

HONDA
ACCORD
HATCHBACK & SALOON

FIRST...GET INSIDE

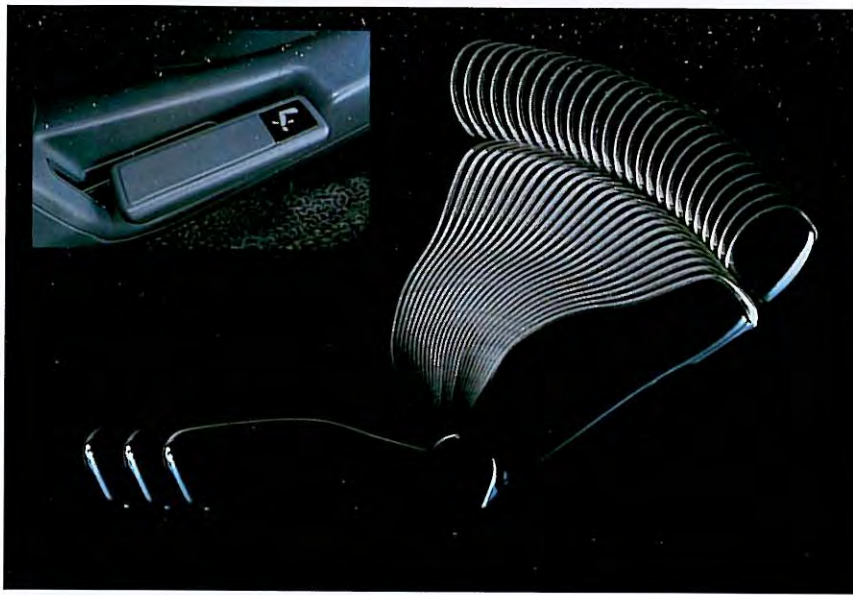

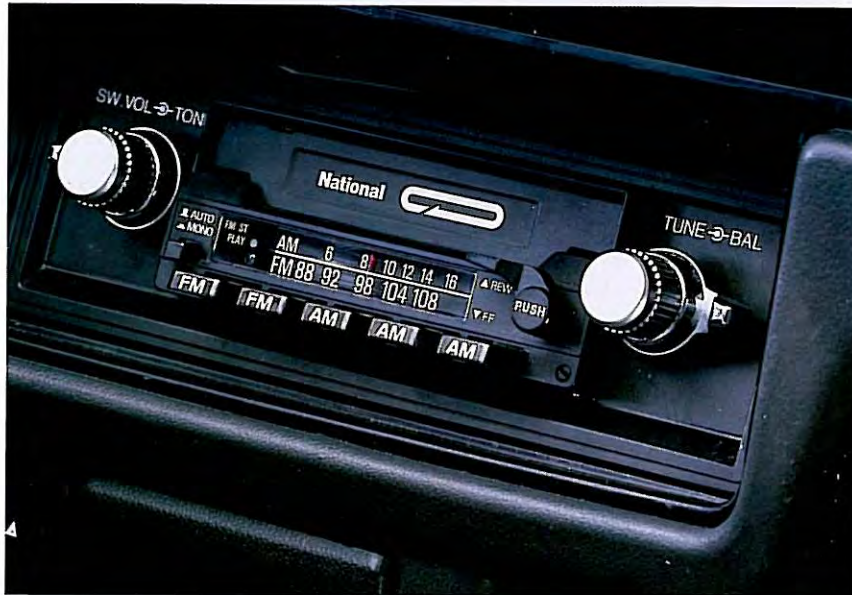

...GET THE FEEL

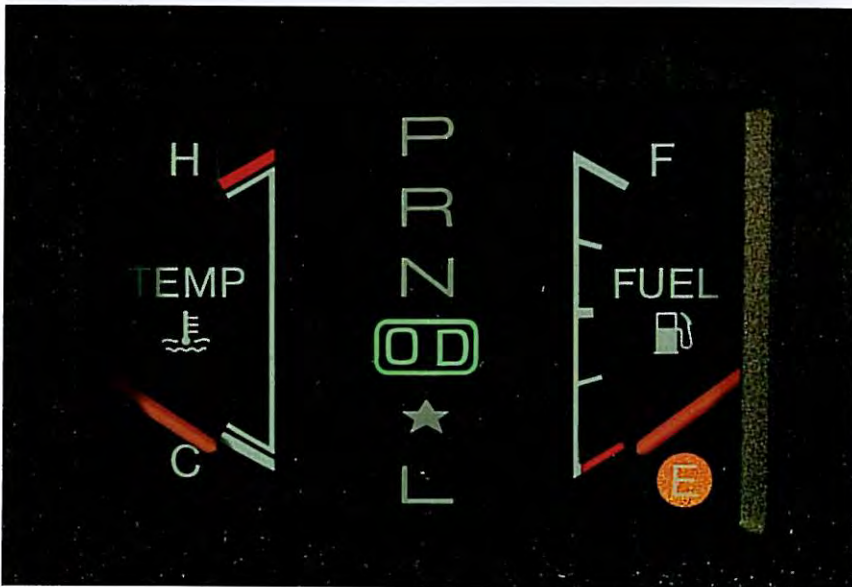

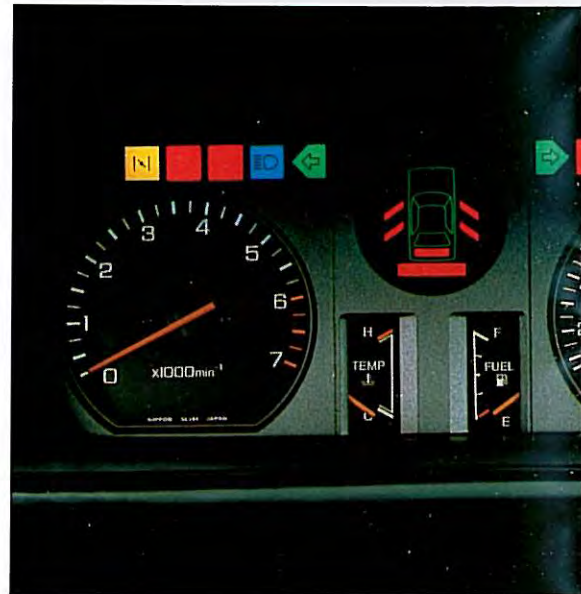

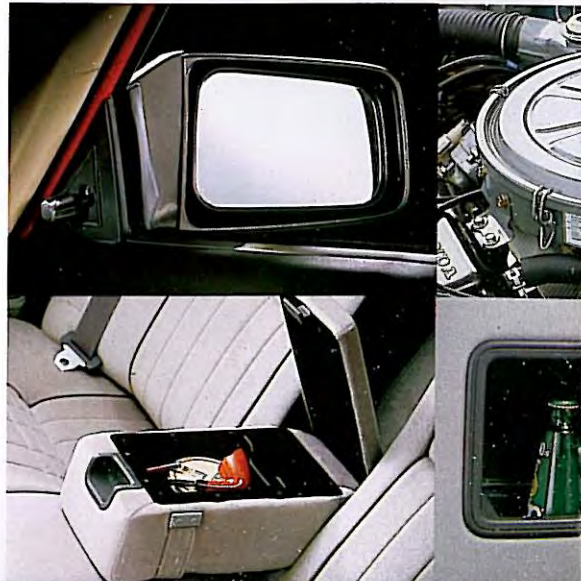

In the New Generation Accords, the front seats adjust to the most comfortable driving position with a new, fine-control mechanism. You decide the right setting for your personal driving style.

A quality AM/FM stereo receiver/cassette player comes as standard equipment in both New Generation Accords.

