

## The Audi TT Roadster

## The Audi TT Roadster

### Pure energy

The Audi TT Roadster is now even more athletic in appearance by virtue of its taut lines, forward urge, wide stance and the dynamic Audi single-frame radiator grille. The soft top of the TT Roadster forms a clear design contrast, giving the overall impression of a more elongated, geometric look.

The TT Roadster is built using the principles of Audi Space Frame (ASF), a pioneering hybrid construction of aluminum and steel that offers a weight-saving advantage, balanced weight distribution and a high level of strength and rigidity.

The Audi TT Roadster is available with a choice of two high performance engines - the 3.2 V6 & the award-winning 2.0 TFSI. Both engines are combined with the S tronic 6-speed dual-clutch gearbox for a continuous flow of power, without interruption.

The 2.0-litre turbo TT Roadster is equipped with the award-winning 2.0 TFSI engine which has been voted "engine of the year" for four consecutive years by a judging panel of 56 respected journalists from 26 countries globally<sup>+</sup>. The engine's class-leading performance was praised by the jury for its exceptional power and torque.

The 3.2 V6 184kW engine, combined with Audi's ASF and the innovative dual-clutch technology of S tronic, provides a truly exhilarating ride, and combined with Audi quattro permanent all-wheel drive, ensures maximum stability and precise road-holding grip.

Pure energy.

<sup>+</sup> International engine of the year awards
