

The new Audi S8

The new Audi S8.

The pinnacle of sports luxury

Sportiness can be found in the genes of all Audi models – however for those special cars badged with the letter ‘S’ it is taken to the highest level and stands for absolute sportscar authenticity.

From the very first glance, the new Audi S8 is clearly a vehicle possessed of an unmistakable promise of power. When combined with the traditional Audi A8 brand values of absolute luxury, superb quality and the latest technology, the performance potential of this superlative sportscar is unparalleled.

The heart of the S8 beats like that of a highly-tuned athlete as the power and dynamic performance are allied in absolute harmony. In a single moment the entire reserve of power from the all-aluminium 5.2-litre V10 engine can be unleashed. At 7,000 rpm, the S8 achieves an astonishing 331kW of power and the engine reaches its maximum torque of 540 Nm at 3,500 rpm. Impressively, 90 percent of this enormous power reserve is available from only 2,300 rpm. The result is tremendous acceleration all the way up to a governed top speed of 250 km/h.

The new Audi S8 is characterised by a virtually instantaneous reaction to the throttle, its 5.2-litre V10 FSI direct fuel injection powerplant offering irresistible acceleration and superb traction by virtue of Audi’s new quattro permanent all-wheel drive system. With the company’s new asymmetric/dynamic torque distribution characteristic, Audi’s quattro system ensures all of the engine’s power is applied directly to the road. The Audi S8 is equipped with an innovative adaptive air suspension with ‘sport’ S specific setting allowing dynamic driving agility without any sacrifice to comfort.

From every perspective, the new S8 combines performance and design in a single, standout package. The high shoulderline, distinctive dynamic line and taut, athletic appearance is enhanced by Audi’s the striking single frame grille. The eye-catching 20-inch aluminium wheels with S-styling and wide road stance work together to ensure that the power of the engine can be applied to the road with ultimate effectiveness.

Supreme power and superb luxury can exist hand-in-hand, and with the new Audi S8, this symbiosis is taken to the highest possible level.

Technical Data	S8 5.2 V10 FSI quattro
Cylinders/valves	V10/4
Capacity (cc)	5,204
Power (kW/rpm)	331/7000
Torque (Nm/rpm)	540/3,500
Transmission	6-speed tiptronic with DSP and sport program
Acceleration 0-100km/h (sec)	5.1
Top speed (km/h)	250 km/h (Governed)
Wheels	20" cast aluminium S design wheels, with 265/35 profile tyres
Safety	
Active front head restraints	●
Adaptive air suspension - sport	●
Airbags for driver and front passenger, two-stage inflation, side airbags for front and rear passengers and SIDEGUARD head airbag curtain for front and rear passengers	●
