The Audi TT Roadster

Pure energy

The Audi TT Roadster is now even more athletic in appearance by virtue of its taut lines, forward urge, wide stance and the dynamic Audi single-frame radiator grille. The soft top of the TT Roadster forms a clear design contrast, giving the overall impression of a more elongated, geometric look.

The TT Roadster is built using the principles of Audi Space Frame (ASF), a pioneering hybrid construction of aluminium and steel that offers a weight-saving advantage, balanced weight distribution and a high level of strength and rigidity.

The Audi TT Roadster is available with a choice of two high performance engines - the 3.2 V6 & the award-winning 2.0 TFSI. Both engines are combined with the S tronic 6-speed dual-clutch gearbox for a continuous flow of power, without interruption.

The 2.0-litre turbo TT Roadster is equipped with the awardwinning 2.0 TFSI engine which has been voted "engine of the year" for three consecutive years by a judging panel of 56 respected journalists from 26 countries globally⁺. The engine's class-leading performance was praised by the jury for its exceptional power and torque.

The 3.2 V6 184kW engine, combined with Audi's ASF and the innovative dual-clutch technology of S tronic, provides a truly exhilarating ride, and combined with Audi quattro permanent all-wheel drive, ensures maximum stability and precise road-holding grip.

Pure energy.

^New vehicle prices shown include Luxury Car Tax (LCT) of 25% and are recommended retail prices (RRP) excluding dealer delivery which vary from dealer to dealer, stamp duty, compulsory third party insurance costs and registration charges which may vary from State to State. LCT applies to new vehicles, factory fitted optional extras and dealer delivery charges where the GST inclusive total price is above \$57,180. In the Federal Budget, the Government announced that LCT would increase from 25 to 33% from 1 July 2008. The Tax Commissioner has advised that the legislation to make that law will not be passed by then. However, if passed at a later date, the proposed law will apply retrospectively from 1 July 2008. Audi Australia Pty Ltd has determined that if the law is enacted, customers will not need to pay the retrospective additional 8% LCT on luxury vehicles delivered from 1 July 2008 to the enactment date. Customers will, however, be responsible for paying the additional 8% LCT from the enactment date of the legislation and an additional 8% will need to be added to the new vehicle prices.

* Recommended retail prices of factory fitted optional extras including LCT. Optional extra specifications and prices are subject to change without notice, please check with your Audi dealer.

Excludes phone cradle which must be purchased separately. Please check with you Audi dealer for phone cradle availability and approved Bluetooth telephones that have been tested by Audi for compatibility and functionality.

Audi Australia Pty Limited, in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this specification sheet. Authorised Audi dealers will provide up-to-date information on model specifications and prices.

Vehicle pictured in this spec sheet is an overseas model Audi TT Roadster 3.2 V6 quattro with the additional optional extras Metallic paint and 18" 10-spoke polished, two-tone design alloy wheel.
