# JAZZ IT UP

Places to go and people to see. It might be sport on the weekend, or a drive into town. Perhaps you're taking a holiday, or it's an outing with friends. You're always on the go, and you've often got company. Whatever your lifestyle, you'll get it all in the Honda Jazz – comfort, performance, safety and style.

Jazz is more than a car, it's a new concept of car. Its zippy performance handles city driving as well as it cruises on the open road. Wind-cheating aerodynamics and remarkable fuel economy mean you'll drive further for less. Power steering and a tiny turning circle make parking a breeze. And its ingenious interior design and 'Magic Seats' provide seemingly endless loading possibilities.

# JAZZ POWER

GLI model shown

VTi model shown

Wherever you go in the Jazz, you're assured of superb performance, handling and stability – and the choice of two exciting engines. Press the accelerator and the GLI's four cylinder, fuel injected 1.3 L i-DSI (Intelligent Dual and Sequential Ignition) engine responds with a surge of power. This engine generates 61 kW of power at 5700 rpm and maximum torque of 119 Nm at only 2800 rpm, which is great for city and highway driving.

Besides being lightweight and compact, the twin spark i-DSI engine was created to deliver the ultimate in combustion efficiency and a fuel economy of just 6.0 litres per 100 km (combined)\*. And at the same time, Honda's LEV (Low Emission Vehicle) technology means that exhaust emission levels far exceed Australian standards – taking care of both people and the environment.

Or there's also the VTEC approach to performance and economy found in the 1.5 L VTi and VTi-S Jazz. Honda's renowned Variable Valve Timing and Lift Electronic Control (VTEC) system

generates 81 kW of power at 6000 rpm and maximum torque of 143 Nm at only 4800 rpm – offering zippy, powerful performance along with excellent fuel economy.

All models have the option of a sporty 5-speed manual transmission, or automatic Continuously Variable Transmission (CVT). Exclusive to the VTi and VTi-S model is an all new F1 inspired, 7-speed Sequential Shift CVT automatic transmission controlled by steering wheel-mounted paddles. The left hand paddle is used to change down and the right hand paddle to change up a gear in true Formula 1 style, while a "7 Speed Mode" button on the right switches between sequential and automatic modes. This means you can enjoy the convenience of automatic gear changing, or, when the mood takes you, fingertip shifting. Why should Formula One drivers have all the fun?

\*Jazz GLI Manual - based on ADR81/01 test results.

# JAZZ STYLE

VTi model shown

Driving a Jazz means you automatically set yourself apart. Every detail is a statement of your individual style. The large lower opening with mesh grille on the front bumper, combined with the flared wheel arches, emphasises the low, sporty stance. For a bolder look, the Jazz VTi-S features larger bumpers with integrated body skirts. In all models, big, multi-reflector headlamps with chrome-plated headlight rings flank a steeply raked, scalloped bonnet, accentuating the sleek lines and distinctive form – and it doesn't stop there.

The interior of the Jazz features bold curves and striking metallic accents, as well as a slick control panel and chrome instrument cluster to create an inviting and dynamic driving environment. The three main dials of the instrument panel are self-illuminating – transforming to a

bright display when the door is unlocked, and an even higher contrast when the ignition is switched on, for optimum legibility.

The audio system which includes CD tuner and AM/FM stereo radio is fully integrated, providing seamless styling continuity with large switches for easy operation. A highly legible liquid crystal reading permanently displays the time as well as radio and CD track information.

Jazz's user-friendly cabin puts you in total control. Whether you're changing radio stations or operating the power windows and mirrors, you'll find everything is within arm's reach. Controls are firm to the touch and every surface has a solid, quality feel. And because a comfortable, relaxing interior creates a better driving experience, the Jazz is designed to be supremely quiet.

# JAZZ ROOM

VTI model shown

When it comes to getting things moving, you can fit almost anything in a Jazz. With its revolutionary 'Magic Seat' system, you can open up a huge range of loading possibilities in seconds. With three seat configurations to choose from (utility, tall and long mode), a simple fold of a seat will see you transporting mountain bikes, suitcases or other bulky items in no time.

Jazz in tall mode with the back seat cushion raised, creates enough

space to accommodate four large suitcases stood upright, three large golf bags stacked on top of one another, or a tall shrub stood upright.

