

SUPER DUTY

2000 F-250/350 F-SERIES PICKUPS

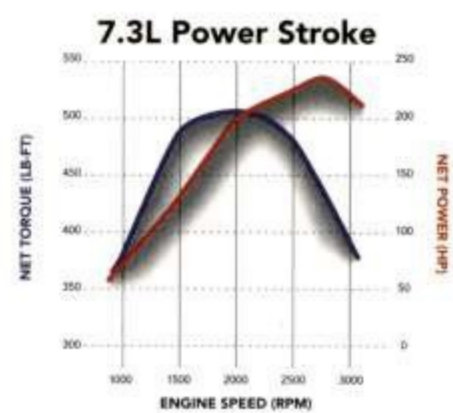

Telescoping trailer tow mirrors allow you to adjust their position depending on the width of your trailer (late availability).

The F-Series lineup offers more four-door SuperCabs than any competitor. All Super Duty F-250 and F-350 SuperCab and Crew Cab models have four doors.

The turbocharged, intercooled 7.3L Power Stroke diesel, the largest diesel in its class, offers 235 horsepower and 500 lbs.-ft. of torque. (Optional dual alternators shown.)

This year, horsepower for the Triton 6.8L overhead-cam V10 is increased to 310, and torque is increased to 425 lbs.-ft. for exceptional towing power.

standard ● optional ●

Super Duty F-350 Lariat LE, with its custom exterior and luxurious interior, combines exceptional comfort with plenty of towing power.

Right across the line, Super Duty trucks have best-in-class roominess. They also offer the largest diesel in their class. And they're versatile. The Super Duty F-350 alone offers 12 different pickup configurations to tailor the truck to the task.

Built Ford Tough

The Super Duty chassis combines innovation with rugged, time-proven construction. Body mounts and cab brackets are welded (instead of riveted) for strength. Special two-piece frame rails accept a new front section as a replacement module for easier servicing.

Triton™ power

The 5.4L V8 and 6.8L V10 Triton engines are the only OHC 8- and 10-cylinder engines in their class. Fully 90% of their torque is available at 2,000 rpm for low-rpm/high-torque muscle. Fail-safe cooling helps protect against damage due to coolant loss. And both Triton engines can travel 100,000 miles without a first scheduled tune-up.*

*Under normal driving conditions with routine fluid and filter changes.

The 7.3L Power Stroke® diesel

The available 7.3L Power Stroke diesel has performance you can feel when carrying a fully rated load up a steep grade, at extreme temperatures, at any altitude up to 10,000 feet. This big low-end muscle is due in part to the efficiency of its injector system, which also helps the engine crank up at -10°F without external aid. In addition, the

diesel's turbocharger employs a waste gate to ensure maximum boost is achieved at the low end of the torque range.

A transmission that lends a hand

The 4R100 electronic automatic transmission, available with all engines, includes an automatic tow-haul feature. Using engine sensors, the transmission's computer module automatically adjusts the powertrain to deliver smooth, predictable power, whether driving on hilly terrain, towing heavy loads, or changing altitude – all without a button to press. It's also the only automatic in its segment available with an integrated power takeoff provision (offered with the 6.8L V10 and 7.3L diesel).

Braking that means business

Power four-wheel disc brakes are standard with all series, a wider availability than any competitor. Four-wheel anti-lock brakes are standard with some models, providing straighter stopping and greater steering control under most conditions. Rear-wheel anti-lock brakes are standard with trucks not equipped with four-wheel ABS.

Innovative design and safety

The beltline of the front door windows lowers as it approaches the side mirrors, which improves visibility. That's a segment exclusive. Also, for your protection, driver and passenger airbags are standard.**

**Always wear your safety belt. On F-Series models without a full-size rear seat, the passenger airbag deactivation switch must be used when a rear-facing child safety seat is employed.

16" deluxe aluminum wheel (XLT SRW)

16" premium aluminum wheel (Lariat SRW)

16" polished aluminum wheel (XLT/Lariat DRW)

16" grey steel wheel (XL SRW)

16" with full wheel cover (included in XL Decor Group only)

16" grey steel wheel (XL DRW)

