

availability. Only Genuine Honda Accessories are made to fit Honda vehicles. For a Genuine Honda Accessory brochure contact your Honda Dealer or Honda Australia on 1800 804 954.

Honda's winning Formula. Honda is at the forefront of the constantly evolving automotive world. Our involvement in Formula One racing continues to give us insights into automotive performance and efficiency. Insights which we don't just apply to our racing vehicles, but to every car we design for today's roads. So when you buy a Honda, you're investing in the most sophisticated level of technology for you and your family. You're also investing in one of the most innovative automotive brands in the world. A brand that likes to challenge convention. A brand that refuses to settle for "OK", but instead chooses to ask, "What if?" Odyssey What if you could improve something that is acceptable the way it is? What if you questioned whether the way something is, is the way it must be? What if you wondered if it could be better – if everything could be improved? What if you just thought to ask "What if?" At Honda, that's a question we allow ourselves to think every day. "What if?" inspires us to question everything. It pushes us to reach higher, to surpass the ordinary, to dream of something better. How else would we continue to create products that defy convention, if we didn't think to ask things like: "What if we could create a family car Odyssey Luxury shown. that doesn't look like a family car?"

Let the Odyssey begin.

The Honda Odyssey sets the standard. Unlike previous 7 seaters on the market, the Honda Odyssey offers as much style as it does space. We are offering a high standard of driver enjoyment and vehicle sophistication.

The Honda Odyssey is a culmination of this and much much more.

This impressive automotive technology is available in two different models: the Odyssey and the Odyssey Luxury.

Both models have a range of standard features which take comfort and sophistication to a high level. The Odyssey and Odyssey Luxury boast stylish woodgrain look panelling, climate control air conditioning, power windows and even the added convenience of 8 separate cup holders.

The Odyssey Luxury has additional features which contribute to its reputation as a truly superior sports wagon. These include heated front seats, sumptuous ivory or black leather interior[†] and a 6 CD stacker. Quite clearly, when it comes to comfort, no small detail has been overlooked.

Of course we understand that your safety is paramount, which is why the Odyssey and Odyssey Luxury come equipped with driver and front passenger front and side SRS airbags, ABS and front seatbelt and buckle pretensioners. For added peace-of-mind, the Odyssey Luxury model also features curtain SRS airbags for all three rows of seats. As you can see, the Honda Odyssey has created a high standard of design.

†Leather interior includes some PVC vinyl material.

How can it be smaller on the outside but bigger on the inside?

Don't be deceived by the sleek look of the Honda Odyssey. It has more internal space than you think despite its low sporty stance. Yes, it defies conventional logic, thanks to its world class design.

The i-VTEC engine design is compact, which allows for a shorter vehicle nose while creating more leg room for the driver and passengers in the roomy cabin.

The ingenious low-floor construction of the Odyssey gives you extra headroom inside. Lower height and more headroom? Now that's logic defying.

The Odyssey fuel tank has been designed to measure just 150mm in height yet still retains its 65 litre capacity. This significantly lowers the second-row seat height and again creates more space, perfect for whatever cargo you choose to carry.

Overall, the Odyssey's intelligent design gives you more room to sit back, relax and enjoy the journey.

Revolutionary fuel tank design.

How can a car be like a big cat?

The sleek appearance and low stance of the Odyssey clearly sets it apart from other vehicles and elevates it to a class of its own. It's no coincidence that the Odyssey derives its look from a black panther, it was the inspiration for the design team.

Forget family cars that look like bricks, instead indulge in the cutting edge urban design of the new Honda Odyssey. It exudes style with its low, smart front expression and its powerful, flared front fenders.

Arriving at your destination will take on a whole new level of enjoyment.

Why simply turn up, when you can turn heads?

A world of features.

The highest level of craftsmanship has gone into creating the Odyssey and Odyssey Luxury.

Both models feature climate and cruise control, keyless entry, power windows, front and side SRS airbags, ABS and front seatbelt and buckle pretensioners, woodgrain look panelling, and even the convenience of 8 cup holders.

And if you think that's impressive, take a moment to consider what the Odyssey Luxury model has to offer. It comes equipped with an electric sunroof, sumptuous ivory or black leather interior¹, with heated front seats, power assisted driver's seat, curtain SRS airbags for all three rows and a 6 CD stacker.

In fact, the Odyssey and Odyssey Luxury are so appealing that we insisted on installing a security alarm system into every vehicle.

As you can see, both models are advanced when it comes to features.

And speaking of 'advanced', wait until you see the futuristic dashboard inside. It may be sleekly designed but the Honda Odyssey's space-age dashboard also has an incredible range of controls, all within easy reach of the driver.

The Odyssey and Odyssey Luxury are also equipped with what we like to call 'Magical Seats'. This remarkable feature allows the Odyssey's 3rd row seats to be folded flat in the event that you may need additional storage space. The Odyssey's Magical Seats are manually operated, while in the Odyssey Luxury they can be quickly activated with a simple flick of a switch.

A world of features await you inside the Honda Odyssey.

Designed for your safety.

Because your passengers are top priority, safety is unparalleled in the Honda Odyssey. Every angle has been considered to deliver the highest level of safety, from risk prevention to occupant protection.

You can drive confidently knowing your passengers are protected by a range of active and passive safety components. Features like Anti-Lock Brakes (ABS) which prevents wheel locking in an emergency braking situation, 3 point ELR seatbelts are fitted in 6 of the seating positions and side impact protection gives you peace of mind. But it doesn't stop there.

Each Honda Odyssey is installed with exclusive Honda G-CON (G-Force Control) technology to ensure maximum safety. In fact, we're so serious about safety, that we have the world's first indoor omnidirectional crash test facility. This facility enables us to run comprehensive crash tests and develop vehicles which are able to withstand great impact in collisions.

Both models feature driver and front passenger front and side SRS airbags, as well as progressive crumple zones for your added protection.

Odyssey Luxury offers even more reassurance with curtain SRS airbags for all three rows of seats.

A quality vehicle deserves quality service.

Your new Odyssey comes with a 3 year/100,000 km warranty. This includes a 3 year paint protection warranty and a 6 year rust perforation warranty.

We're committed to you as a Honda customer and will provide you with exclusive access to our after-sales website, HondaONE. Here you'll find an up-to-date online vehicle service history, personalised service reminders and vehicle maintenance tips.

We recommend you service your Odyssey regularly at your Honda

dealership in order to maximise your driving enjoyment and to retain your Honda's value. Genuine Honda Parts and Accessories optimise its efficiency.

Our commitment to you as a new Honda owner not only includes outstanding after-sales service but also means that you're entitled to receive Honda, The Magazine. You will receive three issues per year over a five year period so that you can keep update with all of the latest news from Honda.
