COMFORT

NEW LEVELS OF COMFORT FOR THE WHOLE FAMILY.

Scenic offers an incredibly flexible interior design enabling everyone to find their ideal comfort level:

- Scenic 5 Seat for its compact size and stylish, functional design;
- Grand Scenic 7 Seat for its passenger carrying capacity and flexibility.

TECHNOLOGY

SCENIC OFFERS THE BEST IN COMFORT AND TECHNOLOGY.

The technology in Scenic is designed to enhance your driving experience and make every journey comfortable and relaxed.

Parking is a breeze, even in tight city spaces, and there's no need to remember the handbrake as the automatic parking brake is activated when the engine is switched off and released as soon as you touch the accelerator pedal. Inside Scenic, every passenger enjoys individually adjustable seats, automatic temperature controls, lights and their own storage space.

Whether you need to accommodate several passengers or a particularly bulky load, switching from 1 to 5 to 7 seats is simplicity itself.

With Scenic and Grand Scenic, you have the ultimate in flexibility, comfort and convenience.

FLUID LINES, DYNAMIC STYLING

When it comes to engines and transmissions the Scenic offers a range of solutions. The familiarity of petrol or the innovation of diesel? A sporty 6-speed manual transmission or optional silky smooth automatic transmission? The choice is yours.

2.0 16V PETROL ENGINE

With a torque of 191Nm at 3,750 rpm and a generous 98kW at 5500 rpm of power thanks to the variable intake control, the 2.0 litre 16 valve petrol engine offers high levels of performance and driving pleasure.

1.9 dCi – RENAULT DIESEL TECHNOLOGY

The turbo-charged 1.9 litre dCi engine, fitted with an automatic transmission, captures the Renault driving experience. Powerful, yet smooth, quiet and remarkably economical, while the low emissions also help to protect the environment. This engine produces up to 250Nm of torque, delivering exceptional flexibility and versatility.

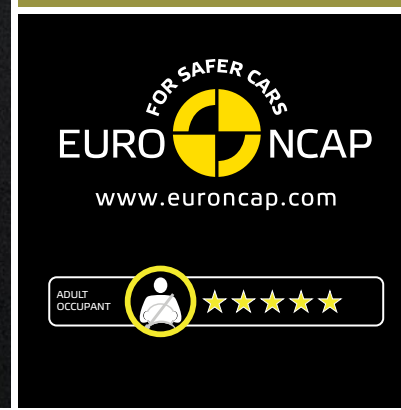

PREVENTION
 Features such as cruise control (with speed limiter), satellite audio controls, automatic headlights and rain sensors that automatically activate the windscreen wipers to allow the driver to concentrate on the road.

CORRECTION
 Scénic enhances driver control in hazardous situations with ABS, Electronic Brake Distribution (EBD) and Emergency Brake Assist (EBA). The ESP (Electronic Stability Programme) with understeer control corrects your trajectory in the event of a loss of traction.

PROTECTION
 Scénic protects each and every occupant thanks to the Renault SRP (System for Restraint and Protection) consisting of adaptive airbags, front seatbelts with dual pretensioners and rear seatbelts with pretensioner and load limiter.

The Scénic 5 Seat has been awarded a 5-star rating in the Euro NCAP crash tests,* one of 8 vehicles in the global Renault range. Grand Scénic has been designed to the same stringent criteria.

That's real peace of mind.

* Euro NCAP (European Car Assessment Programme) is an independent organisation.

ENTER THE SAFETY ZONE WITH SCÉNIC

Scénic offers a level of equipment and technological refinement that makes it one of the safest places to be on the road. The technology of Scénic aids the driver by warning of risks and assisting in adverse driving conditions. Scénic acts on 3 levels to provide an exceptional level of safety for the driver and passengers.

THE SCENIC EXPERIENCE

1. 'CHILD MINDER' MIRROR enables the driver to see passengers in the rear without having to adjust the rear view mirror (not available with sunroof options).

2. UNDER THE REAR SEATS OF THE SCENIC 5 SEAT ARE 3-LITRE DRAWERS that are big enough to hold laptops, toys or magazines.

3. UNDER THE FRONT SEATS ARE 6-LITRE DRAWERS, allowing you to store even more of your belongings securely.

4. THE SLIDING CENTRAL STORAGE has a 15 litre capacity, consisting of two compartments, two independent armrests, a drinks can holder and a 12V socket.

5. AIRPLANE-STYLE TABLES WITH CUP HOLDERS are fitted in the backs of both front seats.

6. THE 17-LITRE GLOVEBOX (cooled with air conditioning) offers a generous storage space that can even hold a large bottle of water.

7. CLIMATE CONTROL WITH ELECTRONIC ADJUSTMENT, temperature display and ventilation settings. Rapid demisting function and sunshine sensor. Linked to the climate control system, the passenger compartment filter reduces the penetration of particles and unpleasant odours, such as pollen or pollution.

