

The new Audi S4

The new Audi S4

Enhanced Dynamics. Increased Efficiency.

The new Audi S4 inspires the sports driver in all of us with superb sports performance and dynamism. Embodying the very latest in progressive technology in sports driving, the S4 features the supercharged 3.0-litre V6 TFSI engine to give 245kW of exhilarating sports experience with remarkable emission-reducing fuel efficiency. The S4's dynamic power is matched with the responsiveness of a 7-speed S tronic dual-clutch transmission for instantaneous gearshifts, S specific sports suspension and the quattro® permanent all-wheel drive with optional sports rear differential for improved agility, comfort and safety.

Its pure S specific body design incorporates a single-frame grille flanked by Xenon headlights with adaptive light technology, all of which is strikingly accentuated by LED daytime running lights.

The S4's increased fuel efficiency is assisted by the aerodynamics of a sleek integrated boot spoiler with aluminium diffuser blades and is finished with four highly polished oval tailpipes.

Prepare yourself for the enhanced excellence of the new Audi S4.