You have a choice of 5 speed standard transmission or unique Hondamatic with fuel saving overdrive ratio. The shift indicator is now located within the instrument panel so that you know which ratio you've engaged at a glance. Note also the low fuel warning light.

The Hatchback has an all new rear seatback, split so that you can lower either side individually or both together. It allows the best possible use to be made of the enormous luggage space available. Compared with the original Accord, you now have 22.4% more space behind the rear seat.

■ Compared with the original Accord Saloon, there is now 26.5% more boot space. Total capacity is a huge 420 litres.

□ Both Hatchback and Saloon have remote release levers at the driver's fingertips and the Saloon boot can also be locked from inside the vehicle.

■ □

The hooded instrument panel (Saloon illustrated) has been redesigned and made yet more comprehensive. Matching speedometer and tachometer, temperature and fuel gauges are carefully positioned and are complemented by an extraordinarily complete range of warning lights and graphics.

■ □

The big rear-view mirrors, placed well forward on both front doors can be adjusted directly from inside the car.

■ □

It's the same basic engine and yet, it's slightly changed for the better. There's a little more power at lower engine speeds and a little more fuel economy. What's more, we've increased the capacity of the fuel tank.

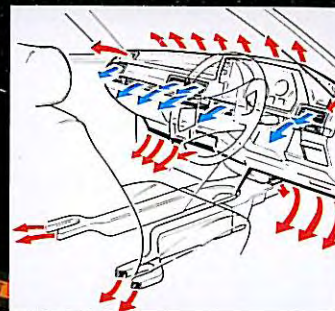

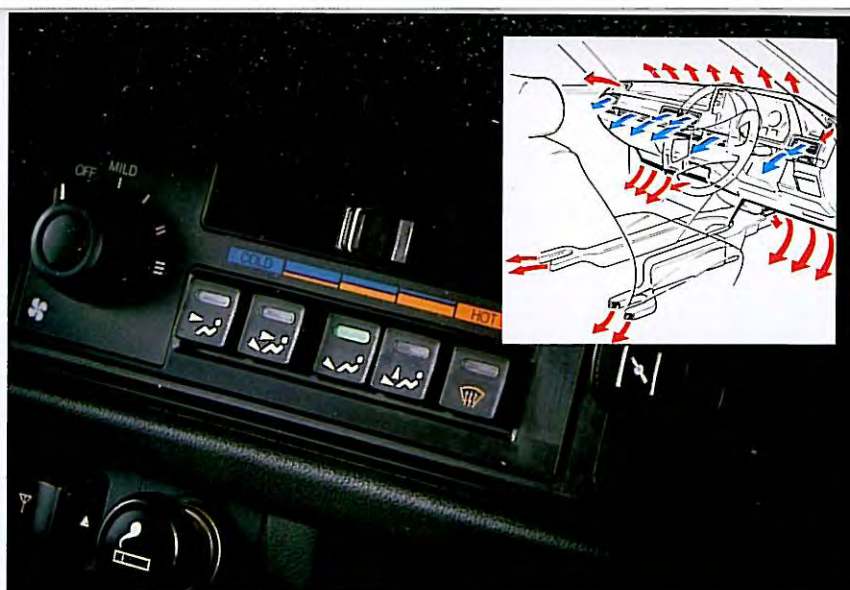

■ □

In the new, flush-fitting, pull-down centre armrest you'll find a thoughtful storage compartment.

□

In the Hatchback, you'll find spacious side pockets in the panels beside the rear bench seat.

