

The Audi S3

The Audi S3.

– Evolution of power and performance.

Power, performance and exclusiveness are major factors when stimulating the emotions and arousing fascination. The Audi S3 has been created with a clear focus on these success factors – for people who are looking for a striking symbol of their personality and performance potential. Like all Audi S models, the Audi S3 combines progressive technology and a sporty driving experience with distinctive features that set an S model apart from the rest. The Audi S3 offers its driver pure driving pleasure in a car with high everyday suitability.

As the sportiest representative of the successful Audi A3 model line, the Audi S3 not only continues the success story begun by its direct predecessor, which was built from 1999 to 2003,

but does even more – it raises that car's image of sportiness to a new level that can be seen, felt and measured. The appeal of the Audi S3 lies in its outstanding performance, its supreme road dynamics and the sheer fun it is to drive.

There is a sound basis for these claims: a sporty overall concept made up of high power output from the engine, S sports suspension, design elements typical of the S model range and exclusive equipment and trim. The Audi S3 completes the range of Audi S model lines. As the fourth Audi S model, it is an important strategic element in a full range of sporty models and a further major step along the path that is taking the Audi brand to leadership in the premium car segment worldwide.

Model	S3 2.0 TFSI quattro
Manual quattro	\$65,900 [^]

Technical Data

• = Standard O = Optional extra (Recommended Retail Price shown) NCO = No Cost Option

^New vehicle prices shown include Luxury Car Tax (LCT) of 25% and are recommended retail prices (RRP) excluding dealer delivery which vary from dealer to dealer, stamp duty, compulsory third party insurance costs and registration charges which may vary from State to State. LCT applies to new vehicles, factory fitted optional extras and dealer delivery charges where the GST inclusive total price is above \$57,180. In the Federal Budget, the Government announced that LCT would increase from 25 to 33% from 1 July 2008. The Tax Commissioner has advised that the legislation to make that law will not be passed by then. However, if passed at a later date, the proposed law will apply retrospectively from 1 July 2008. Audi Australia Pty Ltd has determined that if the law is enacted, customers will not need to pay the retrospective additional 8% LCT on luxury vehicles delivered from 1 July 2008 to the enactment date. Customers will, however, be responsible for paying the additional 8% LCT from the enactment date of the legislation and an additional 8% will need to be added to the new vehicle prices.

*Recommended retail prices of factory fitted optional extras including LCT. Optional extra specifications and prices are subject to change without notice. Please check with your Authorised Audi dealers.

Phone cradle must be purchased separately. Please check with your Audi dealer for phone cradle availability and approved Bluetooth telephones that have been tested by Audi for compatibility and functionality.

Specifications are as planned at July 2008 and are subject to change without notice or obligation. All information in this specification sheet is correct at the time of publication, however variations may occur from time to time and Audi Australia Pty Limited, in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this specification sheet. Authorised Audi dealers will provide up-to-date information on model specifications and prices.

An overseas model is shown with optional metallic paint.
