

Family Freedom **CARNIVAL**

## The long and the short of it

As Australia's best-loved and top-selling people mover for nearly a decade, Carnival offers the perfect combination of style, comfort and affordability to make your family motoring experience a genuine pleasure.

Carnival comes in two sizes. Choose from the short wheelbase 2.7 litre V6 Carnival or - if you need the benefit of increased luggage capacity - the long wheelbase Grand Carnival with the larger 3.8 litre V6 engine. Both come complete with a comprehensive array of practical features; smart, sophisticated lines; and a luxurious, versatile interior that seats up to eight in comfort.

## Embrace the new day

Who knows what the new day will bring? The beauty of the Carnival is that you're prepared for every eventuality, with flexibility and practicality inside and the style to impress on the outside.

# A modern classic

Carnival has head-turning looks, with an aerodynamic and well-proportioned style that leaves no doubt about its high performance and sophisticated interior.

Daring to be different, it's a vehicle that reaches into the future while at the same time managing to incorporate elements of solid, classic design. In short, with its skilful balance of the traditional, the Carnival is a modern classic. The look is one of breezy elegance and harmony, from the tip of its purposeful nose through its fresh style, multidimensional moulding and powerful wide body. Every detail from the contoured hood and split level radiator grille to the sleek side mirror housings is sculpted for aerodynamic efficiency. This translates into reduced wind turbulence, lower wind noise and improved fuel economy.

Large dual front headlights have a sharp and distinctive look, and combined with the rear optical groups incorporate advanced reflectors and lenses for maximum visibility and night time driving safety. Discreet fog lamps are set within the bumper. At the rear the Carnival looks purposeful and rugged, with a semi-spoiler above the high-level LED stop lamp and a neatly cut-away bumper with step plate to provide maximum loading efficiency. The overall effect is a contemporary, yet classic MPV.

## All the creature comforts

Not only can the driver's seat be adjusted seven ways, but folding front seat armrests, an adjustable steering column, power windows and mirrors, and remote central locking with alarm are just a few of the thoughtful features included in every Carnival. There's a 6-speaker CD sound system, triple-zone air-conditioning with individual outlets for each row of seats, multiple cup holders, cruise control and two power outlets. There is even a special compartment

for your sunglasses and storage spots for everything your family will need for any journey. Of course, the eye-catching exterior has been finished with the same attention to detail as the luxurious interior. There are stylish full-length roof rails; body-coloured door handles, bumpers, body mouldings and door mirrors; and integrated front fog lights.

Come and join the new world

Carnival delivers a unique invitation: come and join a world where a vehicle guarantees satisfaction from the moment you look around it to the day you take advantage of all its possibilities.

## Space travel

Whatever combination of passengers and cargo you need to accommodate, nothing else makes it as hassle-free as Carnival. Dual sliding doors open up to approximately 1.2 metres of front cabin height. The third row of seats can easily be folded for extra luggage space when only five are aboard, and the three middle row seats can be folded to create tables... or simply folded out of the way. And if you require it, Carnival's interior can be configured like a 2-seater van with no second or third row seating at all: ideal for those occasional large and bulky loads such as furniture or timber.

◀ **Various seating options**

Carnival sets a new standard for versatility and simplicity. The seating arrangements have no end of flexibility making it perfect for carrying passengers only, using your Carnival as a cargo-hauler or a combination of the two.

The images show the Carnival model, and how you can fold and double-fold the completely independent seats, using your Carnival as a cargo-hauler or a combination of the two. You can fold the second row seats to make side access more convenient, or fold the third row to create storage space in the rear. Second- and third-row seats are completely detachable for more van like versatility and optimal cargo transporting capability.

### Grand Carnival seating arrangements

With the flick of a strap, you can fold and stow away third-row seats, which fold neatly into the floor. Flat folding seats can create more room for transporting cargo and luggage.

### ▼ Convenient in-floor storage

### ▼ Third-row seating (Folding and sinking)

### Carnival seating arrangements

Whenever you need to carry bulky cargo, the seats can be folded in a simple one-two sequence or removed entirely in a three-step operation. A double folding on the second-row seats makes for easier entry and egress.