■

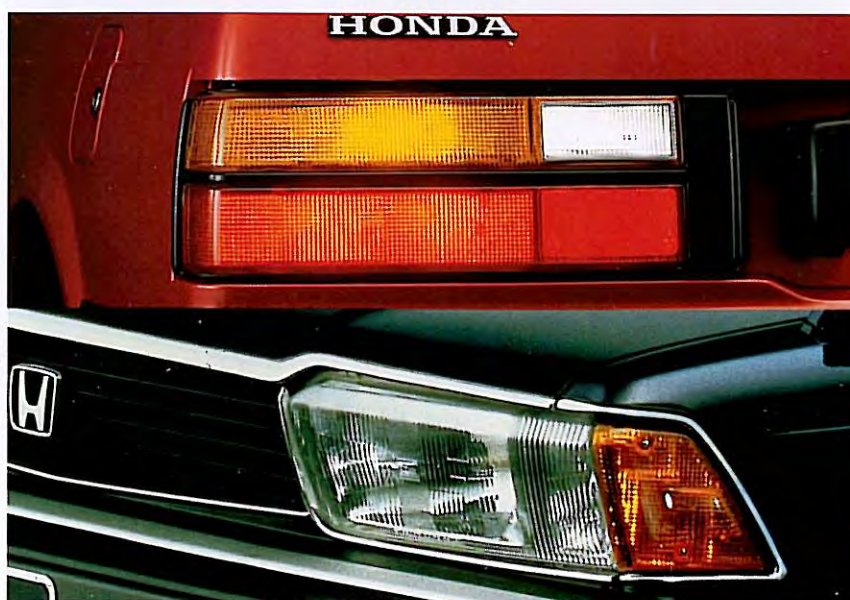

The already simple heater/cool-air system controls have now been made easier to use with a series of push buttons and the system has been improved with Honda's unique new "mild-flow" ventilation system. A narrow vent extends almost the full width of the dashboard and allows softly fan-forced air to circulate comfortably. In the Saloon, you'll find heater vents extending to the rear passenger compartment.

■ □

When you choose fully integrated Honda airconditioning as a safety and comfort option for your Accord, the only visible sign is a simple, extra push-button control.

■ □

Massive, combination rear lamps dominate the rear of both models. They ensure that you and your signals are seen clearly at night.

■ □

New, rectangular halogen headlamps provide the best of illumination for night driving and their shape and style contribute significantly to front-end aerodynamics and good looks.

■ □

Accord Saloon's speed responsive power steering gives you the best of both worlds. Full power for parking and low-speed manoeuvring, gradually lessening its effect as speed increases so that at cruising speeds, you get maximum road 'feel'. (Ex Model only).

□

■ Denotes Hatchback
□ Denotes Saloon

A PROFILE ON ACCORD.

All too often in today's frantic, push-button world, we find ourselves becoming servants of our own technology...tending the machines that should be serving us.

