

## Pushing the limits. The new Audi A4 Avant

Versatile. Elegant. Dynamic. The new Audi A4 Avant pushes the limits in every sense. From its flexible capacious design to its sporty performance, the A4 Avant is the ultimate vehicle for carrying everything from luggage for your holiday to sporting equipment for the weekend. Its generous load-carrying area of 442-litres, or 1,184-litres with the rear seats folded easily swallows all of the essential items for modern couples and families. Not only is the new A4 Avant versatile and practical, but also leads the way with stylish design.

More power from every drop of fuel. The introduction of the new T FSI® (Turbocharged Fuel Stratified Injection) petrol engine creates a new benchmark in refinement and performance. Developing 147 kW and an amazing 280 Nm of torque, the 2.0 T FSI® guarantees breathtaking responsiveness and driving enjoyment. Developed for Audi's Le Mans motorsport program, FSI® direct injection technology creates more power from every drop of fuel. The powerful 1.8-litre Turbo and all-alloy 2.0-litre petrol engines offer a high level of performance and unmatched refinement. Working hand-in-hand with these powerful engines, Audi's ingenious multitronic® continuously variable transmission ensures seamless power and greater responsiveness.

The new Audi dynamic suspension incorporating four-link front and self-tracking trapezoidal link rear suspension system represents pioneering engineering. The dynamics of the new Audi A4 Avant have been optimised even further with a new servotronic speed sensitive steering system. The new Audi A4 Avant offers a dynamic yet comfortable ride, precise steering, and by virtue

of Audi's famous quattro® all-wheel drive technology, dynamic and surefooted performance.

A truly safe car doesn't just minimise the effects of an accident, it minimizes the risk of an accident happening. Standard active safety features include Audi's Electronic Stabilisation Program (ESP), incorporating Anti-lock Braking System (ABS), Electronic Differential Lock (EDL), Anti-Slip Regulation (ASR), brake disc wiping system and brake assist. In case of an accident, standard passive safety features in the new Audi A4 Avant incorporate active front head restraints, intelligent two-stage frontal airbags, side airbags seat mounted for front and rear passengers and SIDEGUARD head airbag curtain for front and rear passengers.

The A4 Avant pushes the limits.  
Experience it. The new Audi A4 Avant