### ▼ Cargo area

### ▼ Third-row seating (Sliding and folding)

## Thoroughly modern powerplants

Given its popularity, it's no surprise that the Carnival is known as much for its performance as it is for its comfort and style. Its 2.7 litre V6 engine delivers an impressive 139kW @ 6000 rpm with either the 5-speed manual or 4-speed automatic Tiptronic-style transmission. Meanwhile, the Grand Carnival features a 5-speed automatic Tiptronic-style transmission mated to the 3.8 litre V6 engine producing 184kW @ 6000 rpm.

---

Carnival comes with advanced engine choices to suit your demands for performance and economy, with a new chassis, 4-wheel independent suspension and technological enhancements to maintain low noise and a smooth ride.

▲ **2.7-litre V6 engine (Carnival)**

An advanced aluminium block engine that features improved fuel efficiency and higher performance at low and mid speeds.

Max. Power: 189 ps (139 kW) @ 6,000 rpm

Max. Torque: 25.4 kg-m (249 Nm) @ 4,000 rpm

▲ **3.8-litre V6 engine (Grand Carnival)**

A high performance engine with improved torque at mid and low speeds, reduced noise and environmentally friendly design.

Max. Power: 250 ps (184 kW) @ 6,000 rpm

Max. Torque: 35 kg-m (343 Nm) @ 3,500 rpm

# Protecting every passenger

The many safety features in Carnival, from the wheels and chassis to interior airbags, combine to make it an extremely safe place to be, whether you're driver or passenger.

Carnival keeps all its passengers safe, with a unibody framework and a reinforced sub-frame designed by super computers for maximum strength. Anti-intrusion beams are fitted in each door and there are ladder-like steel floor bracings to maintain complete structural integrity. Indeed, so complete is Carnival's safety design that it earned a maximum 5-star safety rating in stringent crash tests conducted by the U.S. Government's demanding National Highway Traffic Safety Administration\*.

Aside from the sheer strength of its construction, Carnival is packed with standard safety features

including ABS anti-lock brakes with Electronic Brake force Distribution (EBD), front SRS airbags, front seatbelt pre-tensioners and lap/sash seatbelts for all window positions. For even more security, a package of additional safety features is standard on Grand Carnival Premium and optional on other models<sup>1</sup>: side front SRS airbags, full-length side curtain SRS airbags, Electronic Stability Program (ESP) and Traction Control (TCS).

A suite of six airbags is standard on Grand Carnival Premium and optional on other models

\* Left-hand drive Grand Carnival model tested.

<sup>1</sup> Option Pack not available on Carnival with manual transmission.

## It's the MPV perfected

Kia's aim to perfect the true Multi-Purpose Vehicle has been realised with the Carnival, which takes driver-friendly design to a new level and provides you with a premium quality vehicle that is both fun and safe.

#### ◀ Second-row power windows

For your convenience, second-row windows – which are traditionally sealed shut on an MPV – can be opened in seconds with a flick of the power up-down switch.

Overhead sliding door buttons

Sliding door buttons

#### ◀ Dual power sliding doors

The rear dual power sliding doors are operated with a touch of the remote key or switches in the overhead console, and include a manual override and obstacle detection for complete safety. (Grand Carnival Premium only).

#### ▲ Keyless entry system

The keyless entry system allows you to open or close the doors. (Grand Carnival Premium only).

#### ◀ Third-row swivelling windows

Passengers in the third-row enjoy better comfort in the Carnival. Swivelling windows turn outward for improved ventilation and natural cooling capability.

## Fresh inside

A vehicle that's built to carry passengers should make people its priority. That's why Carnival gives everyone the maximum in legroom and headroom as well as offering plenty of natural daylight, and fresh air through opening windows.

Have you been missing fresh air? It's a luxury that every driver and passenger should demand. While triple-zone air-conditioning is standard on all models, sometimes it's nice to let the outside air come inside. Power windows are not just a benefit for the driver in the Carnival. Now second-row passengers have power windows which can be opened in a simple one-touch operation. With a keyless entry system, your Carnival will always be ready at the touch of a button. The remote also operates the dual power rear sliding doors\*. They can also be operated using manual switches found inside the vehicle and in the

overhead console, or the doors simply pull open by the colour-coded door handles. The safety system features an automatic speed adjustable motor and anti-pinch strip that prevents the doors from closing when obstructed or opening while the car is in motion or when the window is open. Third row passengers can enjoy ventilation through the swivel windows which turn outwards.

\*Grand Carnival Premium only.

