

## The new Audi Q7

## The new Audi Q7 - the performance 7-seat SUV

Never before have convincing characteristics been combined in such impressive fashion. The Audi Q7 is a new generation of premium SUV and a genuine performance SUV.

The design of the Audi Q7 combines dynamic elegance with a powerfully sporty charisma. The body is an impressive example of systematic and innovative lightweight design, without sacrificing characteristics such as sturdiness and solidity. Space, dimension and variability have been newly defined on the Audi Q7, as have power and performance. The drive concept of the Audi Q7 is distinctively dynamic on and off paved roads. quattro® permanent all-wheel drive with asymmetric/dynamic torque distribution ensures maximum traction, agility and cornering stability – the basis for the ultimate in driving dynamics and safety. The suspension combines sporty handling with maximum ride comfort, while its ground clearance also enables it to drive over rugged surfaces.

Innovative electronic driver assistance systems provide additional convenience, and the advanced electronic stabilisation program (ESP) enables the driver to maintain even better control over the vehicle.

An outstanding space concept with exceptional functionality and a level of variability that provides almost unlimited scope for realising individual requirements. Inside the Audi Q7, the driver and passengers will find premium quality, luxury and comfort. Mobility is thus transformed into an experience that knows no limits.

Choose between the high torque 3.0 TDI® quattro, 3.6 FSI® or powerful 4.2 FSI V8 for sports performance on the road, and impressive power off it. The 4.2 V8 FSI combines supreme torque at low engine speeds with enormous power-output extending right up to the highest engine-speeds. The 3.0 V6 TDI also develops exceptionally high torque and matches the character of a premium SUV perfectly. All engines within the Q7 range deliver the power and torque needed for sheer performance, exceptional driving dynamics and impressive off-road capability – whenever needed and to suit a specific driving situation.