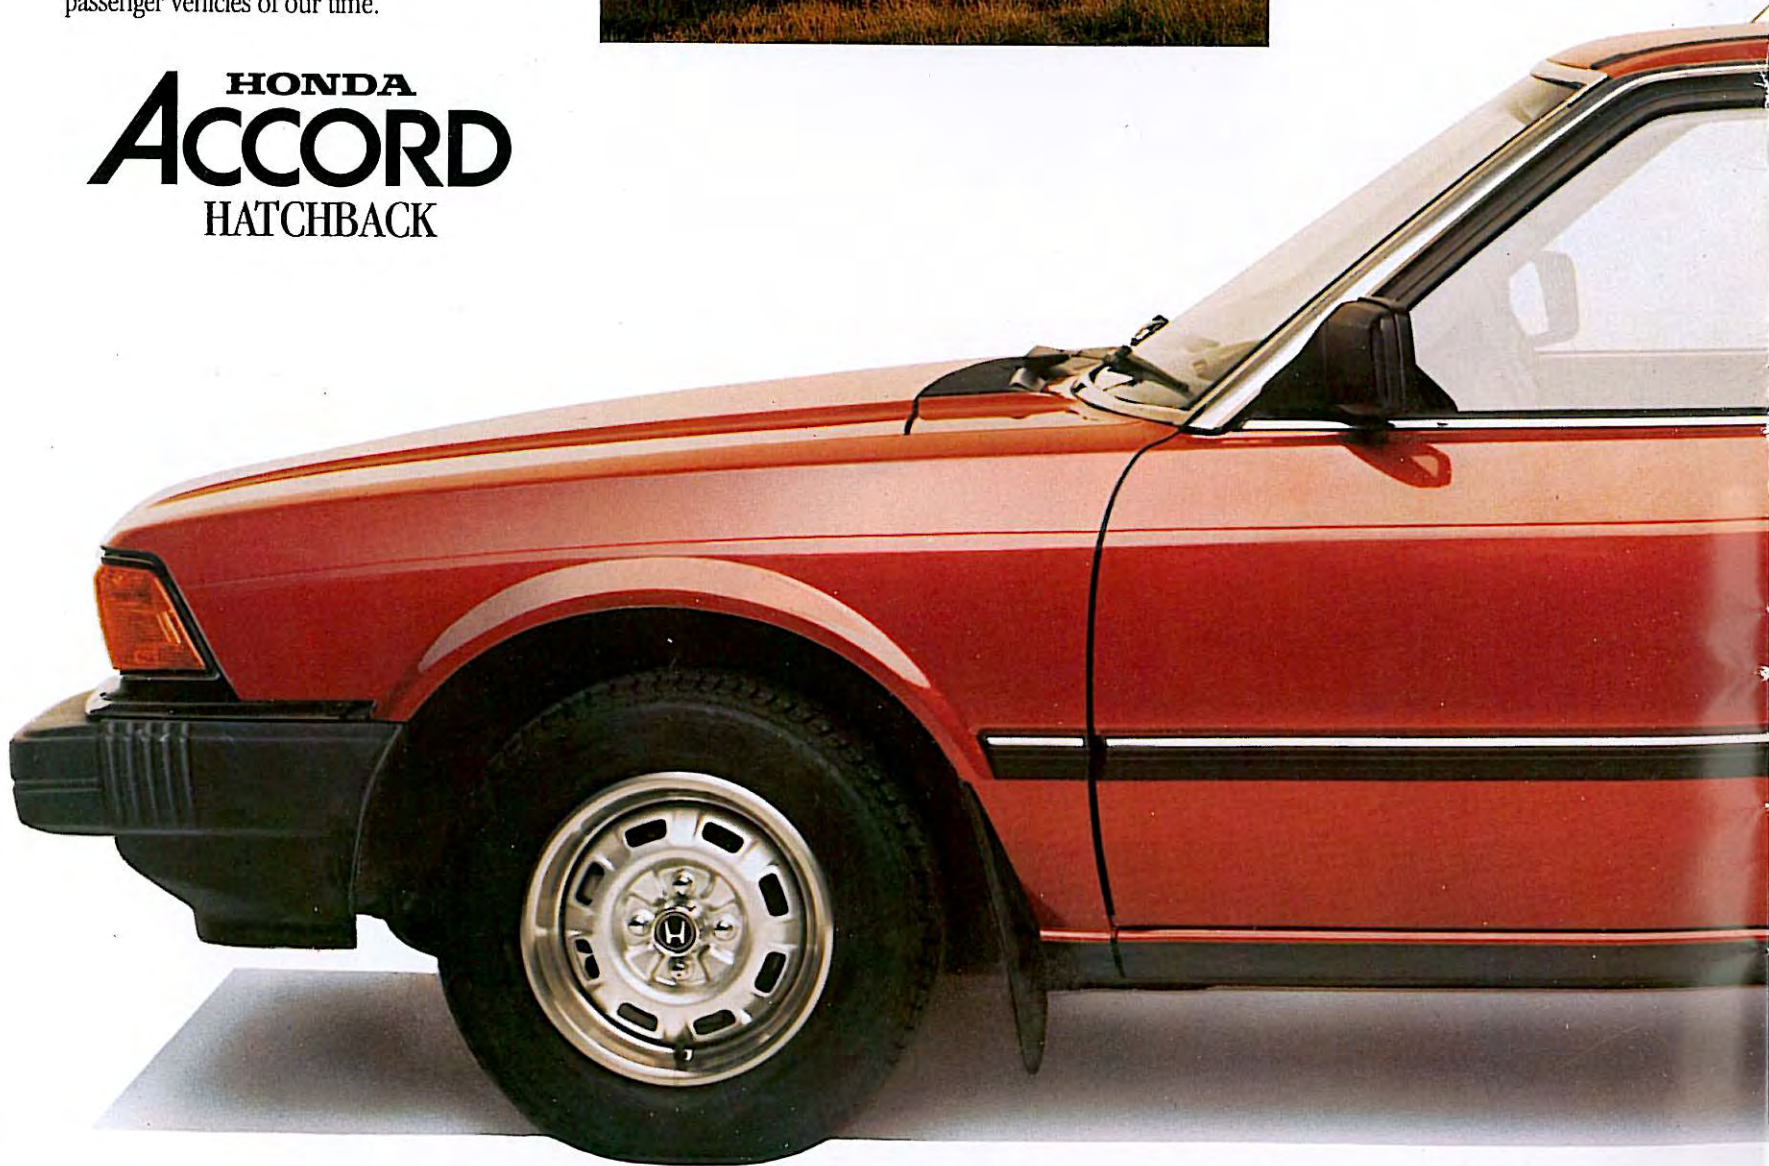

Not so in Honda Accord!

Perhaps nowhere is technology as a true servant of man better demonstrated than in the New Generation Accord.

This unique, new motor car, in both its Hatchback and Saloon variants, is the product of a total re-evaluation of one of the most successful passenger vehicles of our time.

HONDA **ACCORD** HATCHBACK

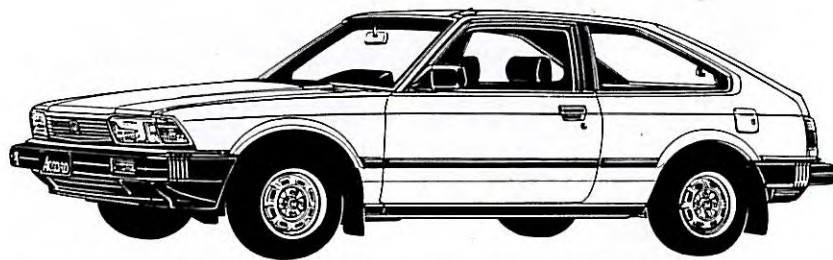

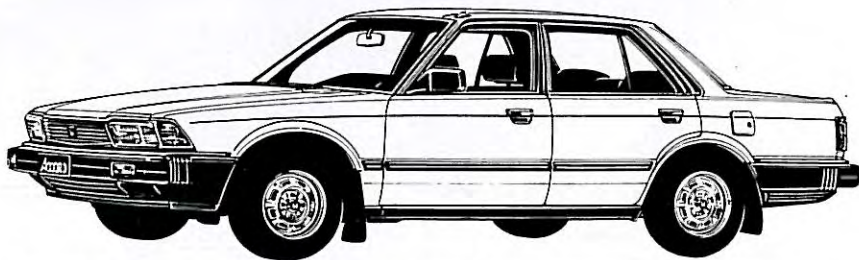

The original Accord, launched in 1976, was refined and developed to the very pinnacle of its class, earning for Honda worldwide acclaim and a constant, high level of respect and popularity.

But, as those with experience of Honda motor cars will know well, the Accord story would never stop there and so, the decision was taken that 1982 should be the year of the New Generation Accords.

In these pages, we proudly present the Accord Hatchback and the Accord Saloon – quieter, larger and more luxuriously appointed than ever before. Totally new cars, proudly bearing the name Honda and the traditions of excellence, quality and engineering perfection that it implies.