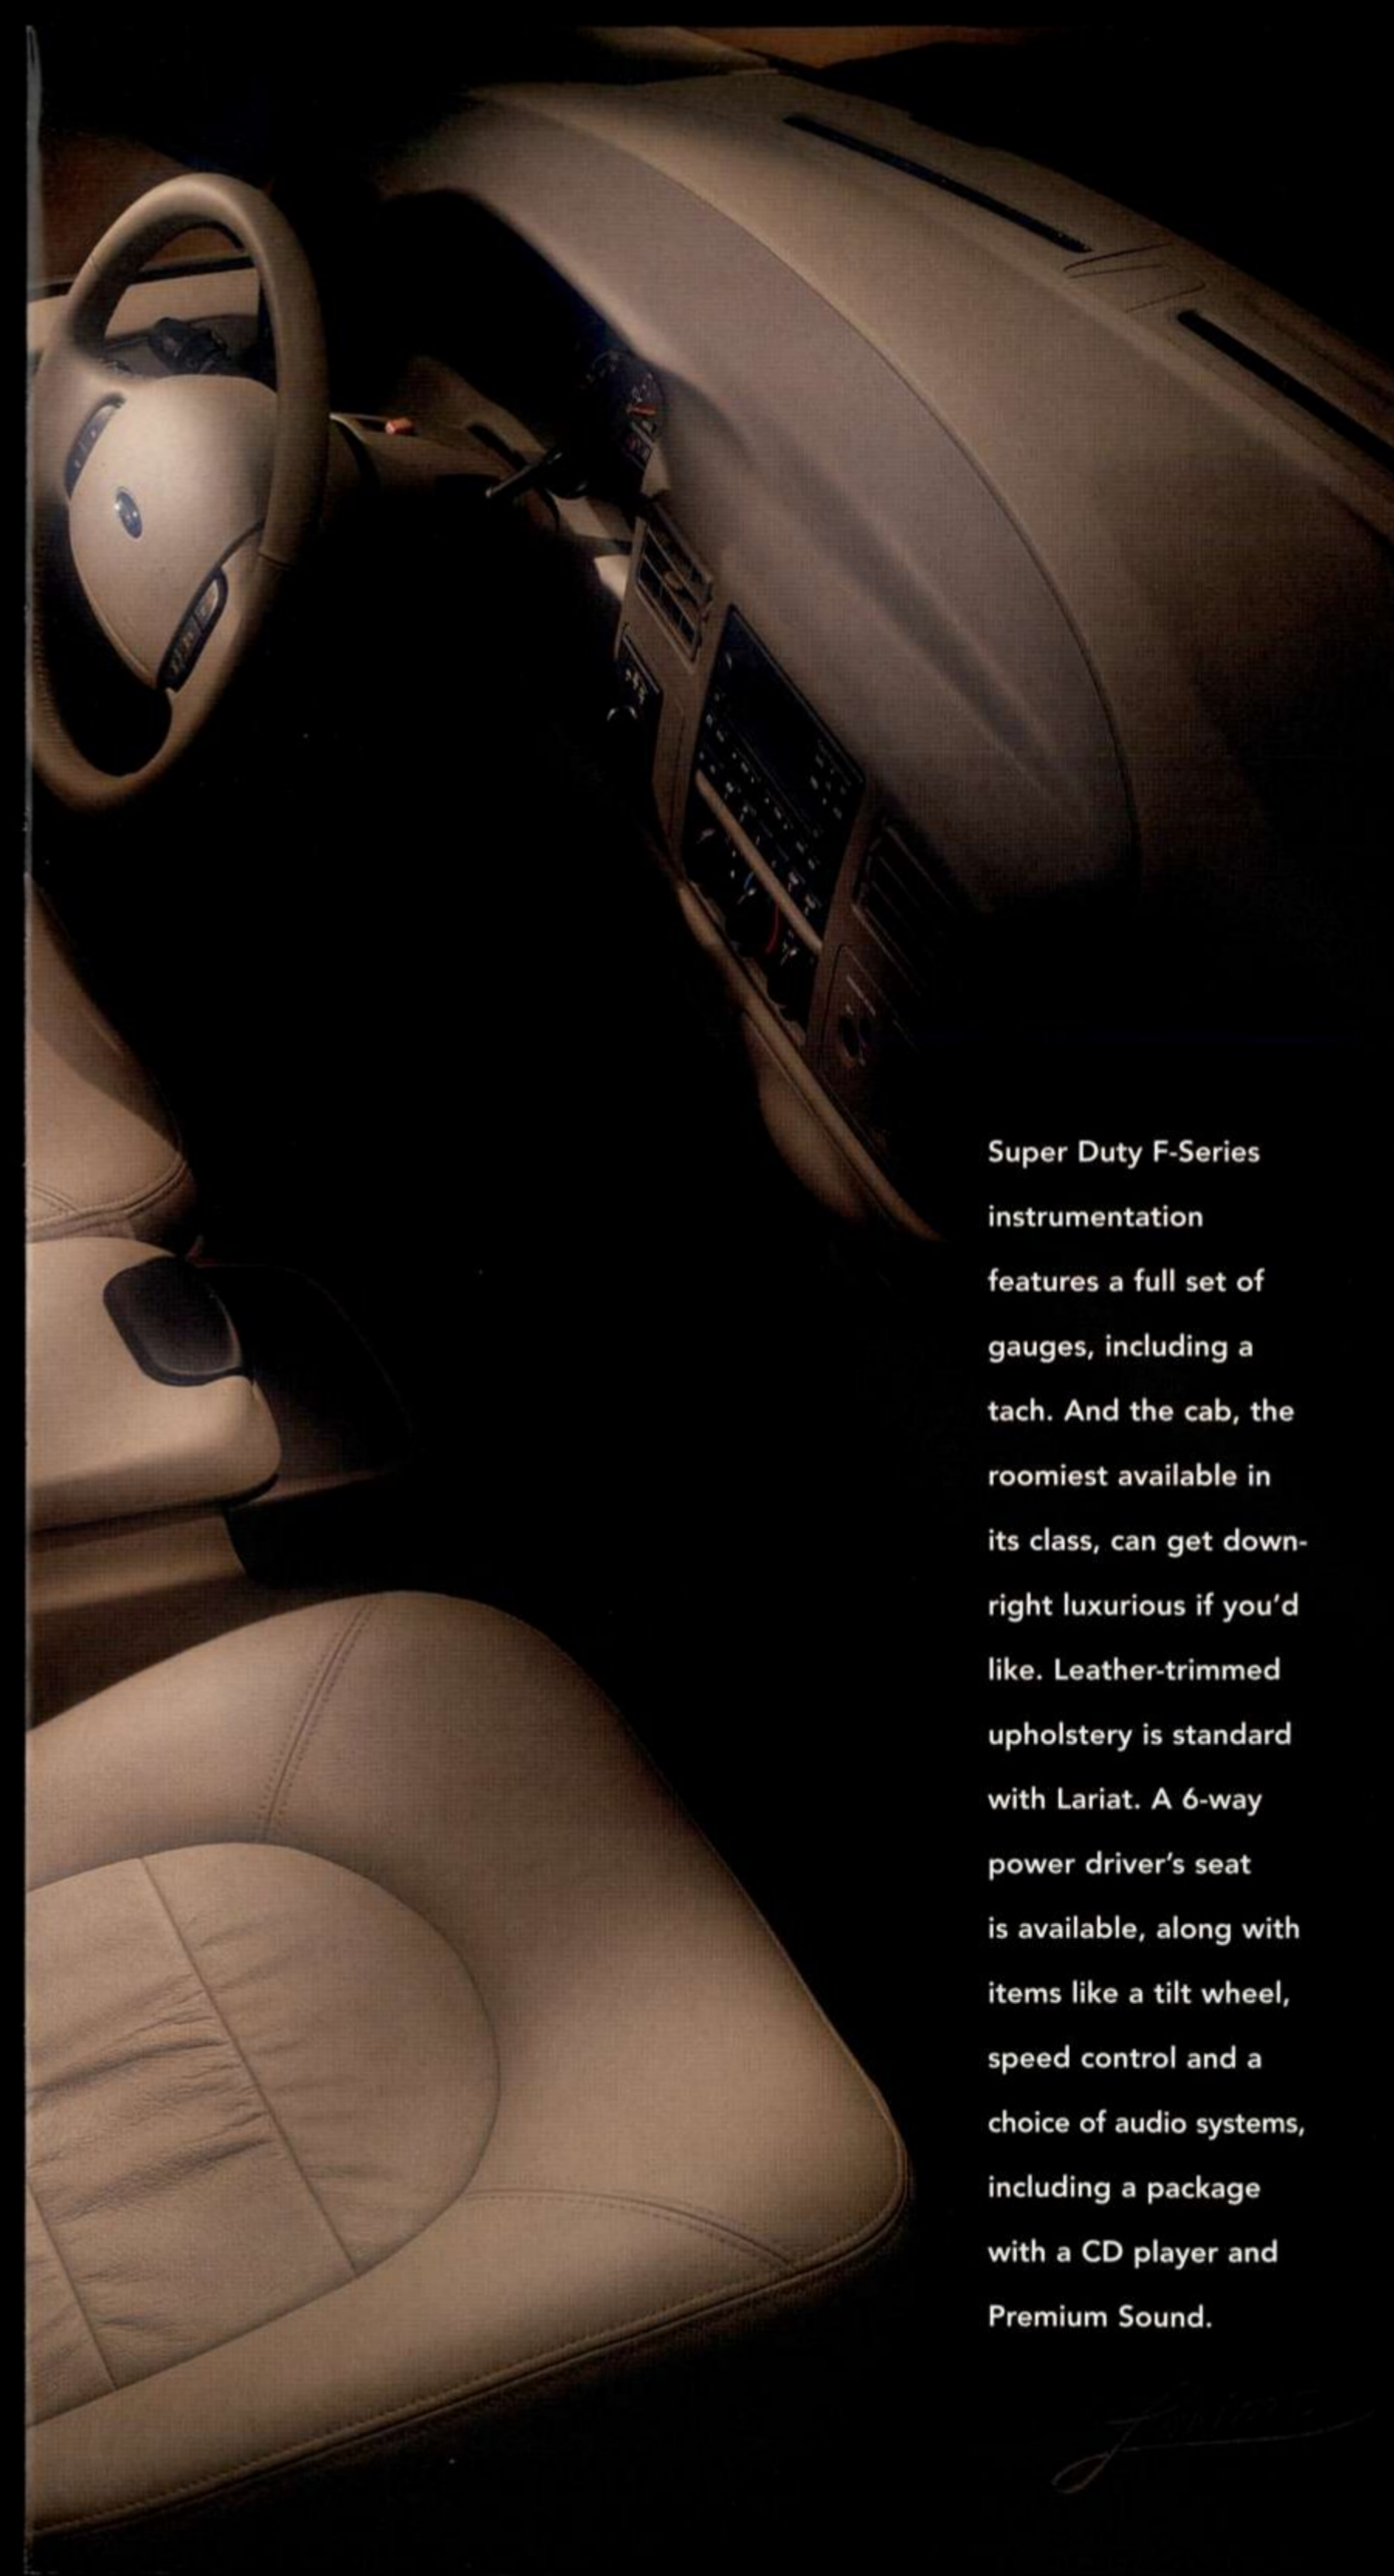

"Closed eye" tow hooks are attached to the frame for strength (standard on all models).

Heavy-duty shock absorbers and long rear leaf springs provide riding comfort and load-carrying capability. Wide front and rear tracks enhance stability.

The available electronic "shift-on-the-fly" system, the only one available in trucks over 8,700 lbs. GVWR, features pulse-vacuum-operated hublocks with manual override.

Super Duty F-Series instrumentation features a full set of gauges, including a tach. And the cab, the roomiest available in its class, can get downright luxurious if you'd like. Leather-trimmed upholstery is standard with Lariat. A 6-way power driver's seat is available, along with items like a tilt wheel, speed control and a choice of audio systems, including a package with a CD player and Premium Sound.

SUPER DUTY Dealer-Installed Accessories

The High-Density Bedliner helps protect the inside of your pickup box from those unwanted but unavoidable chips and dings.

The Diamond Plate, Lockable Toolbox is made of heavy-gauge aluminum.