In utility mode, the rear seats fully collapse making sufficient space for mountain bikes, suitcases and just about anything else you can think of.

With the Magic Seats in long mode, the passenger front seat back can be fully reclined onto the collapsed rear seats to allow items of up to

2.4m in length to be stowed, perfect for a surfboard.

For smaller, everyday objects, there's a deep storage pocket in the centre console along with three cup holders. You'll also find extra storage trays on both sides of the dash and even a handy secret parcel space beneath the rear seats. The Jazz makes use of every millimetre to provide a spacious cabin where everything's within arm's reach.

VTI model shown

# JAZZ FOR LIFE

VTI-S model shown

For the highest levels of driver and occupant protection, Jazz has been constructed with an array of ingenious new safety technologies. Utilising Honda's advanced G-force control technology (G-Con), crumple zones in the front and rear absorb crash forces by progressively deforming. In a side-impact, a beam in each door resists intrusion while a rigid floor beam is designed to transmit lateral forces beneath the cabin, preserving the space within.

Even the fuel tank has extra crash protection by being located centrally beneath the floor. Developed through repeated stringent crash tests, the protective car body meets the world's strictest government safety standards, giving you driving confidence. And of course, standard driver and front passenger dual SRS airbags, Anti-lock Brakes (ABS) and front seat belt pre-tensioners contribute to

keeping trouble at a distance and are testament to Honda's ongoing commitment to safety. Jazz also continues Honda's push for pedestrian safety with an unobstructed area between the bonnet and engine, bonnet hinges that compress upon impact and energy absorbing wiper pivots that all contribute to pedestrian safety.

# JAZZ FLAIR

When you drive a Jazz, you're already making a statement, but why stop there when there's a full range of genuine Honda accessories to personalise your Jazz?

Accentuate the sleek lines with a colour coordinated body kit and alloy wheels, or create your own driving space with a 6-disc CD changer.

Your Honda Dealer can help you select the accessories for your Jazz and have them installed at the time of purchase. They'll then be fully covered by the 3-year, 100,000 kilometre new car warranty.

# JAZZ CLUB

The world's finest cars: the world's finest after sales service. The pride you'll feel in your new Jazz is one we feel as well. That's why we take just as much care building our Dealer network as we do building our cars.

Committed to maintaining your vehicle value long after the sale, becoming a Jazz owner also entitles you access to the exclusive after sales website, HondaONE.

Providing you with personalised services and functions, HondaONE is a secure website that's all about you and your car. Updating you with an online service history, personalised service reminders and vehicle maintenance tips, HondaONE allows you to view your vehicle records with the simple click of a mouse button.

Not only do we give you an online record of your vehicle's service history, Honda Dealer staff and technicians work hard offline to be constantly kept up-to-date with advanced technologies. So no one else could possibly service and tune your Honda quite as well.

Especially when you consider the huge investment in specialised technical equipment unique to Honda that every Honda Dealer utilises. Naturally, we recommend you service your Jazz regularly to maintain its value.

And never accept anything less than Genuine Honda Parts. Every Honda Dealer maintains a comprehensive inventory of Genuine Parts to keep your car genuinely working the way its designers intended. Proudly, your Jazz – like every new Honda – comes with a comprehensive 3 year, 100,000 kilometre warranty.

This includes a 3-year surface corrosion warranty and a 6-year rust perforation warranty for your absolute peace of mind. As you can see, Honda is committed to your car long after the sale. That's why our alliance with every Honda Dealership is so important to us and invaluable to you throughout your ownership.

Purplish Blue Metallic†

Taffeta White

Alabaster Silver Metallic†

Helios Yellow Pearl†

Dreams inspire innovation. At Honda, they spark our concept for designing cars, believing the fastest way to evolve new technology is at 300km/h on a racetrack. The hothouse environment of Formula One is where the dreams of our engineers are tested and then transferred into superior road cars. Cars that are powerful yet fuel-efficient. Cars with superior handling dynamics and safety. Cars so well built, they're a pleasure to own and drive.

And while we are proud of the technological breakthroughs wrought on the racetrack, collecting trophies has never been our focus. Our ultimate triumph has been injecting F1 technology into every new Honda, making advanced technology available to all people, putting our customers in touch with The Power of Dreams.

†Metallic/Pearlescent paint additional cost.