Designed for the good times

**Cluster:** The stylish in-dash gauge cluster is much more than a sophisticated piece of design. It is placed in a way that emphasizes simplicity and cleanliness, allowing the driver to quickly scan basic information such as revs and fuel or the digital trip counter.

**Triple-zone air-conditioning:** For the comfort of second-row passengers, there's a rear manual climate control for controlling temperature and fan settings. The air vents can be adjusted to achieve just the right ventilation independently to make every journey the pleasure it should be, in all three rows.

**Tilt headrests:** Safety and comfort combine with the tilt headrests. They can be adjusted up and down to suit the occupant, but will also adapt by tilting backwards and forwards to protect the head and neck under impact.

**Conversation mirror:** The conversation mirror is a clever and popular innovation that brings driver and passenger together. It allows the driver to see everything that's going on in the back without taking his or her eyes off the road, improving communication and safety.

**First-row seat side table:** Convenience isn't an afterthought in this clever MPV. In the first-row a seat side table has been cleverly created between the two front seats. It includes four cup holders, with two for the convenience of second-row passengers within easy reach.

**First-row seatback tables:** We all know the practical use of a seat-back table on an aircraft, and now Carnival passengers enjoy the same luxury. The table pulls down from its concealed position on the front seat, with a writing area and drinks holder that would keep any child clean and happy!

**Heated side view mirrors:** Condensation, ice and even snow can affect driving visibility, but Kia has the answer. The heated outside wing mirrors will clear the glass and ensure you're quickly back to 100% visibility.

**Rear storage box:** Passengers who travel with earphones, books, maps and other essentials can neatly stow their gear away in the rear storage box. Its containment lid also doubles up as a twin drinks holder – another application of Kia's intelligent use of space.

# Colour and Style combined

Grey two-tone

The cabin in which you spend your time says plenty about you and your ideals. Carnival offers two trim combinations, but in either case the quality of materials, from the seats to the trim, is high and each option has been created to provide a seamless and contemporary feel.

Leather standard on Grand Carnival Premium

## ▲ Grey two-tone //

Grey is a well-balanced colour, evocative of strength and sophistication. Carnival combines grey in two tones. The light and airy quality of pure grey seats in cloth or leather combines with an urban grey finish for a clean image that complements the modern interior.

# The Carnival is...

**CONCEPT** Carnival is a progressive contemporary multi-purpose people mover positioned high up in the dynamic MPV segment. With driver-friendly design both inside and out it combines sedan-like handling, the sporty tone of an SUV and the comfort, versatility and high functionality of an MPV. It has established leading performance, deluxe settings and amenities, more power and larger dimensions to meet and exceed the qualities of its competitors. Carnival is the modern essence of simplicity and sophistication in a family vehicle.

**DESIGN** The epitome of modern urban sophistication and elegance, Carnival has cab-forward styling and a sporty rear combined with the wide-body power of a longer and more spacious MPV. Big but certainly not bulky its large windows, lined door handles and multidimensional mouldings create a contemporary and stylish finish.

**COMFORT** Carnival's generous dimensions and unibody construction create ample passenger and luggage space with more head, shoulder and leg room. The eight-chair seating variation allows you to comfortably accommodate multiple passenger and cargo arrangements. Features such as power sliding doors, tri-zone climate control and ventilation at every seating level make for the ultimate road trip experience.

**SAFETY** Occupant safety is a priority in Carnival, with the peace of mind that comes from dual driver and passenger airbags, ABS with four-wheel disc brakes and seatbelt pretensioners. The enhanced body has a stronger, collision-detering frame and panels, and upgraded viewing capability to underline Kia's continued commitment to passenger safety.

**PERFORMANCE** Carnival gives you choice in powertrains with an aluminium block 3.8-Litre V6 Gasoline engine (Grand Carnival) or the 2.7-Litre V6 Gasoline engine (Carnival). Highly engineered manual or automatic transmissions provide better fuel economy and exact, light gear changes, and Kia's focus on reduced NVH and smoother ride translate into better handling even at full cargo or passenger capacity.

**REFINEMENT** Carnival has a generous list of standard features, with voluminous and clever storage areas, better interior and exterior lighting and ergonomic seating and controls. More powerful and quiet engines, better braking power, more advanced wheel mechanisms and improved suspension complete the package.