8. PASSENGER READING LIGHT.

9. INTEGRATED SUNBLINDS for additional protection from the sun and increased privacy for passengers in the rear.

10. THE CLOSED COMPARTMENT TRAY in the front door holds up to 8 CDs.

11. ONE-TOUCH FRONT AND REAR WINDOWS with anti-pinch facility.

12. CRUISE CONTROL/SPEED LIMITER with easy-to-use steering wheel controls allow you to select a constant speed, or set a maximum speed.

STORAGE

1. THE SCENIC 5 SEAT BOOT WITH REMOVABLE LUGGAGE COVER offers a storage capacity of more than 400 litres.

2. THE GRAND SCENIC 7 SEAT has a boot capacity of over 600 litres when the third row seats are folded flat.

3. EASY ACCESS TO THE THIRD ROW OF SEATS: The outer seats in the second row are simple to move forwards and backwards.

4. OPTIONAL PANORAMIC GLASS ROOF with sunblind for a light and airy interior.

5. SEATS CAN BE FOLDED INTO THE BOOT in a matter of seconds. Grand Scenic 7 Seat is perfect for any journey, even with the whole family's luggage, while the two seats in the third row can fold into the floor to give you a completely flat storage space.

CONVENIENCE

1. LIGHT AND RAIN SENSORS located on the windscreen activate the headlamps automatically if light levels drop, or start the front windscreen wipers in the event of rain.

2. 'SEE ME HOME' HEADLAMPS remain illuminated for up to two minutes after you have left your vehicle to guide you in the dark.

3. SATELLITE AUDIO CONTROLS ON THE STEERING WHEEL enable you to select tracks and radio frequencies, adjust the volume, store settings and play CDs.

RENAULT, THE ONLY CAR MANUFACTURER TO HAVE 8 VEHICLES AWARDED 5 STARS IN THE EURO NCAP CRASH TESTS

Renault's passion for performance, style and safety is what drives us to create unique automotive concepts, ranging from practical and versatile people movers to high performance coupés and hot hatches. But there is one thing that they all share in common, and that is the race-bred technology that makes every Renault a pleasure to drive and own.

Our Formula 1 programme provides a perfect test bed for technological innovation and development, with many of the new materials and technologies developed to produce a winning race car finding their way into our road-going vehicles. Constant improvements in performance, handling and safety can be directly attributed to Renault's passion for racing and the transfer of skills between the Renault Technocentre and our Formula 1 team. Our goal is to create the ultimate Renault driving experience. Drive a Renault today and you'll understand what we're talking about.

ECOLOGICAL ECONOMICAL

Renault's environmental policy is based on an understanding of the ecological challenges that our planet faces. This policy has three commitments; to be one of the world's top three car makers for low level emissions of CO2. To offer a range of models powered by biofuels such as bioethanol and biodiesel and to develop a wide range of technologies.

Renault underlines its commitment to protecting the environment and so offers a range of vehicles that are both economical and ecologically sound.

- Ecologically sound through a commitment to reducing the environmental impact for the entire lifespan of the car. From the outset, each new project incorporates production processes, choice of materials, pollutant and CO2 emissions, fuel consumption and recycling.

- Economical in terms of fuel consumption. Renault emphasises that the solution to too many great ecological challenges lie in technological advancements that can be applied to the majority of vehicles whilst maintaining attractive pricing.

- Recycling Renault strives to manufacture vehicles that are environmentally safer than ever before. One of Renault's strengths is its capacity to integrate the environment into every stage of a vehicle project right from the design phase until the end of its life cycle. Eco-design of current Renault vehicles enables 95% of their weight to have a second life. It also means that an increasing number of components are made of recycled plastics and renewable materials.

FORMULA 1, A SCHOOL OF EXCELLENCE

Formula 1 is an extremely demanding sport. It teaches us that whatever counts, besides performance, is the ability to construct reliable cars which won't let you down, despite being subjected to extreme physical conditions.

We have applied this philosophy not only to our racing cars. Because our commitment to Formula 1 has only one aim: to teach us how we can offer you reliable, safe, high-performance cars, upon which you can always rely.

SERVICE AND MAINTENANCE.

HELPING YOU STAY PRODUCTIVE AND COMPETITIVE...

All new Renault vehicles are covered by a 3 Year/100,000 Kilometre New Vehicle Warranty and Renault 24-hour Assistance Program.

With over 100 years experience as a motor vehicle manufacturer and as Europe's largest automotive brand the Renault service and maintenance network offers peace of mind for all new Renault owners.

Each of the approved and authorised Renault Dealerships across Australia have completed rigorous training programs in parts, service and maintenance.

They can maintain your new Renault at peak efficiency – in workshops equipped with the very latest technology and specialist tools. All Renault Dealerships can also supply you with parts, accessories, the latest Renault promotional merchandise and friendly, helpful advice.
