

ACCORD

TWO DOOR HATCHBACK

HONDA

A remarkably complete automobile

Complete information showing air-con. and Hondamatic options

In this brochure we are proud to present the Honda Accord Hatchback, a car like the Accord Saloon, with a very short list of options.

As you look through this brochure, you'll notice that the features and comforts illustrated are not optional extras at inflated extra cost – they are all part of your new Accord Hatchback.

In fact, the only option decisions you'll face are whether to drive the standard five-speed manual transmission or the unique Hondamatic system with the added overdrive ratio and whether you want to enjoy the extra comfort and safety of Honda's brilliant year round, fully integrated airconditioning system.

Accord Hatchback is undoubtedly a luxury sedan with a level of equipment and appointment rarely found in other cars at any price and yet, it's much more than that too.

The split, fold-down rear

seat means that Accord offers the added benefit of being a station wagon when required.

As you drive Accord, you'll realise that it's a true driver's car and now it features the same speed responsive power assisted steering system that's found on the Accord Saloon.

You get the best of both worlds – maximum power assistance for parking and low speed manoeuvring, maximum road feel at speed on the highway.

If you compare Accord's standard feature list with that of others, you'll see that Accord offers a great deal for both driver and passengers.

Put yourself in the driver's seat – there's a most comprehensive range of instruments, meters, dials and warning devices. They cover virtually every driving function.

The controls fall readily to hand, ensuring that you drive easily, safely and pleasurably.

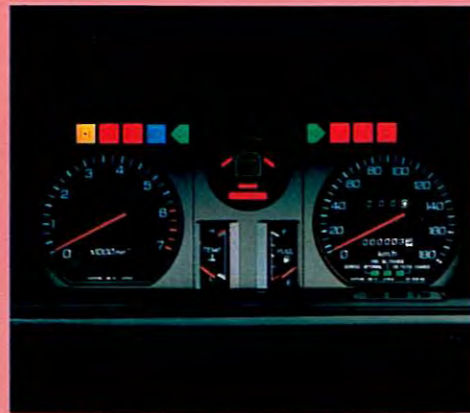

The heating/cooling/

ventilation control system is a masterpiece of design simplicity allowing you to control air temperature, strength and direction totally.

If you choose Honda integrated airconditioning, the

Power steering

Information at a glance

Tricot comfort

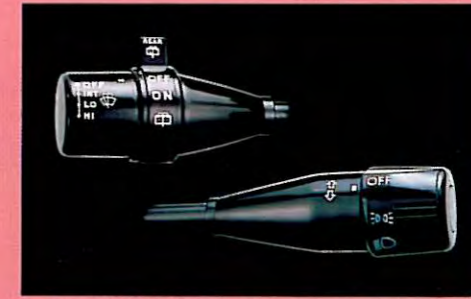

Bold rear lights

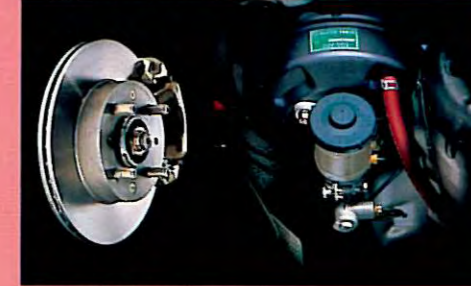

only visible evidence is a small button in the centre of the fan speed switch.

Accord is a truly economical vehicle to own and drive. On the highway in fifth gear (or Hondamatic overdrive) it cruises effortlessly all day and, with independent suspension all round, rack and pinion steering and steel belted radial tyres, it's a joy to handle.

Honda Accord Hatchback is the car you want it to be – a luxury sedan, a highway cruiser, a sporting car, a station wagon and more, but above all, Honda Accord is a car that will make you proud to own it and give you immense driving satisfaction.

Fingertip controls clearly identified
