

## The new Audi A4

## The new Audi A4

With its innovative technologies and pioneering design, the new Audi A4 will completely redefine your driving experience.

Beginning with the exterior, its ultra-modern lights, sporting profile and sweeping lines give the car a distinctive silhouette. The longer wheelbase increases stability, while air flows more dynamically around the lower, wider body.

Under the bonnet, a choice of two petrol engines feature FSI® direct-injection – a unique Audi technology originally developed for the Le Mans 24-hour endurance race. And like their FSI petrol counterparts, two TDI diesel engines are designed for power and performance, with low fuel consumption and CO2 emissions.

For the driver, the optional Audi Drive Select system adapts the vehicle's character at the touch of a button, effortlessly transforming your A4 from a sports car to an executive saloon. It can even be individually tuned, ensuring a ride that's perfectly customised to your needs.

Optional climate controlled seats add greater comfort, while quattro permanent four-wheel-drive, Audi Side Assist and Audi Lane Assist are also available, ensuring a safer, more satisfying journey.

In short, the new Audi A4 incorporates the ideal combination of cutting-edge design and advanced technologies, delivering one of the most balanced, rewarding driving experiences ever.

● = Standard equipment    \* = Optional equipment, Recommended Retail Price shown    - = Not available    NCO = No cost option

^New vehicle prices shown include Luxury Car Tax (LCT) of 25% and are recommended retail prices (RRP) excluding dealer delivery which vary from dealer to dealer, stamp duty, compulsory third party insurance costs and registration charges which may vary from State to State. LCT applies to new vehicles, factory fitted optional extras and dealer delivery charges where the GST inclusive total price is above \$57,180. In the Federal Budget, the Government announced that LCT would increase from 25 to 33% from 1 July 2008. The Tax Commissioner has advised that the legislation to make that law will not be passed by then. However, if passed at a later date, the proposed law will apply retrospectively from 1 July 2008. Audi Australia Pty Ltd has determined that if the law is enacted, customers will not need to pay the retrospective additional 8% LCT on luxury vehicles delivered from 1 July 2008 to the enactment date. Customers will, however, be responsible for paying the additional 8% LCT from the enactment date of the legislation and an additional 8% will need to be added to the new vehicle prices.

\*Recommended retail prices of factory fitted optional extras including LCT. Optional extra specifications and prices are subject to change without notice. Please check with your Authorised Audi dealers.

# Fuel consumption figures according to Australian Design Rule (ADR) 81/01. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures which may differ from those calculated with these standards.

## Phone cradle must be purchased separately. Please check with your Audi dealer for phone cradle availability and approved Bluetooth telephones that have been tested by Audi for compatibility and functionality.

### Audi Music Interface connector cable must be purchased separately through Audi Genuine Accessories.

Specifications are as planned at July 2008 and are subject to change without notice or obligation. All information in this specification sheet is correct at the time of publication, however variations may occur from time to time and Audi Australia Pty Limited, in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this specification sheet. Authorised Audi dealers will provide up-to-date information on model specifications and prices.

Overseas models are shown. An A4 3.2 quattro sedan pictured with optional sports front seats, navigation system and metallic paint.
