

The Audi A6

The new Audi A6. The ultimate business model.

When it comes to business leadership, Audi presents the ultimate model for success – the prestigious new Audi A6. This dynamic luxury sedan features a range of progressive enhancements that reinforce its standing as the definitive choice for executive drivers.

Externally, the coupé inspired silhouette is elegantly complemented by sophisticated new design touches. The impressive interior features intuitive driver assist systems and lacks nothing in comfort or safety.

Underneath the striking V-line bonnet lie the latest innovations from Audi's pioneering engine technology. Amongst a choice of more powerful petrol engines, the new 3.0-litre TFSI engine

provides 213kW of supercharged power, previously associated with a V8 engine, without compromising on efficiency.

Alternatively the new line up of TDI® diesel engines encapsulates the term 'progressive performance' with the inclusion of two brand new engines. The new 2.0-litre TDI multitronic or 2.7-litre TDI multitronic diesel engines power a luxurious driving experience which is so fuel efficient it qualifies for Luxury Car Tax reductions.

With increased power, heightened sophistication and remarkable efficiency, the new Audi A6 represents the ultimate business model, and a true marquee of success.

*Prices quoted are Recommended Retail Prices (RRP) excluding dealer delivery charges which may vary from dealer to dealer and statutory charges which vary from state to state. Where the RRP is below the Luxury Car Tax (LCT) threshold that price excludes LCT. Where the RRP shown, plus the dealer delivery charge, is above the LCT threshold that price is inclusive of LCT at the rate of 33%. The LCT threshold is \$57,180 for all vehicles except those with a combined fuel consumption value of 7.0 litres per 100 km** or less which have an LCT threshold of \$75,000. LCT is payable on all luxury vehicles with a total purchase price, including the price of factory & dealer fitted optional extras & dealer delivery charges, above the LCT threshold.

* Individual recommended retail prices (RRP) of the factory fitted options quoted on this specification sheet separately include LCT. If the total price for the displayed vehicle (excluding statutory charges) is below the LCT threshold then LCT is not applicable & the price of factory fitted options will need to be recalculated excluding LCT. Please enquire at your dealership for further details. This is a manufacturer's specification sheet and new vehicles must be purchased from dealers. Specifications and pricing are as planned February 2009 and are subject to change without notice or obligation

** Fuel consumption figures according to Australian Design Rules (AD) 81/02. The driving style, road and traffic conditions, environmental influences and vehicles condition can in practice lead to consumption figures which may differ from those calculated with these standards

Phone cradle must be purchased separately. Please check with your Audi dealer for phone cradle availability and approved Bluetooth telephones that have been tested by Audi for compatibility and functionality. ## Audi Music Interface (AMI) connector cables must be purchased separately through Audi Genuine Accessories. Specifications are as planned at February 2009 and are subject to change without notice or obligation. All information in this specification sheet is correct at the time of publication, however variations may occur from time to time and Audi Australia Pty Ltd, in so far as it is permitted by law to do so, shall not be liable in anyway as a result of any reliance by any person on anything contained in this specification sheet. Authorised Audi dealers will provide up-to-date information on model specifications and prices.

Vehicle pictured in this specification sheet is an overseas A6 3.0 litres TFSI quattro with optional extras, metallic paint, preparation for mobile phone (bluetooth), front parking sensors plus 18" 10 spoke star design alloy wheels.
