

Tiburon

Drive your way

Your way is our way.

Whatever your dreams. Wherever you're going. Whoever you want to be. The discoveries, the adventures, the challenges await. It's your journey and we'll take you there.

Hyundai. Drive your way.

It's your turn behind the wheel. Live your life and shape your future as you see fit. Our promise is to deliver first-class value through innovative technology, advanced safety features and a determination to build the highest quality cars. Our guarantee to you is your satisfaction with cars that perfectly fit your needs and lifestyle. An extensive dealer network and full warranty support means your confidence in your Hyundai need never be compromised.

Turn heads in the visually decadent new Tiburon V6. Make your presence felt and create an impact. Sensuous curves and streamlined style are complemented by deeply-contoured wrap-around seats, alloy cabin highlights and aircraft-style instrumentation. Sharp handling is just one of the features that makes the Tiburon V6 the car you have to drive.

First impressions count

Looks, lifestyle, luxury

Tiburon TS model in Vivid Blue shown

A promise fulfilled

Slip into the body-contoured seats finished in combination cloth and leather and you'll realise this is where you were meant to be. You'll be impressed by all the other interior enhancements too, which together, create a sense of occasion.

The Tiburon's sporty interior characterises its performance potential too. Instinctively, you know the car will deliver on its dynamic promise of power, handling, road-holding and braking.

The result is a rare combination of style and sophistication, sportiness and sensuality. This is the car you always promised yourself.

Air quality system

Clean, pollen-free air circulates throughout the cabin thanks to an advanced Air Quality System (AQS) at the core of the car's heating and ventilation system. Whatever the weather, the AQS automatically senses fluctuations in outside temperatures and changes from fresh to re-circulated air inside the cabin for optimum comfort.

Night ambience

The instrument dials and information controls are illuminated by a cool blue light that's not only highly attractive to the eye, but the most suitable colour for night visibility.

Sound system

A six speaker multi-format audio system delivers unprecedented depth and quality of sound and features MP3/WMA/CD Player and AM/FM tuner with security PIN code. An integrated auxiliary jack is available for connecting external media sources such as iPods and MP3 players.

The destination you drive

The Tiburon's stunning interior is more than a match for the striking exterior, with attention paid to even the smallest of details. The ergonomically efficient cabin features cool blue instrument lighting, premium audio system with CD/MP3 and iPod connection, pollen filtered fully automatic climate control with Air Quality System (AQS) and aluminium effect finishes for the steering wheel, console and air vents. For ultimate peace of mind, Tiburon offers keyless entry, central locking and an alarm with a unique panic feature.

In terms of safety, convenience and comfort, what Tiburon delivers from behind the wheel will excite the driver in you. The car itself is as much a destination as the direction you're heading.

It's waiting to be driven... with gusto.

Sheer pleasure... superb control

The vision of a sweeping highway is embraced with relish by the Tiburon. The journey becomes a joy as the car responds instantly to your every input from steering and acceleration. The super slick, short throw six speed manual transmission (or optional four speed Selectronic) and taut suspension empower the driver and enhance the experience. It's what all sports cars should be — a pleasure to drive and always in control.

Sunroof optional; low set rear wing on Shine Red Tiburon optional

Engineering perfection

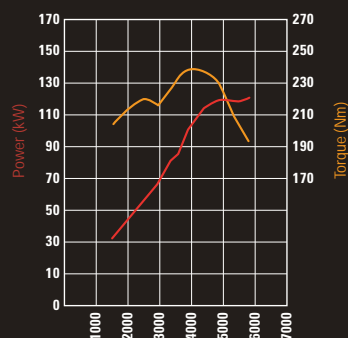

The uncompromising design and superior engineering of the Tiburon promises vehicle dynamics and performance like no other. Thanks to the extensive use of aluminium alloy in its construction, Tiburon's 2.7 litre, all-alloy, quad-cam 'Delta' 24 valve V6 engine ensures peak torque of 245 Nm @ 4000 rpm.

All-independent MacPherson powerful 4 wheel suspension and front ventilated disc brakes with dual-link rear suspension with nitrogen gas-filled shock absorbers ensure sharp sports handling, while Anti-skid Braking System (ABS) and Electronic Brake-force Distribution (EBD) boost braking performance and manoeuvrability.

2.7 litre six-cylinder Delta

The magnificent V6 light-alloy engine has twin overhead camshafts for each cylinder bank and 24 valves to control inlet and exhaust gas flows. The unit has a power output of 123 kW and torque of 245 Nm with a choice of six speed manual or four speed automatic transmission with electronic sequential mode and Hyundai intelligent Vehicle electronic control (HiVec).

2.7 V6 DOHC

Uncompromised safety

From its structural integrity, steering, handling, road-holding, brakes and air bags, the Tiburon encompasses the ultimate in active and passive automotive safety technology. Your protection is maximised as a result of the low centre of gravity, all-independent suspension, and super solid core and precision steering. The rigid laser-welded, all-steel body construction is further reinforced with impact diffusion and energy-absorbing crush zones that don't sacrifice any of Tiburon's sporty design aesthetic.

1. Control your destiny

For the manual enthusiast who wants total control, Tiburon's six speed manual transmission has a dual mass flywheel to reduce gear noise and a sensual chrome-topped gear stick. Smoother changes and a sexier shift mean less distraction and an enhanced driving experience.

