CIVIC

4-door Sedan

More Civic Than Ever Before!

That's the easiest and most accurate way to describe this latest in a line of legendary vehicles proudly bearing the name Honda Civic.

The promise inherent in the

in the way Civic is appointed and engineered.

Traditional Luxury

Honda's traditional touches of excellence abound throughout, in things like the tilt-adjustable steering column, the magazine pocket on the rear of the front passenger seat.

Front seats for both driver

new Civic is truly one of its outstanding qualities offering a huge 30% increase over that of the 1983 model.

Aerodynamics

You'll notice that the doors extend up into the roof line reducing wind noise significantly whilst making getting in and out of the car far easier.

Power To Spare

In the engine compartment, remarkably small for the size of the unit, you'll find a 1.5 litre, 12 valve cross-flow power plant that delivers immense power for its size and yet typically also offers very desirable economy.

Suspension

The suspension is totally new and contributes greatly to even higher standards of handling and stability under a variety of conditions as well as making a major improvement to the aerodynamics of the car.

It uses a torsion bar configuration at the front and a trailing link beam at the rear. Anti-dive front and anti-lift rear geometry enhance the car's stability and performance under braking.

Airconditioning

The most desirable and useful option available for your Civic is almost certainly Honda's fully-integrated air-conditioning system. It's an all-year-round system that produces dry, warmed or

stylish, aerodynamic lines and the smooth, sculptured flow of the body, from the front air-dam to the slightly upswept trunk is more than fulfilled

and passenger are generously adjustable for front and rear movement - 180mm - and recline in increments of 2° through 38 steps.

The luggage space in the

Further improvements in wind noise reduction are achieved by the use of a bonded windshield, recessed door handles and more.

cooled air to keep you comfortable in virtually any outside conditions.

It makes driving easier, safer and vastly improves the demisting of your car's interior glass.

Honda has taken one of the world's most popular and well respected cars and completely redesigned it to produce a powerful but economical, spacious but compact vehicle that is more than ever a car

to enjoy, a car to be proud of and a car that will serve you well now and for many years to come.

HONDA®

Optional Honda alloy wheels fitted to this model.