HONDA ACCORD SALOON

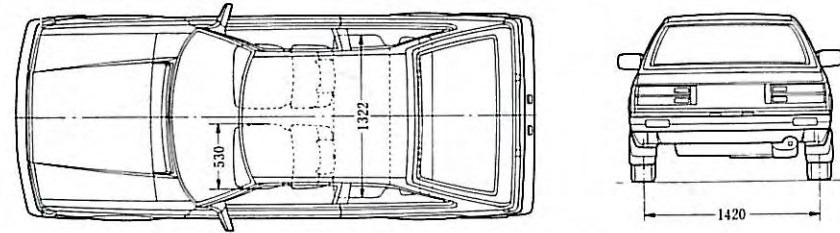

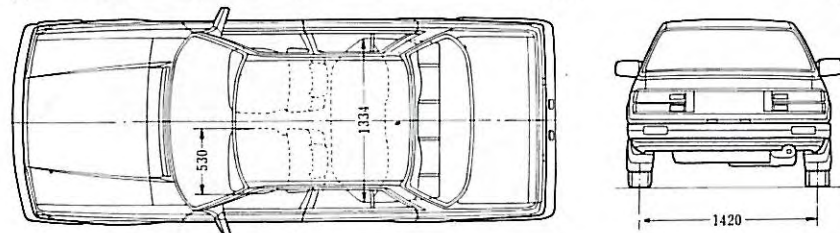

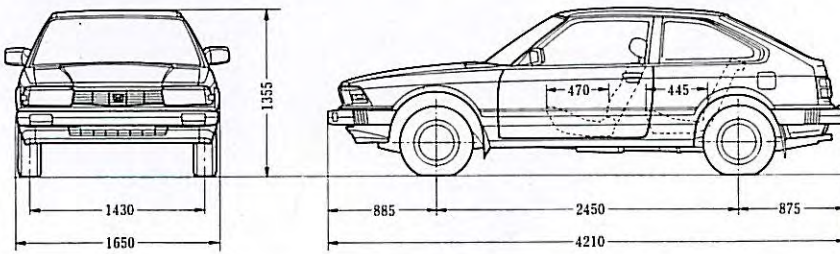

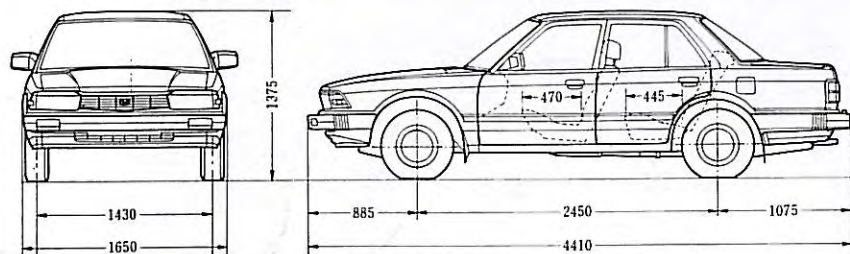

TECHNICAL SPECIFICATIONS (Hatchback figures shown in brackets)

Engine:	Watercooled, OHC, four-stroke, in line four cylinder, transverse mounted. Front wheel drive.
Displacement:	1602 cc
Bore × Stroke:	77 × 86 mm
Compression ratio:	8.8 : 1
Horsepower:	80 ps @ 5,000 rpm (59 kW) DIN
Torque:	12.9 kg-m @ 3,500 rpm (126.5 Nm) DIN
Transmission:	5 speed or Hondamatic with overdrive ratio
Steering:	Rack and pinion. Variable ratio power assisted on EX model
Suspension:	Four wheel independent MacPherson strut
Brakes:	Hydraulic, servo-assisted, ventilated discs front Hydraulic, servo-assisted drums with PCV rear
Tyres:	165 SR13 steel-belted radial
L × W × H:	4410 × 1650 × 1375 mm (4210 × 1650 × 1355 mm)
Wheelbase:	2450 mm
Track:	Front - 1430 mm Rear - 1420 mm
Ground Clearance:	165 mm
Fuel Capacity:	60 l
Curb Weight:	963 kg (935 kg)