2. Soft landing

With two front and two side airbags as standard, the driver and front passenger are literally cocooned in safety. Smart use of dual threshold SRS technology means the airbags inflate in scale with any collision to reduce the risk of injury.

3. Smooth yet strong

The Tiburon maintains its poise in all road conditions thanks to its all-independent sports suspension – MacPherson struts at the front; dual links and coil springs at the rear. The quality of the ride and road-holding is aided by the immensely strong unitary bodywork, which was honed by computer-aided engineering prior to any crash tests. As a result, Tiburon owners can enjoy their driving... in safety.

2.

3.

Electronic Stability Program (ESP)

ESP maintains vehicle control in unexpected situations. It uses constantly updated information from a multitude of sensors to continuously determine whether the car is going in its intended direction (steering direction versus body direction) either through over-steer or under-steer. If this starts to occur, ESP intervenes to reduce engine power and, if required, applies the brake to one or more wheels with varying force to stabilise the car and avoid skidding.

Anti-skid Braking System (ABS) and Electronic Brakeforce Distribution (EBD)

Maximising stopping performance is achieved through the Anti-skid Braking System. ABS is assisted with the automatic application of EBD where the braking power balance to the wheels adjusts to changes in total vehicle weight, therefore maximising braking power and minimising braking distance.

Seat belt pretensioners

Tiburon's unique seat-belt pretensioning mechanism pulls in the 3-point belts taught against the body while belt force limiters control the impact of the upper torso when it meets the airbag, to further reduce the risk of injury.

4 wheel disc brakes

Highly responsive, power assisted 4 disc brakes with floating callipers provide unprecedented stopping power. The front brakes are ventilated for additional cooling during hard treatment, while the inclusion of ABS with EBD ensures all-round superior braking performance.

Destined to impress

Tiburon TS model in Vivid Blue shown

Looks to thrill

The new Tiburon looks like nothing else on the road and is guaranteed to make an impression. Its race-track inspired lines communicate the car's exhilarating driving characteristics, yet the Tiburon is also a practical Grand Tourer — comfortable and refined. It just happens to look a million dollars too. This is the car you deserve and the car others will envy.

1. Headlamps

Redesigned black bezel headlamps with clear turn signals enhance the sporty looks.

2. Keyless entry

The electronic fob includes alarm and panic feature.

3. Power steering

The steering wheel features metallic embellishments that match other interior improvements. The wheel's power assistance is balanced to give precise and reassuring steering feel.

4. Pedal power

The look of the optional brushed aluminium pedals is wholly in keeping with the Tiburon's sporting flavour. They complement other metallic trim touches to create a high quality ambience in the cabin.

5. Power input for external media connection

You'll love being able to jump in the Tiburon, plug in your media player and instantly play all your tunes through Tiburon's multi-format audio system.

6. High rear spoiler

A distinctive feature, not only does the spoiler ensure aerodynamic efficiency, it also comes with an integrated high mount stop lamp.

7. Instrument cluster

The primary instrument cluster immediately in front of the driver features attractive blue backlighting when it is dark. An information centre sits between the speedometer and tachometer.

8. Cup holders

A pair of handy cup holders, each equipped with side tensioners in order to stabilise differently sized containers, are located between the two front seats.

9. Audio system

A six speaker multi-format audio system which comprises MP3/WMA/CD player and AM/FM tuner with security PIN code.

10. Twin exhaust outlets

A sporty finishing touch, the dual exhaust accentuates the athletic look and feel of the V6 while helping to maximise the car's power.

11. Air conditioning

The highly efficient and fully automatic air conditioning system boasts a fresh look for the display and controls located on the centre fascia. It echoes the rest of the interior's metallic trim and blue background lighting. Clean, pollen free air circulates throughout the cabin thanks to the advanced Air Quality System (AQS).

12. Central storage

A deep, lidded compartment between the front seat backs offers useful storage for small items that might otherwise slide about when on the move.

13. Electric sunroof (optional)

An important sporty feature, the sunroof comes standard on Tiburon TS and is optional on Tiburon.

14. Rear lamps

Incorporating all rear lights under newly designed covers produces a cleaner appearance. Like those at the front, the light clusters are edged with black surrounds.

15. Luggage space

The trunk has generous accommodation for the accoutrements of everyday life. For some, a net for the floor is an essential to prevent everything from rolling around.

16. 17" Alloy wheels

Large 17" alloys with 215/45 unidirectional low profile tyres not only provide a sporty look but enhances and maximises road holding when it matters most.

Tiburon confidence

Hyundai builds each and every vehicle using state-of-the-art technology to meet the world's highest quality standards. This is evidenced by the fact that the company now offers Australia's First 5 Year Unlimited Kilometre Factory Warranty* on all new Hyundai passenger vehicles as a standard promise of excellence. It is only because of our belief in the research and development behind every vehicle's design, the exceptional quality of materials and workmanship used in manufacturing, pre-delivery testing and an outstanding dealer network that Hyundai can back its product without any qualms, offering you complete confidence and peace of mind.

*Note: The warranty extension to Unlimited Kilometres is only applicable to vehicles purchased from 01/03/07 used for private and domestic uses and is not applicable to vehicles used for certain high mileage commercial purposes, i.e. Courier, Security and Rental Cars.
