

ALL THE BEST THINGS IN ONE PLACE.

When lots of things you like come together, it makes for something special. It could be getting all your friends around one table. Or visiting a city that's bursting with life. Mazda2 also puts a lot that's great in one place. It's compact, but packs in everything you need to live large. It's light and streamlined to be more affordable to run yet solid enough to keep you grounded. The sporty design moves through the city with agile ease, and responsive steering handles weekend runs without a hitch. And it's little enough to squeeze into the tightest spots. At its core is a 1.5 litre engine that's light on fuel, and still gives you all the go you need. In fact, its fuel economy is up there with the best. For a car this size, it packs in a whole lotta Zoom-Zoom.

Mazda2 smoothes over the bumps, while its solid build and sporty feel give you a strong sense of control.

Get in gear.

Take your pick of a slick shifting 5-speed manual, or keep it simple with smooth 4-speed auto.

IT ALL LOOKS EFFORTLESS.

Great style always seems effortless, but a lot of work goes into looking good. That's why Mazda2 is crafted down to the tiniest detail, so you'll always make a big entrance. Classy co-ordination and stylish highlights give its well-toned body plenty of street presence. And it can match any personality or style with an extensive colour palette to choose from. But it's not about how it fits your outfit – it's about how it fits your life. You get enough space for the biggest weekend away, or the most serious shopping day.

Open for business, and for fun.

A push button-operated hatch opens to a roomy luggage area.

The wheel thing.

And to help you carry all this off: Neo has 15 inch steel wheels (top left), Maxx has 15 inch alloys (top right). Genki has gorgeous 16 inch alloys (above).

That's handy.

Frequently used controls are exactly where you need them. Tap into your tracks through steering wheel-mounted audio controls on Neo safety pack, Maxx <u>and Genki.</u>

IT ALL CLICKS INSIDE.

It's when you get to know the little things about Mazda2 that everything just clicks. Every detail feels like it's crafted just for you, from ingenious storage areas like a rack for stuff like maps and the latest glossies, to the front console putting everything you need close at hand. You know, the important stuff. It also has cup-holders so you can easily enjoy everything from coffee to water. Power windows and mirrors make things easier still. And a big soundtrack is just as important. That's why Mazda2 comes with a CD player and four punchy speakers. There's also an auxiliary jack so you can hook up your MP3 player and go. There's air-conditioning across the range with Genki adding climate control. Genki also gives you automatic headlamps, rain-sensing wipers, cruise control and a trip computer. Add a stylish instrument panel that makes everything feel roomier, and you begin to see the big places that Mazda2 can take you.

Take a seat.

Sleek seats come in two high quality trims: Neo (left), Maxx and Genki (right). Body-hugging comfort makes trips even more enjoyable.

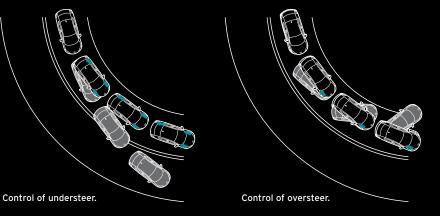

Drive easy.

Up to six SRS airbags and a rigid passenger shell keep you safe and sound.

STAY OUT OF TROUBLE.

With Mazda2, we've thought about safety so you don't have to. And the best way to be safe is to avoid trouble altogether. That's why every Mazda2 comes with ABS and Dynamic Stability Control (DSC), to help keep you headed to where you want to go, and stop you from going anywhere you don't. It's also nice to know you're looked after with front airbags across the range, side and curtain airbags standard on Maxx and Genki, and an optional safety pack for Neo. And you can feel secure too, with remote central locking and engine immobiliser keeping out unwelcome guests. They're just some of the little things that make Mazda2 such a big performer. Servicing through the Mazda Maintenance Program gives your Mazda2 the advantage of factory-trained Service Technicians, equipped with one of the world's most advanced computer diagnostic systems. As well as maintaining your Mazda in A1 condition, you'll be protecting your investment in a vehicle that already has outstanding resale value. Like all Mazda passenger vehicles, Mazda2 offers the reassurance of a 3-year, unlimited kilometre factory warranty. For more on Mazda passenger car warranties, go to mazda.com.au

Keep your feet. 🕨

DSC helps maintain grip by managing the braking force and engine torque delivered to individual wheels. So it helps you stay on track under any road conditions.
