

A new approach to elite performance.

Ian Thorpe and the new Audi A3 Sportback have much in common – each is a finely-tuned combination of form and function. The A3 Sportback is a fresh new concept: offering you the practicality of a 5-door hatchback, but with the sportiness of a classic coupe. Its striking front design, high shoulder-line, and distinctive rear, embrace a unique set of dynamic and emotional characteristics.

You can choose from an exclusive range of high-performance engines. The 2.0-litre FSI (Fuel Stratified Injection) petrol, and 2.0-litre TDI (Turbocharged Direct Injection) diesel engine both incorporate direct fuel injection for improved responsiveness and economy. The first Turbocharged FSI engine in its class, the 147 kW 2.0 TFSI guarantees breathtaking performance and enjoyment. The further refined 1.6-litre petrol engine offers greater driving flexibility, whilst the 184 kW 3.2-litre V6 ensures unmatched dynamism. Thanks to the new six-speed manual, tiptronic and Direct Shift Gearbox (DSG[®]) transmissions, the new Audi A3 Sportback offers sports-style performance, with class-leading refinement and economy.

The new Audi dynamic chassis, combined with electro-mechanical speed-sensitive steering creates a perfectly balanced, sporty yet comfortable ride. With Audi's famous quattro[®] all-wheel drive technology, the new Audi A3 Sportback offers surefooted sports performance. The new A3 Sportback boasts numerous standard safety features including driver and front passenger two-stage frontal, and side airbags, SIDE GUARD head airbag curtain for front and rear passengers and active front head restraints. Standard active safety features also include Audi's Electronic Stabilisation Program (ESP), incorporating Anti-lock Braking System (ABS), Electronic Differential Lock (EDL), Anti-Slip Regulation (ASR) and Brake Assist.

It's a combination of refined technology and unique design that makes the new Audi A3 Sportback an exhilarating car to drive – and a rewarding car to own.
