As eco-conscious as you are

So you value sustainable living? We do too. That's why we through to recycling, we aim to create innovative products, take pride in rising to meet the expectations and challenges of the 21st century while making tangible contributions to the preservation of the environment and sustainable development of society.

We set up an environmental research centre to spearhead our drive for the production of clean hybrid and fuel-cell vehicles to lead the way to eco-friendly cars for a greener tomorrow.

The concept of eco-friendly cars is adhered to throughout all cycles of a vehicle's life. Starting from design, all the way

Wherever possible, recycled and recyclable materials are being used in the production of every Kia. Even at the end of your car's life, one of our key environmental targets is the eco-friendly return and treatment of end-of-life vehicles.

Operating a rigid process, we guarantee environmental protection in the treatment of harmful waste substances. These are then recycled or recovered, ensuring the highest level of environmental protection.
