjust your steering wheel. Tracer LS comes with an available tilt steering wheel which can be easily tilted to fit you perfectly.

Have an extra long load? Hey, Tracer can accommodate it with a 60/40 split-fold rear seat. Just fold it down and load in skis, sports equipment and almost anything else that's unmanageably long.

An all-door remote Keyless Entry system is available for GS (standard for LS) so you can lock and unlock doors and unlock the trunk/liftgate from a distance. Someone

One thing that makes Tracer so much fun to zip around in is its peppy engine. It's a 2.0L split-port induction (SPI) engine with an impressive 110 horsepower. No power shortage here — especially in the passing lane.

You'll notice how easy it is to maneuver your Tracer. That's because of its power-assisted rack-and-pinion steering.

Heading into a bumpy stretch of road? It's smooth sailing ahead with the Quadralink rear suspension and front MacPherson struts along with front and rear stabilizer bars.

Here's something else that adds to the smooth ride: Sedan models are constructed using one-piece bodyside stamping which increases body rigidity.

For added protection, high-strength tubular

messing with your Tracer? Just press the panic button and the horn will sound and the lights will flash.

Having the right music with you is important. So why not equip your Tracer LS with an optional trunk-mounted 6-disc CD changer? Now you can enjoy your kind of music wherever you go.

You've got all kinds of room back in the trunk. And its low liftover design makes it super easy to load and unload.

Mercury Cycling Team

The Mercury Cycling Team is hitting the streets and will be participating in races from coast to coast. Look for this pro cycling team in your area.

Some features shown may be optional.

door intrusion beams are mounted inside

each side door.

And, naturally, Second Generation dual air

bags come standard with your Tracer. Always

wear your safety belt and please secure chil-

dren in the rear seat.

For extra safety, ABS brakes are available.

They'll give you more controlled emergency

stopping on most road surfaces.

Several dealer-installed accessories are avail-

able for your Tracer. These include a padded

armrest that flips open for extra storage

space. A handy bike rack is also available.

Just load up your bikes and go! See your

Mercury dealer for other accessories.
