# horizons

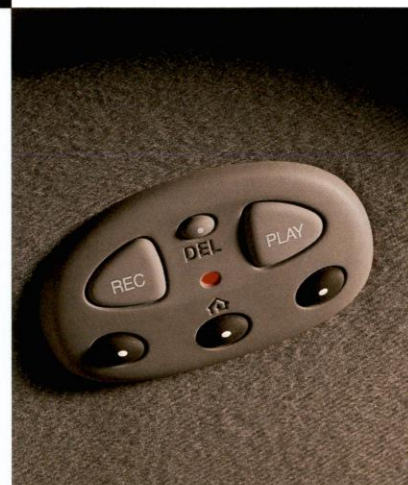

Big enough...strong enough...smart enough...Mountaineer was born to satisfy. An intelligent and responsible blend of performance, style and sophistication, the 2001 Mountaineer will, quite literally, expand your horizons. As a people mover or a cargo hauler, its capabilities are extraordinary. City neighborhood, village square, country road or mountain ridge — Mountaineer is at home and at ease. Its technological features are designed to instill confidence, provide comfort and deliver a satisfying driving experience. Mountaineer helps you take control of your road — wherever it is.

The available overhead console displays LED readouts of outside temperature and compass directions. It also provides reading lamps for rear occupants, as well as a handy storage bin.<sup>1</sup>

<sup>1</sup>Storage bin not available with moonroof.

The available visor-mounted TravelNote® records, stores and plays back up to three minutes of messages; includes HomeLink® Universal Transmitter to control three separate home devices, such as a garage door opener, interior lights or security system.

Mercury Mountaineer with Prairie Tan interior. Shown with available equipment.

The available High-Series floor console allows rear passengers to enjoy cassettes or CD<sup>1</sup> selections through personal headphones, while front occupants listen to the radio. This can keep everyone happy on long journeys.

<sup>1</sup>CD player is optional equipment.

## versatility

With Mountaineer's spacious, well-appointed interior, it's as easy as simply folding down the rear seatback to create plenty of space for travel souvenirs, luggage, groceries and garden supplies. Mountaineer also has front and rear cupholders, an additional 12-volt power outlet for appliances, available separate rear audio and fan controls and a 60/40 split-fold rear seatback.

To avoid unpleasant surprises, the available Reverse Sensing System uses bumper-mounted ultrasonic sensors to sound a warning tone in the cabin when you back up your Mountaineer and come within approximately six feet of an obstacle not visible in rearview mirrors.

Mercury Mountaineer shown with available equipment.