The Front Box Protector guards the top edge and inside front wall of the pickup box. Installs quickly and easily.

The Class III Receiver-Style Trailer Hitch bolts directly to the frame. Also available as a Class IV hitch.

The Tonneau Cover provides extra security as well as some added protection in bad weather.

This Wraparound Hood Deflector helps protect your vehicle's paint finish.

Running Boards in various styles are available to add both a lower step-up and a distinctive look to your truck.

Bed Rails come in both diamond plate and tubular designs. They offer good looks and maximum protection for the pickup box.

Note: Your Ford Dealer can show you other quality Super Duty F-Series accessories.

Roadside Assistance

Every new Ford includes the assurance of a 24-hour emergency Roadside Assistance Program provided during the 3-year/36,000-mile limited warranty period. Ask your Ford Dealer for complete details on this program which includes such services as fuel delivery, tire change, jump start, or even help when you're locked out of your vehicle.

New Vehicle Limited Warranty

Under the New Vehicle Limited Warranty, you receive bumper-to-bumper coverage for 3 years/36,000 miles with no deductible. You also receive corrosion perforation coverage for five years with unlimited mileage and no deductible. Ask your Ford Dealer for a copy of the warranty.

Quality Care

The people who know your vehicle best. The parts designed for it. A service department that understands your needs and respects your time. That's what Quality Care is all about.

It's a bonus to have a truck fit this good. Like those old boots you've worn through so many long days they feel like part of your feet. Twenty-two years as the best-selling truck in America means F-Series has fit a lot of folks and a lot of jobs awfully well.

There are plenty of people who take concrete for granted. There are those who walk through the world, and there are those who built it. There are those who know the F-Series, and there are the others.

Days begin well before sunrise. Lunch begins well before noon. You know the story. Grab your gloves. Climb aboard.

It takes a special kind of eight-foot box to haul a half century around. For over 50 years, it has taken an F-Series. Calendars change. This kind of trustworthiness doesn't.
